§ 258.17 *Advertising displays on public lands without permits unauthorized.* The erection or maintenance on the public lands of advertising displays, without permission, is unauthorized by law. § 258.20 *Applications for permits.* Applications for permits must be executed in duplicate on Form 4-972b, a copy of which is attached hereto and made a part hereof.[1] Each application must contain a sufficient recital of the facts relative to the advertising display, including its size, and lighting effect, if any, to enable its substantial production from the description. A sketch or photograph showing the display, and a photograph showing the location on which it is to be placed, should be furnished. The application should identify the highway or other medium of travel along which it is proposed to erect the display and should give the distance and direction of the site, measured by highway travel, to the nearest cities or towns. If the land on which it is desired to place the display has been surveyed, its description should be given in terms of the public land surveys. The application must be filed in the proper district land office, or, if there is no such office in the State, it must be filed in the General Land Office. The original application must be sworn to before the Register of a district land office, or before a notary public or other officer having a seal and authority to administer oaths.

The initial and annual charges for advertising displays shall be as follows: Not less than 20 cents per annum for each square foot of sign surface, not less than $1 per annum for each display and not less than $5 per annum for one or more displays authorized by the same permit. The amount of the charge, subject to such minima, will be fixed by the Commissioner of the General Land Office. Due consideration will be given in fixing the amounts to all pertinent facts and circumstances, including the charges made for corresponding privileges on privately-owned lands similarly situated.

When conflicting applications are filed, due consideration will be given to the showing of each applicant and such action will be taken as is deemed to be warranted by the facts and circumstances.

The annual charges must be paid each year in advance to the Register of the land office for the district in which the lands involved are situated. If there is no district land office in the State, the payment must be made to the Commissioner of the General Land Office.

Where charges are paid in advance and a permit is canceled before the expiration of the period for which it was issued, a proportionate refund of the charges will be made.*

§ 258.22 *Permits.* Special-use permits to erect and maintain advertising displays on the public lands may be issued, by or under authority of the Commissioner of the General Land Office, and in his discretion, on Form 4-972c, for periods of not exceeding five years, in accordance with the regulations in this part. The permits will be revocable in the discretion of the Commissioner, at any time.*

§ 258.23 *Renewal of permit.* A permit issued in accordance with the regulations in this part may be renewed, in the discretion of the Commissioner of the General Land Office, upon the filing of an application for renewal not more than six months or less than 60 days prior to its expiration.*

§ 258.24 *Identification of authorized advertising displays.* Each advertising display erected or maintained under a permit issued pursuant to the regulations in this part, should, for convenient identification, have the serial number of such permit marked or painted thereon.*

§ 258.25 *Unauthorized advertising displays.* Persons who heretofore have erected advertising displays on the public lands must either obtain permits to continue such displays, if authorized by the regulations in this part, or must remove the displays, as promptly as possible.

Where an unauthorized advertising display on the public lands is found, the United States will take appropriate steps to secure its removal, unless the owner obtains a permit. The owner, if known, will be given notice in writing of the requirements. Displays heretofore erected must be removed within six months from and after the date of the approval of the regulations in this part, unless application for a permit is made within that period. Displays heretofore erected, for which applications for permits are made but for which permits are refused, and unauthorized displays hereafter erected must be removed within such reasonable time as may be fixed by the Commissioner of the General Land Office. If the owner fails to remove the display within the time allowed, it may be removed by the United States and the owner will be held liable to the United States for expenses incurred in removing it. If the owner is unknown, or cannot be found, the display may be removed by the United States, without notice. A registered letter addressed to the owner at his last known place of residence, if returned unclaimed, will be considered sufficient service of notice.*

§ 258.26 *Restrictions on advertising displays.* (a) No advertising display shall be permitted which, in the opinion of the Commissioner of the General Land Office, would mar the landscape, hide road intersections or crossings, or which, in his opinion is otherwise objectionable.

(b) No advertising display shall be affixed to, or painted on, any tree or rock, situated on the public lands, or on any other natural object on such lands.

(c) No advertising display shall be erected more than 30 miles, measured by highway travel, from the point where the service advertised is rendered, the merchandise is sold or the business advertised is located.

(f) Serial signs (any series of small signs intended to be read in sequence which individually do not give the complete advertisement) are prohibited.

(g) Signs shall not be permitted within 15 miles of entrances to national parks or national monuments, measured by highway travel, unless approved by the National Park Service.*

§ 258.27 *Special land-use permit regulations.* All the provisions of the special land-use permit regulations (43 CFR 258.1–258.16; Circ. No. 1483, approved November 19, 1940), not inconsistent with §§ 258.17 to 258.26, inclusive, are hereby extended to and made applicable to special land-use permits for advertising displays.*

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

[Docket No. A–1015 Part II]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF HUBER STREET COAL COMPANY, MINE INDEX NO. 1540, LEROY HUBLER (ALDER RUN MINING COMPANY), MINE INDEX NO. 878, AND F. J. TROUTMAN, MINE INDEX NO. 848 IN DISTRICT NO. 1

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A–1015, PART II FROM DOCKET NO. A–1015, GRANTING TEMPORARY RELIEF IN PART IN DOCKET NO. A–1015, PART II AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A–1015, PART II

The original petition in the above-entitled matters filed with this Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 1.

As indicated in an order issued in Docket No. A–1015, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner, except with respect to the establishment of permanent price classifications and minimum prices for the coals of Huber Street Coal Company, Mine Index No. 1540, Leroy Hubler (Alder Run Mining Co.), Mine Index No. 878, and F. J. Troutman, Mine Index No. 848, and for the mixing of the coals of Brown & Lawrence (Melvin L. Brown), Mine Index Nos. 863 and 864, Hastings Fuel Company, Mine Index Nos. 202 and 877, Producers Economy Coal, Inc., Mine Index Nos. 2428 and 880, for all shipments except truck. While it appears that temporary relief should be granted for the coals of Huber Street Coal Company, Mine Index No. 1540, Leroy Hubler (Alder Run Mining Co.), Mine Index No. 878, and F. J. Troutman, Mine Index No. 848, for all shipments except truck, as prayed for by the petitioner, the Director is of the opinion that the original petitioner has not set forth sufficient facts to warrant the establishment of permanent price classifications and minimum prices for such coals of the above-mentioned mines without a hearing.

It appears that temporary relief should not be granted, as prayed for by the petitioner, for the mixing of the coals of Brown & Lawrence (Melvin L. Brown), Mine Index Nos. 863 and 864, Hastings Fuel Company, Mine Index Nos. 202 and 877, Producers Economy Coal, Inc., Mine Index Nos. 2428 and 880, for all shipments except truck, without a hearing, for the reason that the original petitioner has not set forth sufficient facts to warrant the establishment of temporary classifications and minimum prices for such coals.

Now, therefore, it is ordered, That the portion of Docket No. A–1015 relating to the coals of Huber Street Coal Company, Mine Index No. 1540 Leroy Hubler (Alder Run Mining Co.), Mine Index No. 878, and F. J. Troutman, Mine Index No. 848, and to the mixing of the coals of Brown & Lawrence (Melvin L. Brown), Mine Index Nos. 863 and 864, Hastings Fuel Company, Mine Index Nos. 202 and 877, and Producers Economy Coal, Inc., Mine Index Nos. 2428 and 880, for all shipments except truck, be, and the same hereby is, severed from Docket No. A–1015 and designated as Docket No. A–1015, Part II.

It is further ordered, That a hearing in Docket No. A–1015, Part II under the applicable provisions of said Act and the rules of the Division be held on November 10, 1941 at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, 734 15th Street, NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Shipman or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before November 5, 1941.

The matter concerned herewith is in regard to the petition of District Board No. 1 for the establishment of price classifications and minimum prices for the coals of Huber Street Coal Company, Mine Index No. 1540, Leroy Hubler, (Alder Run Mining Co.) Mine Index No. 878, and F. J. Troutman, Mine Index No. 848, and for the mixing of the coals of Brown & Lawrence (Melvin L. Brown), Mine Index Nos. 863 and 864, Hastings Fuel Company, Mine Index Nos. 202 and 877, and Producers Economy Coal, Inc., Mine Index Nos. 2428 and 880, for all shipments except truck.

It is further ordered, That, pending final disposition of Docket No. A–1015, Part II, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck is supplemented to include the price classifications and minimum prices set forth in the schedule marked "Supplement R" annexed hereto and hereby made a part hereof.

Notice is hereby given that applications to stay, terminate or modify the temporary relief herein granted may be filed pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: October 7, 1941.

[SEAL] H. A. GRAY,
Director.

[Docket No. A–1005]

PETITION OF ACE OF SPADES COAL COMPANY ET AL., CODE MEMBERS IN SUBDISTRICT 5 OF DISTRICT 19, FOR THE RECOGNITION OF A CERTAIN TIPPLE LOCATED AT KIRBY, WYOMING, AS THE NORMAL LOADING FACILITY OF THE MILLER MINE (MINE INDEX NO. 152) AND OSBORN MINE (MINE INDEX NO. 159) AND FOR REVISION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS, FOR TRUCK SHIPMENT, PRODUCED AT CERTAIN OTHER MINES IN THAT SUBDISTRICT

ORDER DENYING TEMPORARY RELIEF

Original petitions, pursuant to the Bituminous Coal Act of 1937, were filed with the Division in the above-entitled matters—in Docket No. A–1004, by the Sheridan-Wyoming Coal Company, Inc. and, in Docket No. A–1005, by the Ace of Spades Coal Company, Kristina Bloom, Cecil Boulware, Manderson Coal Company, Big Seven Coal Company, Patrick Burns, Jesse A. Oldham, Silver Tip Mining Company, Sheridan-Wyoming Coal Company, Inc., and Wyoming Wonder Coal Company, all the petitioners being code members operating mines in Subdistrict 5 in District No. 19. The Sheridan-Wyoming Coal Company, Inc., is hereinafter referred to as the Sheridan Company.

Both petitions contain requests for relief, both temporary and permanent, as follows: (1) That the effective minimum prices f. o. b. the transportation facilities at the respective mines for the coals, for truck shipment, produced at the Miller Mine (Mine Index No. 152) and Osborn Mine (Mine Index No. 159) of the Sheridan Company, be made applicable to those coals, for truck shipment, from the loading facilities of the Kirby tipple of that company, located at Kirby, Wyoming; (2) that the effective minimum prices for the coals, for truck shipment, produced at the Gebo Coal Mine (Mine Index No. 129), the Coal Draw Mine (Mine Index No. 180) and the Eagle Mine (Mine Index No. 124) be reduced five cents per net ton and that such prices for the coals produced at the mines of all other code members, except the Miller and Osborn Mines of the Sheridan Company, in Subdistrict 5 be reduced 15 cents per net ton. In addition, the petition in Docket No. A–1005 asks that District Board 19 be requested to file, under section 4 II (d) of the Act, a petition praying that the minimum prices for the coals, for truck shipment, produced in Subdistrict No. 2 of District No. 22 be raised to the same level, for comparable sizes, as is requested in both of the original petitions for all mines in Subdistrict 5 in District No. 19 other than Mine Index Nos. 124, 129, 152, 159 and 180.

District Board No. 19 has filed an intervening petition in the matter objecting to the granting of the temporary relief requested in the original petitions. It stresses the importance of the subject matter, expresses its desire to present evidence and examine witnesses at a formal hearing thereon and urges that such hearing be held at an early date. The two dockets have been consolidated and set for hearing on November 17, 1941, at Thermopolis, Wyoming.

Prior to the filing of the intervening petition of District Board No. 19 and, pursuant to notice given to all interested persons, an informal conference on the question of granting the temporary relief requested by the petitioners was held by the Division at Cheyenne, Wyoming on August 15 and 16, 1941.

The conference was attended by Messrs. D. H. Pape, J. T. Hill, and R. E. McNally, President, Sales Manager and Attorney, respectively, of the Sheridan Company, appearing for that company in support of the prayer for temporary relief. Mr. Hill also appeared for the petitioners other than the Sheridan Company in Docket No. A–1005 in support of their prayer for temporary relief. Also in attendance, but opposing the granting of the temporary relief requested, were John Carey, operating the Carey Mine (Mine Index No. 117), Dave King of the Gebo Coal Mine, operating the Gebo No. 1 Mine (Mine Index No. 129), Joe K. Malicky of the Valley Coal Mine, operating the Valley Mine (Mine Index No. 182), Wm. Mauch of the Silver Tip Mining Co., operating the Silver Tip Mine (Mine Index No. 147, Ciril Obiak of the Eagle Mine Co., operating the Eagle Mine (Mine Index No. 124), Leo Roncco, operating the Roncco Mine (Mine Index No. 167) and Jack Todorovich on behalf of the Coal Draw Mine (Mine Index No. 180), all said mines being located in Subdistrict 5 of District No. 19.

There also attended the conference, for the stated purpose of appearing only as observers, L. W. Mitchell and Bard Farrell, Secretary-Treasurer and Attorney respectively, for District Board No. 19 and T. H. Bunnell, a member of that district board and the operator of the Gebo No. 2 Mine (Mine Index No. 114) and the Gebo No. 4 Mine (Mine Index No. 192) in Subdistrict 5. During the conference and, upon the request of its chairman, Mr. Mitchell stated his personal opinion on the question of granting the temporary relief requested, that opinion being that the relief should not be granted in advance of a formal hearing in the matter and of an opportunity given to District Board No. 19 to investigate thoroughly the pertinent factors and to be in a position to submit evidence bearing thereon.

In the conference Mr. Mauch of the Silver Tip Mining Company, who was one of the joint petitioners in Docket No. A–1005, stated that he had signed the petition under a misapprehension of certain pertinent facts and that he was actually opposed to, rather than in favor of, the granting of either the temporary or permanent relief requested. The authority of Mr. Hill, who alone appeared on behalf of the joint petitioners, other than the Sheridan Company, in Docket No. A–1005, to represent all of those joint petitioners at the informal conference, was questioned by certain code members in attendance and opposing the granting of the temporary relief. Thereafter, Mr. Hill, upon behalf of and as to all of the joint petitioners except the Sheridan Company in Docket No. A–1005, waived the request for the granting of the temporary relief. Also, during the conference, the Sheridan Company waived the request for temporary relief in connection with the proposed raising of the minimum prices for the coals, for truck shipment, produced at the mines in Subdistrict 2 of District No. 22.

It appears that the presently effective minimum prices for the coals, for both rail and truck shipments, produced at Mine Index Nos. 152 and 159 were established in the Division's General Docket No. 15. During the hearing of evidence in that docket the tipples at which the coals of those mines were prepared for shipment were located within 500 feet from the mouths of the mines. They were adjacent to a county road at points some six or seven miles distant from U. S. Highway No. 20. Aside from the rail shipment during 1939 of some 35 or 40 carloads, a very small proportion of the total output of Mine Index No. 159, the coals of those two mines appear to have been shipped exclusively by truck during and prior to the proceedings in General Docket No. 15. Those rail shipments were loaded at a ramp on the C. B. & Q. railroad some 6½ miles distant from the tipple and mouth of the mine.

The hearing of evidence on the basis of which minimum prices were established in General Docket No. 15 was closed on January 20, 1940. It was some four or five months thereafter when the Sheridan Company began negotiations for the purchase of Mine Index Nos. 152 and 159, the erection of a tipple adjacent to U. S. Highway No. 20 and to the right of way of the C. B. & Q. railroad in Kirby, Wyoming, and removed the then existing tipples of the two mines. Although that company represented that it informed the Division of those proposed operations, it made no request for the reopening of the proceedings in General Docket No. 15 in order to introduce evidence pertinent thereto, nor did it file any petition under section 4 II (d) of the Act in that regard prior to the filing of the original petitions in the instant dockets. However, the Sheridan Company was advised on two occasions by the Division, by letters dated September 30, 1940 and May 19, 1941, respectively, that if it was dissatisfied with the minimum prices established for the coals of Mine Index Nos. 152 and 159, it should either file directly or request its district board to file with the Division a petition under section 4 II (d) of the Act requesting relief as to those prices.

In the proceedings in General Docket No. 15 identical minimum prices, f. o. b. the loading facilities at the respective mines, were established for all coals, in the respective size groups for like methods of shipment, produced within Subdistrict 5 of District 19. This was based upon evidence adduced as to their market history. No price differentials were created to reflect the respective distances between the several mines and the points of consumption to which their coals moved. Satisfactory evidence was not available for the identification of those points of consumption or for the determination of the respective tonnages consumed thereat and moved by truck from the different mines in that subdistrict. Actually, the minimum prices established for those coals were largely based upon the testimony of D. H. Pape, the President of the Sheridan Company, introduced in those proceedings.

On behalf of the Sheridan Company it was represented that its Messrs. Pape and Hill, subsequent to the proceedings of General Docket 15, had made a careful study as to the advisability of a correlation of the truck mine prices for Subdistrict 5 upon a basis which would reflect the weighted average distance of each mine from the several destinations into which its coals moved and were consumed. Mr. Pape stated that the subdistrict contains some 25 producing mines and designated some 10 towns within a radius of 150 miles from the Kirby tipple as representative destinations of those coals. The weighted average mileages of some eight producers, including Mine Index Nos. 152 and 159, from those towns was stated. No information was presented, however, as to such mileages from other towns or from the consumers in the rural areas served by those producers. Nor was any such information presented as to the locations of the other seventeen producers in the subdistrict. No consideration was given to the wide variance in the populations of those towns. Furthermore, there was no showing that the actual movements of the truck coals with identification of the areas in which they were consumed is any more ascertainable today than it was during the proceedings in General Docket No. 15. Finally, it is noted that the correlation of minimum prices proposed by the Sheridan Company for the truck shipment of coals produced in Subdistrict 5 is predicated upon the sole factor of the varying distances between the mines and the consumers. No consideration is given to other important marketing factors, such as the nature of the roads to be travelled, the chemical and physical characteristics of the coals, their consumer acceptance or the availability of other competitive fuels.

At the conference, and in exhibits thereafter filed for its record, there were submitted for Mine Index Nos. 152 and 159 of the Sheridan Company data disclosing their truck shipments, by months, during the period, substantially, from October 1939 to July 1941. Similar data was filed as to the tonnages of Mine Index Nos. 117, 129, 167 and 182. The objector, William Mauch of Mine Index No. 147 filed such data only for the months from October 1940 to July 1941, inclusive, explaining that he had acquired the mine shortly prior to October 1940, and that for the preceding months no such data was available to him. No such data whatever was filed for any of the mines operated by the joint petitioners, other than the Sheridan Company, in Docket No. A–1005. It appears that although the truck shipments of Mine Index Nos. 152 and 159 dropped from 7,327 tons in 1939 to 4,936 tons in 1940, a decrease of approximately 32.6 per cent, the total rail and truck tonnages of those two mines rose from 8,164 tons in 1939 to 17,874 tons in 1940, an increase of approximately 119%. The Sheridan Company supplied data at the conference reflecting substantial changes in the truck tonnages of eight of the mines in the subdistrict, including Mine Index Nos. 152 and 159, shipped during the years 1939 and 1940 as reason for the granting of the temporary relief requested. The varying trends of those truck tonnages fail to any substantial extent, however, to support and are not reconcilable with the different price reductions requested for those mines or for the other mines in the subdistrict, as to the production of which no figures were submitted.

The Sheridan Company represented that on or about May 21, 1941 it received advice from the Director that for all coals, for truck shipment, produced at Mine Index Nos. 152 and 159, but sold at the Kirby tipple, it must add to the effective minimum prices therefor set forth in the Schedule of Effective Minimum Prices for District No. 19, the cost of transporting those coals from the mouths of the respective mines to the Kirby tipple; that such transportation costs amount to approximately 28 cents per net ton for the coals produced at both mines; that after May 21, 1941 it had discontinued, except for the sale under unusual market conditions of some 160 tons of nut and pea coals at prices more than sufficient to include those transportation costs, the sale of coals, for truck shipment, from those mines, but that the demand for such shipments in the interim had been negligible. It insisted, however, that a substantial demand for such shipments would develop in the immediate future and that its failure to secure immediate relief as requested would result in a substantial loss in the operations of the two mines. It was unable to furnish at the conference data disclosing the rail tonnages

shipped by its two mines during any of the months of 1941, although it represented that shortly before it discontinued its truck shipments in May of this year, the latter shipments comprised approximately 17 percent of the total tonnages shipped by the two mines.

The granting of the relief requested would operate to reduce the effective minimum prices for the coals, for truck shipment, produced at Mine Index Nos. 152 and 159 of the Sheridan Company, in an amount equal to the cost of transporting those coals from the mouths of the two mines to the Kirby tipple, or approximately 28 cents per net ton. It would reduce the effective minimum prices for the coals, for truck shipment, produced at the other mines in Subdistrict 5 to the extent of 5 cents per net ton for three of those mines and to the extent of 15 cents per net ton for the remainder. No showing was made to the effect that any of those mines other than the two mines of the Sheridan Company are presently entitled to or desire the reductions requested for their coals. It is apparent, however, that the granting of the requested relief only as to the coals produced by Mine Index Nos. 152 and 159 would be highly prejudicial to the other mines in the subdistrict and would impair to a substantial degree their fair existing competitive opportunities with Mine Index Nos. 152 and 159.

From the foregoing it appears that the Sheridan Company, the only one of the original petitioners now requesting immediate and temporary relief, has not made an adequate showing of actual or impending injury in the event that the temporary relief requested is not granted; also that the granting of such relief might unduly prejudice other interested persons in advance of a hearing; and also that no sufficiently clear showing has been made that that company is entitled to the relief prayed.

Now, therefore, it is ordered, That the request for temporary relief in advance of a hearing made by Sheridan-Wyoming Coal Company, Inc., in the original petitions filed by it and other joint petitioners in the instant dockets be, and it hereby is, denied.

Dated: October 17, 1941.

ORDER FOR HEARING AND DESIGNATING OFFICER TO TAKE TESTIMONY

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of October, A. D. 1941.

I

It appearing to the Commission:

That Montana Consolidated Mines Corporation, a corporation organized under the laws of the State of Montana, is the issuer of Common Capital Stock, 10¢ Par Value, Non-Assessable; and

That said Montana Consolidated Mines Corporation registered such security on the Standard Stock Exchange of Spokane, a national securities exchange, by filing on or about June 1, 1935, an application on Form 10 with the Exchange and with the Commission pursuant to section 12 (b) and (c) of the Securities Exchange Act of 1934, as amended, and pursuant to Rule X-12B-1, as amended, promulgated by the Commission thereunder, which registration became effective October 1, 1935, and has remained in effect to and including the date hereof; and

It further appearing to the Commission:

That Rule X-13A-1, promulgated pursuant to section 13 of said Securities Exchange Act of 1934, as amended, did and does require that an annual report for each issuer of a security registered on a national securities exchange shall be filed on the appropriate form prescribed therefor; and

That Rule X-13A-2, promulgated pursuant to section 13 of the Securities Exchange Act of 1934, as amended, did and does prescribe Form 10-K as the annual report form to be used for the annual reports of all corporations except those for which another form is specified, and that no other form was or is specified for use by the said Montana Consolidated Mines Corporation; and

That said Rule X-13A-1 requires that said annual report be filed not more than 120 days after the close of each fiscal year or such other period as may be prescribed in the instruction book applicable to the particular form; that the Instruction Book for Form 10-K does not prescribe any period other than such 120 days; and that pursuant to said Rule X-13A-1 the annual report must be filed within such period unless the registrant files with the Commission a request for an extension of time to a specified date within six months after the close of the fiscal year; and

II

The Commission having reasonable cause to believe that:

The said Montana Consolidated Mines Corporation has failed to comply with the provisions of section 13 of the Securities Exchange Act of 1934, as amended, and Rules X-13A-1 and X-13A-2 promulgated thereunder, in that (1) it has failed to file its annual report for the year ended December 31, 1940 within the time prescribed for filing said report, and (2) it has failed to file such annual report at any later date; and

III

It being the opinion of the Commission that the hearing herein ordered to be held is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Securities Exchange Act of 1934, as amended;

It is ordered, Pursuant to section 19 (a) (2) of said Act, that a public hearing be held to determine whether Montana Consolidated Mines Corporation has failed to comply with section 13 of the Securities Exchange Act of 1934, as amended, and the Rules, Regulations and Forms promulgated by the Commission thereunder, in the respects set forth above; and if so, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months or to withdraw the registration of the Common Capital Stock, 10¢ Par Value, Non-Assessable, of said Montana Consolidated Mines Corporation on said Standard Stock Exchange of Spokane;

It is further ordered, Pursuant to the provisions of section 21 (b) of the Securities Exchange Act of 1934, as amended, that for the purpose of such hearing, John G. * * * * * *

(d) *Effective date.* This section shall be effective only with respect to the year ending June 30, 1941, and succeeding years.

SEC. 1201. EXEMPTIONS.

(a) The taxes imposed by section 1200 shall not apply—

(1) *Corporations exempt from income tax.* To any corporation enumerated in section 101;

(2) *Insurance companies.* To any insurance company subject to the tax imposed by section 201, 204, or 207.

(b) *Common trust funds.* For exemption of common trust funds from the capital stock tax, see section 169 (b) of Chapter 1.

SEC. 1202. ADJUSTED DECLARED VALUE. [As amended by section 301 of the Revenue Act of 1939 and section 202 of the Revenue Act of 1941.]

(a) *Declaration year.* (1) The adjusted declared value shall be determined with respect to three-year periods beginning with the year ending June 30, 1938, and each third year thereafter. The first year of each such three-year period, or, in case of a corporation not subject to the tax imposed for such year, the first year of such three-year period for which the corporation is subject to such tax, shall constitute a "declaration year."

(2) For the declaration year of the first three-year period the adjusted declared value shall be the value as declared by the corporation in its return under section 601 of the Revenue Act of 1938, 52 Stat. 565, for the year ended June 30, 1938, or in the case of a corporation not subject to the tax imposed for such year, the value as declared in its return filed under this chapter for the first year with respect to which it is subject to the tax. For each subsequent three-year period, the adjusted declared value for a declaration year shall be the value as declared by the corporation in its return for such declaration year. The value declared by a corporation in its return for a declaration year (which declaration of value cannot be amended) shall be as of the close of its last income-tax taxable year ending with or prior to the close of such declaration year (or as of the date of organization in the case of a corporation having no income-tax taxable year ending with or prior to the close of such declaration year).

(b) *Subsequent years.* (1) Domestic corporations.—for each year of any three-year period subsequent to the declaration year, the adjusted declared value in the case of a domestic corporation shall be the value declared in the return for the declaration year plus—

(A) The cash, and the fair market value of property, paid in for stock or shares,

(B) Paid-in surplus and contributions to capital,

(C) Its net income, computed without the deduction of the tax imposed by Subchapter E of Chapter 2,

(D) Its income wholly exempt from Federal income tax, and

(E) The amount, if any, by which the deduction for depletion exceeds the amount which would be allowable if computed without regard to discovery value or to percentage depletion, under section 114 (b) (2), (3), or (4) of Chapter 1 or a corresponding section of a later Revenue Act;

and minus—

(i) The cash, and the fair market value of property, distributed to shareholders,

(ii) The amount disallowed as a deduction by section 24 (a) (5) of chapter 1 or a corresponding provision of a later Revenue Act, and

(iii) The excess of the deductions allowable for income tax purposes (not including the deduction for the tax imposed by Subchapter E of Chapter 2) over its gross income.

The adjustments provided in this paragraph shall be made for each income-tax taxable year included in the three-year period from the date as of which the value was declared in the return for the declaration year to the close of the last income-tax taxable year ending with or prior to the close of the year for which the tax is imposed by this section. The amount of such adjustment for each such year shall be computed (on the basis of a separate return) according to the income tax law applicable to such year.

(2) *Foreign corporations.* For each year of any three-year period subsequent to the declaration year, the adjusted declared value in the case of a foreign corporation shall be the value declared in the return for the declaration year adjusted (for the same income-tax taxable years as in the case of a domestic corporation), in accordance with regulations prescribed by the Commissioner with the approval of the Secretary, to reflect increases or decreases in the capital employed in the transaction of its business in the United States.

(c) *Corporations in bankruptcy or receivership.* The capital-stock tax year beginning with or within an income-tax taxable year within which bankruptcy or receivership, due to insolvency, of a domestic corporation, is terminated shall constitute a declaration year. In such case the adjusted declared value of any subsequent year of the three-year period shall be determined on the basis of the value declared in the return for such declaration year.

(d) *Credit for China Trade Act corporations.* For the purpose of the tax imposed by section 1200 there shall be allowed in the case of a corporation organized under the China Trade Act, 1922, 42 Stat. 849, (U.S.C., Title 15, c. 4), as a credit against the adjusted declared value of its capital stock, an amount equal to the proportion of such adjusted declared value which the par value of the shares of stock of the corporation, owned on the last day of the taxable year by (1) persons resident in China, the United States, or possessions of the United States, and (2) individual citizens of the United States or China wherever resident, bears to the par value of the whole number of shares of stock of the corporation outstanding on such date. For the purposes of this subsection shares of stock of a corporation shall be considered to be owned by the person in whom the equitable right to the income from such shares is in good faith vested; and as used in this subsection the term "China" shall have the same meaning as when used in the China Trade Act, 1922.

(e) *Additional declaration years.*—In the case of any domestic corporation, the year ending June 30, 1939, and the year ending June 30, 1940, shall each, if not otherwise a declaration year, constitute an additional declaration year if with respect to such year (1) the taxpayer so elects (which election cannot be changed) in its return filed before the expiration of the statutory filing period or any authorized extension thereof, and (2) the value declared by the taxpayer is in excess of the adjusted declared value computed under paragraph (1) of subsection (b). If, under this subsection, the year ending June 30, 1939, is a declaration year, the computation, under paragraph (1) of subsection (b), of the adjusted declared value for the year ending June 30, 1940, shall be made on the basis of the value declared for the year ending June 30, 1939.

(b) Subchapter B of Chapter 2 of the Internal Revenue Code, as amended and applicable to income-tax taxable years ending after June 30, 1941, provides as follows:

SEC. 600. RATE OF TAX. [As amended by section 204 of the Revenue Act of 1940, section 506 of the Second Revenue Act of 1940, and Section 302 of the Revenue Act of 1941.]

If any corporation is taxable under section 1200 with respect to any year ending June 30, there shall be imposed upon its net income for the income-tax taxable year ending after the close of such year, a declared value excess-profits tax equal to the sum of the following:

6⅔ per centum of such portion of its net income for such income-tax taxable year as is in excess of 10 per centum and not in excess of 15 per centum of the adjusted declared value;

13⅓ per centum of such portion of its net income for such income-tax taxable year as is in excess of 15 per centum of the adjusted declared value.

SEC. 601. ADJUSTED DECLARED VALUE.

The adjusted declared value shall be determined as provided in section 1202 as of the close of the preceding income-tax taxable year (or as of the date of organization if it had no preceding income-tax taxable year). If the income-tax taxable year in respect of which the tax under section 600 is imposed is a period of less than 12 months, such adjusted declared value shall be reduced to an amount which bears the same ratio thereto as the number of months in the period bears to 12 months.

SEC. 602. NET INCOME. [As amended by section 202 of the Revenue Act of 1941.]

For the purposes of this subchapter the net income shall be the same as the net income for income-tax purposes for the year in respect of which the tax under section 600 is imposed, computed without the deduction of the tax imposed by section 600 or the tax imposed by Subchapter E of Chapter 2,

but with a credit against net income equal to the credit for dividends received provided in section 26 (b) of chapter 1.

SEC. 603. OTHER LAWS APPLICABLE.

All provisions of law (including penalties) applicable in respect of the taxes imposed by chapter 1, shall, insofar as not inconsistent with this subchapter, be applicable in respect of the tax imposed by section 600, except that the provisions of section 131 of that chapter shall not be applicable.

SEC. 604. PUBLICITY OF RETURNS.

For provisions with respect to publicity of returns under this subchapter, see subsection (a) (2) of section 55.

(c) Section 53 of Chapter 1 of the Internal Revenue Code provides in part:

SEC. 53. TIME AND PLACE FOR FILING RETURNS.

(a) *Time for filing*—(1) *General rule.* Returns made on the basis of the calendar year shall be made on or before the 15th day of March following the close of the calendar year. Returns made on the basis of a fiscal year shall be made on or before the 15th day of the third month following the close of the fiscal year.

(2) *Extension of time.* The Commissioner may grant a reasonable extension of time for filing returns, under such rules and regulations as he shall prescribe with the approval of the Secretary. Except in the case of taxpayers who are abroad, no such extension shall be for more than six months.

(b) *To whom return made.*

* * * * *

(2) *Corporations.* Returns of corporations shall be made to the collector of the district in which is located the principal place of business or principal office or agency of the corporation, or, if it has no principal place of business or principal office or agency in the United States, then to the collector at Baltimore, Maryland.

(d) Section 145 of Chapter 1 of the Internal Revenue Code provides in part:

SEC. 145. PENALTIES.

(a) *Failure to file returns, submit information, or pay tax.* Any person required under this chapter to pay any tax, or required by law or regulations made under authority thereof to make a return, keep any records, or supply any information, for the purposes of the computation, assessment, or collection of any tax imposed by this chapter, who willfully fails to pay such tax, make such return, keep such records, or supply such information, at the time or times required by law or regulations, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than one year, or both, together with the costs of prosecution.

(b) *Failure to collect and pay over tax, or attempt to defeat or evade tax.* Any person required under this chapter to collect, account for, and pay over any tax imposed by this chapter, who willfully fails to collect or truthfully account for and pay over such tax, and any person who willfully attempts in any manner to evade or defeat any tax imposed by this chapter or the payment thereof, shall, in addition to other penalties provided by law, be guilty of a felony and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

(c) *Person defined.* The term "person" as used in this section includes an officer or employee of a corporation or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

(e) Section 62 of Chapter 1 of the Internal Revenue Code provides:

SEC. 62. RULES AND REGULATIONS.

The Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this chapter.

(f) Pursuant to the above-quoted provisions of the Internal Revenue Code and other provisions of the Code, the following regulations are hereby prescribed with respect to the declared value excess-profits tax imposed by the Internal Revenue Code for income-tax taxable years ending after June 30, 1941:

§ 21.1 *Definitions.* As used in these regulations, the term—

(a) "Adjusted declared value" means in the case of a domestic corporation the adjusted declared value of its capital stock as determined under section 1202 of the Internal Revenue Code, as amended, and the regulations issued respecting the capital stock tax imposed by section 1200 of such Code, as amended, and in the case of a foreign corporation the adjusted declared value of capital employed in the transaction of its business in the United States as determined under such section 1202, as amended, and the regulations issued in reference thereto.

(b) "Tax," except as otherwise indicated, means the declared value excess-profits tax imposed by section 600 of the Internal Revenue Code, as amended.

(c) "Income-tax taxable year" means the calendar year, the fiscal year ending during such calendar year, or the fractional part of a year, upon the basis of which the corporation's net income is computed and for which its income tax returns are made for Federal income tax purposes.

(d) "Net income" means "net income" within the contemplation of section 21 of the Internal Revenue Code. Neither the amount of income tax imposed by the Internal Revenue Code or by prior laws, nor the amount of the tax imposed by Subchapters B or E of Chapter 2 of the Internal Revenue Code, shall be deducted from net income in computing the declared value excess-profits tax and none of the credits allowed corporations against net income for income tax purposes are applicable in respect of the declared value excess-profits tax except the credit against net income equal to the credit for dividends received provided in section 26 (b) of the Internal Revenue Code.*

*§§ 21.0 to 21.9, inclusive, issued under the authority contained in sections 62 and 603 of the Internal Revenue Code (53 Stat. 32, 111; 26 U.S.C., Sup. V, 62, 603) and the statutory provisions which such sections of the regulations follow.

§ 21.2 *Scope of tax.* The declared value excess-profits tax, imposed by section 600 of the Internal Revenue Code, as amended, is imposed upon the net income of every corporation for each income-tax taxable year ending after the close of any year ending June 30 in respect of which the corporation is subject to the capital stock tax imposed by section 1200 of the Internal Revenue Code, as amended.*

§ 21.3 *Measure and rate of tax.*—(a) *Domestic and foreign corporations.* The tax is imposed in an amount equal to the sum of (1) 6⁹⁄₁₀ percent of such portion of the corporation's net income for the income-tax taxable year as is in excess of 10 percent and not in excess of 15 percent of the adjusted declared value plus (2) 13⁷⁄₁₀ percent of such portion of its net income for the income-tax taxable year as is in excess of 15 percent of the adjusted declared value, as of the close of the last preceding income-tax taxable year (or as of the date of organization if the corporation had no preceding income-tax taxable year).

(b) *Adjusted declared value.* No variation is permitted between the adjusted declared value set forth in the corporation's capital stock tax return and the adjusted declared value set forth in its declared value excess-profits tax return, except that in the case of a declared value excess-profits tax return for an income-tax taxable year which is a period of less than twelve months the adjusted declared value set forth in its capital stock tax return shall be reduced to an amount which bears the same ratio thereto as the number of months in the period bears to twelve months.*

§ 21.4 *Method of computation; example.* The application of the provisions of § 21.3 of these regulations may be illustrated generally by the following example:

Example. The M Corporation, the income-tax taxable year of which is the calendar year, is subject to the capital stock tax imposed by section 1200, as amended, of the Internal Revenue Code, for the year ending June 30, 1941. The value declared in its capital stock tax return for the year ending June 30, 1941, of its capital stock as of the close of its preceding income-tax taxable year (the calendar year 1940) is $100,000. The net income of the corporation for the calendar year 1941, determined under the Internal Revenue Code, is $25,000. During its taxable year the corporation received dividends from corporations subject to taxation under Chapter 1 of the Internal Revenue Code, amounting to $5,000. The declared value excess-profits tax for the calendar year 1941, is $1,089, computed as follows:

Net income for calendar year 1941	$25,000
Less: Credit for dividends received (85 percent of $5,000)	4,250
Balance of net income	20,750
Less: 10 percent of the value declared in the capital stock tax return for the year ending June 30, 1941, of the capital stock as of December 31, 1940 (10 percent of $100,000)	10,000
Net income subject to declared value excess-profits tax	10,750

§ 80.8 *Computation of tax.* * * * In the case of decedents dying after February 10, 1939, and on or before September 20, 1941, the additional tax is obtained by subtracting the basic estate tax imposed by the Internal Revenue

Code (corresponding to the tax imposed by the Revenue Act of 1926) from an amount computed on the value of the appropriate net estate at the rates set forth in section 935 (b) of the Internal Revenue Code when enacted (corresponding to the rates set forth in the Revenue Act of 1932 as amended by the Revenue Act of 1935), or, if the decedent died after September 20, 1941, at the rates set forth in section 935 (b) of the Internal Revenue Code as amended by the Revenue Act of 1941.

By changing the second paragraph to read as follows:

The defense tax, applicable if the decedent died after June 25, 1940, and on or before September 20, 1941, is obtained by computing 10 percent of the total net tax (the total net tax being the sum of the net basic tax and the net additional tax).

In effect from August 31, 1935, to September 20, 1941, inclusive. (Tentative tax.)

(This Treasury decision is issued under authority contained in section 401 of the Revenue Act of 1941 (Public Law 250, 77th Congress), approved September 20, 1941, and in section 3791 (a) of the Internal Revenue Code (53 Stat., 467, 26 U.S.C., Sup. V, 3791 (a)).)

SEC. 550. EFFECTIVE DATE OF PART IV. [Title V, Revenue Act of 1941.]

(a) The amendments made by this Part shall be applicable only with respect to the period beginning with the effective date of this Part. • • • This Part shall take effect on October 1, 1941.

(b) Despite the provisions of subsection (a), the tax imposed by section 1700 (e) of the Internal Revenue Code, as amended by section 542 of this Act (relating to cabaret, etc., tax), shall be applicable only with respect to the period beginning at 10 a. m. on October 1, 1941, • • •.

• • • • • •

§ 101.1 *Effective period.* The taxes on admissions, dues, and initiation fees were effective under Title V of the Revenue Act of 1926, as amended. The applicable provisions of the Revenue Act of 1926, as amended, were superseded, effective March 1, 1939, by provisions of the Internal Revenue Code.

Sec. 521 (b) of the Revenue Act of 1941 applies to the taxes imposed with respect to leases of boxes and seats (see §§ 101.7 and 101.8) and sales outside box offices (see §§ 101.9 to 101.11). These taxes were increased from 10 per cent to 11 per cent by section 1650 of the Internal Revenue Code, added by section 210 of the Revenue Act of 1940. Under section 1650 the increased tax was applicable only with respect to the period after June 30, 1940, and before July 1, 1945. Under the amendments made by the Revenue Act of 1941 the 11 per cent rate applies indefinitely.

Section 550 (a) applies to the admissions tax (see §§ 101.2 to 101.6), the cabaret, roof garden, etc., tax (see §§ 101.13 and 101.14), and the club dues tax (see §§ 101.22 to 101.30). The changes made by the Revenue Act of 1941 with respect to these taxes are applicable on and after October 1, 1941. In the case of the cabaret, roof garden, etc., tax, the change was effective on October 1, 1941, at 10 a. m. for the time belt.*

SUBPART C—ADMISSIONS

SEC. 1700. TAX. [As amended by section 541 of the Revenue Act of 1941.]

There shall be levied, assessed, collected, and paid—(a) Single or season ticket; subscription.

(1) *Rate.* A tax of 1 cent for each 10 cents or fraction thereof of the amount paid for admission to any place, including admission by season ticket or subscription. In the case of persons (except bona fide employees, municipal officers on official business, children under twelve years of age, members of the military or naval forces of the United

States when in uniform, and members of the Civilian Conservation Corps when in uniform) admitted free or at reduced rates to any place at any time when and under circumstances under which an admission charge is made to other persons, an equivalent tax shall be collected based on the price so charged to such other persons for the same or similar accommodations, to be paid by the person so admitted. No tax shall be imposed on the amount paid for the admission of a child under 12 years of age if the amount paid is less than 10 cents.

(2) *By whom paid.* The tax imposed under paragraph (1) shall be paid by the person paying for such admission.

SEC. 1704. ADMISSION DEFINED.

The term "admission" as used in this chapter includes seats and tables, reserved or otherwise and other similar accommodations, and the charges made therefor.

§ 101.2 *Meaning of "admission."* The tax is imposed on "the amount paid for *admission* to any place," and applies to the amount which *must be paid* in order to gain admission to a place. (See § 101.4.) The term "admission" means the right or privilege to enter into a place. The law specifically provides that it shall also include "seats and tables, reserved or otherwise, and other similar accommodations." A charge for their use in any place must, therefore, be treated as a taxable charge for admission. So an amount paid for the right to use a reserved seat in a theater or circus, a seat in a room or window to view a parade, or the like, is taxable. This is true whether the charge made for the use of the seat, table, or similar accommodation is combined with an admission charge proper to form a single charge, or is separate and distinct from an admission charge, or is itself the sole charge. The tax under section 1700 (a) as amended does not apply, however, to admissions to or charges for seats and tables in a cabaret, roof garden or similar place which are subject to the provisions of section 1700 (e) of the Code as amended. (See §§ 101.13 and 101.14.)

Where an original admission charge carries the right to remain in a place, or to use a seat or table, or other similar accommodation for a limited time only, and an additional charge is made for an extension of such time, the extra charge is paid for "admission" within the meaning of the Code.

The amount paid for admission by season ticket is a fixed sum which entitles the holder to admission on definite dates to a series of scheduled attractions, or to admission at all times during the season, and the form of the ticket is not controlling.

A subscription ticket is one which is issued to a person who subscribes a sum of money to the expense of an entertainment or who agrees to bear a portion of the expense thereof when the amount is ascertained.

An amount paid to become regularly entitled to the privileges of a club or other organization, as members or otherwise, is not an "amount paid for admission" even though one of the privileges be the right to enter a clubhouse, club grounds, gymnasium, swimming pool, or the like. But where the chief or sole privilege of a so-called membership is a right of admission to certain particular performances or to some place on a definite number of occasions (as contrasted with a more or less unlimited right to enter a clubhouse or other place as many times as desired during a year or some other period), then the amount paid for such so-called membership is an "amount paid for admission" within the meaning of the Code. An entirely different tax is levied on amounts paid as initiation fees or as dues or membership fees to certain classes of clubs or organizations, and also upon life members of such clubs, by section 1710 of the Code. (See Subpart F)

Where a person or organization acquires the sole right to use any place or the right to dispose of all the admissions to any place for one or more occasions, the amount paid for such right is not subject to the tax on admissions. Such a transaction constitutes a rental of the entire place and of the attraction, if any, whether or not it is so designated. However, if the person or organization in turn sells admissions to the place the tax will apply to amounts paid for such admissions.

If a charge imposed on a person admitted to a place is designated as an admission it will be presumed that it is in fact an admission charge, even though it includes rental of property or services, such, for example, as a charge of 50 cents for admission to a swimming pool, including use of a suit. The tax will apply in such case unless it is clearly shown that the charge is for rental or services, and that persons who do not use the property or services offered (e. g., use of a swimming suit) are admitted free. On the other hand, the designation of a charge as a rental or service charge (e. g., a charge for use of a swimming suit) will not avoid the application of the tax if it in fact represents a charge for admission, or includes the right to admission. If the same charge is made to the person using or furnishing his own property or equipment as where property or equipment is furnished by the management, such charge is an amount paid for admission and subject to tax. If a lesser charge is made to persons who do not desire to use the property or services offered, the lesser charge represents the admission charge.*

§ 101.3 *Meaning of the term "place."* The tax under section 1700 (a) of the Code is on the amount paid for admission *to any place.* "Place" is a word of very broad meaning, and it is not defined or otherwise limited by the Code. But the basic idea it conveys is that of a definite inclosure or location. The phrase "to any place," therefore, does not narrow the meaning of the word "admission," except to the extent that it implies that the admission is to a definite inclosure or location. The inclosure or location may be on, above, or beneath the surface of the earth. Places of amusement obviously constitute the most important class of places admission to which is subject to this tax.*

§ 101.4 *Basis, rate, and computation of tax.* The amount paid for admission to any place, including any amount paid for a season ticket or as a subscription, is subject under section 1700 (a) of the Code, as amended, to a tax of 1 cent for each 10 cents or fraction thereof (except that no tax is due on the amount paid for the admission of a child under 12 years of age if the amount paid is less than 10 cents). The tax in each case is to be paid by the person paying for admission. This tax applies to the *payment* for admission, not to the *admission* itself, and as soon as payment for admission is made the tax attaches, whether or not the admission ever takes place, and no refund of the tax can be allowed by reason of nonuse of the ticket unless the admission charge also is refunded. The tax applies if the payment for admission occurs in the United States, even though the *admission* is to take place outside the territorial limits of the United States.

The tax applies whether any profit is contemplated or realized and whether the affair to which admission is charged is public or private.

The tax attaches to the amount paid for each admission separately, and, therefore, if two or more admissions are paid for at once, the total tax is determined by computing separately the tax on each admission and then adding together the taxes so computed. In other words, the tax for 10 single admissions will always be ten times the tax for each single admission.

Where a single charge is made to cover admission to more than one attraction, the tax is computed on the basis of such charge. If separate charges are made for each attraction, the tax is computed on each such charge. Where, however, after paying one charge a second charge is made for accommodations which are essentially an extension of the accommodations granted in return for the payment of the first charge, the tax attaches to the total of the two charges made. Thus, if a combination ticket is issued entitling the holder to admission and to the use of a reserved seat for $1.50, the tax is 15 cents, and the same amount of tax would be due if separate tickets of admission and for a reserved seat were sold for 75 cents each. In the latter case, however, the tax due on the first charge would be 8 cents (1 cent for each 10 cents or fraction thereof of the charge) and the tax on the second charge would be 7 cents (1 cent for each 10 cents or fraction thereof of the total charge, less the amount of tax, 8 cents, paid on the first charge).

The amount paid for admission to any place is the amount which must be paid to the person or persons controlling such admission in order to secure the privilege. If a ticket or card of admission is sold by the person controlling the admission for an amount in excess of the regular or

established price or charge therefor, the tax imposed by section 1700 (a) (1) will apply to the total selling price. As to taxes on excess charges see § 101.9.*

§ 101.5 *Free and reduced rate admissions*—(a) *General rule.* A person admitted free or at a reduced rate to any place at a time when and under circumstances under which an admission charge is made to other persons, is liable to tax (except as provided in paragraph (b) of this section), in an amount equivalent to the tax on the amount paid by such other persons for the same or similar accommodations. If tickets or cards of admission are issued the tax should be collected at the time of the issuance of such tickets or cards, while if no tickets or cards are used tax should be collected when the persons are admitted.

(b) *Exceptions.* A bona fide employee of the management of the theater or other place, a municipal officer on official business, or a child under 12 years of age, is not liable to tax if admitted free but if admitted at a reduced rate is liable to tax on the reduced price, except that a child under 12 years of age admitted for less than 10 cents is not liable for tax. Bona fide employees are (1) those persons, including directors and officers, regularly employed by the proprietor of the place or attraction or regularly engaged in work or business transacted there, whether their duties require admission to the place or not, and whether on duty at the time admitted or not; and (2) other persons whose admission to the place is required for the performance of some duty to, or work for, the proprietor.

Persons in the military or naval forces of the United States when in uniform, and members of the Civilian Conservation Corps when in uniform are not liable for tax if admitted free, and if admitted at a reduced rate are liable for tax on the reduced price.

Newspaper reporters, photographers, telegraphers, radio announcers, and persons of similar vocation who are admitted free to any place for the performance of special duties in connection with an event and whose special duties are the sole reason for their presence and free admission, are not liable for any tax on admissions. Free admissions, including free admissions to spoken plays, etc., granted to such persons who are not admitted solely for the purpose of performing their special duties in connection with the event are subject to tax equivalent to the tax on the admission charge paid by other persons for the same or similar accommodations.*

§ 101.6 *Effective date of change in exemption.* All sums paid on and after October 1, 1941, for admissions are subject to tax under section 1700 (a) (1) of the Internal Revenue Code as amended by section 541 of the Revenue Act of 1941, except that no tax attaches to an admission charge of less than 10 cents for a child under 12 years of age.*

LEASES OF BOXES OR SEATS

[SEC. 1700. TAX.] [As amended by section 521 (a) (1) of the Revenue Act of 1941]

[There shall be levied, assessed, collected, and paid—] (b) Permanent use or lease of boxes or seats.

(1) *Rate.* In the case of persons having the permanent use of boxes or seats in an opera house or any place of amusement or a lease for the use of such box or seat in such opera house or place of amusement (in lieu of the tax imposed under paragraph (1) of subsection (a)), a tax equivalent to 11 per centum of the amount for which a similar box or seat is sold for each performance or exhibition at which the box or seat is used or reserved by or for the lessee or holder.

(2) *By whom paid.* The tax imposed under paragraph (1) shall be paid by the lessee or holder.

§ 101.7 *Meaning of "lease."* This tax applies to cases where a person has the permanent use, or a lease for the use, of a box or seat in any opera house or other place of amusement. The term "lease" means a continuous and exclusive right to use a particular box or seat for the term of the lease. It does not include the right to use a box or seat merely on the occasion of regular performances given by a particular company, but the contract must give the holder of the box or seat the right of use thereof whenever an attraction of any kind is presented in that place during the continuance of the lease. To constitute a lease of a box or seat a formal document of lease is not necessary.

Examples. (1) A corporation owning a theater gives the exclusive right to the use of a particular box for a year to each stockholder owning a certain number of shares. Since the stockholder has the exclusive use of the box for the period, this tax applies.

(2) A theater presents attractions, each running for a period of a week. A person arranges to reserve for his use a certain seat for every Monday night during the year. Such a reservation is not a lease.*

§ 101.8 *Basis, rate, and computation of tax.* In the case of a person having the permanent use or a lease for the use of a box or a seat in any opera house or other place of amusement the tax imposed by section 1700 (a) (1) on "the amount paid for admission to any place" does not apply. Instead, the provisions quoted above impose a tax on the right to the use of the box or seat equivalent to 11 per cent of the total amount that would be realized by the sale, at the established price, of the right to occupy a similar box or seat for each performance or exhibition during the period for which such box or seat is reserved. In other words, the tax is based not on the amount, if any, *actually paid* for the particular box or seat, but on the *amount that would be paid, at the established price, for admission to all performances given,* not merely those attended, if payments were made for each performance separately. The tax is not on the *actual use* of the box or seat, but on the *most extensive possible use.* Note that the rate of the tax here is 11 per cent and not "1 cent for each 10 cents or fraction thereof," as it is under section 1700 (a) (1). In case of a box, if there is no comparable box for the use of which on single occasions admission charges are made, the tax is to be computed by determining the amount for which a single box seat in the same part of the house is sold, multiplying that amount by the number of seats in the box, and calculating the tax on the basis above indicated. If there is no box located in a similar position, the tax is to be computed by determining the amount for which a single seat in the same part of the house is sold, multiplying that amount by the number of seats in the box, and calculating the tax accordingly.

Examples. (1) The season of a certain professional baseball league runs from April 15 to October 15. One club leases 6-seat boxes under contracts which entitle the holders to occupy the boxes on all occasions when attractions are presented between those dates. There are 70 games scheduled for the season, and the price of a 6-seat box for a single game (including general admission of six persons to the grandstand) is $10. In case of the lease of a box under the abovementioned contract the tax to be collected from the holder is $77 (11 per cent of seventy times $10), and if extra attractions, at which the holder would be entitled to the use of such box, are presented at any time during the period for which the box is held, additional tax equivalent to 11 per cent of the established price of a similar box must be collected on each such occasion, whether or not the box is occupied.

(2) Another club leases box seats under contracts which entitle the holders to occupy the seats on all occasions when attractions are presented between April 15 and October 15, but do not entitle them to general admission to the grandstand. The price of one of these seats for a single game (not including a taxable charge of 75 cents for general admission to the grandstand) is 50 cents. Under such a contract the tax to be collected is $3.85, which is 11 per cent of $35—the amount that would be paid for the 70 games scheduled at the rate of 50 cents for each game. In addition, the holder will be required to pay tax on the general admission charge to the grandstand each time he is admitted. If extra attractions at which the lessee is entitled to occupy his seat are presented at any time during the period for which the seat is held, additional tax equivalent to 11 per cent of the established price of a similar seat must be collected on each such occasion, whether or not the seat is occupied.

(3) The owners of a certain opera house, in leasing it to an opera company, reserve for their own use the whole parterre tier of thirty-five 6-seat boxes, paying therefor annually the sum of $70,-

000. These boxes are distributed among the various owners, $2,000 a year being paid for an annual lease of each. There are no similar boxes in the house, but the established price of each seat in the box in the next tier, which is less desirable, is $10 per seat. The number of performances during the season is fixed in advance at 100. Each lessee of such a box on paying the $2,000 for the season must pay a tax of at least $660 (one hundred times 11 per cent of six times $10), to be paid over in turn to the opera company and the collector of internal revenue. This minimum figure for the tax is based on the established price of the box seats which are the most nearly similar, but which are less desirable. If extra attractions are presented at any time during the period for which the box is leased, additional tax equivalent to 11 percent of the established price of a similar box must be collected on each such occasion, whether or not the box is occupied.*

CHARGES IN EXCESS OF ESTABLISHED PRICE

[SEC. 1700. TAX.] [As amended by sections 521 (a) (2) and 542 (d) of the Revenue Act of 1941]

[There shall be levied, assessed, collected, and paid—] (c) Sales outside box office.

(1) *Rate.* Upon tickets or cards of admission to theaters, operas, and other places of amusement, sold at news stands, hotels, and places other than the ticket offices of such theaters, operas, or other places of amusement, at a price in excess of the sum of the established price therefor at such ticket offices plus the amount of any tax imposed under paragraph (1) of subsection (a), a tax equivalent to 11 per centum of the amount of such excess.

(2) *By whom paid.* The taxes imposed under paragraph (1) shall be returned and paid by the person selling such tickets.

* * * * *

(d) Sales by proprietors in excess of regular price—

(1) *Rate.* A tax equivalent to 50 per centum of the amount for which the proprietors, managers, or employees of any opera house, theater, or other place of amusement sell or dispose of tickets or cards of admission in excess of the regular or established price or charge therefor.

(2) *By whom paid.* The tax imposed under paragraph (1) shall be returned and paid by the persons selling such tickets.

§ 101.9 *Scope and basis of taxes.* While two distinct taxes are imposed under the provisions quoted above, one on excess charges for tickets or cards of admission sold at places other than the ticket offices of the theaters, operas, or other places of amusement, and the other on excess charges imposed by the proprietors, managers, or employees of such places, there are certain rules generally applicable to both. These will be found in this and in the succeeding section.

The provisions of the Code relating to excess charges apply regardless of the established price. Any amount received by the person selling the tickets or cards over and above the established price, or any lump sum which bears a relation to the number of tickets so sold, whether called a "contribution," "service charge," or the like, is an "excess charge."

The taxes on excess charges are of more limited application than the tax on admissions proper. The former attach only to excess charges for tickets or cards of admission valid for admission to *theaters, operas, or other places of amusement*, where as the tax on admissions attaches to amounts paid for admission to *any place*. (See § 101.4.) Thus, a tax may be due on an amount paid for admission to a place where no excess charge tax could be collected because the place is not a theater, opera, or other place of amusement. As shown in § 101.4, the full amount, including excess charges, paid to the theater or person controlling the same is subject to the tax on admissions, which must be paid by the person paying for admission. However, excess charges paid to brokers or persons who do not control the admission are not regarded as payments for admission to any place and are not therefore subject to tax under section 1700 (a) (1). The taxes on charges in excess of the regular or established price, whether the ticket or card of admission is sold at the box office or elsewhere, are to be paid by the person selling such ticket or card of admission. These taxes are therefore distinct from and in addition to the admissions tax.*

§ 101.10 *Regular or established price defined.* The "regular or established price" of admission to an attraction on a given occasion means the full price, fixed by the person in control, in force at the time of the first sale, of tickets or cards of admission thereto. However, the mere fact that a price is called an established price does not make it such. The established or regular price of admission may be the same for all admissions, or may vary in accordance with the accommodations furnished. Any scale of prices adopted in good faith, and reasonably corresponding to the kinds of accommodations furnished, will be accepted as showing the true established prices of admission. The established price of an admission need not be the same for different attractions or even for different performances of the same attraction; but when tickets are once put on sale for a particular performance the price of admission for every accommodation at that performance is thereby established. Established prices of admission once so adopted are not affected by the mere sale of a few admissions at prices different from the ones so established. Established prices once adopted for any occasion may not be thereafter increased for that occasion. If tickets are subsequently sold at higher prices, the excess charges are taxable. Prices once established or adopted may be reduced, but in such case liability to excess-charge taxes with respect to all admissions sold at the original established prices can be avoided only by complying with the following conditions:

(1) Any reduction of an established price must apply equally to all admissions covered by such established prices; (2) the reduction must not result in setting a lower price for certain accommodations than is charged for other like accommodations on the same occasion; (3) public notice must be promptly given of the reduction and of the fact that every person having paid for admission at the former established price can secure a refund at any reasonable time of the amount he paid in excess of the new established price; and (4) such refunds actually must be made promptly on request.

The rules above indicated in this section apply not only to single admissions but also to season tickets and subscriptions. The established price for a season ticket or subscription is the full price, fixed by the person in control, in force at the time of the first sale.

For requirements as to data to be shown on tickets see § 101.18.*

§ 101.11 *Brokers' sales; rate and computation of tax.* The tax on excess charges applies to tickets or cards of admission to theaters, operas, or other places of amusement "sold at news stands, hotels, and places other than the ticket offices of such theaters, operas, or other places of amusement" at a price in excess of the regular or established price therefor at such ticket offices. The tax is 11 per cent of the amount by which the selling price exceeds the sum of the regular or established price and the tax thereon. The tax is imposed upon and is to be paid by the person so selling the tickets or cards of admission. The liability to this tax attaches whether or not the selling or disposing of such tickets or cards of admission is the principal business or occupation of such person.

In determining the amount of the excess charge, the amount of any tax imposed under section 1700 (a) (1) is always added to the regular or established price and the sum so obtained is subtracted from the selling price. The remainder represents the excess charge, and the 11 per cent tax applies to that amount. Thus, by way of illustration, if a ticket broker sells for $4.50 a ticket or card of admission the regular or established price of which is $3.50, plus 35 cents tax, the excess charge is not $1, but 65 cents. This is determined in the following manner:

Established price	$3.50
Admission tax thereon	.35
Total	3.85
Sale Price	4.50
Difference, representing taxable excess charge	.65
Tax due at 11 per cent	.0715

No admission tax on the established price is due or collectible by the broker in this connection, since such tax has already been paid to and collected by the theater or person controlling the admission.

As this is a percentage tax, like that imposed on excess charges imposed by theaters, operas, or other places of amusement, individual transactions will frequently result in a tax involving a fraction of a cent. These fractional parts of cents should be preserved in computing the monthly total of tax due. If the grand monthly total involves one-half, or a larger fraction, of a cent, it shall be increased to 1 cent; otherwise it shall be disregarded. (See section 3658 of the Code.)

It should be particularly noted that this tax is based on the amount charged by the broker in excess of the *established price* plus tax, not in excess of the *price the broker pays*. The fact that the broker himself may have paid the theater, opera, or other place of amusement more than the established price for a ticket or card of admission sold or disposed of by him does not affect the tax to be paid by the broker on an excess charge made by him. In other words, if a theater charges a broker more than the established price, and the broker charges the customer more than the established price plus tax on such established price, the theater must pay tax on the excess charged the broker over the established price and the broker must pay tax on the excess charged the customer over the established price plus tax thereon. If the broker pays the theater less than the established price, the latter and not the price actually paid is the sum which must be taken in reckoning the amount of the excess charge.

Where a ticket is sold by a theater to a broker at the established price and it thereafter passes through the hands of one or more brokers before being sold to a user, each broker who sells the ticket for an amount in excess of the established price must pay the tax on the whole amount by which his selling price exceeds the amount of the established price of the ticket at the ticket office of the theater, opera, or other place of amusement plus the tax imposed on such established price under section 1700 (a) (1). For information as to the manner in which returns shall be made and the tax paid over by brokers, see § 101.33.

Examples. (1) A certain ticket broker purchases from a theater a block of tickets for seats in the orchestra, the established price of admission to which is $3.50, and resells them at an excess charge of 80 cents per ticket. The taxes to be collected and paid by the theater and broker in this case are as follows:

THEATER

Receives from broker		*Disposition*	
Established price	$3.50	which it retains.	
Admission tax	.35	which it must pay to collector	$0.35
Total	3.85	Total	.35

BROKER

Receives from customer		*Disposition*	
Established price	$3.50	which he retains.	
Additional charge	.85	which he retains as reimbursement of admission tax paid to theater.	
Excess charge	.80	on which he must pay as tax to collector	$0.088
Total	4.65	Total	.088

(2) A theater-ticket agency procures tickets from various theaters with the privilege of returning an hour before the performance starts all tickets for that performance then unsold. Such agency charges for each ticket sold 10 cents more than the sum of the established price and the amount paid to the theater as an admission tax, and terms this 10-cent charge a "service charge." The 10-cent advance is an fact an excess charge not withstanding the privilege of returning the unsold tickets and the agency is liable for an excess-charge tax of 1⅒ cents.*

§ 101.12 *Box office sales; rate and computation of tax.* Where a proprietor, manager, or employee of any opera house, theater, or other place of amusement sells or disposes of any ticket or card of admission for an amount in excess of the regular or established price or charge therefor (as outlined in § 101.10), the excess portion of the price for which it is so sold or disposed of is subject to the tax of 50 per cent imposed under section 1700 (d). This tax is to be paid by the person selling or disposing of the ticket, and (as shown in § 101.9) is distinct from and in addition to the admission tax, which is to be paid by the person to whom the ticket is sold.

The fact that this tax is on a percentage basis makes possible a tax involving a fraction of a cent. As the tax is based on each excess charge imposed, several items of tax each involving a fractional part of a cent may be due with each monthly return. These several fractions should be preserved or included in computing the total tax due with any given return. If the total thus obtained involves one-half, or a larger fraction, of a cent, it shall be increased to 1 cent; otherwise it shall be disregarded.

Example. If a ticket broker purchases from a theater a block of admission tickets, the established price of which is $2 (admission tax 20 cents), and resells them at an excess charge of 50 cents per ticket, agreeing, however, that half of this excess charge so received by him is to be paid to the theater, the sum of 25 cents received by the theater is in effect an excess charge made by it. The theater, therefore, will be subject to a tax of 50 per cent of this amount (12½ cents) as a tax on the excess charge, and the broker will be subject to a tax of 5½ cents, which is 11 per cent of the 50 cents excess over the established price.*

ROOF GARDENS, CABARETS, OR SIMILAR ENTERTAINMENTS

[SEC. 1700. TAX.] [As amended by section 542 of the Revenue Act of 1941]

[There shall be levied, assessed, collected, and paid—]

(e) Tax on cabarets, roof gardens, etc.—(1) *Rate.* A tax equivalent to 5 per centum of all amounts paid for admission, refreshment, service, and merchandise, at any roof garden, cabaret, or other similar place furnishing a public performance for profit, if any payment, or part thereof, for admission, refreshment, service, or merchandise, entitles the patron to be present during any portion of such performance. No tax shall be applicable under subsection (a) (1) on account of an amount paid with respect to which tax is imposed under this subsection.

(2) *By whom paid.* The tax imposed under paragraph (1) shall be returned and paid by the person receiving such payments.

§ 101.13 *Basis, rate, and computation of tax.* The tax imposed by section 1700 (e), as amended by section 542 of the Revenue Act of 1941, applies to all amounts paid for admission, refreshment, service, and merchandise, at any roof garden, cabaret, or other similar place furnishing a public performance for profit, if any payment or part thereof entitles the patron to be present during any portion of such performance. The tax is at the rate of 5 per cent of the total amounts so paid.

Charges collected prior to commencement of a performance are not taxable with respect to such performance, if the patron is not entitled to remain for any part of the performance.

The liability for the tax is imposed upon the person receiving payment of the charges mentioned, and the tax must be paid by such person regardless of whether collected from the patron either as a separate charge or by being included in the amounts charged for admission, refreshment, service, and merchandise.

Where the tax is passed on to the patron and is shown as a separate item on the waiters check or bill for admission, refreshment, service, and merchandise, the amount thereof shall be excluded in determining the total amount of the charges upon which the tax is to be computed. However, where the tax is not shown as a separate charge, the tax must be computed on the total amount paid by the patrons for admission, refreshment, service, and merchandise.

The tax upon admissions generally, imposed by subsection (a) (1) of section 1700, as amended, does not apply to any charge for admission that is subject to the tax imposed by subsection (e) of section 1700, as amended.*

§ 101.14 *Entertainments included.* The phrase "a public performance for profit" includes every public vaudeville or other performance or diversion in the way of acting, singing, declamation, or dancing, either with or without instrumental or other music, conducted by professionals, amateurs, or patrons, under the auspices of the management, in con-

nection with the serving or selling of food or other refreshment or merchandise at any room in any hotel, restaurant, hall, or other public place. Every form of entertainment so conducted is included, except instrumental music unaccompanied by any other form of entertainment.

Where music by an orchestra and a space in which the patrons may dance are furnished in the dining room of a hotel, or in a restaurant, bar, etc., the entertainment constitutes a public performance for profit at a roof garden, cabaret or similar place, and the payments made for admission, refreshment, service and merchandise are subject to the tax.

Examples. (1) A proprietor of a dancing establishment provides for the serving of refreshments to his patrons. An admission or cover charge is made to each patron. In this case the admission or cover charges and also the charges for refreshment, service, and merchandise are subject to the tax.

(2) A certain hotel provides an orchestra and a dancing floor surrounded by tables and serves refreshments to its patrons during the dancing hours. No charge is made for dancing. This is a case of a public performance for profit where the charges for refreshment, service, and merchandise are taxable.

(3) A hotel gives a New Year's Eve party in its dining room for which a charge of $5 per person is made to anyone desiring to attend. A dinner is served and entertainment in the form of music and dancing by the patrons is furnished. The charge of $5 for refreshment, service, and merchandise is subject to tax of 25 cents.*

SUBPART D—EXEMPTIONS

SEC. 541. ADMISSIONS TAX. [Revenue Act of 1941]

* * * * *

(b) *Termination of exemptions.* Section 1701 of the Internal Revenue Code (relating to exemptions from admissions tax) shall not apply with respect to amounts paid, on or after the effective date of this Part, for admission.

(c) *Exemption of national park, etc., admissions terminated.* The Interior Department Appropriation Act, 1942, is amended by striking out that part thereof under the heading "National Park Service" which reads as follows:

Hereafter fees incident to admission to the national parks and monuments and other areas in the national park system, charged and collected with the approval of the Secretary of the Interior, shall be exempt from all Federal tax on admissions.

The Act entitled "An Act making appropriations for the Department of the Interior for the fiscal year ending June 30, 1933, and for other purposes", approved May 9, 1935, is amended by striking out that part thereof under the heading "National Park Service" which reads as follows:

Provided, That any admission fee charged for entrance to Carlsbad Caverns and any fee charged for guide service therein, shall be exempt from all taxes on admissions.

§ 101.15 *Termination of exemptions.* The several exemptions from the tax on admissions formerly allowed by section 1701 of the Code and by the Interior Department appropriation acts were terminated as of October 1, 1941, by section 541 (b) and (c) of the Revenue Act of 1941. Accordingly, all amounts paid on and after October 1, 1941, for admission to any place are subject to tax, regardless of the purpose of the entertainment or affair and regardless of the organization or person to whom the proceeds inure. A child under 12 years of age admitted for less than 10 cents is not liable for tax. (See § 101.4.)*

§ 101.16 *Admissions by or for the benefit of Federal, State, or municipal governments.* The fact that the authority charging admissions or receiving the proceeds thereof is the United States or an agency thereof, or a State or Territory or political subdivision thereof, such as a county, city, town, or other municipality, does not make such admissions exempt. The code specifically provides that the taxes on admission shall be paid by the person paying for admission. It is not, therefore, a tax on the person or authority selling the admissions or receiving the proceeds thereof.*

SUBPART E—TICKETS AND SIGNS

SEC. 1702. PRINTING OF PRICE ON TICKET.

'The price (exclusive of the tax to be paid by the person paying for admission) at which every admission ticket or card is sold shall be conspicuously and indelibly printed, stamped, or written on the face or back of that part of the ticket which is to be taken up by the management of the theater, opera, or other place of amusement, together with the name of the vendor if sold other than at the ticket office of the theater, opera, or other place of amusement.

SEC. 1703. PENALTIES.

(a) Failure to print correct price on ticket.—Whoever sells an admission ticket or card on which the name of the vendor and price is not printed, stamped, or written, as provided in section 1702, or at a price in excess of the price so printed, stamped, or written thereon, is guilty of a misdemeanor, and upon conviction thereof shall be fined not more than $100.

* * * * *

§ 101.17 *Tickets or other means to check admissions required.* Where admission tickets or cards are not used some other method or system must be provided by which the number of admissions sold and the tax due thereon may be ascertained and checked. Therefore, every place admission to which is taxable must provide either:

(a) Tickets or cards of admission to evidence all admissions which are subject to tax; or

(b) A mechanical device or other method which will register or show the number of persons entering the place.

Exception. In the case of a person or organization who or which only makes charges for admission irregularly and occasionally and not more than six times a year, compliance with the foregoing requirements will not be necessary; but in such cases a correct record must be kept in accordance with § 101.32 showing all information necessary to enable revenue officers to determine the amount of tax due.*

§ 101.18 *Requirements applicable to tickets.* Where tickets or cards of admission are used, they must comply with the following requirements:

(a) The price (exclusive of the tax to be paid by the person paying for admission) at which every ticket or card is sold must be conspicuously and indelibly printed, stamped, or written on that part of the ticket which is to be taken up by the management of the place for admission to which it is valid. This is a specific requirement of the Code itself. For administrative purposes it is necessary to show not only the selling price but also (1) the regular or established price (see § 101.10), (2) the tax, and (3) the total of the price and tax. The regular or established price, the tax based thereon, and the total, shall appear on the face (in the case of strip tickets the back may be used) of the portion of the ticket which is to be taken up by the management, in the following or equivalent form:

Established	------
Tax paid	------
Total	------

If the ticket is sold at a price other than the regular or established price, the actual selling price, the tax (for basis and computation of tax see § 101.4), and the total shall be shown on the face of the portion of the ticket to be taken up by the management. If the ticket shows the seat or box for which it is valid, the location and seat or box number must appear on that part of the ticket which is taken up by the management as well as on the stub which is given to the patron. If the ticket is sold other than at the ticket office of the theater, opera, or other place of amusement, the name and address of each vendor and his actual selling price must be shown on the back of the portion of the ticket to be taken up by the management. All persons required to collect and account for tax on admissions must keep for possible inspection by revenue officers the portions of the tickets taken up by them, or in the case of a cabaret or similar place, the waiters' checks, for a period of not less than six months.

Where a theater or other place has a reduced or special price of admission for members of the military or naval forces of the United States in uniform, members of the Civilian Conservation Corps in uniform, or children under 12 years of age, a separate form of ticket (serially numbered) should be used showing such reduced or special price and that the ticket is to be used only by such persons.

(b) The name of the place for taxable admission to which a ticket or card is valid must in all cases be shown thereon. Moreover, tickets must either show the date for which they are valid or must be serially numbered. If serially numbered tickets are used, there must be a separate and distinct series for each established price. The numbers of each series must start with 1 and run continuously in regular order until 500,000 is reached, after which they may again start at 1 if so desired. In such case, however, a letter of the alphabet must precede or follow the serial number to distinguish the new series from the preceding series, and such letters must be used in turn until the alphabet is exhausted before starting again with the letter A. No place to which taxable admissions are sold shall have, or permit to be, at such place at the same time two or more rolls or series of tickets of the same established price bearing identical serial numbers which are not distinguished by different letters of the alphabet. Serially numbered tickets must be issued consecutively in the order of the serial numbers of that particular series, and the letters of the alphabet, if any.

(c) In the case of bona fide season or subscription tickets, a single ticket or card or a strip of tickets may be used to evidence more than one admission. In every other case, where several single admissions are sold or disposed of at one time, there must be separate or separable coupons to evidence each right to admission. Thus, in the case of combination tickets, issued by outdoor amusement parks, which entitle the holder to admission to a number of different attractions, there must be a separate ticket or coupon for each such attraction. Furthermore, each separate ticket or coupon must either be dated, or be serially numbered in accordance with paragraph (b) of this section. If serial numbers are used in such combination tickets, each coupon thereof shall bear the same serial number as the stub or cover of the ticket itself.

(d) Except in the case of a non-taxable free admission, no person shall be admitted to any place admission to which is taxable, and which uses tickets or cards, except upon the presentation of a card or ticket complying with the preceding requirements. The ticket or card so presented or a portion thereof must be taken up at the time of admission, by the management of the place, except in the case of a bona fide subscription or season ticket covering two or more admissions.

In any case where tickets have become obsolete due to a change in price, or unusable for any other reason, they shall not be destroyed except in the presence of a representative of the collector's office. They may be taken to the collector's office for destruction or may be held at the theater until a deputy collector calls. After destruction a statement will be issued setting forth the numbers of the tickets destroyed, their denomination, and all other pertinent information. This statement will be issued in duplicate, one copy to be retained in the files of the theater and the other copy by the collector.

Examples. (1) A certain theater has a regular charge of $1 for orchestra seats. It should print the following on the face of that part of the ticket which is taken up by the theater upon the admission of the ticket holder.

Established price	$1.00
Tax paid	.10
Total	1.10

Two hundred of these tickets are sold by the theater to a certain broker. On selling these tickets he should stamp with a rubber stamp on the back of the same part of the ticket a statement substantially as follows:

Sold by
John Jones
27 West St., New York City

Sale price	$1.50
Tax paid	.10
Total sale price	1.60

(2) George Nelson purchases from John Jones one of the tickets mentioned in the preceding example and resells this ticket at an advance of 50 cents above the amount which he paid for it. When selling the ticket George Nelson shall draw two lines in the form of a cross through the left-hand portion of the matter stamped by the broker on the back of the ticket and shall add his name and address and a statement as follows:

Sold by Geo. Nelson,
505 West 122 St.,
New York City.

Sale price	$2.00
Tax paid	.10
Total sale price	2.10

(3) A broker on reselling a ticket finds that by reason of the fact that it has previously passed through the hands of several other brokers and has been stamped by them, there is not sufficient space on it for him to stamp the information required by the law and regulations. He may enlarge the ticket by pasting to that part which will be taken up by the theater a slip of paper and stamp the required information on the same, but this must be done in such a way that the information placed on the ticket by former vendors will not be obscured.*

§ 101.19 *Printing of tickets; notice to be given.* Where tickets or cards of admission to any place for admission to which a charge is made are printed, manufactured, or sold by any person, it shall be his duty to give prompt notice to the collector of internal revenue of the district in which is located the place to which admission is to be charged. The notice shall state (a) the name and address of the person to whom the tickets are furnished and (b) the number of tickets furnished, and shall be accompanied by proofs or sample copies of the tickets themselves. If the tickets are serially numbered, the notice must also include a statement as to such serial numbers.*

§ 101.20 *Mechanical devices.* If a mechanical device is used instead of tickets or cards of admission, such device may be placed at the entrance or exit, or at any point en route through the place, but must be so arranged that every person admitted must himself cause it to register an admission and be so constructed that no change can be made in the record of admissions until at least 99,999 admissions are recorded, and then the only change possible must be the returning of the record to "0."

§ 101.21 *Signs to be posted.* In the case of every place, admission to which is subject to tax, the proprietor or manager must keep conspicuously posted at the outer entrance and near the box office one or more signs accurately stating each of the established prices of admission, and in the case of each such price the tax due and the sum total of the established price and the tax.

Example. The following is an example of such a sign:

	Admission	*Tax*	*Total*
Box seats	$4.00	$0.40	$4.40
Orchestra	3.50	.35	3.85
Mezzanine	2.50	.25	2.75
Balcony	2.00	.20	2.20
Gallery	1.00	.10	1.10

In the case of free or reduced rate admissions which are subject to tax based on the established prices (see § 101.5) a sign similar to the following should be used:

Admission	Tax	Total	Free or reduced rate admissions valued at	Tax to be collected
$3.50	$0.35	$3.85	$3.50	$0.35
$5.00	.50	5.50	5.00	.50
$10.00	1.00	11.00	10.00	1.00
$40.00	4.00	44.00	40.00	4.00

SUBPART F—DUES AND INITIATION FEES

SEC. 1710. TAX. [As amended by section 543 (a) of the Revenue Act of 1941.]

(a) *Rate.* There shall be levied, assessed, collected, and paid—

(1) *Dues or membership fees.* A tax equivalent to 11 per centum of any amount paid as dues or membership fees to any social, athletic, or sporting club or organization, if the dues or fees of an active resident annual member are in excess of $10 per year.

(2) *Initiation fees.* A tax equivalent to 11 per centum of any amount paid as initiation fees to such a club or organization, if such fees amount to more than $10, or if the dues or membership fees, not including initiation fees, of an active resident annual member are in excess of $10 per year.

* * * * *

(b) *By whom paid.* The taxes imposed by subdivision (a) shall be paid by the person paying such dues or fees, * * *.

SEC. 1712. DEFINITIONS. [As amended by section 543 (b) of the Revenue Act of 1941.]

As used in this subchapter—

(a) *Dues.* The term "dues" includes any assessment irrespective of the purpose for which made, and any charges for social privileges or facilities, or for golf, tennis, polo, swimming, or other athletic or sporting privileges or facilities, for any period of more than six days; and

(b) *Initiation fees.* The term "initiation fees" includes any payment, contribution, or loan, required as a condition precedent to membership, whether or not any such payment, contribution or loan is evidenced by a certificate of interest or indebtedness or share of stock, and irrespective of the person or

organization to whom paid, contributed, or loaned.

§ 101.22. *Meaning of dues or membership fees.* The tax is imposed on all amounts paid as dues or membership fees if the dues or membership fees of an active resident annual member exceed $10 a year. The term "dues or membership fees" includes (1) all assessments (2) all charges for social privileges or facilities and (3) all charges for golf, tennis, polo, swimming, or other athletic or sporting privileges or facilities for any period of more than six days.

If the total dues or membership fees, including (1) to (3) above, (but not including penalties for failure to pay promptly), of an active resident annual member exceed $10 a year, such dues and fees (including any penalty for failure to pay promptly) are taxable and all dues and fees paid by other classes of members are subject to tax whether or not the dues and fees paid by such members exceed $10 a year.

An "active resident annual member" is one who is not a life member but who enjoys full club privileges as distinguished from the privileges enjoyed by a person holding a nonresident membership, an associate membership or other partial or restricted membership.*

§ 101.23 *Rate and basis of tax.* The tax is 11 per cent of any amount paid as dues or membership fees or as initiation fees to clubs or organizations coming within the provisions of section 1710.

If the dues or membership fees (including all assessments and all charges for social privileges or facilities or for golf, tennis, polo, swimming or other athletic or sporting privileges or facilities, for any period of more than six days, but not including initiation fees) of an active resident annual member are in excess of $10 per year, all amounts paid to the club as dues or membership fees, assessments, special charges, or initiation fees are taxable. Thus if the dues or membership fees of an active resident annual member are in excess of $10 per year, such dues or membership fees are subject to tax and amounts paid by all other members are taxable even though the dues or membership fees of such members are not in excess of $10 per year.

If the dues or membership fees (including assessments and all charges for social privileges or facilities or for golf, tennis, polo, swimming, or other athletic or sporting privileges or facilities, for any period of more than six days) of an active resident annual member are not in excess of $10 per year, the tax does not attach to any amounts paid as dues or membership fees or assessments, except that the tax attaches to initiation fees if such fees amount to more than $10.

Thus in the case of a club or organization the regular dues or membership fees of which are less than $10 per year, but which levies an assessment on its active resident annual members, if the regular dues or membership fees, plus the assessment, exceed $10 per year, the tax is applicable. The tax would likewise apply in the case of a club the regular dues of which are $10 per year but which makes additional annual, monthly, or weekly charges for golf, tennis, polo, or swimming privileges, or other athletic or sporting privileges. If a club or organization collects no regular dues or membership fees but meets its expenses by levying assessments on its members as funds are required, the assessments are taxable provided the assessments aggregate more than $10 per year for a member who enjoys the full privileges of the club or organization.

If the dues or membership fees, including assessments and all extra charges, determined in the manner herein outlined, of an active resident annual member are in excess of $10 per year, dues or membership fees (including assessments, and all extra charges described above) paid by all other members, whether or not they are in excess of $10 per year, are subject to the tax.

For tax on life memberships see § 101.29.

Examples. (1) A certain social club has "members," nonresident members, associate members, and junior members. "Members" pay an initiation fee of $15 and dues of $10 per year. Associate members pay an initiation fee of $10 and dues of $5 per year. Nonresident members and junior members pay still less. In the case of this club a "member" is clearly the "active resident annual member" specified in the Code. As a "member's" dues are not in excess of $10 per year, none of the dues or membership fees paid by any member of the club are taxable. (The initiation fee of $15 paid by a "member" is taxable.)

(2) A certain athletic club has members, dues, and fees precisely the same as those of this social club, except that the initiation fee of "members" is $10 and the regular dues of "members" are $30 per year. As these dues are in excess of $10 per year, in this case the initiation fee and all dues paid to the club by members of any class are subject to tax.

(3) The same athletic club levies in a certain year, in addition to its regular dues, an assessment of $10 on every associate member and provides a penalty of $1 if it be not paid within a month after due. This assessment is taxable, and so is the penalty if it be imposed.

(4) A member of this same athletic club violates the house rules and is suspended until he pays a fine of $15. As a fine is neither dues nor membership fees, this $15 payment is not taxable.

(5) A certain golf club has two classes of members. Class A members pay $40 per year dues and are entitled to the full privileges of the club, including the use of the golf course. Class B members pay $10 per year dues and are entitled to the privileges of the clubhouse, but do not enjoy the privilege of the golf course. The total dues of $40 paid by class A members are subject to tax, and since the dues of such members are in excess of $10 per year, the dues of $10 paid by class B members are also subject to tax.

(6) A certain golf club charges a "green" fee of $1 for each guest who uses the course. Such a fee is not paid "as dues or membership fees," and is, therefore, not taxable as such.

(7) A tennis club the annual dues of which are $10 levies an assessment of $2 per year on each member to cover cost of tennis balls. The dues, fees, and such assessments paid by members of this club are taxable.

(8) A certain social club, the dues and fees of which are taxable, passes a resolution providing that no membership dues or fees shall be collected from members who are in the military service of the United States. Such members thereafter pay no dues or fees and are therefore not liable for payment of tax with respect to membership in the club, but life members who are in the military service are not relieved from payment of the tax on their life memberships.*

§ 101.24 *Determination of character of club.* The purposes and activities of a club or organization and *not its name* determine its character for the purpose of the tax. Every club or organization having social, athletic, or sporting features is presumed to be included within the meaning of the phrase, "any social, athletic, or sporting club or organization," until the contrary has been proved, and the burden of proof is upon it. Every such club or organization, therefore, unless it falls within the express exemption of the Code (see § 101.30), must collect, return, and pay over the tax imposed by the Code, unless and until it has satisfied the Commissioner of Internal Revenue that it is not in fact "social, athletic, or sporting" within the meaning of the Code and as defined in these regulations. If any such club or organization claims that it is not in fact "social, athletic, or sporting," it shall submit to the collector a copy of its charter or constitution and by-laws, together with a statement showing its actual purposes, activities, practices, and facilities, the character of its expenditures, and such other evidence as may be requested. Upon consideration of the evidence submitted the collector will determine, if he can do so, whether or not such club or organization comes within the provisions of the Code. If, however, the collector is in doubt as to whether or not the club or organization is "social, athletic, or sporting," he will refer the statement and accompanying papers to the Commissioner for decision. When a club or organization has been held not to be a "social, athletic, or sporting" club or organization it need not thereafter make a return or any further showing with respect to its status under the law, unless it changes the character of its organization or operations or the purpose for which it was originally created. Collectors will keep a list of all clubs and

organizations held not to be "social, athletic, or sporting" clubs or organizations, to the end that they may occasionally inquire into their status and ascertain whether the conditions upon which their exemption was predicated remain unchanged. If the collector decides that the club or organization comes within the provisions of the Code and the club or organization is not satisfied with his decision, it may request that the matter be referred to the Commissioner for a ruling.*

§ 101.25 *Social clubs.* Any organization which maintains quarters or arranges periodical dinners or meetings, for the purpose of affording its members an opportunity of congregating for social intercourse, is a "social * * * club or organization" within the meaning of the Code, unless its social features are not a material purpose of the organization but are subordinate and merely incidental to the active furtherance of a different and predominant purpose, such as, for example, religion, the arts, or business. The tax does not attach to dues or fees of a religious organization, chamber of commerce, commercial club, trade organization, or the like, merely because it has incidental social features, but if the social features are a material purpose of the organization it is a "social * * * club or organization" within the meaning of the Code. An organization that has for its exclusive or predominant purpose religion or philanthropic social service (or the advancement of the business or commercial interests of a city or community) is clearly not a "social * * * club or organization." Most fraternal organizations are in effect social clubs, but if they are operating under the lodge system, or are local fraternal organizations among the students of a college or university, payments to them are expressly exempt (see § 101.30).

Examples. (1) Neither a Young Men's Christian Association nor a Young Men's Hebrew Association is a social club within the meaning of the Code, for the predominant purposes of each are religion and philanthropic social service.

(2) A social settlement which provides, among other things, dances and other social opportunities for a slum neighborhood is supported by contributions. Any person contributing $30 a year is called a "member" of the settlement association. Such contributions are not taxable, for such a settlement is not a social club within the meaning of the Code, as its predominant purpose is philanthropic social service.

(3) An automobile dealers' association is organized and operated for the purpose of maintaining a social organization of persons residing in a certain city and engaged in the manufacture or sale of automobiles and accessories, affording its members opportunity to enjoy healthful games, and of promoting social welfare and social intercourse between the members and, by debates and discussions among themselves at their meetings, promoting interest in automobile transportation, traffic, and knowledge of the industry in this city. This organization is a social club within the meaning of the Code.*

§ 101.26 *Athletic or sporting clubs.* Tennis, golf, boxing, boating, canoe, fishing, and hunting clubs, and any organization (the members of which are individuals) for the practice or promotion of athletics or sports, are included within the meaning of the words of the Code, "athletic, or sporting club or organization." A local, sectional, or national "athletic, or sporting" association, the membership of which is composed wholly or partly of member clubs, is not within the scope of the Code. The possession and use of a gymnasium, swimming pool, or other athletic facilities by an organization having religion or philanthropic social service for its exclusive or predominant purpose do not bring the organization within the class of athletic or sporting clubs or organizations.*

§ 101.27 *Foreign clubs.* Dues or fees paid to a club located outside of the United States and having no branch or organization in the United States are not taxable. If such a club has a branch or agency within the United States, the dues or fees paid to such branch or agency on behalf of the club are taxable.*

§ 101.28 *Initiation fees.* Any amount paid as initiation fees to a club or organization coming within the provisions of section 1710 is subject to the 11 per cent tax imposed by the Code as amended (a) if such fees amount to more than $10, or (b) if the dues or membership fees (not including initiation fees) of an active resident annual member are in excess of $10 per year.

Under the Code the term initiation fees" includes any payment, contribution, or loan required as a condition precedent to membership, whether or not any such payment, contribution, or loan is evidenced by a certificate of interest or indebtedness or share of stock, and irrespective of the person or organization to whom paid, contributed, or loaned. It is not material whether the applicant has any hope or expectation of a return of his payment upon resignation, death, or other circumstances, nor is it material to whom he pays the money. For instance, if a golf club requires incoming members as a condition precedent to membership to purchase either from it or from retiring members a share of stock, the tax attaches to any such payment for the stock regardless of the fact that it represents a property interest in the assets of the club. Likewise, if the purchase of a share of stock in a land-holding corporation is a necessary precedent to membership in the club, the amount paid for such share of stock is taxable. In the case of a transfer of stock from a retiring member the club should collect the tax on the amount paid by the new member for the stock as well as tax on any transfer fee required from the new member.

If the initiation fee exceeds $10, the tax attaches regardless of the amount of dues or membership fees paid by an active resident annual member. If the initiation fee does not exceed $10, the tax does not apply unless the dues or membership fees, exclusive of initiation fees, of an active resident annual member are more than $10 per year. If such dues or membership fees are in excess of $10 per year any amount paid as an initiation fee is taxable whether the payment exceeds $10 or not.

Where the application of the tax to initiation fees depends upon the amount paid as dues or membership fees by an active resident annual member all assessments, and all charges for social privileges or facilities or for golf, tennis, polo, swimming, or other athletic or sporting privileges or facilites, for any period of more than six days are to be included in ascertaining whether such dues or membership fees are in excess of $10 per year.*

LIFE MEMBERSHIPS

[SEC. 1710. TAX.]

[(a) *Rate.* There shall be levied, assessed, collected, and paid—]

(3) *Life memberships.* In the case of life memberships, a tax equivalent to the tax upon the amount paid by active resident annual members for dues or membership fees other than assessments, but no tax shall be paid upon the amount paid for life membership. In such a case, the tax shall be paid annually at the time for the payment of dues by active resident annual members.

(b) *By whom paid.* The taxes imposed by subdivision (a) shall be paid by the person paying such dues or fees, or holding such life membership.

§ 101.29 *Life membership.* Amounts paid for life memberships are not taxable but life members are liable for an annual tax equivalent to tax on the amount paid by an active resident annual member as dues or membership fees other than assessments. The fact that a life member was admitted to the club prior to the enactment of the law does not relieve him of paying the annual tax. Some clubs provide that active resident annual members, who have regularly paid dues or membership fees as such, shall, after a specified period of time, for example, 10 years, automatically become life members without being required to pay further dues or membership fees. In such cases amounts paid as dues or membership fees during the period of active resident annual membership are not paid for life membership within the meaning of the Code. They are paid as dues or membership fees and are taxable, provided the dues or fees of an active resident annual member are in excess of $10 per year. The tax likewise attaches to amounts paid for membership for more than one year but for less than life, such as 10-year or 20-year memberships. However, unless the holders of such memberships are required to pay annual dues or membership fees, or assessments, they are exempt from the annual tax imposed on active resident

annual members and life members. If any dues or membership fees or assessments are levied on such 10-year or 20-year members, the amounts so paid by them are taxable.

The annual tax imposed on life members is measured or determined by the tax paid by active resident annual members, on dues or membership fees (not including assessments) to be computed in the manner outlined in § 101.23. The annual tax must be paid by life members whether or not they are honorary life members and whether or not they actually avail themselves of the privileges of membership to which they are entitled. If a person is a life member, whether he is a resident or a nonresident, he must pay a tax equivalent to the tax on dues or fees paid by active resident annual members of the club, if such dues or fees are in excess of $10 per year.*

EXEMPTIONS

SEC. 1711. EXEMPTIONS FROM TAX.

There shall be exempted from the provisions of section 1710 all amounts paid as dues or fees to a fraternal society, order, or association, operating under the lodge system, or to any local fraternal organization among the students of a college or university.

§ 101.30 *Exempt organizations.* Section 1711 expressly exempts from tax "all amounts paid as dues or fees to a fraternal society, order, or association, operating under the lodge system, or to any local fraternal organization among the students of a college or university." "Operating under the lodge system" means carrying on activities under a form of organization that comprises local branches, chartered by a parent organization and largely self-governing, called "lodges," "chapters," or the like.

Examples. (1) An organization, formed for purely social purposes by Masons of the higher degrees, consisting of local "lodges" and a "grand lodge" falls within the exemption.

(2) Dues and fees paid to a "chapter" of a college fraternity are exempt from tax.

(3) Dues and fees paid to a "local" of a labor union are free from tax.

(4) A national organization, of a social, athletic, or sporting character, comprising no local bodies but organized as a single and nation-wide unit, to which each member belongs directly, does not fall within the exemption.

(5) Dues and fees paid by members of a local fraternal organization among the students of a college or university are exempt from tax.*

Whenever any person is required to collect or withhold any internal-revenue tax from any other person and to pay such tax over to the United States, the amount of tax so collected or withheld shall be held to be a special fund in trust for the United States. The amount of such fund shall be assessed, collected, and paid in the same manner and subject to the same provisions and limitations (including penalties) as are applicable with respect to the taxes from which such fund arose.

SEC. 3658. FRACTIONAL PARTS OF A CENT.

In the payment of any tax under this title not payable by stamp a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to 1 cent.

SEC. 3634. EXTENSION OF TIME FOR FILING RETURNS.

If the failure to file a return (other than a return of income tax) or list at the time prescribed by law or by regulation made under authority of law is due to sickness or absence, the collector may allow such further time, not exceeding thirty days, for making and filing the return or list as he deems proper.

SEC. 3632. AUTHORITY TO ADMINISTER OATHS, TAKE TESTIMONY, AND CERTIFY.

(a) *Internal Revenue personnel.*—

(1) *Persons in charge of administration of internal revenue laws generally.* Every collector, deputy collector, internal revenue agent, and internal revenue officer assigned to duty under an internal revenue agent, is authorized to administer oaths and to take evidence touching any part of the administration of the internal revenue laws with which he is charged, or where such oaths and evidence are authorized by law or regulation authorized by law to be taken.

(2) Persons in charge of exports and drawbacks.—Every collector of internal revenue and every superintendent of exports and drawbacks is authorized to administer such oaths and to certify to such papers as may be necessary under any regulation prescribed under the authority of the internal revenue laws.

(b) *Others.* Any oath or affirmation required or authorized by any internal revenue law or by any regulations made under authority thereof may be administered by any person authorized to administer oaths for general purposes by the law of the United States, or of any State, Territory, or possession of the United States, or of the District of Columbia, wherein such oath or affirmation is administered, or by any consular officer of the United States. This subsection shall not be construed as an exclusive enumeration of the persons who may administer such oaths or affirmations.

SEC. 3330. WITNESSING OF RETURNS IN LIEU OF OATH

The Commissioner, with the approval of the Secretary, may by regulation prescribe that any return required by any internal revenue law (except returns required under income or estate tax laws) to be under oath may, if the amount of the tax covered thereby is not in excess of $10, be signed or acknowledged before two witnesses instead of under oath.

SEC. 3612. RETURNS EXECUTED BY COMMISSIONER OR COLLECTOR.

EXAMINATIONS OF BOOKS AND WITNESSES

SEC. 3614. EXAMINATION OF BOOKS AND WITNESSES.

(a) *To determine liability of the taxpayer.* The Commissioner, for the purpose of ascertaining the correctness of any return or for the purpose of making a return where none has been made, is authorized, by any officer or employee of the Bureau of Internal Revenue, including the field service, designated by him for that purpose, to examine any books, papers, records, or memoranda bearing upon the matters required to be included in the return, and may require the attendance of the person rendering the return or of any officer or employee of such person, or the attendance of any other person having knowledge in the premises, and may take his testimony with reference to the matter required by law to be included in such return, with power to administer oaths to such person or persons.

* * * * * *

§ 101.31 *Duty to collect, return, and pay tax; admissions.* Every person (1) receiving any taxable payment for admission must collect the tax from the person making such payment at the time it is made, or granting any taxable free admission, must collect the tax at the time of issuance of the ticket or if no ticket is issued, at the time the person is admitted; (2) being the proprietor or manager of an opera house or any other place of amusement in a case where any person has the permanent use or a lease for the use of a box or seat therein which is subject to tax must collect the tax from such person.

A theater issuing a ticket in exchange for a less expensive ticket and an additional payment must collect the admissions tax due on the basis of the full price of the ticket so issued in exchange, less any tax previously collected in connection with the lower priced ticket.

If the permanent use or lease for the use of a box or seat is paid for, then the time for the collection of the tax is the same as that in the case of any other paid admission. If the right to use is granted free or is otherwise enjoyed without being directly paid for, then the tax must be collected at the time the right is granted. If these rules prove insufficient, by reason of attempts at evasion or otherwise, to insure the collection of the full tax due in any such case, then the proprietor or manager of the opera house or other place of amusement in which such box or seat is located shall collect each month, from the person entitled to the use of such box or seat, any balance of tax due from such person for the right to the use of such box or seat during the preceding month.

In each case there rests on the respective person collecting the tax the corresponding duty of then paying such tax to the collector of internal revenue in accordance with the provisions of § 101.33. The amount of tax collected constitutes a special fund in trust for the United States. See section 3661.

Every person (1) receiving payment of charges made for admission, refreshment, service, and merchandise at any roof garden, cabaret, or other similar place furnishing a public performance for profit, which entitle the patron to be present during any portion of such performance, or (2) selling or disposing of a ticket or card of admission at a price in excess of the established price of the admission for which such ticket or card is valid in a case where such excess is taxable shall make a monthly return and pay the tax due in accordance with the provisions of § 101.33. For penalties see § 101.44.

A broker may reimburse himself in an amount equal to the admissions tax imposed under the provisions of section 1700 (a) (1), which he has paid to the vendor from whom he purchased the ticket, provided the selling price and tax imposed thereon under such section are properly stamped, printed, or written on the ticket in accordance with the provisions of section 1702 of the Code and § 101.18 of the regulations in this part.*

§ 101.32 *Records; admissions.* (a) *Admissions subject to tax under section 1700 (a), (b), (c) and (d), as amended.* Every person required by the provisions of the Code to collect any tax on admissions must keep or cause to be kept an accurate daily record of admissions of all classes, including free or complimentary tickets or admissions and reduced rate admissions, even though certain classes are not taxable. The record must show as to each class of taxable admissions (1) all figures and other information necessary to determine the amount of tax due for the day, and (2) the amount of tax due for the day; and in the case of nontaxable admissions, the number of admissions of each class. The proprietor or manager of the business must certify, over his signature, to the correctness of the daily record, and if any other person is directly interested in the proceeds of the amounts received for admission, he or his agent must also certify to its correctness.

Every person subject to tax on excess charges must keep or cause to be kept a classified daily record showing as to each class of tickets sold (1) all figures and other information necessary to determine the amount of tax due for the day, and (2) the amount due as taxes on charges in excess of established price for the day. The daily record must show with respect to each class separately (1) the place to which admission is granted by the ticket, (2) the established price (exclusive of admission tax) of the admission granted by the ticket, and (3) the actual price (exclusive of any amount representing an admission tax) at which that sale of the ticket is made.

Whenever in the course of the business a report is prepared by a treasurer or manager for the benefit of the proprietor, or by the proprietor, treasurer, or manager for the benefit of some other interested party, whether the report be made daily or at regular intervals or at any time, a sworn copy of the report must be attached to and made a part of the records for the period covered thereby.

The daily records, including the sworn copies of reports, must be kept on file at the place of business, or at some other convenient location, for a period of at least four years from the date the tax became due, in such a manner as to be readily accessible to internal revenue officers. The daily record must be substantially in the form outlined below:

Date	Theater (or other place)	Evening or matinee	Number of tickets	Established box office price for each ticket	Selling price of each ticket	Excess charge on each ticket	Amount of tax	Customer's name—when sold to broker or other person for resale

(b) *Admissions subject to tax under section 1700 (e), as amended.* Every person required to pay the tax imposed by section 1700 (e), as amended on charges made for admission, refreshment, service, and merchandise, at any roof garden, cabaret, or other similar place furnishing a public performance for profit, must keep or cause to be kept adequate and sufficient records with respect to the operations for each day on which such public performances are held showing (1) the receipts from charges made for admission, refreshment, service, and merchandise paid by all patrons entitled to be present during any part of the performance; and (2) the tax due.

Such records shall contain sufficient information to enable the Commissioner to determine whether the correct amount of tax has been paid. The records shall at all times be open for inspection by internal revenue officers, and shall be maintained for a period of at least four years from the date the tax became due.*

§ 101.33 *Returns and payments; admissions.* Every person required to collect tax on admissions or to pay tax on charges in excess of the established price or to pay tax on charges for admission, refreshment, service, and merchandise at any roof garden, cabaret, or other similar place furnishing a public performance for profit, shall make each month from the daily record required by § 101.32, a return in duplicate on Form 729, in accordance with the instructions

printed on the back of that form. The return must be made under oath unless the amount of the tax covered by the return is $10 or less, in which case it may be signed or acknowledged before two witnesses instead of being under oath. The return, together with the amount of the tax, must be in the hands of the collector of internal revenue of the district in which is located the principal office or place of business of the person required to make the return, on or before the last day of the month following that for which it is made, except where otherwise prescribed. (See § 101.40.) When the last day of the month in which a return and payment are due falls on Sunday or a legal holiday, the return may be filed and payment made on the next secular or business day. If a person charged with the duty of collecting and paying over tax on taxable admission charges or paying tax on excess charges discontinues business for any reason, the last return to be filed should be marked "Final return."

The return shall include any tax due on free or reduced rate admissions. It must also be accompanied by an affidavit setting forth the names and addresses of all persons to whom nontaxable free or complimentary tickets or admissions were furnished for the purpose of performing special duties and the nature of the special duty performed by each. This affidavit should be prepared in triplicate. One copy should be retained by the taxpayer, and the other copies attached to the original and duplicate return forwarded to the collector.

Every person required to pay any tax on charges in excess of the established price of tickets sold for admission to theaters (or other places of amusement), shall prepare from the daily record, required by § 101.32, an information return in duplicate on Form 729–A for each theatre (or other place of amusement), in accordance with the instructions printed on the back of that form. If such person has more than one office, one consolidated information return for each theater (or other place of amusement), covering all branch offices should be filed. A copy of the information return for each theater (or other place of amusement) must be attached to the original and duplicate copies of the tax return on Form 729 filed for each calendar month. Any person who willfully fails to keep records as required by § 101.32, or to file the information returns prescribed herein, is liable to the penalties prescribed by law. For penalties see § 101.44.*

§ 101.34 *Application for and certificate of registry.* Every person (1) required by the provisions of the law to collect any tax on admissions or (2) being the owner or lessee of any place which he ordinarily or at times leases or subleases to other persons who impose charges for admissions to it or (3) required to pay any tax on charges in excess of established price, or (4) required to pay tax on charges for admission, refreshment, service, and merchandise at any roof garden, cabaret, or other similar place furnishing a public performance for profit, if not registered should make application for registry on Form 752.

In cases falling within classes (1) and (4) above (except such as are considered in § 104.35) such an application must be filed in the office of the collector of internal revenue of each district in which is located a place to which admissions are charged on account of which a duty to collect admission taxes is imposed on the person making such application. In cases falling within class (2) the application must be filed in the office of the collector of internal revenue of each district in which such a place is owned or leased. In cases falling within class (3) the application must be filed in the office of the collector of internal revenue of the district in which is located the principal place of business of the person making the application, or in which is located his residence, if he has no fixed place of business. The collector, if satisfied that all the statements made in the application for registry are correct, will issue a certificate of registry on Form 753 to the person who made the application. This certificate must be kept conspicuously posted in the principal place of business of the registrant, or be carried about with him if he has no fixed place of business. This certificate is not transferable from one person or firm to another, or, except in the case of a traveling show or similar organization, from one place of business to another.

Example. A certain hotel has a number of rooms which it rents from time to time for dances and other parties. This hotel falls within class (2) above and must be registered.*

§ 101.35 *Traveling shows.* The proprietor or manager of every show, circus, exhibition, Chautauqua, or other amusement enterprise, which is traveling or itinerant, shall file the application for registry required by § 101.34 with the collector of internal revenue of the district in which its headquarters, if it has any, are located. If it has no established headquarters, then the application shall be filed with the collector of the district in which the proprietor or manager resides. The certificate of registry, the daily record required by § 101.32, and a copy of each monthly return (see § 101.33) must be carried with the show and exhibited on request to collectors of other districts or to internal revenue agents.

This section applies only to shows, etc., which control the sale of tickets to their performances and the collection of tax. It does not apply, therefore, to traveling theatrical attractions, lyceum entertainers, or the like, who perform in theaters or other places where the local management controls the sale of tickets and the collection of the tax.

Examples. (1) A Chautauqua has its main office in a certain city. The lectures, entertainments, and other attractions which it furnishes constantly tour the country, moving from State to State. In this case the application for registry must be made with the collector of internal revenue of the district in which its main office is located.

(2) A certain theatrical company tours the country, playing in various theaters. All of these theaters have certificates of registry, and they take care of all matters connected with the sale of tickets, collection of tax, etc. Such a company does not fall within the provisions of § 101.34 and is not required to register.*

§ 101.36 *Leases of places.* Whenever a theater, hall, park, ballroom, or other place is leased for any occasion, there is imposed on the lessee the duty of collecting any taxes due on admissions to such place on that occasion. However, for the convenience of the parties and the safeguarding of the revenue, the lessor will be permitted, if properly registered in accordance with § 101.34 to assume responsibility for collection of the tax in such cases. If the lessor assumes such responsibility his tickets shall be used and the daily record required by § 101.32 kept as a part of the daily records of the lessor in the same manner and form as if there had been no lease of the place on that occasion, except that the name of the lessee must also appear on the daily record and he must certify to the correctness of such record. If the lessor, however, does not assume responsibility for the collection of the tax, the lessee, precisely like any other person collecting taxable admissions, must comply in all respects with these regulations, more particularly with §§ 101.31, 101.32, and 101.33. Every lessee or person who rents any theater, hall, park, ballroom, or other place (and every owner who operates such a place) for a term or period not exceeding 10 days, and who is charged with or assumes responsibility for collecting and making return on Form 729 of taxable admission charges, shall furnish immediately after each performance or occasion for which admission charges are collected, to the collector of the district in which such theater, hall, ballroom, or other place is located, a sworn statement on Form 827 showing the number of persons admitted, the amount paid for admission by each, the amount of tax collected, and the permanent address of the person responsible for making return on Form 729. It shall be the duty of every lessor or person who rents to any other person a theater, hall, park, ballroom, or other place to furnish him with a sufficient number of copies of Form 827 at the time of such lease or rental. Moreover, in such case the lessor, before or at the time of making the lease, must notify the collector of internal revenue of the district in which the place is located on Form 754 that such lease is being made.*

§ 101.37 *Duty to collect, return, and pay tax; dues and initiation fees.* Every social, athletic, or sporting club or organization must collect tax of 11 per cent on taxable payments of dues and initiation fees, such tax to be collected at the time the dues or fees are paid. The tax so collected shall be paid to the collector of internal revenue on or before the last day of the month succeeding that in which collected, except where otherwise prescribed. (See § 101.40.)

In the event payment for shares of stock or the like is made by an incoming member to a retiring member, or to a person or organization distinct from the club, the club should collect the tax on such payments from the incoming member at the time of his admission to membership.

Every club or organization having life members must collect from such life members the tax imposed on them by the Code. Such life members must, on their part, promptly pay such tax. It shall be collected and paid "at the time for the payment of dues by active resident annual members." Thus, if the dues or membership fees of an active resident annual member or, if another designation is used, a member whose privileges correspond to those usually enjoyed by active resident annual members, are payable in periodical installments, the tax due from life members becomes due and shall be collected and paid as and when these installments are paid. (Life members are not liable to tax on assessments levied against and paid by active resident annual members.)

In the event a member refuses to pay the tax on dues or initiation fees, or if for any reason the tax can not be collected from such member, the club shall report to the collector the name and address of the member, the amount and date of the payment on which the tax is due, and the circumstances surrounding the transaction. In the case of a life member who fails or refuses to pay the tax, the collector shall be advised of the name and address of the member, the amount of tax due, and the period of delinquency. Upon receipt of such information the collector shall report the matter promptly to the Commissioner for direct assessment.

A monthly return and payment of all taxes collected must be made in accordance with the provisions of § 101.39.

The amount of tax collected constitutes a special fund in trust for the United States. (See section 3661.)*

§ 101.38 *Records; dues.* Every social, athletic, or sporting club or organization, unless expressly exempted from the tax on dues, or unless free from that tax because neither the initiation fees of any class of its members nor the annual dues or membership fees of an active resident annual member exceed $10, shall keep an up-to-date record showing the names and addresses of its members of each class, the amounts they have paid as dues, membership fees, or assessments, the tax, and the dates paid, to the club or others as a prerequisite to membership. It shall also keep a record in which shall be entered each day (a) under the head of "Life membership" (1) the number of life members from whom a life-membership tax has been collected on that day, and (2) the total amount of tax so collected; and (b) under the head of each other class of membership (1) the number of members of that class paying on that day dues or membership fees or initiation fees, (2) the total amount so paid by members of that class, and (3) the total amount of tax collected on such payments. These records shall be kept at the office of the club or organization, or some other convenient and safe location, for a period of at least four years from the date the tax became due, in such a manner as to be readily accessible to internal-revenue officers.*

§ 101.39 *Returns and payments; dues.* Every social, athletic, or sporting club or organization, unless expressly exempted from the tax on dues, or unless free from that tax because neither the initiation fees of any class of its members nor the annual dues or membership fees of an "active resident annual member" exceed $10, shall prepare each month a return in duplicate on Form 729 in accordance with the instructions printed on the back of that form. The return must be made under oath, unless the amount of the tax is $10 or less, in which case it may be signed or acknowledged before two witnesses instead of being under oath. The return together with the amount of the tax must be in the hands of the collector of internal revenue of the district in which is located the principal office or place of business of the person required to make the return, on or before the last day of the month following that for which it is made, except where otherwise prescribed. (See § 101.40.) When the last day of such month falls on Sunday or a legal holiday, the return may be filed and payment made on the next secular or business day. A return must be made for each month whether or not taxable dues or fees have been collected. Where a club or organization has no tax to report during any month, this fact should be noted on the return filed for that month. If a club or organization ceases to exist the last return should be marked "Final return."

Examples. (1) A member of a club the dues and fees of which are taxable fails to pay his dues and is carried for a specified time before being expelled. Such member is not liable for payment of tax with respect to unpaid dues so long as they remain unpaid, but should the club succeed in collecting dues covering the period during which the member was delinquent it must collect and account for the tax on such dues.

(2) A member of a club the dues and fees of which are taxable refuses to pay the tax to the club. The club should report the case to the collector of internal revenue for the district in accordance with § 101.37 of these regulations.*

JEOPARDY ASSESSMENT

SEC. 3660. JEOPARDY ASSESSMENT.

(a) If the Commissioner believes that the collection of any tax (other than income tax, estate tax, and gift tax) under any provision of the internal-revenue laws will be jeopardized by delay, he shall, whether or not the time otherwise prescribed by law for making return and paying such tax has expired, immediately assess such tax (together with all interest and penalties the assessment of which is provided for by law). Such tax, penalties, and interest shall thereupon become immediately due and payable, and immediate notice and demand shall be made by the collector for the payment thereof. Upon failure or refusal to pay such tax, penalty, and interest, collection thereof by distraint shall be lawful without regard to the period prescribed in section 3690.

(b) The collection of the whole or any part of the amount of such assessment may be stayed by filing with the collector a bond in such amount, not exceeding double the amount as to which the stay is desired, and with such sureties, as the collector deems necessary, conditioned upon the payment of the amount collection of which is stayed, at the time at which, but for this section, such amount would be due.

§ 101.40 Jeopardy assessment. Whenever in the opinion of the collector it becomes necessary to protect the interests of the Government by effecting immediate collection of tax, the matter shall be promptly reported to the Commissioner by telegram or letter showing the reasons therefor. The communication must state the full name and address of the person involved, the kind and amount of tax due, and the period involved, so that the Commissioner can immediately assess the tax, together with all penalties and interest due. Such tax, penalties, and interest will, upon assessment, become immediately due and payable, and the collector shall, without delay, issue a notice and demand for payment thereof in full.

The collection of the whole or any part of the amount of such assessment may be stayed by filing with the collector a bond in such amount, not exceeding double the amount with respect to which the stay is desired, and with such sureties as the collector deems necessary, conditioned upon the payment of the amount, collection of which is stayed, at the time at which such amount would normally be due.

Upon refusal to pay, or failure to pay or give bond, the collector shall proceed immediately to collect the tax, penalty, and interest, by distraint, without regard to the 10-day period after notice and demand prescribed in section 3690.*

CREDITS AND REFUNDS

[SEC. 1715. PAYMENT OF TAX.]
(d) Excess payments.—

(1) Any person making a refund of any payment upon which tax is collected under this section may repay therewith the amount of the tax collected on such payment; and the amount so repaid may be credited against amounts included in any subsequent return.

(2) In the case of any overpayment or overcollection of any tax imposed by this chapter, the person making such overpayment or overcollection may take credit therefor against taxes due upon any return, and shall make refund of any excessive amount collected by him upon proper application by the person entitled thereto.

SEC. 3770. AUTHORITY TO MAKE ABATEMENTS, CREDITS, AND REFUNDS. [As amended by section 508 (b) of the Second Revenue Act of 1940]

(a) To Taxpayers.—

(1) *Assessments and collections generally.* Except as otherwise provided by law in the case of income, war-profits, excess-profits, estate, and gift taxes, the Commissioner, subject to regulations prescribed by the Secretary, is authorized to remit, refund, and pay back all taxes erroneously or illegally assessed or collected, all penalties collected without authority, and all taxes that appear to be unjustly assessed or excessive in amount, or in any manner wrongfully collected.

(2) *Assessments and collections after limitation period.* Any tax (or any interest, penalty, additional amount, or addition to such tax) assessed or paid after the expiration of the period of limitation properly applicable thereto shall be considered an overpayment and shall be credited or refunded to the taxpayer if claim therefor is filed within the period of limitation for filing such claim.

(3) *Date of allowance.* Where the Commissioner has signed a schedule of overassessments in respect of any internal revenue tax imposed by this title, the Revenue Act of 1932, or any prior revenue Act, the date on which he first signed such schedule (if after May 28, 1928) shall be considered as the date of allowance of refund or credit in respect of such tax.

* * * * *

SEC. 3313. PERIOD OF LIMITATION UPON REFUNDS AND CREDITS.

All claims for the refunding or crediting of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty alleged to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected must, except as otherwise provided by law in the case of income, war-profits, excess-profits, estate, and gift taxes, be presented to the Commissioner within four years next after the payment of such tax, penalty, or sum. The amount of the refund (in the case of taxes other than income, war-profits, excess-profits, estate, and gift taxes) shall not exceed the portion of the tax, penalty, or sum paid during the four years immediately preceding the filing of the claim, or if no claim was filed, then during the four years immediately preceding the allowance of the refund.

SEC. 3771. INTEREST ON OVERPAYMENTS.

(a) *Rate.* Interest shall be allowed and paid upon any overpayment in respect of any internal revenue tax at the rate of 6 per centum per annum.

(b) *Period.* Such interest shall be allowed and paid as follows:

(1) *Credits.* In the case of a credit, from the date of the overpayment to the due date of the amount against which the credit is taken, but if the amount against which the credit is taken is an additional assessment of a tax imposed by the Revenue Act of 1921, 42 Stat. 227, or any subsequent Revenue Act, then to the date of the assessment of that amount.

(2) *Refunds.* In the case of a refund, from the date of the overpayment to a date preceding the date of the refund check by not more than thirty days, such date to be determined by the Commissioner, whether or not such refund check is accepted by the taxpayer after tender of such check to the taxpayer. The acceptance of such check shall be without prejudice to any right of the taxpayer to claim any additional overpayment and interest thereon.

(c) *Additional assessment defined.* As used in this section the term "additional assessment" means a further assessment for a tax of the same character previously paid in part, and includes the assessment of a deficiency of any income or estate tax imposed by the Revenue Act of 1924, 43 Stat. 253, or by any subsequent Revenue Act.

SEC. 3772. SUITS FOR REFUND.

(a) *Limitations.*—

(1) *Claim.* No suit or proceeding shall be maintained in any court for the recovery of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty claimed to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected until a claim for refund or credit has been duly filed with the Commissioner, according to the provisions of law in that regard, and the regulations of the Secretary established in pursuance thereof.

(2) *Time.* No such suit or proceeding shall be begun before the expiration of six months from the date of filing such claim unless the Commissioner renders a decision thereon within that time, nor after the expiration of two years from the date of mailing by registered mail by the Commissioner to the taxpayer of a notice of the disallowance of the part of the claim to which such suit or proceeding relates.

(3) *Reconsideration after mailing of notice.*—Any consideration, reconsideration, or action by the Commissioner with respect to such claim following the mailing of a notice by registered mail of disallowance shall not operate to extend the period within which suit may be begun. This paragraph shall not operate (A) to bar a suit or proceeding in respect of a claim reopened prior to June 22, 1936, if such suit or proceeding was not barred under the law in effect prior to that date, or (B) to prevent the suspension of the statute of limitations for filing suit under section 3774 (b) (2).

(b) *Protest or duress.* Such suit or proceeding may be maintained, whether or not such tax, penalty, or sum has been paid under protest or duress.

* * * * *

SEC. 3774. REFUNDS AFTER PERIODS OF LIMITATION.

A refund of any portion of an internal revenue tax (or any interest, penalty, additional amount, or addition to such tax) shall be considered erroneous—

(a) *Expiration of period for filing claim.* If made after the expiration of the period of limitation for filing claim therefor, unless within such period claim was filed; or

(b) *Disallowance of claim and expiration of period for filing suit.* In the case of a claim filed within the proper time and disallowed by the Commissioner if the refund was made after the expiration of the period of limitation for filing suit, unless—

(1) within such period, suit was begun by the taxpayer, or

(2) within such period, the taxpayer and the Commissioner agreed in writing to suspend the running of the statute of limitations for filing suit from the date of the agreement to the date of final decision in one or more named cases then pending before the Board of Tax Appeals or the courts. If such agreement has been entered into, the running of such statute of limitations shall be suspended in accordance with the terms of the agreement.

* * * * *

SEC. 3775. CREDITS AFTER PERIODS OF LIMITATION.

(a) *Period against United States.* Any credit against a liability in respect of any taxable year shall be void if any payment in respect of such liability would be considered an overpayment under section 3770 (a) (2).

(b) *Period against taxpayer.* A credit of an overpayment in respect of any tax shall be void if a refund of such overpayment would be considered erroneous under section 3774.

§ 101.41 *Credit for overpayment.* The right to claim a credit exists only in the case of "overpayment or overcollection" and is confined in general to cases involving some clerical or mechanical error.

Credit for tax overpaid may be taken on a succeeding return, but a complete statement of the facts must be attached to the return on which the credit is claimed. If the amount overpaid was collected from other persons, there must be submitted a sworn statement showing repayment to the other persons. In the case of dues or initiation fees a complete list of the members making excess payments must be submitted, and it must be shown that no claim for refund has been filed by any member.

Complete and detailed records in support of a credit must be kept for a period of at least four years from the date the credit is taken.•

§ 101.42 *Abatement or refund of erroneous or illegal assessments or collections.* A claim for abatement or refund of taxes alleged to have been erroneously or illegally assessed or paid (or of any penalties assessed or collected without authority) must be filed by the person against whom they were assessed, or by whom they were in the first instance erroneously or illegally paid. The claim should be prepared on Form 843 and presented to the collector of internal revenue for the district in which the amount claimed was assessed or paid. (See section 3313 of the Code)

In any case where a club as agent of its members seeks a refund of tax collected by the club and paid over by it to the collector of internal revenue, since the members and not the club are the actual taxpayers, the claim must be accompanid by the following:

(a) An alphabetical list of the names of the taxpayers, showing the amount claimed in refund in behalf of each, and the dates on which the amounts were paid to the collector of internal revenue.

(b) A power of attorney executed by each person in whose behalf the claim is filed authorizing the organization to act as his agent. The power of attorney must be prepared in the usual form of such instruments; must be acknowledged before a notary public or signed in the presence of two witnesses, and must include a statement that any revocation thereof will not be effective until the Commissioner receives notification.

(c) A copy of the constitution and bylaws or other rules and regulations of the organization, together with a copy of each amendment thereto.

If a member files a refund claim himself there must be attached to the claim a statement of a responsible officer of the organization showing the date or dates when the amounts claimed were paid to the organization and the date or dates when the organization paid over such amounts to the collector.

If an amount claimed was collected by direct assessment against an individual member, the claim must be made in the name of the member and must set forth the date and place of payment and additional data sufficient to enable the Commissioner to pass upon its merits.

In the case of a deceased member, evidence of the authority to file the refund claim in his behalf must be submitted.•

§ 101.43 *Refund of overcollections.* Every person who makes an excess collection of tax under section 1700 or section 1710 shall upon proper application promptly refund such amount to the person entitled thereto, even though it has already been paid over to the collector of internal revenue and no corresponding credit or refund (see §§ 101.41 and 101.42) has yet been secured. As the tax on admission is based on the payment, not the admission, no refund of any part of such a tax is authorized merely because the person paying for admission does not actually make use of his right to admission. Where, however, an amount paid for admission is refunded it will be treated, as far as tax liability is concerned, as not having been paid, and the tax collected should be refunded to the taxpayer at the same time the payment for admission is refunded. As the tax on the permanent use or lease for the use of a box or seat is based on the right to use (see § 101.7), it is immaterial whether the box or seat is ever used or not, and, therefore, no refund can be granted on the ground that there was no actual use of the box or seat.•

PENALTIES AND INTEREST

SEC. 1717. ADDITION TO TAX IN CASE OF NONPAYMENT.

If the tax is not paid when due, there shall be added as part of the tax interest at the rate of 6 per centum per annum from the time when the tax became due until paid.

[SEC. 3612. RETURNS EXECUTED BY COMMISSIONER OR COLLECTOR.]

(d) *Additions to tax.*—

(1) *Failure to file return.* In case of any failure to make and file a return or list within the time prescribed by law, or prescribed by the Commissioner or the collector in pursuance of law, the Commissioner shall add to the tax 25 per centum of its amount, except that when a return is filed after such time and it is shown that the failure to file it was due to a reasonable cause and not to willful neglect, no such addition shall be made to the tax: *Provided,* That in the case of a failure to make and file a return required by law, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, if the last date so prescribed for filing the return is after August 30, 1935, then there shall be added to the tax, in lieu of such 25 per centum: 5 per centum if the failure is for not more than 30 days, with an additional 5 per centum for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 per centum in the aggregate.

(2) *Fraud.* In case a false or fraudulent return or list is willfully made, the Commissioner shall add to the tax 50 per centum of its amount.

* * * * *

(e) *Collection of additions to tax.* The amount added to any tax under paragraphs (1) and (2) of subsection (d) shall be collected at the same time and in the same manner and as a part of the tax unless the tax has been paid before the discovery of the neglect, falsity, or fraud, in which case the amount so added shall be collected in the same manner as the tax.

SEC. 3655. NOTICE AND DEMAND FOR TAX.

(a) *Delivery.* Where it is not otherwise provided, the collector shall in person or by deputy, within ten days after receiving any list of taxes from the Commissioner, give notice to each person liable to pay any taxes stated therein, to be left at his dwelling or usual place of business, or to be sent by mail, stating the amount of such taxes and demanding payment thereof.

(b) *Addition to tax for nonpayment.* If such person does not pay the taxes, within ten days after the service or the sending by mail of such notice, it shall be the duty of the collector or his deputy to collect the said taxes with a penalty of 5 per centum additional upon the amount of taxes, and interest at the rate of 6 per centum per annum from the date of such notice to the date of payment; except that in the case of income, estate or gift taxes, such penalties shall not apply and the interest for nonpayment of tax shall be such as is specifically provided by law with respect to such taxes.

SEC. 1718. PENALTIES.

(a) Any person required under this chapter to pay any tax, or required by law or regulations made under authority thereof to make a return, keep any records, or supply any information, for the purposes of the computation, assessment, or collection of any tax imposed by this chapter, who willfully fails to pay such tax, make such return, keep such records, or supply such information, at the time or times required by law or regulations, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than one year, or both, together with the costs of prosecution.

(b) Any person required under this chapter to collect, account for and pay over any tax imposed by this chapter who willfully fails to collect or truthfully account for and pay over such tax, and any person who willfully attempts in any manner to evade or defeat any tax imposed by this chapter or the payment thereof, shall, in addition to other penalties provided by law, be guilty of a felony and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

(c) Any person who willfully fails to pay, collect, or truthfully account for and pay over, any tax imposed by this chapter, or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall, in addition to other penalties provided by law, be liable to a penalty of the amount of the tax evaded, or not paid, collected, or accounted for and paid over, to be assessed and collected in the same manner as taxes are assessed and collected. No penalty shall be assessed under this subsection for any offense for which a penalty may be assessed under authority of section 3612.

(d) The term "person" as used in this section includes an officer or employee of a corporation, or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

§ 101.44 *Penalties and interest.* In case of failure to file a return within the prescribed time, a certain percentage of the amount of the tax is added to the tax unless the return is later filed and failure to file the return within the prescribed time is shown to the satisfaction of the Commissioner to be due to reasonable cause and not to willful neglect. The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate.

Failure to pay tax within the time fixed for filing returns causes interest to accrue automatically, without assessment of the tax by the Commissioner or notice to the taxpayer, to the actual date of payment or assessment, whichever is prior. The due date of the tax for the purpose of computing interest is the last day of the month within which the return is required to be filed and the tax paid.

Where assessment is made, and payment is not made within 10 days after the issuance of the first notice and demand (Form 17), there will accrue, under section 3655, a 5 percent penalty and interest at the rate of 6 per cent per annum computed upon the entire assessment from the date of issuance of Form 17 until date of payment. Where assessment is settled by partial payments, interest is computed at the above-prescribed rate from the date of the first 10-day notice through the date of first payment and on the balance from the next succeeding day to the date of the next payment until the assessment is paid in full.

If a claim for abatement is filed with the collector within 10 days after the date of the issuance of the first notice and demand, the 5 per cent penalty does not attach. If the assessment is not paid within 10 days after receipt of notice of rejection of the claim, the 5 per cent penalty applies. The filing of the claim does not stay the collection of interest, which continues to run for the full period that intervenes between the date of the first notice and demand and the date of payment.

If a false or fraudulent return is willfully made, the penalty under section 3612 (d) is 50 per cent of the total tax due for the entire period involved, *including any tax previously paid.*

Any person who willfully fails to pay or collect any tax due, file return, or keep records, or who attempts in any manner to evade or defeat the tax, is subject to a fine of $10,000, or imprisonment, or both, with costs of prosecution, and is also liable to a penalty equal to the amount of the tax not collected or paid. These penalties apply to an officer or employee who, as such officer or employee, is under a duty to perform the act in respect of which the violation occurs, as well as to any other person who fails or refuses to perform any of the duties imposed by the Code, i.e., pay or collect the tax, make return, keep records, supply information, etc.•

SEC. 3710. SURRENDER OF PROPERTY SUBJECT TO DISTRAINT.

(a) *Requirement.* Any person in possession of property, or rights to property, subject to distraint, upon which a levy has been made, shall, upon demand by the collector or deputy collector making such levy, surrender such property or rights to such collector or deputy, unless such property or right is, at the time of such demand, subject to an attachment or execution under any judicial process.

(b) *Penalty for violation.* Any person who fails or refuses to so surrender any of such property or rights shall be liable in his own person and estate to the United States in a sum equal to the value of the property or rights not so surrendered, but not exceeding the amount of the taxes (including penalties and interest (for the collection of which such levy has been made, together with costs and interest from the date of such levy.

(c) *Person defined.* The term "person" as used in this section includes an officer or employee of a corporation or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

[SEC. 3793. PENALTIES AND FORFEITURES.]

(b) *Fraudulent returns, affidavits, and claims.*

(1) *Assistance in preparation or presentation.* Any person who willfully aids or assists in, or procures, counsels, or advises the preparation or presentation under, or in connection with any matter arising under, the internal revenue laws, of a false or fraudulent return, affidavit, claim, or document, shall (whether or not such falsity or fraud is with the knowledge or consent of the person authorized or required to present such return, affidavit, claim, or document) be guilty of a felony, and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

(2) *Person defined.* The term "person" as used in this subsection includes an officer or employee of a corporation or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

SEC. 1703. PENALTIES.

(a) *Failure to print correct price on ticket.* Whoever sells an admission ticket or card on which the name of the vendor and price is not printed, stamped, or written, as provided in section 1702, or at a price in excess of the price so printed, stamped, or written thereon, is guilty of a misdemeanor, and upon conviction thereof shall be fined not more than $100.

Whoever in connection with the sale or lease, or offer for sale or lease, of any article, or for the purpose of making such sale or lease, makes any statement, written or oral, (1) intended or calculated to lead any person to believe that any part of the price at which such article is sold or leased, or offered for sale or lease, consists of a tax imposed under the authority of the United States, or (2) ascribing a particular part of such price to a tax imposed under the authority of the United States, knowing that such statement is false or that the tax is not so great as the portion of such price ascribed to such tax, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than $1,000 or by imprisonment not exceeding one year, or both.

In order to conform Regulations 90 [Part 400, Title 26, Code of Federal Regulations], relating to the excise tax on employers under Title IX of the Social Security Act (49 Stat. 639; 42 U.S.C., Sup. V, 1101 to 1110, inclusive), to section 701 of the Revenue Act of 1941, approved September 20, 1941 (Public Law 250—77th Congress), such regulations are amended as follows:

1. Immediately preceding article 211 [§ 400.211, Title 26, Code of Federal Regulations], as amended by Treasury Decision 4812 [§ 400.211 of such Title 26, 1938 Sup.], by Treasury Decision 4937 [§ 400.211 of such Title 26, 1939 Sup.], and by Treasury Decision 5022 [§ 400.211 of such Title 26, 1940 Sup.], relating to credit of contributions against the tax for the calendar years 1936, 1937, and 1938, the following is inserted:

SECTION 701 (a) OF THE REVENUE ACT OF 1941

Allowance of credit against tax for 1936, 1937, and 1938.—Against the tax imposed by section 901 of the Social Security Act for the calendar year 1936, 1937, or 1938, any taxpayer shall be allowed credit (if credit is not allowable under section 902 of such Act) for the amount of contributions paid by him into an unemployment fund under a State law—

(1) Before the sixtieth day after the date of the enactment of this Act, if such credit is claimed before the expiration of six months after such date of enactment;

(2) Without regard to the date of payment, with respect to wages paid after September 19, 1939;

(3) Without regard to the date of payment, if the assets of the taxpayer are, at any time during the fifty-nine-day period following such date of enactment, or were at any time during the period August 11, 1939, to October 8, 1939, inclusive, or the period October 9, 1940, to December 6, 1940, inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction.

The provisions of the Social Security Act in force prior to February 11, 1939 (except the provision limiting the credit to amounts paid before the date of filing returns), shall apply to allowance of credit under this subsection; except that the amount of credit against the tax for the calendar year 1936, 1937, or 1938, for contributions paid after December 6, 1940, shall not (unless the credit is allowable on account of paragraph (2) or (3)) exceed 90 per centum of the amount which would have been allowable as credit on account of such contributions had they been paid before the last day upon which the taxpayer was required under section 905 of such Act to file a return for such year. The terms used in this subsection shall have the same meaning as when used in title IX of such Act prior to February 11, 1939. The total credit allowable against the tax imposed by section 901 of such Act for the calendar year 1936, 1937, or 1938 shall not exceed 90 per centum of such tax.

2. Article 211 [§ 400.211, Title 26, Code of Federal Regulations], as amended by Treasury Decision 4812 [§ 400.211 of such Title 26, 1938 Sup.], by Treasury Decision 4937 [§ 400.211 of such Title 26, 1939 Sup.], and by Treasury Decision 5022 [§ 400.211 of such Title 26, 1940 Sup.], relating to credit of contributions against the tax for the calendar years 1936, 1937, and 1938, is further amended to read as follows:

§ 400.211 *Credit against tax for calendar year 1936, 1937, or 1938 for contributions paid.*—(a) *In general.* Subject to the limitations hereinafter prescribed in paragraphs (b), (c), (d), and (e), the taxpayer may credit against the tax for the calendar year 1936, 1937, or 1938 the total amount of his contributions under all State laws which have been found by the Social Security Board to contain the provisions specified in section 903 (a) of the Social Security Act; *Provided*, That no credit may be taken for a contribution under a State law if such State has not been duly certified for the calendar year to the Secretary by the Social Security Board. (See, however, article 503 (c) and (d) [§ 400.503 (c) and (d)] relating to the statutory period of limitations applicable to refunds and credits.)

(b) *Limitation on amount of credit allowable.* The total credit allowed to any taxpayer for contributions to State unemployment funds with respect to employment during any one year shall not exceed 90 percent of the tax against which such credit is applied.

(c) *Limitation on services with respect to which credit is allowable.* Contributions must have been paid with respect to employment as defined in section 907 (c) of the Social Security Act, that is, with respect to services performed by an employee within the United States and not excepted by such Act. (See articles 206 to 206 (7) [§§ 400.206 to 400.206 (7)], inclusive.)

(d) *Limitation on the taxable year in which services are performed.* Contributions must have been paid with respect to services performed during the calendar year covered by the return.

(e) *Limitation on the time within which contributions may be paid in order to be allowable as credit*—(1) *General rule.* Contributions must have been actually paid into a State unemployment fund before the last day upon which the return for the taxable year is required to be filed, except that under the conditions described in subparagraph (2), (3), (4), (5), or (6), below, credit may be allowed for contributions paid on or after such last day. (The last day for filing the return is January 31 next following the close of the taxable year unless the time for filing the return is extended. See article 303 (§ 400.303), article 304 (§ 400.304), and article 305 (§ 400.305).

(2) *Exception when contributions are paid on or after the last day for filing the return but before December 7, 1940.* Contributions paid into a State unemployment fund on or after the last day upon which the return for the taxable year is required to be filed but before December 7, 1940, may be credited against the tax provided such credit is claimed before March 21, 1942. The amount of such credit is the same amount that would have been allowable as credit had such contributions been paid before such last day. (See article 503½ [§ 400.503½, Title 26, Code of Federal Regulations, 1941 Sup.], relating to refund, credit, or abatement based on credit for contributions paid.)

(3) *Exception when contributions are paid after December 6, 1940, but before November 19, 1941.* Contributions paid into a State unemployment fund after December 6, 1940, but before November 19, 1941, may be credited against the tax, provided such credit is claimed before March 21, 1942. The amount of such credit shall not exceed 90 percent of the amount which would have been allowable as credit on account of such contributions had they been paid before the last day upon which the return for the taxable year was required to be filed. (See article 503½ [§ 400.503½, Title 26, Code of Federal Regulations, 1941 Sup.], relating to refund, credit, or abatement based on credit for contributions paid.)

(4) *Exception when taxpayers' assets are in custody or control of certain fiduciaries.* Contributions of a taxpayer whose assets, at any time during the period August 11, 1939, to October 8, 1939, inclusive, or the period October 9, 1940, to December 6, 1940, inclusive, or the period September 21, 1941, to November 18, 1941, inclusive, are in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction, may be paid into a State unemployment fund at any time, and upon such payment may be credited against the tax in the same amount that would have been allowable as credit had the contributions been paid before the last day upon which the return for the taxable year was required to be filed.

(5) *Exception when wages are paid after September 19, 1939, for employment during 1936, 1937, or 1938.* Contributions with respect to wages paid after September 19, 1939, for employment during the calendar year 1936, 1937, or 1938, may be paid into a State unemployment fund at any time, and upon such payment may be credited against the tax in the same amount that would have been allowable as credit had the contributions been paid before the last day upon which the return for such year was required to be filed.

(6) *Exception when contributions are paid to wrong State.* Contributions paid into the unemployment fund of a State which are required under the unemployment compensation law of that State, with respect to remuneration on the basis of which the taxpayer had, prior to such payment, erroneously paid an amount as contributions under another unemployment compensation law, shall be deemed to have been made at the time of the erroneous payment. If, by reason of such other law, the taxpayer was entitled to cease paying contributions with respect to services subject to such other law, the payment into the proper fund shall be deemed to have been made on the date the return for the taxable year was actually filed under section 905 of the Social Security Act.

(f) *Contributions.* The term "contributions" for purposes of credit against the tax means payments required to be made by an employer pursuant to a State law into the unemployment fund of such State, to the extent that such payments are made by the employer without any part thereof being deducted or deductible from the wages of individuals in his employ. Notwithstanding the provision limiting the term to payments required by a State law, the term also includes so much of any payments made as contributions for the calendar year 1936 or 1937 into the unemployment fund of a State which payments are held by the highest court of such State not to be required payments under the unemployment compensation law of such State, as are not returned to the taxpayer.

(g) *Refund of State contributions.* If, subsequent to the filing of the return, a refund is made by a State to the taxpayer of any part of his contributions which had been credited against the tax, the taxpayer is required to advise the Commissioner under oath of the date and amount of such refund and the reason therefor, and to pay the tax, if any, due as a result of such refund, together with interest from the date when the tax was due. [Art. 211]

3. Immediately preceding article 503½, added by Treasury Decision 4812 [§ 400.503½, Title 26, Code of Federal Regulations, 1938 Sup.], as amended by Treasury Decision 4937 [§ 400.503½ of such Title 26, 1939 Sup.], and by Treasury Decision 5022 [§ 400.503½ of such Title 26, 1940 Sup.], relating to certain refunds of the tax for the calendar years 1936, 1937, and 1938, the following is inserted:

SECTION 701 (c) OF THE REVENUE ACT OF 1941

Refund.—Refund, credit, or abatement of the tax (including penalty and interest assessed or collected with respect thereto, if any), based on any credit allowable under subsection (a) * * *, may be made in accordance with the provisions of law applicable in the case of erroneous or illegal assessment or collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund. On and after the date of the enactment of this Act no refund, credit, or abatement shall be allowed based on any credit allowable under section 810 of the Revenue Act of 1938, section 902 (a) of the Social Security Act Amendments of 1939, or section 701 of the Second Revenue Act of 1940.

4. Article 503½, added by Treasury Decision 4812 [§ 400.503½, Title 26, Code of Federal Regulations, 1938 Sup.], as amended by Treasury Decision 4937 [§ 400.503½ of such Title 26, 1939 Sup.], and by Treasury Decision 5022 [§ 400.503½ of such Title 26, 1940 Sup.], relating to certain refunds of the tax for the calendar years 1936, 1937, and 1938, is amended to read as follows:

§ 400.503½ *Refund, credit, or abatement of tax for calendar year 1936, 1937, or 1938, based on credit against such tax for contributions paid.* If the tax for the calendar year 1936, 1937, or 1938, against which an amount is allowable as credit, for contributions paid, under section 701 of the Revenue Act of 1941, has been paid without the benefit of such credit, the taxpayer shall be entitled to a refund or credit of the tax equal to the amount of such allowable credit for contributions paid. (See section 701 (a) (1) of the Revenue Act of 1941, which requires as a condition of the allowance of credit thereunder that the credit be claimed before March 21, 1942.) The taxpayer shall also be entitled to a refund or credit of the amount of interest

or penalty, if any, collected from him with respect to the tax refunded or credited. No interest, however, shall be allowed or paid by the Government on the amount of any such refund or credit. Every claim for such refund or credit shall be made on Form 843 in accordance with the provisions of this article and article 503 [§ 400.503, Title 26, Code of Federal Regulations], relating to refund and credit of taxes erroneously collected. A claim which does not comply with these requirements will not be considered for any purpose as a claim for refund or credit.

On and after September 20, 1941, no refund, credit, or abatement shall be allowed based on any credit allowable under section 810 of the Revenue Act of 1938, section 902 (a) of the Social Security Act Amendments of 1939, or section 701 of the Second Revenue Act of 1940. [Art. 503½]

Paragraph B—Credit against tax for 1939. In order to conform Regulations 90 [Part 400, Title 26, Code of Federal Regulations], only as made applicable to the Internal Revenue Code (53 Stat., Part 1; 26 U.S.C., Sup. V) by Treasury Decision 4885 [Chapter I, note, Title 26, Code of Federal Regulations, 1939 Sup.], to section 701 of the Revenue Act of 1941, approved September 20, 1941 (Public Law 250—77th Congress), such regulations are amended as follows:

1. Immediately preceding article 211 (1), added by Treasury Decision 4953 [§ 400.211 (1), Title 26, Code of Federal Regulations, 1939 Sup.], as amended by Treasury Decision 5022 and by Treasury Decision 5028 [§ 400.211 (1) of such Title 26, 1940 Sup.], relating to credit against the tax for the calendar year 1939 for contributions paid, the following is inserted:

SECTION 701 (b) OF THE REVENUE ACT OF 1941

Allowance of credit against tax for 1939 * * *. Against the tax imposed by the Federal Unemployment Tax Act for the calendar year 1939 * * *, any taxpayer shall be allowed credit (if credit is not allowable under section 1601 of such Act) for the amount of contributions paid by him into an unemployment fund under a State law—

(1) Before the sixtieth day after the date of the enactment of this Act, if such credit is claimed before the expiration of six months after such date of enactment;

(2) Without regard to the date of payment, if the assets of the taxpayer are, at any time during the fifty-nine-day period following such date of enactment, or were at any time during the period from the last day upon which the taxpayer was required under section 1604 of the Federal Unemployment Tax Act to file a return of the tax against which credit is claimed to June 30 next following such last day, inclusive, or (in the case of credit against the tax for the calendar year 1939) the period October 9, 1940, to December 6, 1940, inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. The provisions of the Federal Unemployment Tax Act (except section 1601 (a) (3)) * * * shall apply to allowance of credit under this subsection. The amount of such credit against the tax for the calendar year 1939 * * *, in the case of contributions paid after the last day upon which the taxpayer was required under section 1604 of the Federal Unemployment Tax Act to file a return for such year, shall not (unless the credit is allowable on account of paragraph (2)) exceed 90 per centum of the amount which would have been allowable as credit on account of such contributions had they been paid on or before such last day. The terms used in this subsection shall have the same meaning as when used in the Federal Unemployment Tax Act. The total credit allowable against the tax imposed by such Act for the calendar year 1939 * * * shall not exceed 90 per centum of such tax.

2. Article 211 (1), added by Treasury Decision 4953 [§ 400.211 (1), Title 26, Code of Federal Regulations, 1939 Sup.], as amended by Treasury Decision 5022 and by Treasury Decision 5028 [§ 400.211 (1) of such Title 26, 1940 Sup.], relating to credit against the tax for the calendar year 1939 for contributions paid, is further amended to read as follows:

§ 400.211 (1) *Credit against tax for calendar year 1939 for contributions paid*—(a) *In general.* Subject to the limitations hereinafter prescribed in paragraphs (b), (c), and (d), the taxpayer may credit against the tax for the calendar year 1939 the total amount of contributions paid by him under all State laws which have been found by the Social Security Board to contain the provisions specified in section 1603 (a) of the Federal Unemployment Tax Act: *Provided*, That no credit may be taken for a contribution under a State law if such State has not been duly certified for the calendar year to the Secretary by the Social Security Board. (See, however, article 503 (c) and (d) [§ 400.503 (c) and (d)], relating to the statutory period of limitations applicable to refunds and credits.) The contributions may be credited against the tax whether or not they are paid with respect to employment as defined in the Federal Unemployment Tax Act.

(b) *Limitation on amount of credit allowable.* The total credit allowed to any taxpayer for contributions to State unemployment funds shall not exceed 90 percent of the tax against which such credit is applied.

(c) *Limitation on the taxable year with respect to which contributions are allowable.* Contributions must have been paid with respect to the calendar year 1939.

(d) *Limitation on the time within which contributions may be paid in order to be allowable as credit*—(1) *General rule.* Contributions must have been actually paid into a State unemployment fund on or before the last day upon which the return for the taxable year is required to be filed, except that under the conditions described in subparagraph (2), (3), (4), or (5), below, credit may be allowed for contributions paid after such last day. (The last day for filing the return is January 31, 1940, unless the time for filing the return is extended. See article 303 [§ 400.303], article 304 [§ 400.304, Title 26, and 1939 Sup.], and article 305 [§ 400.305].)

(2) *Exception when contributions are paid after the last day for filing a return but before July 1, 1940.* Contributions may be paid into a State unemployment fund after the last day upon which the return for the taxable year is required to be filed but before July 1, 1940, and, in such case, may be credited, under section 1601 (a) (3) of the Federal Unemployment Tax Act, against the tax in an amount not to exceed 90 percent of the amount which would have been allowable as credit on account of such contributions had they been paid into the State unemployment fund on or before such last day.

(3) *Exception when contributions are paid after June 30, 1940, but before November 19, 1941.* Contributions may be paid into a State unemployment fund after June 30, 1940, but before November 19, 1941, and, in such case, may be credited, under section 701 of the Revenue Act of 1941, against the tax, provided such credit is claimed before March 21, 1942. The amount of such credit shall not exceed 90 percent of the amount which would have been allowable as credit on account of such contributions had they been paid into the State unemployment fund on or before the last day upon which the return for the taxable year was required to be filed. (See article 503 5/6 [§ 400.503 5/6, Title 26, Code of Federal Regulations, 1941 Sup.], relating to refund, credit, or abatement based on credit with respect to contributions.)

(4) *Exception when taxpayers' assets are in the custody or control of certain fiduciaries.* Contributions of a taxpayer whose assets, at any time during the period from the last day upon which the return for the calendar year 1939 is required to be filed to June 30, 1940, inclusive, or the period October 9, 1940, to December 6, 1940, inclusive, or the period September 21, 1941, to November 18, 1941, inclusive, are in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction, may be paid into a State unemployment fund at any time, and upon such payment may be credited against the tax in the same amount that would have been allowable as credit had the contributions been paid on or before the last day upon which the return for the taxable year was required to be filed.

(5) *Exception when contributions are paid to wrong State.* Contributions for the calendar year 1939 paid into the unemployment fund of a State which are required under the unemployment compensation law of that State, but which are paid with respect to remuneration on the basis of which the taxpayer had, prior to such payment, erroneously paid an amount as contributions under another unemployment compensation law, shall be deemed for purposes of credit to have been paid at the time of the erroneous payment. If, by reason of such other law, the taxpayer was entitled to cease paying contributions with respect to services subject to such other law, the payment into the proper fund shall be deemed for purposes of credit to have been made on the date the return was actually filed under section 1604 of the Federal Unemployment Tax Act.

(See, however, section 7 (b) of the Act approved August 13, 1940 (Public, No. 764, 76th Cong., 3d sess.), for a special provision relating to credit for certain contributions paid with respect to certain services affected by such Act; and see sections 1, 3, 4, and 6 of such Act quoted immediately preceding article 206 (8) [§ 400.206 (8), Title 26, Code of Federal Regulations, 1940 Sup.], relating to such services.)

(e) *Refund of State contributions.* If, subsequent to the filing of the return for the calendar year 1939, a refund is made by a State to the taxpayer of any part of his contributions for such year which had been credited against the tax, the taxpayer is required to advise the Commissioner under oath of the date and amount of such refund and the reason therefor, and to pay the tax, if any, due as a result of such refund, together with interest from the date when the tax was due."

3. Immediately preceding article 503 5/6, added by Treasury Decision 4953 [§ 400.503 5/6, Title 26, Code of Federal Regulations, 1939 Sup.], as amended by Treasury Decision 5022 [§ 400.503 5/6, Title 26, 1940 Sup.], relating to certain refunds of the tax for the calendar year 1939, the following is inserted:

SECTION 701 (c) OF THE REVENUE ACT OF 1941

Refund.—Refund, credit, or abatement of the tax (including penalty and interest assessed or collected with respect thereto, if any), based on any credit allowable under subsection * * * (b), may be made in accordance with the provisions of law applicable in the case of erroneous or illegal assessment or collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund. On and after the date of the enactment of this Act no refund, credit, or abatement shall be allowed based on any credit allowable under * * * section 701 of the Second Revenue Act of 1940.

4. Article 503 5/6, added by Treasury Decision 4953 [§ 400.503 5/6, Title 26, Code of Federal Regulations, 1939 Sup.], as amended by Treasury Decision 5022 [§ 400.503 5/6, Title 26, 1940 Sup.], relating to certain refunds of the tax for the calendar year 1939, is amended to read as follows:

§ 400.503 5/6. *Refund, credit, or abatement of tax for calendar year 1939, based on credit against such tax with respect to contributions.* If the tax for the calendar year 1939, against which an amount is allowable as credit under section 1601 of the Federal Unemployment Tax Act or section 701 of the Revenue Act of 1941, has been paid without the benefit of such credit, the taxpayer shall be entitled to a refund or credit of the tax equal to the amount of such allowable credit. (See section 701 (b) (1) of the Revenue Act of 1941, which requires as a condition of the allowance of credit thereunder that the credit be claimed before March 21, 1942.) The taxpayer shall also be entitled to a refund or credit of the amount of interest or penalty, if any, collected from him with respect to the amount of tax refunded or credited.

No interest, however, shall be allowed or paid by the Government on the amount of any such refund or credit. Every claim for such refund or credit shall be made on Form 843 in accordance with the provisions of this article and article 503 [section 400.503, Title 26, Code of Federal Regulations], relating to refund and credit of taxes erroneously collected. A claim which does not comply with these requirements will not be considered for any purpose as a claim for refund or credit.

On and after September 20, 1941, no refund, credit, or abatement shall be allowed based on any credit allowable under section 701 of the Second Revenue Act of 1940. [Art. 503⅝]

Paragraph C—Credit against tax for 1940. In order to conform Regulations 107 [Part 403, Title 26, Code of Federal Regulations, 1940 Sup.], relating to the excise tax on employers under the Federal Unemployment Tax Act (53 Stat. 183, 1387; 26 U.S.C., Sup. V, 1600 to 1611, inclusive), to section 701 of the Revenue Act of 1941, approved September 20, 1941 (Public Law 250—77th Congress), such regulations are amended as follows:

1. Immediately preceding § 403.401, relating to credit against the tax for the calendar year 1940 and subsequent years for contributions paid, the following is inserted:

SECTION 701 (b) OF THE REVENUE ACT OF 1941

Allowance of credit against tax for * * * *1940.* Against the tax imposed by the Federal Unemployment Tax Act for the calendar year * * * 1940, any taxpayer shall be allowed credit (if credit is not allowable under section 1601 of such Act) for the amount of contributions paid by him into an unemployment fund under a State law—

(1) Before the sixtieth day after the date of the enactment of this Act, if such credit is claimed before the expiration of six months after such date of enactment;

(2) Without regard to the date of payment, if the assets of the taxpayer are, at any time during the fifty-nine-day period following such date of enactment, or were at any time during the period from the last day upon which the taxpayer was required under section 1604 of the Federal Unemployment Tax Act to file a return of the tax against which credit is claimed to June 30 next following such last day, inclusive, * * * in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. The provisions of the Federal Unemployment Tax Act (except section 1601 (a) (3)), including such provisions as modified by section 902 (e) of the Social Security Act Amendments of 1939, shall apply to allowance of credit under this subsection. The amount of such credit against the tax for the calendar year * * * 1940, in the case of contributions paid after the last day upon which the taxpayer was required under section 1604 of the Federal Unemployment Tax Act to file a return for such year, shall not (unless the credit is allowable on account of paragraph (2)) exceed 90 per centum of the amount which would have been allowable as credit on account of such contributions had they been paid on or before such last day. The terms used in this subsection shall have the same meaning as when used in the Federal Unemployment Tax Act. The total credit allowable against the tax imposed by such Act for the calendar year * * * 1940 shall not exceed 90 per centum of such tax.

2. Section 403.401 (c), relating to the limitation on the time within which contributions may be paid in order to be allowable as credit, is amended by adding at the end of subparagraph (1) thereof the following new sentence: "See also subparagraphs (5) and (6), below, for special provisions relating to credit, against the tax for the taxable year 1940 only, for contributions paid."

3. Section 403.401 (c), relating to the limitation on the time within which contributions may be paid in order to be allowable as credit, is amended by adding at the end thereof the following new subparagraphs:

(5) *Credit, against tax for taxable year 1940 only, for contributions paid after June 30, 1941, but before November 19, 1941.* Notwithstanding the preceding provisions of paragraph (c), contributions may be paid into a State unemployment fund after June 30, 1941, but before November 19, 1941, and in such case may be credited, against the tax for the taxable year 1940 only, in an amount not to exceed 90 percent of the amount which would have been allowable as credit on count of such contributions had they been paid into the State unemployment fund on or before the last day upon which the return for the taxable year 1940 is required to be filed, provided such credit is claimed before March 21, 1942.

(6) *Credit, against tax for taxable year 1940 only, when taxpayers' assets are in custody or control of certain fiduciaries.* Contributions of a taxpayer whose assets, at any time during the period prescribed in subparagraph (3), above, or during the period September 21, 1941, to November 18, 1941, both dates inclusive, are in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction, may be paid into the State unemployment fund at any time (subject, however, to the provisions of § 403.602 (c), relating to the statutory period of limitations applicable to credits), and upon such payment, may be credited, against the tax for the taxable year 1940 only, in the same amount that would have been allowable as credit had the contributions been paid on or before the last day upon which the return for such year was required to be filed."

4. Immediately following the provisions of law under the caption "Section 1601 (a) (5) of the Act" preceding § 403.602, the following is inserted:

SECTION 701 (c) OF THE REVENUE ACT OF 1941

No interest shall be allowed or paid on the amount of any such credit or refund. * * *

(5) Section 403.602, relating to claims for refund, credit, or abatement, is

amended by adding at the end thereof the following new paragraph:

(g) *Refund, credit, or abatement of tax for calendar year 1940, based on credit against such tax for contributions paid.* The provisions of this section of these regulations shall apply in the case of claims for refund, credit, or abatement, based on credit, for contributions paid, allowable under section 701 of the Revenue Act of 1941. (See section 701 (b) (1) of the Revenue Act of 1941, which requires as a condition of the allowance of credit thereunder that the credit be claimed before March 21, 1942.)

PART 340—MINIMUM PRICE SCHEDULE, DISTRICT NO. 20

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 20 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 20

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 20; and

The Director finding that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The Director deeming his action necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, § 340.4 (*Code member price index*) is amended by adding thereto Supplement R, and § 340.21 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter, and applications to stay, terminate, or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless the Director shall otherwise order.

Dated: September 29, 1941.

[SEAL] H. A. GRAY, *Director*.

[Docket No. A-998]

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS OF THE HORTON MINE (MINE INDEX NO. 43) OF THE HILL COAL COMPANY, IN DISTRICT NO. 11

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by the above named party, requesting the adjustment of minimum prices for rail shipments for the coals produced at the Horton Mine (Mine Index No. 43), of the Hill Coal Company, in District No. 11.

The currently effective minimum prices for the Horton Mine in Market Area 34 are predicated upon a 55 cents per ton freight rate via the E. & O. V. Railway. The E. & O. V. Railway has obtained authority to abandon the west end of its line, which includes that part which runs from the Horton Mine to Market Area 34. Coals from the Horton Mine will now have to move to Market Area 34 on the Southern Railway via Rockport, Indiana, at the established freight rate of 85 cents per ton. In order to preserve the coordination of the Horton Mine as established in General Docket No. 15 with the base mines shipping into Market Area No. 34, it is necessary that the delivered prices for the base mines be the same for the Horton Mine for all rail shipments to Market Area 34, irrespective of the delivering railroad.

The Director finding that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The Director deeming his action necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing with, § 331.8 (*General prices*) in the Schedule of Effective Minimum Prices for District No. 11, For All Shipments, Except Truck, showing f. o. b. mine prices for the coals of the Horton Mine (Mine Index No. 43) of the Hill Coal Company for delivery into Market Area 34, are deleted and the price classifications and minimum prices set forth in the schedule marked Supplement R attached hereto and hereby made a part hereof are inserted in their place and stead.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter, and applications to stay, terminate or modify the temporary relief herein granted, may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless the Director shall otherwise order.

Dated: October 4, 1941.

[Docket No. A-439]

PART 342—MINIMUM PRICE SCHEDULE, DISTRICT NO. 22

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD 22 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR COALS PRODUCED IN DISTRICT NO. 22 FOR WHICH PRICE CLASSIFICATIONS AND MINIMUM PRICES HAVE NOT HERETOFORE BEEN ESTABLISHED

This proceeding was instituted upon petition filed with the Bituminous Coal Division by District Board 22, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, proposing and seeking temporary and permanent price classifications and minimum prices for coals of certain code member producers therein for shipment by truck, for which no minimum prices have been heretofore established. By an Order dated December 22, 1940, 6 F.R. 7, temporary relief was granted in accordance with the petitioner's requests herein, except in the following respects:[1]

No prices were established for the Larson Mine of O. E. Larson because it appeared from the records of the Division that there was some doubt as to whether he was a code member in good standing,[2] and no listing was made of the ten code members operating mines whose coals were classified and priced when operated by former code members.

Pursuant to the Order of December 22, 1940, a hearing was held on this matter before Thurlow Lewis, a duly designated Examiner of the Division, Salt Lake City, Utah. Appearances were entered at the hearing on behalf of District Board No. 22 and the Consumers' Counsel Division. At the hearing all interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise to be heard.

Waivers of a report of the Examiners were filed by the interested parties and the matter was thereupon submitted to the undersigned.

To support its requests for relief herein, the petitioner adduced the testimony of D. F. Buckingham, Secretary of the District Board 22. He testified concerning the three purposes of the petition herein as follows: (a) To establish classifications and minimum prices for four new code members in District 22 whose coals have not been previously classified or priced; (b) To establish classifications and minimum prices of the coals of the three District 22 code members which have been heretofore proposed by the petitioner but never established by the Division;[3] and (c) To amend the Schedule of Effective Minimum Prices for District No. 22 so as to include the names of ten code members in District 22 who are operating mines but whose coals were previously classified when the mines were operated by former code members.[4]

The new code members whose coals have not been previously classified or priced are the following:—William C. Rice, operator of the Rice Mine in Subdistrict No. 1 at Roundup, Montana; Frank Danichek (Superior Coal Company) operator of the Superior Mine in Subdistrict No. 2 at Bear Creek, Montana; Mert Calvert, operator of the Calvert Mine, in Subdistrict No. 7 at Armington, Montana; and David A. Stokes, operator of the Blair Mine in Subdistrict No. 12 near Valier, Montana. With respect to these producers, the witness testified that the coals were similar to coals produced by other mines in the immediate vicinity and should be priced accordingly.

Upon the basis of the uncontroverted evidence, I find that the petitioner's requests for the establishment of classifications and minimum prices of District 22 code members are reasonable and proper. It does not appear that any code members or consumers would be prejudiced, if the relief requested herein were granted.

The price classifications and minimum prices established in my Order dated December 22, 1940, and the requested classifications and minimum prices set forth in the petition herein with respect to those mines which were not covered by this Order, comply with all the applicable standards of the Bituminous Coal Act of 1937, and their establishment as the effective classifications and minimum prices for the coals in question is necessary in order to effectuate the purposes of Section 4 II (a) and (b).

Now, therefore, it is ordered, That § 342.4 (*Code member price index*) is amended by adding thereto Supplement R–I, § 342.5 (*General prices; minimum prices for shipment via rail transportation*) is amended by adding thereto Supplement R–II, and § 342.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: October 2, 1941.

[SEAL] H. A. GRAY, *Director*.

[1] Due to a clerical error, the temporary minimum price of the Size Group 2 coals produced at the Calvert Mine of Mert Calvert was established as $2.75 instead of $3.75. This error was corrected by "Notice Correcting Clerical Error," dated January 13, 1941, 6 F.R. 399.

[2] Division records show that O. E. Larson is now a code member in good standing since March 19, 1941.

[3] The coals of one of the three, O. E. Larson, have already been priced in Docket No. A-702. The coals of the other two, Red Lodge Coal Company (Guy McClelland) and Sunset Coal Company have been given temporary prices in this Docket.

[4] Nine of these mines have already been given listings. The tenth mine (Brophy, James R., S. & S. Mine) will be given a listing in the schedule accompanying this opinion and order.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—OFFICE OF PRODUCTION MANAGEMENT

SUBCHAPTER B—PRIORITIES DIVISION

PART 933—COPPER

Conservation Order No. M–9–c Curtailing the Use of Copper in Certain Items

Whereas national defense requirements have created a shortage of Copper for the combined needs of defense, private account, and export; action has already been taken to increase and conserve the supply and to direct the distribution of Copper to insure deliveries for defense and essential civilian requirements; and the supply of Copper now is and will be insufficient for defense and essential civilian requirements unless the use of Copper in the manufacture of many products where such use is not absolutely necessary for the defense or essential civilian requirements is curtailed or prohibited;

Now, therefore, it is hereby ordered, That:

§ 933.4 *Conservation order M–9–c*—(a) *Restrictions on use of copper in articles appearing on list "A"*—(1) *Curtailment to January 1, 1942.* Except as provided in paragraph (c) hereof, *curtailment to January 1, 1942.* Except as provided in paragraph (c) hereof, during the period between October 15 and December 31, 1941, no Manufacturer may use in the aggregate in the manufacture of any Item on List "A" attached, more Copper or Copper Base Alloy than the greater of the following two limits:

(i) One-half of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such Item during the last three months of 1940, or

(ii) One-eighth of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such Item during the year 1940.

If any Manufacturer is manufacturing any such Item which he did not manufacture in 1940, then during the period between October 15 and December 31, 1941, he may use in the manufacture of such Item Copper or Copper Base Alloy to a total amount not exceeding 50% of the total amount used by him in the manufacture of such Item during the period between August 1, and September 30, 1941.

(2) *Prohibitions after January 1, 1942.* Except as provided in paragraph (a) (3) and in paragraph (c) hereof, after January 1, 1942, no Manufacturer of any Item on List "A" attached, may use in the manufacture of any such Item any Copper or Copper Base Alloy.

(3) Substitution of Plating in Limited Cases. Nothing contained in this paragraph (a), however, shall prevent the use of Copper or Copper Base Alloy for plating any Item included on List "A", provided:

(i) That such plating is not primarily for decorative purposes, and

(ii) That the use of or the normal wear on such Item would make impractical any other form of coating, and

(iii) That such Item was formerly plated with Copper or Copper Base Alloy, or if such Item was not formerly so plated, then provided that the total amount of Copper or Copper Base Alloy to be used in the plating of each such Item is less than 5% of the amount that was used in the manufacture of each such Item immediately preceding the effective date of this Order.

(b) *Restrictions on use of copper sheet, strip and screening.* Except as provided in paragraph (c) hereof, after November 1, 1941, no person may use or apply Copper or Copper Base Alloy sheet, strip or screening for any purpose in connection with building construction except for minor repairs or maintenance (but not replacement) on existing buildings where the existing installation is Copper or Copper Base Alloy and no substitute can be used.

(c) *General exception.* The prohibitions and restrictions contained in paragraphs (a) and (b) shall not apply to the use of Copper or Copper Base Alloy in articles which are being produced:

(1) Under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of Copper or Copper Base Alloy to the extent employed is required by the specifications of the prime contract, or

(2) For use to comply with Underwriters Regulations, or Safety Regulations issued under Governmental authority, provided the pertinent provisions of such Regulations were, in either case, in effect both on October 1, 1941 and on the date of such use, and specifically and exclusively require the use of Copper or Copper Base Alloy to the extent employed, or

(3) Primarily as conductors of electricity, but this exception shall be applicable only to the extent necessary to permit the conducting of the electricity required, or

(4) For use in chemical plants to the extent that corrosive action makes the use of any other material impractical, or

(5) For use in research laboratories where and to the extent that the physical and chemical properties make the use of any other material impractical, or

(6) For use as condenser tubes, heat exchanger tubes (other than radiators which are used to control air temperature) and tube sheets in oil refining plants, in plants generating steam for public or industrial use and in plants generating electric power for public or industrial use, where and to the extent that corrosive action makes the use of any other material impractical.

(7) For use as part of the motive power or mechanical and electrical equipment of vessels other than pleasure craft where corrosive action makes the use of any other material impractical.

(d) *Restrictions on use of copper in all other articles.* During the period between October 15 and December 31, 1941, and during each three months' period thereafter, until further action by the Director of Priorities, no Manufacturer may use in the aggregate in the manufacture of any article not on List "A" attached, more Copper and Copper Base Alloy than the greater of the following two limits:

(i) 70% of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such article during the last three months of 1940, or

(ii) 17½% of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such article during the year 1940;

plus in either such case, the amount of Copper or Copper Base Alloy necessary to manufacture articles which are being produced pursuant to the exceptions of paragraph (c) hereof.

If any Manufacturer is manufacturing an article not on List "A" which he did not manufacture in 1940, then during the period between October 15 and December 31, 1941, and during each three months' period thereafter until further action by the Director of Priorities, he may use in the manufacture of such article Copper and Copper Base Alloy to a total amount not exceeding 50% of the total amount used by him in the manufacture of such article during the period between July 1 and September 30, 1941.

(e) *Prohibitions against sales or deliveries of copper or copper base alloy.* No person shall hereafter sell or deliver Copper or Copper Base Alloy, to any person if he knows, or has reason to believe such material is to be used in violation of the terms of this Order.

(f) *Limitation of inventories.* No Manufacturer shall accumulate an Inventory of Copper, or Copper Base Alloy or products thereof, in the form of raw materials, semiprocessed materials, finished parts or sub-assemblies in quantities in excess of a minimum practicable working Inventory, taking into consideration the limitations placed upon the production of Copper products by this Order. A minimum practicable working Inventory shall in no event exceed that amount of material necessary to maintain operations for sixty days. Any Manufacturer who has an Inventory in excess of a minimum practicable working Inventory is prohibited from receiving additional Copper or Copper Base Alloy or products thereof, beyond the extent necessary to maintain such minimum practicable working Inventory.

(g) *Miscellaneous provisions* — (1) *Priorities regulation No. 1.* All of the provisions and definitions of Priorities Regulation No. 1 issued by the Director of Priorities on August 27, 1941 (Part 944), as amended from time to time, are hereby included as a part of this Order with the same effect as if specifically set forth herein, except as otherwise specifically provided herein.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Copper conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Priorities, by addressing a letter to the Director of Priorities, Ref: M–9–c, Office of Production Management, Social Security Building, Washington, D. C., setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Priorities may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and restrictions contained in this Order shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other Order of the Director of Priorities may have the effect of limiting or curtailing to a greater extent than herein provided, the use of Copper or Copper Base Alloy in the production of any article, the limitation of such other Order shall be observed.

(4) *Violations or false statements.* Any person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Priorities, or who otherwise wilfully furnishes false information to the Director of Priorities or to the Office of Production Management may be deprived of priorities assistance or may be prohibited by the Director of Priorities from obtaining any further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this Order:

(i) "Copper" means Copper metal which has been refined by any process of electrolysis or fire refining to a grade and in a form (cathodes, wire bars, ingot bars, ingots, cakes, billets, wedge bars or other refined shapes) suitable for fabrication, or in any stage of fabrication. It shall include Copper metal produced from scrap.

(ii) "Copper base alloy" means any alloy in the composition of which the percentage of Copper metal by weight equals or exceeds the percentage of all other metals.

(iii) "Inventory" of a Person includes the Inventory of affiliates and subsidiaries of such Person, and the Inventory of others where such Inventory is under the control of or under common control with or available for the use of such Person.

(iv) "Manufacturer" means one who manufactures, fabricates, assembles, melts, casts, extrudes, rolls, turns, spins or processes in any other way.

(v) "Item" means any article or any component part thereof.

(6) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Priorities. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; O.P.M. Reg. 3 Amended Sept. 2, 1941, 6 F.R. 4865; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875, Aug. 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session; sec. 9, Public No. 783, 76th Congress, Third Session)

Issued this 21st day of October 1941.

DONALD M. NELSON,
Director of Priorities.

[Docket No. A-1035]

PETITION OF DISTRICT BOARD NO. 8 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 8

[Docket No. A-1035 Part II]

PETITION OF DISTRICT BOARD NO. 8 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE PERKINS MINE (MINE INDEX NO. 2628) OF J. E. WARRICK, A CODE MEMBER IN DISTRICT NO. 8

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1035 PART II FROM DOCKET NO. A-1035, GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1035 PART II, AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A-1035 PART II

An original petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 was filed by District Board No. 8 in Docket No. A-1035 proposing price classifications and minimum prices for the coals of certain mines in that district. Among the mines included in that petition is the Perkins Mine (Mine Index No. 2628) of J. E. Warrick. The petition proposes that the Perkins Mine be permitted to load its coals at Saxton, Kentucky, on the Louisville & Nashville Railroad, and at Jellico, Tennessee, on the Southern Railway. The petition states that the coal shipped from Jellico, Tennessee, must be hauled by truck from the Perkins Mine to the loading facilities. It does not appear that this is true of shipments made from Saxton. The Director, therefore, deems it appropriate that price classifications and minimum prices should be established at this time for this coal for shipments on the Louisville & Nashville Railroad from Saxton, Kentucky, and that a hearing be held to determine the propriety of granting permission to make shipments by rail from this mine on the Southern Railway from Jellico, Tennessee.

It is, therefore, ordered, That the portion of Docket No. A-1035 relating to Mine Index No. 2628 be severed from the remainder of the docket and that it be designated hereafter as Docket No. A-1035 Part II.

It is further ordered, That a reasonable showing of necessity having been made, pending final disposition of the above matter, temporary relief be and the same is hereby granted as follows: Commenc-

premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before November 8, 1941.

All persons are hereby notified that the hearing in the above-entitled matter and tenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Shipman or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the ing forthwith the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck is supplemented by including the price classifications and minimum prices set forth in the Schedule marked Supplement R annexed hereto and hereby made a part hereof.

Notice is hereby given that applications to stay, modify or terminate the temporary relief granted in this Order may be filed in accordance with the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act; and

It is further ordered, That a hearing be held under the applicable provisions of the Act and the rules of the Division on November 14, 1941, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the establishment of price classifications and minimum prices for coals produced at the Perkins Mine (Mine Index No. 2628) of J. E. Warrick for All Shipments Except Truck with permission to make shipments on the Louisville & Nashville Railroad at Saxton, Kentucky and on the Southern Railway at Jellico, Tennessee.

Dated: October 7, 1941.

Director.

§ 724.332 *Instructions and forms.* The Administrator of the Agricultural Adjustment Administration shall cause to be prepared and issued such instructions and such forms as may be deemed necessary or expedient for carrying out the regulations in this subpart.*

§ 724.333 *Tobacco subject to marketing quotas.* Any tobacco marketed during the period October 1, 1941, to September 30, 1942, inclusive, and any tobacco produced in the calendar year 1941 and marketed prior to October 1, 1941, shall be subject to the marketing quotas for the 1941–42 marketing year.*

FARM MARKETING QUOTAS [1]

§ 724.334 *Amount of farm marketing quota.* The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with the "Procedure for Determination of Burley Tobacco Acreage Allotments for 1941" (Form 41–Tob–38 and Supplement 1). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1941 times the farm acreage allotment. The excess tobacco on any farm shall be that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1941 times the number of acres harvested in excess of the farm acreage allotment.*

§ 724.335 *Issuance of marketing card.* A marketing card shall be issued for every farm having tobacco available for marketing. The card shall be issued after information required for its preparation (including measurements of the harvested acreage of tobacco and an estimate of the actual production of tobacco) has been furnished to or obtained by the county office. If the farm operator refuses to furnish or prevents the county office from obtaining such information, the card shall show that all of the tobacco available for marketing from the farm is subject to penalty.

(a) *Within quota marketing card (Form 41–Tob–47).* A "Within Quota Marketing Card" authorizing the marketing without penalty of the actual production of tobacco on the farm acreage allotment in 1941 shall be issued for a farm (other than a farm having tobacco carried over from a crop produced prior to 1941) under the following conditions:

(1) If the harvested acreage of tobacco in 1941 is not in excess of the farm acreage allotment (except as provided in paragraph (b) (1) and (2) of this section) and the operator of the farm does not operate any other farm on which the harvested acreage exceeds the acreage allotment.

[1] Instructions for determining marketing quotas, issuing marketing cards, and with respect to the rights of producers in the quota for farms having tobacco which was produced thereon in a calendar year prior to 1941 and carried over to the 1941–42 marketing year will be issued in Supplement 1 to these regulations.

(2) If the farm is operated by a publicly owned experiment station and the tobacco is produced for experimental purposes only.

(b) *Excess marketing card (Form 41–Tob–48).* An "Excess Marketing Card" showing the extent to which marketings of tobacco from the farm are subject to penalty shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1941 is in excess of the farm acreage allotment or the operator of the farm also operates any other farm on which the harvested acreage of tobacco in 1941 exceeds the farm acreage allotment.

(2) If the acreage of tobacco planted on the farm in 1941 is in excess of the farm acreage allotment and the operator does not dispose of the acreage in excess of the allotment prior to harvesting such tobacco and within 15 days after receiving notice of such excess acreage from the county office.

(3) If a within quota marketing card could be issued for the farm but the county committee determines that a zero percent excess marketing card is necessary to protect the interest of the government and to insure the proper identification of and accounting for the disposition of tobacco produced on the farm and the proper use of the marketing card issued for the farm.

(4) If there is tobacco available for marketing from the farm but no tobacco acreage allotment was established.

(5) If information required for preparation of the marketing card is not furnished or the county office is prevented from obtaining the necessary information.

(c) *Extent to which marketings from a farm are subject to penalty.* The extent to which marketings of tobacco from any farm are subject to penalty (except as provided in Supplement 1 to these regulations) shall be that percentage of the tobacco available for marketing from the farm which the acreage of tobacco harvested in excess of the farm acreage allotment for the farm is of the acreage of tobacco harvested from the farm (or if tobacco is disposed of without marketing after harvesting, that percentage which the amount of tobacco available for marketing from the farm in excess of the farm marketing quota is of the total amount of tobacco available for marketing from the farm). Each marketing card showing a percentage excess of zero also shall show a maximum number of pounds of tobacco which may be marketed thereunder which shall be the quantity of tobacco estimated by the county committee to be available for marketing from the crop produced on the farm. For any excess marketing card which shows a percentage excess of more than zero the county committee, if it has reason to believe it to be necessary in order to prevent marketing thereunder of tobacco produced on another farm, also shall have shown on the card a maximum number of pounds which may be marketed thereunder, such number of pounds to be determined in the same manner as for a card showing zero percent excess. The maximum number of pounds shown on any excess marketing card shall be increased by the county committee if the committee determines that the quantity of tobacco available for marketing from the crop produced on the farm is greater than the number of pounds previously estimated by the committee to be available for marketing.

(d) *Number of marketing cards and entries and signatures thereon.* One or more marketing cards may be issued for any farm as approved by the county office. All entries on each marketing card shall be made in accordance with instructions for issuing marketing cards. The Receipt and the "Operator's Agreement" on each marketing card shall be signed by the farm operator or on his behalf by his authorized representative and by the person who delivers the card to the operator.*

§ 724.336 *Disposition of excess tobacco.* The amount of excess tobacco available for marketing for any farm shall be determined on the basis of the tobacco available for marketing from the farm at the time the marketing card is issued for the farm. Disposition of excess tobacco, other than by marketing shall be made only by the farm operator (or his representative) but the county committee (or a representative of the committee) shall approve the disposition. The county committee shall cause a record to be made showing the amount of tobacco (in acres or pounds) disposed of and may require the farm operator (or his representative) to sign a statement that such record is accurate before giving approval to the disposition. If all tobacco has been harvested prior to the disposition of the excess tobacco, the amount of excess tobacco available for marketing can be reduced only to the extent that the tobacco so disposed of is representative of the tobacco available for marketing from the farm.*

§ 724.337 *Report on marketing card.* The operator of each farm on which tobacco is produced in 1941 shall return to the county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than thirty days after the close of the tobacco auction markets for the area in which the farm is located. Failure to return the marketing card to the county office within the time specified shall constitute failure to give proof of disposition of tobacco marketed from the farm in the event that satisfactory proof of such disposition is not furnished otherwise.*

§ 724.338 *Additional reports by producers and identification of tobacco.* In addition to any other reports which may be required under the regulations in this subpart, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment and even though no allotment was established for the farm) shall, upon written request by the Chief of the Marketing Quota Section, and within ten days after the deposit of such request in the United States mails addressed to such person as his last known address, furnish the Secretary of Agriculture, by sending the same to the Chief of the Marketing Quota Section, a report on Form 41–Tob–76 showing as to the farm at the time of filing said report (a) the number of acres of tobacco harvested, (b) the total production of tobacco, (c) the amount of tobacco on hand and its location, and (d) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price, and the date of marketing.*

§ 724.339 *Rights of producers in marketing card.* Each producer having a share in the tobacco available for marketing from the farm shall be entitled to the use of the marketing card for marketing his proportionate share of the total amount of tobacco available for marketing from the farm.*

§ 724.340 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from the farm shall, to the extent of such succession, have the same rights as the producer to the use of marketing card for the farm.*

§ 724.341 *Person authorized to issue cards.* The county committee shall designate one person to sign marketing cards for farms in the county as issuing agent. No marketing card shall be signed by the issuing agent until all other entries required to be made thereon have been made, except that the operator's receipt therefor and the Operator's Agreement therein may be signed after the issuing agent has signed the card, but prior to its delivery to the farm operator. Only one person shall be designated as issuing agent but such person may, subject to the approval of the county committee, designate not more than three persons to sign his name in issuing marketing cards: *Provided*, That each such person shall place his initials immediately beneath the name of the issuing agent as written by him on the card.*

§ 724.342 *Invalid cards.* A marketing card shall be invalid under any of the following conditions:

(a) If it is not issued or delivered in the form and manner prescribed;

(b) If entries are not made thereon as required;

(c) If it is lost, destroyed, stolen, or becomes illegible;

(d) If any erasure has been made; or

(e) If any alteration has been made and not properly initialed.

In the event any marketing card becomes invalid (other than by loss, destruction, theft, omission, alteration, or incorrect entry which can be corrected

by a field assistant) the farm operator (or the person having the card in his possession) shall return it to the county office at which it was issued.

If any marketing card is lost, destroyed, stolen, or altered, the person having knowledge of such loss, destruction, theft, or alteration shall notify the county office to that effect, and the county office shall immediately notify the field office of the Marketing Quota Section for the belt.

If any marketing card which was reported as lost, destroyed, stolen, or altered is later received by the county office, the county office shall immediately notify the field office of the Marketing Quota Section of the receipt of such card.

At the end of two weeks after receipt of notice of loss, destruction or theft of any marketing card the county office may issue a duplicate marketing card to replace the lost, destroyed, or stolen card in accordance with instructions issued pursuant to the regulations in this subpart.

In the event any marketing card was improperly issued, has been altered, or become illegible, upon the return of the card to the county office a new marketing card shall be issued immediately, or as soon thereafter as the necessary information is available.

If any entry is not made on a marketing card as required (either through omission or incorrect entry) and the proper entry is made by a field assistant then such card shall become valid. If the field assistant is unable to make the proper entry, he shall return the card to the county office where it shall be retained until such entry is made, or a new marketing card is issued, as provided above.*

§ 724.343 *Additional cards and disposition of used cards.* Upon the return to the county office of the marketing card after all the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. Any marketing card issued to replace another card shall have entered thereon the total sales as shown on the marketing card which is replaced.*

§ 724.344 *Report of probable misuse of marketing card.* Any information which causes any field assistant, a member of any local committee, or an employee of the county office to believe that any tobacco which actually was produced on another farm has been or is being marketed under the marketing card for a particular farm shall be reported immediately by such person to the field office of the Marketing Quota Section.*

§ 724.345 *No transfers.* There shall be no transfer of marketing quotas.*

MARKETING OF TOBACCO AND PENALTIES

§ 724.346 *Memorandum of sale to identify every marketing.* Each marketing of tobacco from a farm shall be identified by a memorandum of sale issued from the marketing card (Form 41–Tob–47 or 41–Tob–48) for the farm but if a memorandum of sale cannot be obtained within four weeks after the date of the marketing of any tobacco at a warehouse sale, such marketing of tobacco shall be subject to penalty and the amount of penalty shall be shown on the memorandum of sale cleared without marketing card (Form 41–Tob–68). The memorandum of sale shall be issued only by a field assistant, with the following exception:

(a) A warehouseman, or his authorized representative, who has been authorized on Form 41–Tob–75, may issue a within quota memorandum of sale to identify a warehouse sale, if a field assistant is not available at the warehouse when the card is presented by the farmer, but in such case the memorandum of sale shall be presented promptly by the warehouseman to the field assistant for verification with the warehouse records.

(b) A representative of the county office may issue memoranda of sale covering sales of tobacco by the producer in small lots by mail order or directly to various individuals other than dealers.

The authorization to issue within quota memoranda of sale under paragraph 1 above may be withdrawn from any warehouseman upon written notice by the Chief of the Marketing Quota Section.

Each excess memorandum of sale, after issuance by a field assistant, shall be checked by the warehouseman or dealer (or his representative) to determine whether the amount of penalty shown thereon to be due has been correctly computed, and the warehouseman or dealer shall be responsible for the correctness of such computations.

If the quantity of tobacco previously identified by memoranda of sale issued from any within quota marketing card is in excess of the number of pounds assigned to the card, the person issuing the memorandum shall require the farm operator to sign the "Operator's Certificate" on the back of the memorandum and if he is satisfied that such signature is the same as the signature of the farm operator on the marketing card, he may issue the memorandum. If any person other than the operator presents the marketing card, the memorandum of sale shall not be issued unless the "Authorization for Agent", on the back of such memorandum has been properly executed and signed by the operator, or by the person who presents the marketing card, in the event that such person signs his name as agent of the farm operator and places his address immediately beneath his signature. Any person authorized to issue a memorandum of sale under either of the above described circumstances who has reason to believe that the tobacco to be covered by the memorandum was not produced on the farm for which the marketing card containing the memorandum was issued, may or may not issue the memorandum as he considers advisable, but in either event he shall immediately make a written report of the circumstances in the case to the field office of the Marketing Quota Section for the area in which the tobacco is sold.*

§ 724.347 *Bill of nonwarehouse sale.* Each marketing of tobacco, except a warehouse sale, shall be identified by a Bill of Nonwarehouse Sale (Form 41–Tob–64) completely executed by the buyer and the farm operator, except for the entry of the serial number of the memorandum of sale. The post card copy (Form 41–Tob–64a) shall be mailed by the farm operator not later than the day following the day on which executed. The original of each Bill of Nonewarehouse Sale covering any marketing shall be presented to a field assistant for issuance of a memorandum of sale or a memorandum of sale cleared without marketing card) and for recording in the Dealer's Record Book in case of a purchase by a dealer other than a warehouseman.*

§ 724.348 *Marketings free of penalty.* Any tobacco marketed from a farm which is identified by a valid memorandum of sale from the marketing card issued for the farm shall be free of penalty to the extent shown by the memorandum of sale.*

§ 724.349 *Marketings subject to penalty and collection of penalties*—(a) *Farm tobacco.* With respect to tobacco marketed from farms, having excess tobacco available for marketing, the penalty shall be paid upon that proportion of each lot of tobacco which the tobacco available for marketing in excess of the farm quota (at the time of issuance of the marketing card) is of the total amount of tobacco available for marketing from the farm. The memorandum of sale issued to identify such marketing of tobacco shall show that portion of such marketing which is subject to penalty and any portion of such marketing of tobacco which is not shown by the memorandum as being subject to penalty shall be free of penalty.

(b) *Dealer's tobacco.* Any marketing of tobacco by a dealer which such dealer represents to be a resale, but all or any part of which, when added to prior resales by such dealer as shown on the Dealer's Record, is in excess of the total amount of purchases as shown on such Dealer's Record shall be a marketing of tobacco subject to penalty unless and until the dealer furnishes proof acceptable to the Secretary showing that such tobacco is not subject to penalty. Any marketing of tobacco by a dealer which such dealer represents to be a resale of tobacco previously purchased by him but which, because of the difference in the price at which such tobacco is resold as compared with the price at which he had purchased the tobacco, cannot reasonably be regarded as tobacco previously purchased by him shall be taken to be a marketing of tobacco subject to penalty.

(c) *Tobacco not identified by a valid memorandum.* Any marketing of tobacco which is not identified by a valid memorandum of sale shall be subject to penalty.

(d) *Liability in case of error on memorandum.* The person liable for the payment of the penalty upon any marketing of tobacco shall not be relieved of such liability because of any error which may occur on the memorandum of sale.*

§ 724.350 *Persons to pay penalty and deduction from purchase price*—(a) *Warehouse sale.* If the tobacco is marketed by the producer through a warehouseman the penalty shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Sale other than warehouse sale.* If the tobacco is acquired from the producer in any manner other than through a warehouse sale, the penalty shall be paid by the person who acquired the tobacco, but such person may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Agent.* If the tobacco is marketed by the producer through an agent who is not a warehouseman, the penalty shall be paid by the agent, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Agent in case of false representation.* If any person markets tobacco representing that such tobacco is being marketed from one farm when in fact such tobacco is being marketed from another farm, then such person, as agent, shall pay any penalty due upon such marketing of tobacco.

(e) *Warehouseman and dealer on dealer's tobacco.* Any penalty due upon tobacco subject to penalty under § 724.-349 (b) shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the dealer, but the dealer shall not be relieved of responsibility for payment of such penalty.

(f) *Producer marketing outside United States.* If the tobacco is marketed by the producer directly to any person outside the United States, the penalty shall be paid by the producer.

(g) *Producer on behalf of buyer in case of mail order or direct sales in small lots.* If the tobacco is marketed in small lots by the producer by mail order sales or directly to various individuals other than dealers, the penalty may be paid by the producer of such tobacco on behalf of the various buyers. In such case the buyer of such tobacco shall be relieved of the penalty to the extent that it is paid by the producer.*

§ 724.351 *Amount of penalty.* The penalty shall be ten cents per pound upon any marketing of tobacco which is not identified under the regulations in this subpart as being free from penalty.*

§ 724.352 *Penalty for false identification or failure to account for disposition of tobacco.* If any producer falsely identifies or fails to account for disposition of any tobacco, an amount of tobacco equal to the normal yield (determined under the 1941 Agricultural Conservation Program) of the number of acres harvested in 1941 in excess of the farm acreage allotment shall be deemed to have been marketed in excess of the marketing quota for the farm and the penalty in respect thereof shall be paid and remitted by the producer.*

§ 724.353 *Payment of penalty.* Penalties upon the marketing of tobacco shall become due at the time of the marketing, and shall be paid by remitting the amount thereof to the Marketing Quota Section, Agricultural Administration, Washington, D. C., not later than the end of the calendar week following the week in which the memorandum of sale was issued, or, in the event a memorandum is not issued, not later than four weeks after the date upon which the tobacco was sold. A draft, money order, or check, payable to the order of the Treasurer of the United States may be used to pay any penalty, but any such draft, or check shall be received subject to payment at par.*

§ 724.354 *Application for return of penalty.* Any producer of tobacco who bore the burden of the payment of any penalty collected may file an application for return of any amount of such penalty which is in excess of that amount equal to ten cents per pound upon the number of pounds marketed in excess of the farm marketing quota. Any application for the return of any penalty shall be filed on Form 41–Tob–74, "Application for Return of Penalty".

An application for the return of penalty filed by any producer of tobacco on a farm on which the tobacco available for marketing is in excess of the farm marketing quota shall not be approved unless (1) the marketing of tobacco from the farm has been completed and (2) disposition of all unmarketed excess tobacco has been made under the supervision of the county committee, (or its representative) and has been approved by the county committee.

Return of penalty collected upon marketings of tobacco from any farm on which the tobacco available for marketing is in excess of farm marketing quota shall be made only upon the basis of tobacco produced on the farm and, if the county committee has good cause to believe that any of the unmarketed excess tobacco as reported for the farm by the farm operator was not actually produced thereon, the application for such farm shall not be approved with respect to that tobacco which the committee has good cause to believe was not produced on the farm. The county committee shall approve an Application for Return of Penalty only with respect to that number of pounds of unmarketed excess tobacco which the committee determines is representative of the entire amount of tobacco available for marketing from the farm in the 1941–42 marketing year, taking into account the value of the unmarketed excess tobacco (which is disposed of) as appraised by the county committee (or its representative) and the value of tobacco marketed from the farm.

Any application for the return of penalty pursuant to this section shall be filed not later than sixty days before the end of the marketing year next succeeding that in which the penalty is collected.*

RECORDS AND REPORTS

§ 724.355 *Warehouseman's records and reports*—(a) *Record of marketings.* Each warehouseman shall keep such records as will enable him to furnish to the Secretary of Agriculture a report of the following information with respect to each sale or resale of tobacco made at his warehouse; the name of the seller (and, in the case of a sale for a producer, the name of the operator of the farm on which the tobacco was produced), the name of the purchaser, the date of sale, the number of pounds sold, the sale price, the amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer (or a dealer). All purchases and resales for the warehouse leaf account shall be so identified in the records and a separate account shall be maintained with respect to the amount of floor sweepings picked up and the disposition of such floor sweepings. The quantity of floor sweepings, including bundles, leaves and scrap, picked up by the warehouse after each sale shall be reported in the space provided on the Auction Warehouse Report (Form 41–Tob–66). Any warehouseman who grades tobacco for farmers shall maintain a separate account showing the approximate amount of grading house scrap obtained from the tobacco graded from each farm. In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse records so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each marketing of tobacco from a farm, or the number of the warehouse bill(s) covering each such marketing, shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(c) *Memorandum of sale record and bill of nonwarehouse sale record.* A record in the form of a valid memorandum of sale (or a memorandum of sale cleared without marketing card) shall be obtained by every warehouseman to cover each marketing of tobacco from a farm through the warehouse, and if a warehouseman buys tobacco directly from a farmer (other than at a warehouse auction sale as defined in the regulations in this subpart), such warehouseman shall obtain a valid memorandum of sale to cover each such purchase of tobacco, together with a properly executed Bill of Nonwarehouse Sale (Form 41–Tob–64). Any warehouseman who ob-

tains possession of any grading house scrap in the course of grading tobacco from any farm shall obtain a memorandum of sale to cover the amount of such scrap tobacco from such farm.

(d) *Suspended sale record.* Any warehouse bills (except bills for resale tobacco) for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills as "suspended," write thereon the serial number of the suspended sale, and record the bills on the Register of Suspended Sales (Form 41–Tob–62): *Provided*, That if a field assistant is not available, the warehouseman may stamp such bills suspended and deliver them to a field assistant as soon as one becomes available.

(e) *Warehouse entries on dealers' records.* Each warehouseman shall enter on each Dealer's Record (Form 41–Tob–65) the total of purchases and resales made by such dealer during each sale day at the warehouse. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1941 the entry on the Dealer's Record shall clearly show such fact.

(f) *Daily report of warehouse business and report of penalties.* Each warehouseman shall make reports on Form 41–Tob–66, Auction Warehouse Report, and on Form 41–Tob–67, Listing of Penalties, showing the information required on the respective reports. Form 41–Tob–66 shall be prepared for each sale day and all reports for the sale days occurring during any week shall be forwarded to the Marketing Quota Section at or before the end of the next following calendar week. Form 41–Tob–67 shall be prepared for each week and the report for each week shall be forwarded, together with the remittance of the penalty due, as shown thereon, to the Marketing Quota Section not later than the end of the next following calendar week.

(g) *Summary of warehouse accounts.* Each warehouseman shall assist field assistants to prepare summaries of the warehouse account by making available all records kept and reports made by the warehouse as required by the regulations in this subpart.

(h) *Additional records and reports.* In addition to the records and reports provided above, each warehouseman shall keep such additional records and make such additional reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary in order to enforce the regulations in this subpart.*

§ 724.356 *Dealer's records and reports.* Each dealer, except as provided in § 724.357 below, shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address and registration number.* Each dealer shall properly execute and the field assistant shall detach and forward to the Marketing Quota Section the page "Receipt for Dealer's Record" contained in Form 41–Tob–65, "Dealer's Record" which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on Form 41–Tob–65, "Dealer's Record", showing all purchases and resales of tobacco made by the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1941, the fact that such tobacco was bought by him and carried over from a crop produced prior to 1941.

(c) *Report of penalties.* Each dealer shall make a report on Form 41–Tob–67 showing the information with respect to all purchases subject to penalty made by him during each calendar week. The amount of penalty shown to be due by each such report shall be remitted with the report.

(d) *Memorandum of sale record and Bill of Nonwarehouse Sale record.* For each lot of tobacco purchased from a farmer each dealer shall obtain a record in the form of a valid memorandum of sale issued by a representative of the Marketing Quota Section. No memorandum of sale shall be issued unless: (1) the farm operator or his authorized agent has signed the "Operator's Certificate" on the back of the memorandum and (2) unless a properly executed Bill of Nonwarehouse Sale (Form 41–Tob–64) is presented covering such sale.

(e) *Additional records.* Each dealer shall keep such records, in addition to the foregoing, as may be necessary to enable him to furnish the following information with respect to each lot of tobacco purchased or sold by him: The name of the seller (and in the case of a purchase from a producer, the name of the operator of the farm on which the tobacco was produced), the name of the purchaser, the date of the transaction, the number of pounds and the gross sale price; and in the event of resale of tobacco bought by him and carrier over from a crop produced prior to 1941, the fact that such tobacco was so bought and carried over.

All reports shall be forwarded to the Marketing Quota Section not later than the end of the week following the calendar week covered by the reports.*

§ 724.357 *Dealers exempt from regular records and reports.* Any dealer who does not purchase or otherwise acquire tobacco except at a warehouse sale and who does not resell, in the form in which tobacco ordinarily is sold by farmers, more than ten percent of the tobacco purchased by him, shall not be subject to the provisions of § 724.356; but each such dealer shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary to enforce the regulations in this subpart.*

§ 724.358 *Records and reports of redryers, etc.* Every person engaged in the business of redrying, prizing, or stemming tobacco for producers shall keep such records as will enable him to furnish the Secretary of Agriculture a report of the following information with respect to each lot of tobacco received by him: The date of receipt of the tobacco, the number of pounds received, the purpose for which the tobacco was received (and if received from a producer, the name and address of the farm operator, and the code and serial number of the farm on which the tobacco was grown), the amount of advance made by him on the tobacco, and the disposition of the tobacco. Each such person shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary to enforce the regulations in this subpart.*

§ 724.359 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, processor, or as a person engaged in the business of redrying, prizing, or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged, to the same extent for each such business as if he were engaged in no other business, except that a warehouseman shall not be required to keep a record and make reports on Form 41–Tob–65, "Dealer's Record", if the transactions which would be recorded and reported on such forms are recorded on the records kept by the warehouse in its regular course of business and reported as required on Form 41–Tob–66.*

§ 724.360 *Failure to keep record or make report.* Any warehouseman, processor, or common carrier of tobacco, or person engaged in the business of purchasing tobacco from producers, or person engaged in the business of redrying, prizing or stemming tobacco for producers, who fails to make any report or keep any record as required under the regulations in this subpart, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under the regulations in this subpart within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him, or both. Notice of any violation by a tobacco warehouseman or dealer shall be given by the Chief of the Marketing Quota Section.*

§ 724.361 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report, but not so furnished, any warehouseman, dealer, processor, common carrier or person engaged in the business of redrying, prizing or stemming tobacco for producers shall make available for examination, upon written request by the Chief of the Marketing Quota Section, such books, papers, records, accounts, correspondence, contracts, documents and memoranda as he has reason to believe are relevant and are within the control of such person.*

§ 724.362 *Length of time records and reports to be kept.* Records required to be kept and copies of the reports required to be made by any person under the regulations for the 1941–42 marketing year shall be kept by him until September 30, 1943, and for such longer period of time as may be requested in writing by the Chief of the Marketing Quota Section.*

§ 724.363 *Information confidential.* All data reported to or acquired by the Secretary of Agriculture pursuant to the provisions of these regulations shall be kept confidential by all officers and employees of the Department of Agriculture, and only such data so reported or acquired as the Secretary of Agriculture deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the Act.*

By virtue of the authority vested in the Secretary of Agriculture by Title III of the Agricultural Adjustment Act of 1938 (Public Law No. 430, 75th Congress, approved February 16, 1938), as amended, he does hereby make, prescribe, publish and give public notice of the foregoing regulations pertaining to dark air-cured tobacco marketing quotas for the 1941–42 marketing year to be in force and effect for said marketing year until amended or superseded by regulations hereafter made by the Secretary of Agriculture under said Act.

Done at Washington, D. C., this 21st day of October 1941. Witness my hand and the seal of the Department of Agriculture.

[SEAL] PAUL H. APPLEBY,
Under Secretary of Agriculture.

§ 726.320 *Tobacco subject to marketing quotas.* Any tobacco marketed during the period October 1, 1941, to September 30, 1942, inclusive, and any tobacco produced in the calendar year 1941 and marketed prior to October 1, 1941, shall be subject to the marketing quotas for the 1941–42 marketing year.*

FARM MARKETING QUOTAS [1]

§ 726.321 *Amount of farm marketing quota.* The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with the "Procedure for Determination of Fire-cured and Dark Air-cured Tobacco Acreage Allotments for 1941" (Form 41–Tob–33 and Supplement 1). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1941 times the farm acreage allotment. The excess tobacco on any farm shall be that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1941 times the number of acres harvested in excess of the farm acreage allotment.*

§ 726.322 *Issuance of marketing card.* A marketing card shall be issued for every farm having tobacco available for marketing. The card shall be issued after information required for its preparation (including measurements of the harvested acreage of tobacco and an estimate of the actual production of tobacco) has been furnished to or obtained by the county office. If the farm operator refuses to furnish or prevents the county office from obtaining such information, the card shall show that all of the tobacco available for marketing from the farm is subject to penalty.

(a) *Within quota marketing card (Form 41–Tob–49).* A "Within Quota Marketing Card" authorizing the marketing without penalty of the actual production of tobacco on the farm acreage allotment in 1941 shall be issued for a farm (other than a farm having tobacco carried over from a crop produced prior to 1941) under the following conditions:

(1) If the harvested acreage of tobacco in 1941 is not in excess of the farm acreage allotment (except as provided in paragraph (b) 2 and 3 of this section) and the operator of the farm does not operate any other farm on which the harvested acreage exceeds the acreage allotment.

(2) If the farm is operated by a publicly owned experiment station and the tobacco is produced for experimental purposes only.

(b) *Excess marketing card (Form 41–Tob–50).* An "Excess Marketing Card" showing the extent to which marketings of tobacco from the farm are subject to penalty shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1941 is in excess of the farm acreage allotment or the operator of the farm also operates any other farm on which the harvested acreage of tobacco in 1941 exceeds the farm acreage allotment.

(2) If the acreage of tobacco planted on the farm in 1941 is in excess of the farm acreage allotment and the operator does not dispose of the acreage in excess of the allotment prior to harvesting such tobacco and within 15 days after receiving notice of such excess acreage from the county office.

(3) If a within quota marketing card could be issued for the farm but the county committee determines that a zero percent excess marketing card is necessary to protect the interest of the government and to insure the proper identification of and accounting for the disposition of tobacco produced on the farm and the proper use of the marketing card issued for the farm.

(4) If there is tobacco available for marketing from the farm but no tobacco acreage allotment was established.

(5) If information required for preparation of the marketing card is not furnished or the county office is prevented from obtaining the necessary information.

(c) *Extent to which marketings from a farm are subject to penalty.* The extent to which marketings of tobacco from any farm subject to penalty (except as provided in Supplement 1 to the regulations in this subpart) shall be that percentage of the tobacco available for marketing from the farm which the acreage of tobacco harvested in excess of the farm acreage allotment for the farm is of the acreage of tobacco harvested from the farm (or if tobacco is disposed of without marketing after harvesting, that percentage which the amount of tobacco available for marketing from the farm in excess of the farm marketing quota is of the total amount of tobacco available for marketing from the farm). Each marketing card showing a percentage excess of zero also shall show a maximum number of pounds of tobacco which may be marketed thereunder which shall be the quantity of tobacco estimated by the county committee to be available for marketing from the crop produced on the farm. For any excess marketing card which shows a percentage excess of more than zero the county committee, if it has reason to believe it to be necessary in order to prevent marketing thereunder of tobacco produced on another farm, also shall have shown on the card a maximum number of pounds which may be marketed thereunder, such number of pounds to be determined in the same manner as for a card showing zero percent excess. The maximum number of pounds shown on any excess marketing card shall be increased by the county committee if the committee determines that the quantity of tobacco available for marketing from the crop produced on the farm is greater than the number of pounds previously estimated by the committee to be available for marketing.

(d) *Number of marketing cards and entries and signature thereon.* One or more marketing cards may be issued for any farm as approved by the county office. All entries on each marketing card shall be made in accordance with instructions for issuing marketing cards. The Receipt and the "Operator's Agreement" on each marketing card shall be signed by the farm operator or on his behalf by his authorized representative and by the person who delivers the card to the operator.*

§ 726.323 *Disposition of excess tobacco.* The amount of excess tobacco available for marketing for any farm shall be determined on the basis of the tobacco available for marketing from the farm at the time the marketing card is issued for the farm. Disposition of excess tobacco, other than by marketing shall be made only by the farm operator (or his representative) but the county committee (or a representative of the committee) shall approve the disposition. The county committee shall cause a record to be made showing the amount of tobacco (in acres or pounds) disposed of and may require the farm operator (or his representative) to sign a statement that such record is accurate before giving approval to the disposition. If all tobacco has been harvested prior to the disposition of the excess tobacco, the amount of excess tobacco available for marketing can be reduced only to the extent that the tobacco so disposed of is representative of the tobacco available for marketing from the farm.*

§ 726.324 *Report on marketing card.* The operator of each farm on which tobacco is produced in 1941 shall return to the county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than thirty days after the close of the tobacco auction markets for the area in which the farm is located. Failure to return the marketing card to the county office within the time specified shall constitute failure to give proof of disposition of tobacco marketed from the farm in the event that satisfactory proof of such disposition is not furnished otherwise.*

§ 726.325 *Additional reports by producers and identification of tobacco.* In addition to any other reports which may be required under the regulations in this subpart, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment and even though no allotment was established for the farm) shall, upon written request by the Chief of the Marketing Quota Section, and within ten days after the deposit of such request in the United States mails addressed to such person at his last known address, furnish the Secretary of Agriculture, by sending the same to the Chief of the Marketing Quota Section, a written report on Form 41–Tob–76 showing, as to the farm at the time of filing said report (a) the number of acres of tobacco harvested, (b) the total production of tobacco, (c) the amount of tobacco on hand and its location, and (d) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price, and the date of marketing.*

§ 726.326 *Rights of producers in marketing card.* Each producer having a share in the tobacco available for marketing from the farm shall be entitled to the use of the marketing card for marketing his proportionate share of the total amount of tobacco available for marketing from the farm.*

§ 726.327 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from the farm shall, to the extent of such succession, have the same rights as the producer to the use of marketing card for the farm.*

§ 726.328 *Person authorized to issue cards.* The county committee shall designate one person to sign marketing cards for farms in the county as issuing agent. No marketing card shall be signed by the issuing agent until all other entries required to be made thereon have been made, except that the operator's receipt therefor and the Operator's Agreement therein may be signed after the issuing agent has signed the card, but prior to its delivery to the farm operator. Only one person shall be designated as issuing agent but such person may, subject to the approval of the county committee, designate not more than three persons to sign his name in issuing marketing cards; provided that each such person shall place his initials immediately beneath the name of the issuing agent as written by him on the card.*

§ 726.329 *Invalid cards.* A marketing card shall be invalid under any of the following conditions:

(a) If it is not issued or delivered in the form and manner prescribed;

(b) If entries are not made thereon as required;

(c) If it is lost, destroyed, stolen, or becomes illegible;

(d) If any erasure has been made; or

(e) If any alteration has been made and not properly initialed.

In the event any marketing card becomes invalid (other than by loss, destruction, theft, omission, alteration, or incorrect entry which can be corrected by a field assistant) the farm operator (or the person having the card in his possession) shall return it to the county office at which it was issued.

If any marketing card is lost, destroyed, stolen, or altered, the person having knowledge of such loss, destruction, theft, or alteration shall notify the county office to that effect, and the county office shall immediately notify the field office of the Marketing Quota Section for the belt.

If any marketing card which was reported as lost, destroyed, stolen, or altered is later received by the county office, the county office shall immediately notify the field office of the Marketing Quota Section of the receipt of such card.

At the end of two weeks after receipt of notice of loss, destruction or theft of any marketing card the county office may issue a duplicate marketing card to replace the lost, destroyed, or stolen card in accordance with instructions issued pursuant to the regulations in this subpart.

In the event any marketing card was improperly issued, has been altered, or becomes illegible, upon the return of the card to the county office a new marketing card shall be issued immediately, or as soon thereafter as the necessary information is available.

If any entry is not made on a marketing card as required (either through omission or incorrect entry) and the proper entry is made by a field assistant then such card shall become valid. If the field assistant is unable to make the proper entry, he shall return the card to the county office where it shall be retained until such entry is made, or a new marketing card is issued, as provided above.*

§ 726.330 *Additional cards and disposition of used cards.* Upon the return to the county office of the marketing card after all the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card hall be issued for the farm. Any marketing card issued to replace another card shall have entered thereon the total sales as shown on the marketing card which is replaced.*

§ 726.331 *Report of probable misuse of marketing card.* Any information which causes any field assistant, a member of any local committee, or an employee of the county office to believe that any tobacco which actually was produced on another farm has been or is being marketed under the marketing card for a particular farm shall be reported immediately by such person to the field office of the Marketing Quota Section.*

§ 726.332 *No transfers.* There shall be no transfer of marketing quotas.*

MARKETING OF TOBACCO AND PENALTIES

§ 726.333 *Memorandum of sale to identify every marketing.* Each marketing of tobacco from a farm shall be identified by a memorandum of sale issued from the marketing card (Form 41–Tob–49 or 41–Tob–50) for the farm but if a memorandum of sale cannot be obtained within four weeks after the date of the marketing of any tobacco at a warehouse sale, such marketing of tobacco shall be subject to penalty and the amount of penalty shall be shown on the memorandum of sale cleared without marketing card (Form 41–Tob–68). The memorandum of sale shall be issued only by a field assistant, with the following exceptions:

(a) A warehouseman, or his authorized representative, who has been authorized on Form 41–Tob–75, may issue a within quota memorandum of sale to identify a warehouse sale, if a field assistant is not available at the warehouse when the card is presented by the farmer, but in such case the memorandum of sale shall be presented promptly by the warehouseman to the field assistant for verification with the warehouse records.

(b) A dealer, or his authorized representative, operating a regular receiving point for tobacco who keeps records showing the information specified in subsection 726.343 (e) and who has been authorized on Form 41–Tob–75, may issue within quota memoranda of sale covering tobacco purchased by such dealer and delivered directly to such receiving point by the producer.

(c) A representative of the county office may issue memoranda of sale covering sales of tobacco by the producer in

[1] Instructions for determining marketing quotas, issuing marketing cards, and with respect to the rights of producers in the quota for farms having tobacco which was produced thereon in a calendar year prior to 1941 and carried over to the 1941–42 marketing year will be issued in Supplement 1 to these regulations.

small lots, by mail order or directly to various individuals other than dealers.

The authorization to issue within quota memoranda of sale under paragraphs (a) or (b) above may be withdrawn from any warehouseman or dealer upon written notice by the Chief of the Marketing Quota Section.

Each excess memorandum of sale, after issuance by a field assistant, shall be checked by the warehouseman or dealer (or his representative) to determine whether the amount of penalty shown thereon to be due has been correctly computed, and the warehouseman or dealer shall be responsible for the correctness of such computations.

If the quantity of tobacco previously identified by memoranda of sale issued from any within quota marketing card is in excess of the number of pounds assigned to the card, the person issuing the memorandum shall require the farm operator to sign the "Operator's Certificate" on the back of the memorandum and if he is satisfied that such signature is the same as the signature of the farm operator on the marketing card, he may issue the memorandum. If any person other than the operator presents the marketing card, the memorandum of sale shall not be issued unless the "Authorization for Agent", on the back of such memorandum has been properly executed and signed by the operator, or by the person who presents the marketing card, in the event that such person signs his name as agent of the farm operator and places his address immediately beneath his signature. Any person authorized to issue a memorandum of sale under either of the above described circumstances who has reason to believe that the tobacco to be covered by the memorandum was not produced on the farm for which the marketing card containing the memorandum was issued, may or may not issue the memorandum as he considers advisable, but in either event he shall immediately make a written report of the circumstances in the case to the field office of the Marketing Quota Section for the belt in which the tobacco is sold.*

§ 726.334 *Bill of nonwarehouse sale.* Each marketing of tobacco, except a warehouse sale or a nonwarehouse sale of within quota tobacco to a dealer authorized to issue memoranda of sale under paragraph (b) of § 726.333 shall be identified by a Bill of Nonwarehouse Sale (Form 41–Tob–64) completelyexecuted by the buyer and the farm operator, except for the entry of the serial number of the memorandum of sale. The post card copy (Form 41–Tob–64a) shall be mailed by the farm operator not later than the day following the day on which executed. The original of each Bill of Nonwarehouse Sale shall be presented to a field assistant for issuance of a memorandum of sale (or a memorandum of sale cleared without marketing card) and for recording in the Dealer's Record Book in case of a purchase by a dealer other than a warehouseman.*

§ 726.335 *Marketings free of penalty.* Any tobacco marketed from a farm which is identified by a valid memorandum of sale from the marketing card issued for the farm shall be free of penalty to the extent shown by the memorandum of sale.*

§ 726.336 *Marketings subject to penalty and collection of penalties*—(a) *Farm tobacco.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that proportion of each lot of tobacco which the tobacco available for marketing in excess of the farm quota (at the time of issuance of the marketing card) is of the total amount of tobacco available for marketing from the farm. The memorandum of sale issued to identify such marketing of tobacco shall show that portion of such marketing which is subject to penalty, and any portion of such marketing of tobacco which is not shown by the memorandum as being subject to penalty shall be free of penalty.

(b) *Dealer's tobacco.* Any marketing of tobacco by a dealer which such dealer represents to be a resale, but all or any part of which, when added to prior resales by such dealer as shown on the Dealer's Record, is in excess of the total amount of purchases as shown on such Dealer's Record shall be a marketing of tobacco subject to penalty unless and until the dealer furnishes proof acceptable to the Secretary showing that such tobacco is not subject to penalty. Any marketing of tobacco by a dealer which such dealer represents to be a resale of tobacco previously purchased by him but which, because of the difference in the price at which such tobacco is resold as compared with the price at which he had purchased the tobacco, cannot reasonably be regarded as tobacco previously purchased by him shall be taken to be a marketing of tobacco subject to penalty.

(c) *Tobacco not identified by a valid memorandum.* Any marketing of tobacco which is not identified by a valid memorandum of sale shall be subject to penalty.

(d) *Liability in case of error on memorandum.* The person liable for the payment of the penalty upon any marketing of tobacco shall not be relieved of such liability because of any error which may occur on the memorandum of sale.*

§ 726.337 *Persons to pay penalty and deduction from purchase price*—(a) *Warehouse sale.* If the tobacco is marketed by the producer through a warehouseman the penalty shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Sale other than warehouse sale.* If the tobacco is acquired from the producer in any manner other than through a warehouse sale, the penalty shall be paid by the person who acquired the tobacco, but such person may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Agent.* If the tobacco is marketed by the producer through an agent who is not a warehouseman, the penalty shall be paid by the agent, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Agent in case of false representation.* If any person markets tobacco representing that such tobacco is being marketed from one farm when in fact such tobacco is being marketed from another farm, then such person, as agent, shall pay any penalty due upon such marketing of tobacco.

(e) *Warehouseman and dealer or dealer's tobacco.* Any penalty due upon tobacco subject to penalty under paragraph (b) of § 726.336 shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the dealer, but the dealer shall not be relieved of responsibility for payment of such penalty.

(f) *Producer marketing outside United States.* If the tobacco is marketed by the producer directly to any person outside the United States, the penalty shall be paid by the producer.

(g) *Producer on behalf of buyer in case of mail order or direct sales in small lots.* If the tobacco is marketed in small lots by the producer by mail order sales or directly to various individuals other than dealers, the penalty may be paid by the producer of such tobacco on behalf of the various buyers. In such case the buyer of such tobacco shall be relieved of the penalty to the extent that it is paid by the producer.*

§ 726.338 *Amount of penalty.* The penalty shall be five cents per pound upon any marketing of tobacco which is not identified under the regulations in this subpart as being free from penalty.*

§ 726.339 *Penalty for false identification or failure to account for disposition of tobacco.* If any producer falsely identifies or fails to account for disposition of any tobacco, an amount of tobacco equal to the normal yield (determined under the 1941 Agricultural Conservation Program) of the number of acres harvested in 1941 in excess of the farm acreage allotment shall be deemed to have been marketed in excess of the marketing quota for the farm and the penalty in respect thereof shall be paid and remitted by the producer.*

§ 726.340 *Payment of penalty.* Penalties upon the marketing of tobacco shall become due at the time of the marketing, and shall be paid by remitting the amount thereof to the Marketing Quota Section, Agricultural Adjustment Administration, Washington, D. C., not later than the end of the calendar week following the week in which the memorandum of sale was issued, or, in the event a memorandum is not issued, not later than four weeks after the date upon which the tobacco was sold. A draft, money order, or check, payable to the order of the Treasurer of the United

States may be used to pay any penalty, but any such draft, or check shall be received subject to payment at par.*

§ 726.341 *Application for return of penalty.* Any producer of tobacco who bore the burden of the payment of any penalty collected may file an application for return of any amount of such penalty which is in excess of that amount equal to five cents per pound upon the number of pounds marketed in excess of the farm marketing quota. Any application for the return of any penalty shall be filed on Form 41–Tob–74, "Application for Return of Penalty."

Any application for the return of penalty filed by any producer of tobacco on a farm on which the tobacco available for marketing is in excess of the farm marketing quota shall not be approved unless (1) the marketing of tobacco from the farm has been completed and (2) disposition of all unmarketed excess tobacco has been made under the supervision of the county committee (or its representative) and has been approved by the county committee.

Return of penalty collected upon marketings of tobacco from any farm on which the tobacco available for marketing is in excess of farm marketing quota shall be made only upon the basis of tobacco produced on the farm and, if the county committee has good cause to believe that any of the unmarketed excess tobacco as reported for the farm by the farm operator was not actually produced thereon, the application for such farm shall not be approved with respect to that tobacco which the committee has good cause to believe was not produced on the farm. The county committee shall approve an Application for Return of Penalty only with respect to that number of pounds of unmarketed excess tobacco which the committee determines is representative of the entire amount of tobacco available for marketing from the farm in the 1941–42 marketing year, taking into account the value of the unmarketed excess tobacco (which is disposed of) as appraised by the county committee (or its representative) and the value of tobacco marketed from the farm.

Any application for the return of penalty pursuant to this section shall be filed not later than sixty days before the end of the marketing year next succeeding that in which the penalty is collected.*

RECORDS AND REPORTS

§ 726.342 *Warehouseman's records and reports*—(a) *Record of marketings.* Each warehouseman shall keep such records as will enable him to furnish to the Secretary of Agriculture a report of the following information with respect to each sale or resale of tobacco made at his warehouse; the name of the seller (and, in the case of a sale for a producer, the name of the operator of the farm on which the tobacco was produced), the name of the purchaser, the date of sale, the number of pounds sold, the sale price, the amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer (or a dealer). All purchases and resales for the warehouse leaf account shall be so identified in the records and a separate account shall be maintained with respect to the amount of floor sweepings picked up and the disposition of such floor sweepings. The quantity of floor sweepings, including bundles, leaves and scrap, picked up by the warehouse after each sale shall be reported in the space provided on the Auction Warehouse Report (Form 41–Tob–66). Any warehouseman who grades tobacco for farmers shall maintain a separate account showing the approximate amount of grading house scrap obtained from the tobacco graded from each farm. In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse record so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each marketing of tobacco from the farm or the number of the warehouse bill(s) covering each such marketing shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(c) *Memorandum of sale record and bill of nonwarehouse sale record.* A record in the form of a valid memorandum of sale (or a memorandum of sale cleared without marketing card) shall be obtained by every warehouseman to cover each marketing of tobacco from a farm through the warehouse, and if a warehouseman buys tobacco directly from a farmer (other than at a warehouse auction sale as defined in the regulations in this subpart) such warehouseman shall obtain a valid memorandum of sale to cover each such purchase of tobacco, together with a properly executed Bill of Nonwarehouse Sale (Form 41–Tob–64). Any warehouseman who obtains possession of any grading house scrap in the course of grading tobacco from any farm shall obtain a memorandum of sale to cover the amount of such scrap tobacco from such farm.

(d) *Suspended sale record.* Any warehouse bills for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills as "suspended", write thereon the serial number of the suspended sale, and record the bills on the Register of Suspended Sales (Form 41–Tob–62): *Provided,* That if a field assistant is not available, the warehouseman may stamp such bills suspended and deliver them to a field assistant as soon as one becomes available.

(e) *Warehouse entries on dealers' records.* Each warehouseman shall enter on each Dealer's Record (Form 41–Tob–65) the total of purchases and resales made by such dealer during each sale day at the warehouse. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1941 the entry on the Dealer's Record shall clearly show such fact.

(f) *Daily report of warehouse business and report of penalties.* Each warehouseman shall make reports on Form 41–Tob–66, Auction Warehouse Report, and on Form 41–Tob–67, Listing of Penalties, showing the information required on the respective reports. Form 41–Tob–66 shall be prepared for each sale day and all reports for the sale days occurring during any week shall be forwarded to the Marketing Quota Section at or before the end of the next following calendar week. Form 41–Tob–67 shall be prepared for each week and the report for each week shall be forwarded, together with the remittance of the penalty due, as shown thereon, to the Marketing Quota Section not later than the end of the next following calendar week.

(g) *Summary of warehouse accounts.* Each warehouseman shall assist field assistants to prepare summaries of the warehouse account by making available all records kept and reports made by the warehouse as required by the regulations in this subpart.

(h) *Additional records and reports.* In addition to the records and reports provided above, each warehouseman shall keep such additional records and make such additional reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary in order to enforce the regulations in this subpart.*

§ 726.343 *Dealer's records and reports.* Each dealer, except as provided in § 726.344 below, shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address and registration number.* Each dealer shall properly execute and the field assistant shall detach and forward to the Marketing Quota Section the page "Receipt for Dealer's Record" contained in Form 41–Tob–65, "Dealer's Record" which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on Form 41–Tob–65, "Dealer's Record", showing all purchases and resales of tobacco made by the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1941, the fact that such tobacco was bought by him and carried over from a crop produced prior to 1941.

(c) *Report of penalties.* Each dealer shall make a report on Form 41–Tob–67 showing the information with respect to all purchases subject to penalty made by him during each calendar week. The amount of penalty shown to be due by each such report shall be remitted with the report.

(d) *Memorandum of sale record and bill of nonwarehouse sale record.* For each lot of tobacco purchased from a farmer each dealer shall obtain a record in the form of a valid memorandum of sale issued by a representative of the

Marketing Quota Section or by an authorized representative of a receiving point in the case of tobacco sold and delivered to such receiving point. No memorandum of sale shall be issued except as provided in paragraph (b) of § 726.333 unless: (1) the farm operator or his authorized agent has signed the "Operator's Certificate" on the back of the memorandum and (2) unless a properly executed Bill of Nonwarehouse Sale (Form 41–Tob–64) is presented covering such sale.

(e) *Additional records.* Each dealer shall keep such records, in addition to the foregoing, as may be necessary to enable him to furnish the following information with respect to each lot of tobacco purchased or sold by him: The name of the seller (and in the case of a purchase from a producer, the name of the operator of the farm on which the tobacco was produced), the name of the purchaser, the date of the transaction, the number of pounds and the gross sale price; and in the event of resale of tobacco bought by him and carried over from a crop produced prior to 1941, the fact that such tobacco was so bought and carried over.

All reports shall be forwarded to the Marketing Quota Section not later than the end of the week following the calendar week covered by the reports.

§ 726.344 *Dealers exempt from regular records and reports.* Any dealer who does not purchase or otherwise acquire tobacco except at a warehouse sale and who does not resell, in the form in which tobacco ordinarily is sold by farmers, more than ten percent of the tobacco purchased by him, shall not be subject to the provisions of § 726.343 of the regulations in this subpart; but each such dealer shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary to enforce the regulations in this subpart.

§ 726.345 *Records and reports of redryers, etc.* Every person engaged in the business of redrying, prizing, or stemming tobacco for producers shall keep such records as will enable him to furnish the Secretary of Agriculture a report of the following information with respect to each lot of tobacco received by him: The date of receipt of the tobacco, the number of pounds received, the purpose for which the tobacco was received (and if received from a producer, the name and address of the farm operator, and the code and serial number of the farm on which the tobacco was grown), the amount of advance made by him on the tobacco, and the disposition of the tobacco. Each such person shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary to enforce the regulations in this subpart.*

§ 726.346 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, processor, or as a person engaged in the business of redrying, prizing, or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged, to the same extent for each such business as if he were engaged in no other business, except that a warehouseman shall not be required to keep a record and make reports on Form 41–Tob–65, "Dealer's Record", if the transactions which would be recorded and reported on such forms are recorded on the records kept by the warehouse in its regular course of business and reported as required on Form 41–Tob–66.*

§ 726.347 *Failure to keep record or make report.* Any warehouseman, processor, or common carrier of tobacco, or person engaged in the business of purchasing tobacco from producers, or person engaged in the business of redrying, prizing or stemming tobacco for producers, who fails to make any report or keep any record as required under the regulations in this subpart, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under the regulations in this subpart within fifteen days after notice to him of such violation shall be subject to an additional fine of 100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation; *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him, or both. Notice of any violation by a tobacco warehouseman or dealer shall be given by the Chief of the Marketing Quota Section.*

§ 726.348 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report, but not so furnished, any warehouseman, dealer, processor, common carrier or person engaged in the business of redrying, prizing or stemming tobacco for producers shall make available for examination, upon written request by the Chief of the Marketing Quota Section, such books, papers, records, accounts, correspondence, contracts, documents and memoranda as he has reason to believe are relevant and are within the control of such person.*

§ 726.349 *Length of time records and reports to be kept.* Records required to be kept and copies of the reports required to be made by any person under the regulations in this subpart for the 1941–42 marketing year shall be kept by him until September 30, 1943, and for such longer period of time as may be requested in writing by the Chief of the Marketing Quota Section.*

§ 726.350 *Information confidential.* All data reported to or acquired by the Secretary of Agriculture pursuant to the provisions of the regulations in this subpart shall be kept confidential by all officers and employees of the Department of Agriculture, and only such data so reported or acquired as the Secretary of Agriculture deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the Act.*

* §§ 726.368 to 726.400, inclusive, issued under the authority contained in 52 Stat. 38; 7 U.S.C. 1301, et seq., as amended.

§ 726.369 *Instructions and forms.* The Administrator of the Agricultural Adjustment Administration shall cause to be prepared and issued such instructions and such forms as may be deemed necessary or expedient for carrying out the regulations in this subpart.*

§ 726.370 *Tobacco subject to marketing quotas.* Any tobacco marketed during the period October 1, 1941, to September 30, 1942, inclusive, and any tobacco produced in the calendar year 1941 and marketed prior to October 1, 1941, shall be subject to the marketing quotas for the 1941–42 marketing year.*

FARM MARKETING QUOTAS [1]

§ 726.371 *Amount of farm marketing quota.* The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with the "Procedure for Determination of Fire-cured and Dark Air-cured Tobacco Acreage Allotments for 1941" (Form 41–Tob–33 and Supplement 1). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1941 times the farm acreage allotment. The excess tobacco on any farm shall be that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1941 times the number of acres harvested in excess of the farm acreage allotment.*

§ 726.372 *Issuance of marketing card.* A marketing card shall be issued for every farm having tobacco available for marketing. The card shall be issued after information required for its preparation (including measurements of the harvested acreage of tobacco and an estimate of the actual production of tobacco) has been furnished to or obtained by the county office. If the farm operator refuses to furnish or prevents the county office from obtaining such information, the card shall show that all of the tobacco available for marketing from the farm is subject to penalty.

(a) *Within quota marketing card (Form 41–Tob–51).* A "Within Quota Marketing Card" authorizing the marketing without penalty of the actual production of tobacco on the farm acreage allotment in 1941 shall be issued for a farm (other than a farm having tobacco carried over from a crop produced prior to 1941) under the following conditions:

(1) If the harvested acreage of tobacco in 1941 is not in excess of the farm acreage allotment (except as provided in paragraph (b) (2) and (3) of

[1] Instructions for determining marketing quotas, issuing marketing cards, and with respect to the rights of producers in the quota for farms having tobacco which was produced thereon in a calendar year prior to 1941 and carried over to the 1941–42 marketing year will be issued in Supplement 1 to these regulations.

this section) and the operator of the farm does not operate any other farm on which the harvested acreage exceeds the acreage allotment.

(2) If the farm is operated by a publicly owned experiment station and the tobacco is produced for experimental purposes only.

(b) *Excess marketing card (Form 41–Tob–52).* An "Excess Marketing Card" showing the extent to which marketings of tobacco from the farm are subject to penalty shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1941 is in excess of the farm acreage allotment or the operator of the farm also operates any other farm on which the harvested acreage of tobacco in 1941 exceeds the farm acreage allotment.

(2) If the acreage of tobacco planted on the farm in 1941 is in excess of the farm acreage allotment and the operator does not dispose of the acreage in excess of the allotment prior to harvesting such tobacco and within 15 days after receiving notice of such excess acreage from the county office.

(3) If a within quota marketing card could be issued for the farm but the county committee determines that a zero percent excess marketing card is necessary to protect the interest of the government and to insure the proper identification of and accounting for the disposition of tobacco produced on the farm and the proper use of the marketing card issued for the farm.

(4) If there is tobacco available for marketing from the farm but no tobacco acreage allotment was established.

(5) If information required for preparation of the marketing card is not furnished or the county office is prevented from obtaining the necessary information.

(c) *Extent to which marketings from a farm are subject to penalty.* The extent to which marketings of tobacco from any farm are subject to penalty (except as provided in Supplement 1 to the regulations in this subpart) shall be that percentage of the tobacco available for marketing from the farm which the acreage of tobacco harvested in excess of the farm acreage allotment for the farm is of the acreage of tobacco harvested from the farm (or if tobacco is disposed of without marketing after harvesting, that percentage which the amount of tobacco available for marketing from the farm in excess of the farm marketing quota is of the total amount of tobacco available for marketing from the farm). Each marketing card showing a percentage excess of zero also shall show a maximum number of pounds of tobacco which may be marketed thereunder which shall be the quantity of tobacco estimated by the county committee to be available for marketing from the crop produced on the farm. For any excess marketing card which shows a percentage excess of more than zero the county committee, if it has reason to believe it to be necessary in order to prevent marketing thereunder of tobacco produced on another farm, also shall have shown on the card a maximum number of pounds which may be marketed thereunder, such number of pounds to be determined in the same manner as for a card showing zero percent excess. The maximum number of pounds shown on any excess marketing card shall be increased by the county committee if the committee determines that the quantity of tobacco available for marketing from the crop produced on the farm is greater than the number of pounds previously estimated by the comittee to be available for marketing.

(d) *Number of marketing cards and entries and signatures thereon.* One or more marketing cards may be issued for any farm as approved by the county office. All entries on each marketing card shall be made in accordance with instructions for isuing marketing cards. The Receipt and the "Operator's Agreement" on each marketing card shall be signed by the farm operator or on his behalf by his authorized representative and by the person who delivers the card to the operator.*

§ 726.373 *Disposition of excess tobacco.* The amount of excess tobacco available for marketing for any farm shall be determined on the basis of the tobacco available for marketing from the farm at the time the marketing card is issued for the farm. Disposition of excess tobacco, other than by marketing shall be made only by the farm operator (or his representative) but the county committee (or a representative of the committee) shall approve the disposition. The county committee shall cause a record to be made showing the amount of tobacco (in acres or pounds) disposed of and may require the farm operator (or his representative) to sign a statement that such record is accurate before giving approval to the disposition. If all tobacco has been harvested prior to the disposition of the excess tobacco, the amount of excess tobacco available for marketing can be reduced only to the extent that the tobacco so disposed of is representative of the tobacco available for marketing from the farm.*

§ 726.374 *Report on marketing card.* The operator of each farm on which tobacco is produced in 1941 shall return to the county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than thirty days after the close of the tobacco auction markets for the area in which the farm is located. Failure to return the marketing card to the county office within the time specified shall constitute failure to give proof of disposition of tobacco marketed from the farm in the event that satisfactory proof of such disposition is not furnished otherwise.*

§ 726.375 *Additional reports by producers and identification of tobacco.* In addition to any other reports which may be required under the regulations in this subpart, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment and even though no allotment was established for the farm) shall, upon written request by the Chief of the Marketing Quota Section, and within ten days after the deposit of such request in the United States mails addressed to such person at his last known address, furnish the Secretary of Agriculture, by sending the same to the Chief of the Marketing Quota Section, a written report on Form 41–Tob–76 showing, as to the farm at the time of filing said report (a) the number of acres of tobacco harvested, (b) the total production of tobacco, (c) the amount of tobacco on hand and its location, and (d) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed, and the number of pounds marketed, the gross price, and the date of marketing.*

§ 726.376 *Rights of producers in marketing card.* Each producer having a share in the tobacco available for marketing from the farm shall be entitled to the use of the marketing card for marketing his proportionate share of the total amount of tobacco available for marketing from the farm.*

§ 726.377 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from the farm shall, to the extent of such succession, have the same rights as the producer to the use of marketing card for the farm.*

§ 726.378 *Person authorized to issue cards.* The county committee shall designate one person to sign marketing cards for farms in the county as issuing agent. No marketing card shall be signed by the issuing agent until all other entries required to be made thereon have been made, except that the operator's receipt therefor and the Operator's Agreement therein may be signed after the issuing agent has signed the card, but prior to its delivery to the farm operator. Only one person shall be designated as issuing agent but such person may, subject to the approval of the county committee, designate not more than three persons to sign his name in issuing marketing cards: *Provided*, That each such person shall place his initials immediately beneath the name of the issuing agent as written by him on the card.*

§ 726.379 *Invalid cards.* A marketing card shall be invalid under any of the following conditions:

(a) If it is not issued or delivered in the form and manner prescribed;

(b) If entries are not made thereon as required;

(c) If it is lost, destroyed, stolen or becomes illegible;

(d) If any erasure has been made; or

(e) If any alteration has been made and not properly initialed.

In the event any marketing card becomes invalid (other than by loss, destruction, theft, omission, alteration, or incorrect entry which can be corrected by a field assistant) the farm operator (or the person having the card in his possession) shall return it to the county office at which it was issued.

If any marketing card is lost, destroyed, stolen, or altered, the person having knowledge of such loss, destruction, theft or alteration shall notify the county office to that effect, and the county office shall immediately notify the field office of the Marketing Quota Section for the belt.

If any marketing card which was reported as lost, destroyed, stolen, or altered is later received by the county office, the county office shall immediately notify the field office of the Marketing Quota Section of the receipt of such card.

At the end of two weeks after receipt of notice of loss, destruction or theft of any marketing card the county office may issue a duplicate marketing card to replace the lost, destroyed, or stolen card in accordance with instructions issued pursuant to the regulations in this subpart.

In the event any marketing card was improperly issued, has been altered, or becomes illegible, upon the return of the card to the county office a new marketing card shall be issued immediately, or as soon thereafter as the necessary information is available.

If any entry is not made on a marketing card as required (either through omission or incorrect entry) and the proper entry is made by a field assistant, then such card shall become valid. If the field assistant is unable to make the proper entry, he shall return the card to the county office where it shall be retained until such entry is made, or a new marketing card is issued, as provided above.*

§ 726.380 *Additional cards and disposition of used cards.* Upon the return to the county office of the marketing card after all the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. Any marketing card issued to replace another card shall have entered thereon the total sales as shown on the marketing card which is replaced.*

§ 726.381 *Report of probable misuse of marketing card.* Any information which causes any field assistant, a member of any local committee, or an employee of the county office to believe that any tobacco which actually was produced on another farm has been or is being marketed under the marketing card for a particular farm shall be reported immediately by such person to the field office of the Marketing Quota Section.*

§ 726.382 *No transfers.* There shall be no transfer of marketing quotas.*

MARKETING OF TOBACCO AND PENALTIES

§ 726.383 *Memorandum of sale to identify every marketing.* Each marketing of tobacco from a farm shall be identified by a memorandum of sale issued from the marketing card (Form 41–Tob–51 or 41–Tob–52) for the farm, but if a memorandum of sale cannot be obtained within four weeks after the date of the marketing of any tobacco at a warehouse sale, such marketing of tobacco shall be subject to penalty and the amount of penalty shall be shown on the memorandum of sale cleared without marketing card (Form 41–Tob–68). The memorandum of sale shall be issued only by a field assistant, with the following exceptions:

(a) A warehouseman, or his authorized representative, who has been authorized on Form 41–Tob–75, may issue a within quota memorandum of sale to identify a warehouse sale, if a field assistant is not available at the warehouse when the card is presented by the farmer, but in such case the memorandum of sale shall be presented promptly by the warehouseman to the field assistant for verification with the warehouse records.

(b) A representative of the county office may issue memoranda of sale covering sales of tobacco by the producer in small lots by mail order or directly to various individuals other than dealers.

The authorization to issue within quota memoranda of sale under paragraph (a) above may be withdrawn from any warehouseman or dealer upon written notice by the Chief of the Marketing Quota Section.

Each excess memorandum of sale, after issuance by a field assistant, shall be checked by the warehouseman or dealer (or his representative) to determine whether the amount of penalty shown thereon to be due has been correctly computed, and the warehouseman or dealer shall be responsible for the correctness of such computations.

If the quantity of tobacco previously identified by memoranda of sale issued from any within quota marketing card is in excess of the number of pounds assigned to the card, the person issuing the memorandum shall require the farm operator to sign the "Operator's Certificate" on the back of the memorandum and if he is satisfied that such signature is the same as the signature of the farm operator on the marketing card, he may issue the memorandum. If any person other than the operator presents the marketing card, the memorandum of sale shall not be issued unless the "Authorization for Agent", on the back of such memorandum has been properly executed and signed by the operator, or by the person were presents the marketing card, in the event that such person signs his name as agent of the farm operator and places his address immediately beneath his signature. Any person authorized to issue a memorandum of sale under either of the above-described circumstances who has reason to believe that the tobacco to be covered by the memorandum was not produced on the farm for which the marketing card containing the memorandum was issued, may or may not issue the memorandum as he considers advisable, but in either event he shall immediately make a written report of the circumstances in the case to the field office of the Marketing Quota Section for the belt in which the tobacco is sold.*

§ 726.384 *Bill of nonwarehouse sale.* Each marketing of tobacco, except a warehouse sale, shall be identified by a Bill of Nonwarehouse Sale (Form 41–Tob–64) completely executed by the buyer and the farm operator, except for the entry of the serial number of the memorandum of sale. The post card copy (Form 41–Tob–64a) shall be mailed by the farm operator not later than the day following the day on which executed. The original of each Bill of Nonwarehouse Sale shall be presented to a field assistant for issuance of a memorandum of sale (or a memorandum of sale cleared without marketing card) and for recording in the Dealer's Record Book in case of a purchase by a dealer other than a warehouseman.

§ 726.385 *Marketings free of penalty.* Any tobacco marketed from a farm which is identified by a valid memorandum of sale from the marketing card issued for the farm shall be free of penalty to the extent shown by the memorandum of sale.*

§ 726.386 *Marketings subject to penalty and collection of penalties*—(a) *Farm tobacco.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that proportion of each lot of tobacco which the tobacco available for marketing in excess of the farm quota (at the time of issuance of the marketing card) is of the total amount of tobacco available for marketing from the farm. The memorandum of sale issued to identify such marketing of tobacco shall show that portion of such marketing which is subject to penalty, and any portion of such marketing of tobacco which is not shown by the memorandum as being subject to penalty shall be free of penalty.

(b) *Dealer's tobacco.* Any marketing of tobacco by a dealer which such dealer represents to be a resale, but all or any part of which, when added to prior resales by such dealer as shown on the Dealer's Record, is in excess of the total amount of purchases as shown on such Dealer's Record shall be a marketing of tobacco subject to penalty unless and until the dealer furnished proof acceptable to the Secretary showing that such tobacco is not subject to penalty. Any

marketing of tobacco by a dealer which such dealer represents to be a resale of tobacco previously purchased by him but which, because of the difference in the price at which such tobacco is resold as compared with the price at which he had purchased the tobacco, cannot reasonably be regarded as tobacco previously purchased by him shall be taken to be a marketing of tobacco subject to penalty.

(c) *Tobacco not identified by a valid memorandum.* Any marketing of tobacco which is not identified by a valid memorandum of sale shall be subject to penalty.

(d) *Liability in case of error on memorandum.* The person liable for the payment of the penalty upon any marketing of tobacco shall not be relieved of such liability because of any error which may occur on the memorandum of sale.*

§ 726.387 *Persons to pay penalty and deduction from purchase price*—(a) *Warehouse sale.* If the tobacco is marketed by the producer through a warehouseman the penalty shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Sale other than warehouse sale.* If the tobacco is acquired from the producer in any manner other than through a warehouse sale, the penalty shall be paid by the person who acquired the tobacco, but such person may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Agent.* If the tobacco is marketed by the producer through an agent who is not a warehouseman, the penalty shall be paid by the agent, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Agent in case of false representation.* If any person markets tobacco representing that such tobacco is being marketed from one farm when in fact such tobacco is being marketed from another farm, then such person, as agent, shall pay any penalty due upon such marketing of tobacco.

(e) *Warehouseman and dealer or dealer's tobacco.* Any penalty due upon tobacco subject to penalty under paragraph (b) of § 726.386 shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the dealer, but the dealer shall not be relieved of responsibility for payment of such penalty.

(f) *Producer marketing outside United States.* If the tobacco is marketed by the producer directly to any person outside the United States, the penalty shall be paid by the producer.

(g) *Producer on behalf of buyer in case of mail order or direct sales in small lots.* If the tobacco is marketed in small lots by the producer by mail order sales or directly to various individuals other than dealers, the penalty may be paid by the producer of such tobacco on behalf of the various buyers. In such case the buyer of such tobacco shall be relieved of the penalty to the extent that it is paid by the producer.*

§ 726.388 *Amount of penalty.* The penalty shall be five cents per pound upon any marketing of tobacco which is not identified under the regulations in this subpart as being free from penalty.*

§ 726.389 *Penalty for false identification or failure to account for disposition of tobacco.* If any producer falsely identifies or fails to account for disposition of any tobacco, an amount of tobacco equal to the normal yield (determined under the 1941 Agricultural Conservation Program) of the number of acres harvested in 1941 in excess of the farm acreage allotment shall be deemed to have been marketed in excess of the marketing quota for the farm and the penalty in respect thereof shall be paid and remitted by the producer.*

§ 726.390 *Payment of penalty.* Penalties upon the marketing of tobacco shall become due at the time of the marketing, and shall be paid by remitting the amount thereof to the Marketing Quota Section, Agricultural Adjustment Administration, Washington, D. C., not later than the end of the calendar week following the week in which the memorandum of sale was issued, or, in the event a memorandum is not issued, not later than four weeks after the date upon which the tobacco was sold. A draft, money order, or check, payable to the order of the Treasurer of the United States may be used to pay any penalty, but any such draft, or check shall be received subject to payment at par.*

§ 726.391 *Application for return of penalty.* Any producer of tobacco who bore the burden of the payment of any penalty collected may file an application for return of any amount of such penalty which is in excess of that amount equal to five cents per pound upon the number of pounds marketed in excess of the farm marketing quota. Any application for the return of any penalty shall be filed on Form 41–Tob–74, "Application for Return of Penalty".

An application for the return of penalty filed by any producer of tobacco on a farm on which the tobacco available for marketing is in excess of the farm marketing quota shall not be approved unless (1) the marketing of tobacco from the farm has been completed and (2) disposition of all unmarketed excess tobacco has been made under the supervision of the county committee (or its representative) and has been approved by the county committee.

Return of penalty collected upon marketings of tobacco from any farm on which the tobacco available for marketing is in excess of farm marketing quota shall be made only upon the basis of tobacco produced on the farm and, if the county committee has good cause to believe that any of the unmarketed excess tobacco as reported for the farm by the farm operator was not actually produced thereon, the application for such farm shall not be approved with respect to that tobacco which the committee has good cause to believe was not produced on the farm. The county committee shall approve an Application for Return of Penalty only with respect to that number of pounds of unmarketed excess tobacco which the committee determines is representative of the entire amount of tobacco available for marketing from the farm in 1941–42 marketing year, taking into account the value of the unmarketed excess tobacco (which is disposed of) as appraised by the county committee (or its representative) and the value of tobacco marketed from the farm.

Any application for the return of penalty pursuant to this section shall be filed not later than sixty days before the end of the marketing year next succeeding that in which the penalty is collected.*

RECORDS AND REPORTS

§ 726.392 *Warehouseman's records and reports*—(a) *Record of marketings.* Each warehouseman shall keep such records as will enable him to furnish to the Secretary of Agriculture a report of the following information with respect to each sale or resale of tobacco made at his warehouse; the name of the seller (and, in the case of a sale for a producer, the name of the operator of the farm on which the tobacco was produced), the name of the purchaser, the date of sale, the number of pounds sold, the sale price, the amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer (or a dealer). All purchases and resales for the warehouse leaf account shall be so identified in the records and a separate account shall be maintained with respect to the amount of floor sweepings picked up and the disposition of such floor sweepings. The quantity of floor sweepings, including bundles, leaves and scrap, picked up by the warehouse after each sale shall be reported in the space provided on the Auction Warehouse Report (Form 41–Tob–66). Any warehouseman who grades tobacco for farmers shall maintain a separate account showing the approximate amount of grading house scrap obtained from the tobacco graded from each farm. In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse records so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each marketing of tobacco from the farm, or the number of the warehouse bill(s) covering each such marketing shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(c) *Memorandum of sale record and bill of nonwarehouse sale record.* A record in the form of a valid memorandum of sale (or a memorandum of sale cleared without marketing card) shall be obtained by every warehouseman to cover each marketing of tobacco from a farm through the warehouse, and if a warehouseman buys tobacco directly from a farmer (other than at a warehouse auction sale as defined in the regulations in this subpart) such warehouseman shall obtain a valid memorandum of sale to cover each such purchase of tobacco, together with a properly executed Bill of Nonwarehouse Sale (Form 41–Tob–64). Any warehouseman who obtains possession of any grading house scrap in the course of grading tobacco from any farm shall obtain a memorandum of sale to cover the amount of such scrap tobacco from such farm.

(d) *Suspended sale record.* Any warehouse bills for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills as "suspended," write thereon the serial number of the suspended sale, and record the bills on the Register of Suspended Sales (Forms 41–Tob–62); provided that if a field assistant is not available, the warehouseman may stamp such bills suspended and deliver them to a field assistant as soon as one becomes available.

(e) *Warehouse entries on dealers' records.* Each warehouseman shall enter on each Dealer's Record (Form 41–Tob–65) the total of purchases and resales made by such dealer during each sale day at the warehouse. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1941 the entry on the Dealer's Record shall clearly show such fact.

(f) *Daily report of warehouse business and report of penalties.* Each warehouseman shall make reports on Form 41–Tob–66, Auction Warehouse Report, and on Form 41–Tob–67, Listing of Penalties, showing the information required on the respective reports. Form 41–Tob–66 shall be prepared for each sale day and all reports for the sale days occurring during any week shall be forwarded to the Marketing Quota Section at or before the end of the next following calendar week. Form 41–Tob–67 shall be prepared for each week and the report for each week shall be forwarded, together with the remittance of the penalty due, as shown thereon, to the Marketing Quota Section not later than the end of the next following calendar week.

(g) *Summary of warehouse accounts.* Each warehouseman shall assist field assistants to prepare summaries of the warehouse account by making available all records kept and reports made by the warehouse as required by the regulations in this subpart.

(h) *Additional records and reports.* In addition to the records and reports provided above, each warehouseman shall keep such additional records and make such additional reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary in order to enforce the regulations in this subpart.*

§ 726.393 *Dealer's records and reports.* Each dealer, except as provided in § 726.394, shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address and registration number.* Each dealer shall properly execute and the field assistant shall detach and forward to the Marketing Quota Section the page "Receipt for Dealer's Record" contained in Form 41–Tob–65, "Dealer's Record" which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on Form 41–Tob–65, "Dealer's Record", showing all purchases and resales of tobacco made by the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1941, the fact that such tobacco was bought by him and carried over from a crop produced prior to 1941.

(c) *Report of penalties.* Each dealer shall make a report on Form 41–Tob–67 showing the information with respect to all purchases subject to penalty made by him during each calendar week. The amount of penalty shown to be due by each such report shall be remitted with the report.

(d) *Memorandum of sale record and bill of nonwarehouse sale record.* For each lot of tobacco purchased from a farmer each dealer shall obtain a record in the form of a valid memorandum of sale issued by a representative of the Marketing Quota Section. No memorandum of sale shall be issued unless: (1) the farm operator or his authorized agent has signed the "Operator's Certificate" on the back of the memorandum and (2) unless a properly executed Bill of Nonwarehouse Sale (Form 41–Tob–64) is presented covering such sale.

(e) *Additional records.* Each dealer shall keep such records, in addition to the foregoing, as may be necessary to enable him to furnish the following information with respect to each lot of tobacco purchased or sold by him: The name of the seller (and in the case of a purchase from a producer, the name of the operator of the farm on which the tobacco was produced), the name of the purchaser, the date of the transaction, the number of pounds and the gross sale price; and in the event of resale of tobacco bought by him and carried over from a crop produced prior to 1941, the fact that such tobacco was so bought and carried over.

All reports shall be forwarded to the Marketing Quota Section not later than the end of the week following the calendar week covered by the reports.*

§ 726.394 *Dealers exempt from regular records and reports.* Any dealer who does not purchase or otherwise acquire tobacco except at a warehouse sale and who does not resell, in the form in which tobacco ordinarily is sold by farmers, more than ten percent of the tobacco purchased by him, shall not be subject to the provisions of § 726.393 of the regulations in this subpart; but each such dealer shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary to enforce the regulations in this subpart.*

§ 726.395 *Records and reports of redryers, etc.* Every person engaged in the business of redrying, prizing, or stemming tobacco for producers shall keep such records as will enable him to furnish the Secretary of Agriculture a report of the following information with respect to each lot of tobacco received by him: The date of receipt of the tobacco, the number of pounds received, the purpose for which the tobacco was received (and if received from a producer, the name and address of the farm operator, and the code and serial number of the farm on which the tobacco was grown), the amount of advance made by him on the tobacco, and the disposition of the tobacco. Each such person shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may find necessary to enforce the regulations in this subpart.*

§ 726.396 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, processor, or as a person engaged in the business of redrying, prizing, or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged, to the same extent for each such business as if he were engaged in no other business, except that a warehouseman shall not be required to keep a record and make reports on Form 41–Tob–65, "Dealer's Record", if the transactions which would be recorded and reported on such forms are recorded on the records kept by the warehouse in its regular course of business and reported as required on Form 41–Tob–66.*

§ 726.397 *Failure to keep record or make report.* Any warehouseman, processor, or common carrier of tobacco, or person engaged in the business of purchasing tobacco from producers, or person engaged in the business of redrying, prizing or stemming tobacco for producers, who fails to make any report or keep any record as required under the regulations in this subpart, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under the regulations in this subpart within fifteen days after notice

to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the the same to him by registered mail or by posting the same at an established place of business operated by him, or both. Notice of any violation by a tobacco warehouseman or dealer shall be given by the Chief of the Marketing Quota Section.*

§ 726.398 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report, but not so furnished, any warehouseman, dealer, processor, common carrier or person engaged in the business of redrying, prizing or stemming tobacco for producers shall make available for examination, upon written request by the Chief of the Marketing Quota Section, such books, papers, records, accounts, correspondence, contracts, documents and memoranda as he has reason to believe are relevant and are within the control of such person.*

§ 726.399 *Length of time records and reports to be kept.* Records required to be kept and copies of the reports required to be made by any person under the regulations in this subpart for the 1941–42 marketing year shall be kept by him until September 20, 1943, and for such longer period of time as may be requested in writing by the Chief of the Marketing Quota Section.*

§ 726.400 *Information confidential.* All data reported to or acquired by the Secretary of Agriculture pursuant to the provisions of the regulations in this subpart shall be kept confidential by all officers and employees of the Department of Agriculture, and only such data so reported or acquired as the Secretary of Agriculture deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the Act.*

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-454]

PARTS 322, 323, AND 326—MINIMUM PRICE SCHEDULE, DISTRICT NOS. 2, 3, AND 6

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER AND GRANTING RELIEF IN THE MATTER OF THE PETITION OF BITUMINOUS COAL PRODUCERS BOARD FOR DISTRICT NO. 3 FOR REVISION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS OF DISTRICT NO. 3 FOR ALL-RAIL SHIPMENTS TO CERTAIN DESTINATIONS IN MARKET AREAS 11, 12 AND 13

This proceeding was instituted upon a petition filed by District Board 3 with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requested temporary and permanent orders reducing the effective minimum prices of coal shipped all-rail by producers in District 3 into Akron, Canton, Ceico, Cleveland, Lorain, South Lorain, Massillon, and Warren, Ohio, destinations in Market Areas 11, 12, and 13, to the extent of eight cents per net ton. Intervening petitions were filed by District Boards 1, 2, 4, 6, and 7. An appearance was entered by the Consumers' Counsel Division.

By Order of the Director, as subsequently modified, the following temporary relief was granted: "All effective minimum prices set forth in the Schedules of Effective Minimum Prices for Districts 2, 3, 4 and 6, inclusive, for shipment ex-river, via Colona and Conway, Pennsylvania, shall forthwith be increased 7½ cents per net ton except when such shipment is made to Youngstown, Ohio, or Walford, Pennsylvania, or points intermediate between Colona and Conway, Pennsylvania, and Youngstown, Ohio, and Walford, Pennsylvania, via route of movement in accordance with intermediate rule contained in applicable tariffs of the Pennsylvania Railroad and the Pittsburgh and Lake Erie Railroad."

Pursuant to Orders of the Director and after due notice to all interested parties, a hearing in this matter was held before W. A. Shipman, a duly designated Examiner of the Division, at a hearing room thereof, in Washington, D. C. On September 11, 1941, the Examiner submitted Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter, recommending the amendment of the price schedules of Districts 2, 3, and 6 for shipment ex-river, via Colona and Conway, Pennsylvania, in accordance with the temporary relief theretofore granted by the Director. An opportunity was afforded all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner, and supporting briefs. On October 13, 1941, the Office of the Bituminous Coal Consumers' Counsel filed exceptions.

On October 25, 1940, the railroads serving Colona and Conway promulgated new rate schedules effective November 25, 1940, under which the railroads reduced their lifting charge at those points from 13 cents to 5½ cents for coal shipped to Akron, Canton, Ceico, Cleveland, Lorain, South Lorain, Massillon, and Warren. This reduction resulted in a delivered price for coals shipped ex-river to these points 7½ cents lower than the delivered price for all-rail shipments.

The district boards which appeared herein sought an adjustment of the f. o. b. mine price of ex-river and all-rail coals so that the parity which existed prior to October 1, 1940, and from that date to November 25, 1940, would be restored. District Board 3 sought such restoration by reducing by eight cents per ton the f. o. b. mine prices of coal shipped all-rail to the destinations in question. District Boards 1, 4, 6, and 7 urged that the f. o. b. mine prices for ex-river coals should be raised 7½ cents per ton. District Board 2 indicated no preference for either procedure. The Consumers' Counsel Division urged, as the Office of the Bituminous Coal Consumers' Counsel now urges in its exceptions, that the schedules of effective minimum prices should not be changed but that the producers who have ex-river shipping facilities should be allowed to pass on to consumers the competitive advantage afforded them by the lowered lifting charges.

In its exceptions, the Bituminous Coal Consumers' Counsel contends that the effect of the Examiner's recommendations, if adopted by the Division, would be to counteract and frustrate valid freight rate reductions, whether ordered by the Interstate Commerce Commission or extended by the railroads themselves, to the detriment of consumers. However, under the mandate of the Congress requiring the Division to consider transportation charges in coordinating the minimum prices established pursuant to the Act, any important revision in transportation charges which affects coordination raises the question of whether an appropriate revision of the effective minimum prices must be made.

In this case, the lowered lifting charges put into effect by the railroads, operated to disrupt the coordination of the ex-river and all-rail coals moving to the destinations in question. Prior to October 1, 1940, but about 10 per cent of the coals moving to Market Areas 11, 12, and 13 moved ex-river under circumstances where prices for similar coals moving to the same destinations by rail and ex-river were on a substantial parity. The reduced lifting charges put into effect by the railroads on November 25, 1940, resulted in the cessation of all-rail shipments from District 3 to the destinations in question in Market Areas 11, 12, and 13 until after the issuance of the temporary relief herein restoring the parity between rail and ex-river shipments. Under these circumstances, it is clear that to adopt the contention of the Bitumnious Coal Consumers' Counsel, while perhaps resulting in some benefit to some consumers in Market Areas 11, 12, and 13, would be seriously to impair and disrupt the coordination of all-rail and ex-river prices. As found by the Examiner, that coordination was originally accomplished by using a proper delivered price for all-rail coals as a base and coordinating thereafter the prices of ex-river coals so that the same delivered price would be maintained regardless of the method of shipment.

In accordance with the provisions of the Act, the Division, in the regulation of the minimum price level, pays due regard to the interests of the consuming public. This does not mean, however, that in regulating the minimum price structure of bituminous coal, the other standards of the Act can be disregarded. These standards, indeed the maintenance of a sound price structure, require that minimum prices be coordinated in common consuming market areas upon a fair competitive basis, that transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis shall be considered, and that the prices shall preserve as nearly as may be existing fair competitive opportunities. Although the Act does not seek to "freeze" market conditions, the requirement that existing fair competitive opportunities be preserved does necessitate a readjustment of the coordination of coals moving by different methods so as to allow the continued movement of such coals on a fair competitive basis. Nor has the Bituminous Coal Consumers' Counsel shown, nor does the record indicate, that consumers will necessarily be injured by the increase in the effective minimum prices recommended by the Examiner.

On the basis of the above opinion and for the reasons stated therein, I conclude that the exceptions are without merit and that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

The Order granting temporary relief herein was issued on December 26, 1940, 5 F.R. 5293. On December 31, 1940, the Pursglove Coal Mining Company, a code member producer in District 3, loaded one barge of coal for shipment to Market Area 13 via Colona, and on January 2, 1941, shipped the same. The loading and shipping occurred prior to Pursglove's receiving notice of the Order of December 26. Pursglove has filed a verified application for permission to invoice the aforesaid barge load at the minimum price in effect immediately prior to the Order of December 26, 1940. I find that such relief should be granted.

Now, therefore, it is ordered, That the said Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be, and they hereby are, adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That all effective minimum prices set forth in § 322.9 (*Special prices*—(e) *Ex-river coal*), § 323.8 (*Special prices*—(f) *Ex-river coal*), and § 326.8 (*Special prices*—(f) *Prices for ex-river shipment from mines having river loading facilities*) in the Schedules of Effective Minimum Prices for Districts 2, 3, and 6, for shipment ex-river, via Colona and Conway, Pennsylvania, shall forthwith be increased 7½ cents per net ton, except when such shipment is made to Youngstown, Ohio, or Walford, Pennsylvania, or points intermediate between Colona and Conway, Pennsylvania, and Youngstown, Ohio, and Walford, Pennsylvania, via route of movement in accordance with intermediate rule contained in applicable tariffs of the Pennsylvania Railroad and the Pittsburgh and Lake Erie Railroad.

It is further ordered, That the Pursglove Coal Mining Company be, and it hereby is, permitted to invoice the contents of one barge, loaded by it on December 31, 1940, and shipped by it on January 2, 1941, to Market Area 13 via Colona, Pennsylvania, at the minimum price for such coal which was effective immediately prior to the Order herein dated December 26, 1940.

It is further ordered, That the prayers for relief contained in the several petitions filed herein are granted to the extent set forth above, and in all other respects denied.

Dated: October 21, 1941.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division, pursuant to the provisions of the Bituminous Coal Act of 1937, by District Board 8. The petition requests a revision in the effective minimum prices, for truck shipment, established for the coals produced at Compton Mine (Mine Index No. 2211) operated by the Kreger Mining Company, a code member producer in District 8.[1]

Pursuant to an Order of the Director dated August 13, 1941, and after due notice to all interested persons, a hearing was held in this matter on September 10, 1941, before Edward J. Hayes, a duly designated Examiner of the Bituminous Coal Division at a hearing room of the Division in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Only original petitioner appeared at the hearing. The preparation and filing of a report by the Examiner was waived, and the matter was thereupon submitted to the undersigned, who has considered the record of this proceeding.

The petition of District Board 8 herein requests a revision in the effective minimum prices heretofore established for the coals produced at the Compton Mine (Mine Index No. 2211) for truck shipment. This mine is located in Russell County, Virginia, in District 8. The prices proposed by the District Board are based upon a requested change in seam designation.

A witness for the District Board testified that he had made a personal investigation of the Compton Mine and found that the mine is producing in the Upper Banner Seam, rather than in the Widow Kennedy Seam as presently designated in the schedule. He stated that the prices herein requested are the same as those established for comparable coals produced from the Upper Banner Seam by mines located in close proximity to the Compton Mine. These prices are 10 and 20 cents per ton lower in certain size groups than those presently established for the Compton Mine coals. It was the opinion of the witness that the prices herein requested will reflect the relative market value of the Compton Mine coals and will not have any detrimental effect upon competing coals.

Upon the basis of the uncontroverted evidence, I find and conclude: (1) that the minimum prices and the seam designation shown in the schedule hereto attached for the coals produced at the Compton Mine are proper and should be established; that said prices conform with the prices heretofore established for analogous and similar coals of District 8; (2) that such amendment of the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments is required in order to effectuate the purposes of section 4 II (a) and 4 II (b) of the Act and to comply with the standards thereof.

Now, therefore, it is ordered, That commencing forthwith § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) in the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments be, and it hereby is, amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: October 7, 1941.

[SEAL] H. A. GRAY, *Director.*

[1] It appears that the Kreger Mining Company has succeeded the Compton Coal Company as the operator of the Compton Mine.

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER AMENDING ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITIONS OF CERTAIN PRODUCERS IN WILLIAMSON AND SALINE COUNTIES, DISTRICT 10, FOR A REDUCTION OF MINIMUM PRICES

On September 9, 1941, 6 F.R. 4662, the Director issued his Findings of Fact, Conclusions of Law, and Opinion in the above-entitled proceedings, and issued an Order Granting Permanent Relief therein. That Order, *inter alia*, reduced the prices for certain coals of District 10 for shipment by truck. The Director has been advised that the Order of September 9, 1941, is ambiguous and does not clearly indicate that the reductions ordered are limited to prices of coals for shipment by truck. It appears advisable that this ambiguity should be eliminated.

Now, therefore, it is ordered, That the next to the last paragraph of the Order Granting Permanent Relief entered in this proceeding on September 9, 1941, be and it hereby is amended and revised to read as follows:

It is ordered, That commencing forthwith, the effective minimum prices applicable to all mines in Section 10 of District 10 which are set forth in § 330.25 (*General prices in cents per net ton for shipment into all market areas*) in the Schedule of Effective Minimum Prices for District 10 for Truck Shipments shall be and the same are hereby reduced for shipments by truck as follows: Size Group 8 from $1.80 to $1.60; Size Group 9 from $1.75 to $1.50; Size Groups 10, 11, and 12 from $1.65 to $1.50; Size Group 13 from $1.40 to $1.30; and Size Group 15 from $0.75 to $0.65 per ton f. o. b. the mine; and that the effective minimum prices in all size groups for Mine Index 40 (Augustina Coloni) for truck shipments be and the same are hereby established the same as those for the above-mentioned mines in Section 10 of District 10, as herein revised.

Dated: October 21, 1941.

[Docket No. A-1050]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

[Docket No. A-1050, Part II]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF ADDITIONAL RAIL LOADING POINTS FOR THE COALS OF MINE INDEX NOS. 1417, 604 AND 721 AND FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 1023, 919, 870, 860, 2619 AND 2093 IN DISTRICT NO. 1 FOR ALL SHIPMENTS EXCEPT TRUCK

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1050 PART II FROM DOCKET NO. A-1050, GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1050 PART II AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A-1050 PART II

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with this Division in Docket No. A-1050, requesting the establishment of price classifications and minimum prices for the coals of certain mines in District No. 1.

As indicated in an Order issued in Docket No. A-1050, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner, except with respect to the establishment of additional rail loading points for the coals of Mine Index Nos. 1417, 604, and 721 and the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 1023, 919, 870, 860, 2619 and 2093 for all shipments except truck.

While it appears that a reasonable showing of necessity has been made for the granting of temporary relief in the form of price classifications and minimum prices for the coals of Mine Index Nos. 1023, 919, 870, 860, 2619 and 2093 for all shipments except truck, as prayed for by the petitioner, the Director is of the opinion that the original petitioner has not set forth sufficient facts to warrant the establishment of additional rail loading points for the coals of Mine Index Nos. 1417, 604, and 721, or of permanent price classifications and minimum prices for the coals of Mine Index Nos. 1023, 919, 870, 860, 2619 and 2093, for all shipments except truck without a hearing;

Now, therefore, it is ordered, That the portion of Docket No. A-1050 relating to the establishment of additional rail loading points for the coals of Mine Index Nos. 1417, 604 and 721, and to the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 1023, 919, 870, 860, 2619 and 2093 for all shipments except truck, be, and it hereby is, severed from the remainder of Docket No. A-1050, and designated as Docket No. A-1050 Part II.

It is further ordered, That a hearing in Docket No. A-1050 Part II under the applicable provisions of said Act and the rules of the Division be held on November 12, 1941, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby

[1] The complaint was amended at the hearing to include the tonnage sold during the period October 8, 1940 to April 23, 1941 and to allege that the coal was sold at a price of $1.00 per ton f. o. b. the mine.

[2] Not filed with the original document.

authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before November 7, 1941.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 1 for the establishment of additional rail loading points for the coals of Mine Index Nos. 1417, 604 and 721, and for the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 1023, 919, 870, 860, 2619 and 2093 in District No. 1, for all shipments except truck.

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 1, For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the schedule marked "Temporary Supplement R," annexed hereto and hereby made a part hereof.

Notice is hereby given that all applications to stay, terminate, or modify the temporary relief granted herein may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: October 8, 1941.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 1–1770]

IN THE MATTER OF PROCEEDING UNDER SECTION 19 (a) (2) OF THE SECURITIES EXCHANGE ACT OF 1934 TO DETERMINE WHETHER THE REGISTRATION OF LEHI TINTIC MINING COMPANY COMMON STOCK, $1 PAR VALUE, ASSESSABLE, SHOULD BE SUSPENDED OR WITHDRAWN

FINDINGS AND ORDER OF THE COMMISSION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 21st day of October, A. D. 1941.

Appearances: John L. Geraghty, for the Registration Division of the Commission.

The Lehi Tintic Mining Company has listed on the Salt Lake Stock Exchange and registered with the Commission its common stock, $1 par value, assessable. On August 8, 1941, the Commission instituted this proceeding, pursuant to section 19 (a) (2) of the Securities Exchange Act of 1934, to determine whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding 12 months or to withdraw the registration and listing of registrant's common stock.

The order instituting the proceeding set forth as the issues to be determined by the hearing:

(1) Whether the registrant has failed to comply with section 13 (a) of the Act and the Commission's rules promulgated thereunder in failing to file its annual report for the fiscal year ended September 30, 1940; and

(2) If so, whether it is necessary or appropriate for the protection of investors to suspend or withdraw the registration of its common stock.

After appropriate notice to the registrant, the Salt Lake Stock Exchange, and the public, a hearing was held before a trial examiner in Denver, Colorado. The trial examiner filed an advisory report in which he found that, in contravention of section 13 (a) of the Act and the Commission's rules thereunder, the registrant failed to file its annual report for the fiscal year ended September 30, 1940.[1] No exceptions to the trial examiner's report have been filed and no objection to the withdrawal of listing and registration has been made either by the Salt Lake Stock Exchange or the registrant.[2] Upon an independent review of the record we adopt the aforementioned finding of the trial examiner as being in accord with the record.

The registrant is a corporation organized under the laws of the State of Utah. Its business is that of an operating mining company but it has been inactive for several years. Trading in the stock of the registrant has been suspended by the Salt Lake Stock Exchange since March 4, 1940.

We find that the registrant has failed to comply with the statute and the rules thereunder in the respects noted above, and that it is necessary and appropriate for the protection of investors that the listing be withdrawn. Cf. *North European Oil Corporation*, 9 S. E. C. (1941), Securities Exchange Act Release No. 2987.

Accordingly, it is ordered that the listing and registration of the common stock, $1 par value, assessable, of the Lehi Tintic Mining Company on the Salt Lake Stock Exchange, a national securities exchange, be and it hereby is withdrawn.

By the Commission (Chairman Eicher, Commissioners Healy, Pike, Purcell, and Burke).

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[F. R. Doc. 41–7963; Filed, October 22, 1941; 11:23 a. m.]

[1] Under Rule X-13A-1 the registrant is required to file its annual reports not more than 120 days after the close of its fiscal year. No annual report has yet been filed by the registrant for its fiscal year ended September 30, 1940, although such report was due to be filed not later than January 28, 1941. The registrant's counsel advises by letter that the report was not filed because the company felt that it could not pay the expense entailed in making up the report.

[2] In his letter to the Commission, counsel for the registrant stated that the company did not want to be delisted if such contingency could be avoided. However, he did not suggest any possibility that the company would take steps to file the required annual report at any time in the near future.

TITLE 7—AGRICULTURE

CHAPTER VII—AGRICULTURAL ADJUSTMENT ADMINISTRATION

PART 724—BURLEY TOBACCO

PROCLAMATION OF THE NATIONAL MARKETING QUOTA FOR THE 1942–43 MARKETING YEAR

Whereas the Agricultural Adjustment Act of 1938, as amended, provides:

SEC. 312. (a) Whenever the Secretary [of Agriculture] finds that the total supply of tobacco as of the beginning of the marketing year then current exceeds the reserve supply level therefor, the Secretary shall proclaim the amount of such total supply, and, beginning on the first day of the marketing year next following and continuing throughout such year, a national marketing quota shall be in effect for the tobacco marketed during such marketing year. The Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. Such proclamation shall be made not later than the 1st day of December in such year. The amount of the national marketing quota so proclaimed may, not later than December 31, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands, or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level.

And, whereas said Act, in section 312 (b) further provides:

(b) Within thirty days after the date of the issuance of the proclamation specified in subsection (a) of this section, the Secretary shall conduct a referendum of farmers who were engaged in production of the crop of tobacco harvested prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quota. • • • In the same referendum the Secretary shall also submit to such farmers the question of whether they favor tobacco marketing quotas for a period of three years, beginning with the marketing year next following. If two-thirds of the farmers voting on this question favor marketing quotas for a three-year period, the Secretary shall proclaim marketing quotas for such period, and beginning on the first day of the marketing year next following and continuing throughout the period so proclaimed, a national marketing quota shall be in effect for the tobacco marketed during each marketing year in said period unless amendments are made in the provisions for determining farm allotments so as to cause material revision of such allotments before the end of such period • • •

And, whereas, no amendments have been made which would cause a material revision of the farm allotments; and

Whereas, the Secretary conducted a referendum for Burley tobacco on the 23rd day of November 1940, in which more than two-thirds of the farmers voting were in favor of marketing quotas for a three-year period beginning with the marketing year 1941–42, as proclaimed in the proclamation issued by the Secretary, on the 31st day of December 1940, and

Whereas said Act contains, in section 301 (b), the following definitions of terms here pertinent:

"Total supply" of tobacco for any marketing year shall be the carry-over at the beginning of such marketing year plus the estimated production thereof in the United States during the calendar year in which such marketing year begins • • •

"Carry-over" of tobacco for any marketing year shall be the quantity of such tobacco on hand in the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current, except that it shall not include any amount of such tobacco of the 1939 and 1940 crops which the Secretary determines is stored temporarily in the United States because of war or other unusual conditions delaying the normal exportation thereof • • •

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

• • • • •

Tobacco (Burley), October 1–September 30 • • •

"Reserve supply level" of tobacco shall be the normal supply plus 5 per centum thereof, to insure a supply adequate to meet domestic consumption and export needs in years of drought, flood, or other adverse conditions, as well as in years of plenty.

The "normal supply" of tobacco shall be a normal year's domestic consumption and exports plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports as an allowance for a normal carry-over.

"Normal year's domestic consumption", in the case of • • • tobacco, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

"Normal year's exports" in the case of • • • tobacco • • • shall be the yearly average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years • • • immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

And, whereas said Act provides, in section 301 (c), that

The latest available statistics of the Federal Government shall be used by the Secretary [of Agriculture] in making the determinations required to be made by the Secretary under this Act.

Now, therefore, be it known that the Secretary of Agriculture of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in him by the Agricultural Adjustment Act of 1938, as amended, does hereby find, determine, specify, and proclaim that:

§ 724.401 *Findings and determinations with respect to the national marketing quota for Burley tobacco for the marketing year beginning October 1, 1942* [1]—(a) *Reserve supply level.* The reserve supply level of Burley tobacco is 1,030,000,000 pounds.

(b) *Total supply.* Total supply of Burley tobacco for the marketing year for such tobacco, beginning October 1, 1941, was 1,136,000,000 pounds, and exceeds the reserve supply level of such tobacco.

(c) *National marketing quota.* The amount of the national marketing quota for Burley tobacco which will make available during the marketing year beginning October 1, 1942, a supply of tobacco equal to the reserve supply level of such tobacco is 244,000,000 pounds. An increase in this amount is necessary in order to meet market demands, and to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. Therefore, the amount of the national marketing quota for Burley tobacco, in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1942, as increased, is 292,000,000 pounds. (52 Stat. 38–43, 46; 53 Stat. 1261; 54 Stat. 392, 1209; 7 U.S.C. Supp. V 1301 (b), 1312 (a), (b)).

Done at Washington, D. C. this 21st day of October 1941. Witness my hand and the seal of the Department of Agriculture.

Acting Secretary of Agriculture.

PART 726—FIRE-CURED AND DARK AIR-CURED TOBACCO

NATIONAL MARKETING QUOTA FOR FIRE-CURED TOBACCO

Whereas the Agricultural Adjustment Act of 1938, as amended, provides:

SEC. 312 (a) Whenever the Secretary [of Agriculture] finds that the total supply of tobacco as of the beginning of the marketing year then current exceeds the reserve supply level therefor, the Secretary shall proclaim the amount of such total supply, and, beginning on the first day of the marketing year next following and continuing throughout such year, a national marketing quota shall be in effect for the tobacco marketed during such marketing year. The Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. Such proclamation shall be made not later than the 1st day of December in such year. The amount of the national marketing quota so proclaimed may, not later than December 31, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands, or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level.

And whereas said Act. in Section 312 (b), further provides:

(b) Within thirty days after the date of the issuance of the proclamation specified in subsection (a) of this section, the Secretary shall conduct a referendum of farmers who were engaged in production of the crop of tobacco harvested prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quota. • • • In the same referendum the Secretary shall also submit to such farmers the question of whether they favor tobacco marketing quotas for a period of three years, beginning with the marketing year next following. If two-thirds of the farmers voting on this question favor marketing quotas for a three-year period, the Secretary shall proclaim marketing quotas for such period, and beginning on the first day of the marketing year next following and continuing throughout the period so proclaimed, a national marketing quota shall be in effect for the tobacco marketed during each marketing year in said period unless amendments are made in the provisions for determining farm allotments so as to cause material revision of such allotments before the end of such period • • •.

And whereas no amendments have been made which would cause a material revision of the farm allotments; and

Whereas the Secretary conducted a referendum for fire-cured tobacco on the 23rd day of November 1940, in which more than two-thirds of the farmers voting were in favor of marketing quotas for a three-year period beginning with the marketing year 1941–42, as proclaimed in the proclamation issued by the Secretary, on the 31st day of December 1940; and

Whereas said Act contains, in Section 301 (b), the following definitions of terms here pertinent:

"Total supply" of tobacco for any marketing year shall be the carry-over at the beginning of such marketing year plus the estimated production thereof in the United States during the calendar year in which such marketing year begins • • •.

"Carry-over" of tobacco for any marketing year shall be the quantity of such tobacco on hand in the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current, except that it shall not include any amount of such tobacco of the 1939 and 1940 crops which the Secretary determines is stored temporarily in the United States because of war or other unusual conditions delaying the normal exportation thereof • • •.

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

• • • • •

Tobacco (fire-cured), October 1–September 30 • • •.

"Reserve supply level" of tobacco shall be the normal supply plus 5 per centum thereof, to insure a supply adequate to meet domestic consumption and export needs in years of drought, flood, or other adverse conditions, as well as in years of plenty.

The "normal supply" of tobacco shall be a normal year's domestic consumption and exports plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports as an allowance for a normal carry-over.

"Normal year's domestic consumption", in the case of • • • tobacco, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

And whereas said Act provides, in section 301 (c), that

The latest available statistics of the Federal Government shall be used by the Secretary [of Agriculture] in making the determinations required to be made by the Secretary under this Act;

Now, therefore, be it known that the Secretary of Agriculture of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in him by the Agricultural Adjustment Act of 1938, as amended, does hereby find, determine, specify, and proclaim that:

§ 726.401 *Findings and determinations with respect to the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1942.*[1]—(a) *Reserve supply level.* The reserve supply level of fire-cured tobacco is 216,000,000 pounds.

(b) *Total supply.* Total supply of fire-cured tobacco for the marketing year for such tobacco, beginning October 1, 1941, was 260,000,000 pounds, and exceeds the reserve supply level of such tobacco.

(c) *National marketing quota.* The amount of the national marketing quota for fire-cured tobacco which will make available during the marketing year beginning October 1, 1942, a supply of tobacco equal to the reserve supply level of such tobacco is 62,000,000 pounds. An increase in this amount is necessary in order to meet market demands, and to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. Therefore, the amount of the national marketing quota for fire-cured tobacco, in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1942, as increased, is 67,500,000 pounds. Whereas said Act contains, in section 301 (b), the following definitions of terms here pertinent:

"Total supply" of tobacco for any marketing year shall be the carry-over at the beginning of such marketing year plus the estimated production thereof in the United States during the calendar year in which such marketing year begins * * *.

"Carry-over" of tobacco for any marketing year shall be the quantity of such tobacco on hand in the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current, except that it shall not include any amount of such tobacco of the 1939 and 1940 crops which the Secretary determines is stored temporarily in the United States because of war or other unusual conditions delaying the normal exportation thereof * * *.

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

* * * * *

Tobacco (dark air-cured), October 1–September 30 * * *.

"Reserve supply level" of tobacco shall be the normal supply plus 5 per centum thereof, to insure a supply adequate to meet domestic consumption and export needs in years of drought, flood, or other adverse conditions, as well as in years of plenty.

The "normal supply" of tobacco shall be a normal year's domestic consumption and exports plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports as an allowance for a normal carry-over.

"Normal year's domestic consumption", in the case of * * * tobacco, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

"Normal year's exports" in the case of * * * tobacco * * * shall be the yearly average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years * * * immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.; and whereas said Act provides, in section 301 (c), that "The latest available statistics of the Federal Government shall be used by the Secretary [of Agriculture] in making the determinations required to be made by the Secretary under this Act.

(b) *Total supply.* Total supply of dark air-cured tobacco for the marketing year for such tobacco, beginning October 1, 1941, was 100,000,000 pounds, and exceeds the reserve supply level of such tobacco.

(c) *National marketing quota.* The amount of the national marketing quota for dark air-cured tobacco which will make available during the marketing year beginning October 1, 1942, a supply of tobacco equal to the reserve supply level of such tobacco is 25,000,000 pounds. An increase in this amount is necessary in order to meet market demands, and to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. Therefore, the amount of the national marketing quota for dark air-cured tobacco, in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1942, as increased, is 27,300,000 pounds. PART 727—FLUE-CURED TOBACCO

PROCLAMATION OF THE NATIONAL MARKETING QUOTA FOR THE 1942–43 MARKETING YEAR

Whereas the Agricultural Adjustment Act of 1938, as amended, provides:

SEC. 312. (a) Whenever the Secretary [of Agriculture] finds that the total supply of tobacco as of the beginning of the marketing year then current exceeds the reserve supply level therefor, the Secretary shall proclaim the amount of such total supply, and, beginning on the first day of the marketing year next following and continuing throughout such year, a national marketing quota shall be in effect for the tobacco marketed during such marketing year. The Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. Such proclamation shall be made not later than the 1st day of December in such year. The amount of the national marketing quota so proclaimed may, not later than December 31, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands, or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level.

And, whereas said Act, in section 312 (b), further provides:

(b) Within thirty days after the date of the issuance of the proclamation specified in subsection (a) of this section, the Secretary shall conduct a referendum of farmers who were engaged in production of the crop of tobacco harvested prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quota. * * * In the same referendum the Secretary shall also submit to such farmers the question of whether they favor tobacco marketing quotas for a period of three years, beginning with the marketing year next following. If two-thirds of the farmers voting on this question favor marketing quotas for a three-year period, the Secretary shall proclaim marketing quotas for such period, and beginning on the first day of the marketing year next following and continuing throughout the period so proclaimed, a national marketing quota shall be in effect for the tobacco marketed during each marketing year in said period unless amendments are made in the provisions for determining farm allotments so as to cause material revision of such allotments before the end of such period * * *

And, whereas, no amendments have been made which would cause a material revision of the farm allotments; and

Whereas, the Secretary conducted a referendum for flue-cured tobacco on the 20th day of July, 1940, in which more than two-thirds of the farmers voting were in favor of marketing quotas for a three-year period beginning with the marketing year 1941–42, as proclaimed in the proclamation issued by the Secretary, on the 27th day of August 1940; and

Whereas said Act contains, in section 301 (b), the following definitions of terms here pertinent:

"Total supply" of tobacco for any marketing year shall be the carry-over at the beginning of such marketing year plus the estimated production thereof in the United States during the calendar year in which such marketing year begins * * *."

"Carryover" of tobacco for any marketing year shall be the quantity of such tobacco on hand in the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current, except that it shall not include any amount of such tobacco of the 1939 and 1940 crops which the Secretary determines is stored temporarily in the United States because of war or other unusual conditions delaying the normal exportation thereof * * *.

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

* * * * *

Tobacco (flue-cured), July 1–June 30 * * *.

"Reserve supply level" of tobacco shall be the normal supply plus 5 per centum thereof, to insure a supply adequate to meet domestic consumption and export needs in years of drought, flood, or other adverse conditions, as well as in years of plenty.

The "normal supply" of tobacco shall be a normal year's domestic consumption and exports plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports as an allowance for a normal carry-over.

"Normal year's domestic consumption", in the case of * * * tobacco, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

"Normal year's exports" in the case of * * * tobacco * * * shall be the yearly average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years * * * immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

And, whereas said Act provides, in section 301 (c), that

The latest available statistics of the Federal Government shall be used by the Secretary [of Agriculture] in making the determinations required to be made by the Secretary under this Act.

Now, therefore, be it known that the Secretary of Agriculture of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in him by the Agricultural Adjustment of 1938, as amended, does hereby find, determine, specify, and proclaim that:

§ 727.401 *Findings and determinations with respect to the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1942*[1]—(a) *Reserve supply level.* The reserve supply level of flue-cured tobacco is 1,863,000,000 pounds.

(b) *Total supply.* Total supply of flue-cured tobacco for the marketing year for such tobacco, beginning July 1, 1941, was 2,238,000,000 pounds, and exceeds the reserve supply level of such tobacco.

(c) *National marketing quota.* The amount of the national marketing quota for flue-cured tobacco which will make available during the marketing year beginning July 1, 1942, a supply of tobacco equal to the reserve supply level of such tobacco is 570,000,000 pounds. An increase in this amount is necessary in order to meet market demands, and to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. Therefore, the amount of the national marketing quota for flue-cured tobacco, in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning July 1, 1942, as increased, is 618,000,000 pounds. TITLE 26—INTERNAL REVENUE

[T.D. 5092]

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

Regulations 109 Amended To Conform to Revenue Act of 1941

In order to conform Regulations 109 [2] [Part 30, Title 26, Code of Federal Regulations, 1941 Sup.] to the Revenue Act of 1941 (Public Law 250, 77th Congress), approved September 20, 1941, such regulations are amended as follows:

(2) *Application of rates in case of certain exchanges.* If the taxpayer's highest bracket amount for the taxable year computed under section 752 (relating to certain exchanges) is less than $500,000, then in the application of the table in paragraph (1) of this subsection to such taxpayer, in lieu of each amount, other than the percentages, specified in such table, there shall be substituted an amount which bears the same ratio to the amount so specified as the highest bracket amount so computed bears to $500,000.

SEC. 205. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1941, Title II.)

The amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1940.

PAR. 2. Section 30.710–2, as amended by Treasury Decision 5045, approved May 3, 1941, is further amended as follows:

(A) By inserting at the end of that portion of the first paragraph following item (c) the following new sentence:

In computing the unused excess-profits credit for a taxable year beginning in 1940, the excess-profits credit and the excess-profits net income for such taxable year shall be determined under the law applicable to taxable years beginning in 1941.

(B) By changing the first sentence of the third paragraph to read as follows:

The following tables show the excess profits tax (1) for taxable years beginning after December 31, 1939, and before January 1, 1941, and (2) for taxable years beginning after December 31, 1940, upon certain specified amounts of adjusted excess profits net income.

(C) By changing the heading of the excess profits tax table following the third paragraph to read as follows:

Table I—Taxable Years Beginning After December 31, 1939, and before January 1, 1941.

(a) *Rates.* Section 710 (a) of the Internal Revenue Code is amended to read as follows:

(a) *Imposition.*

"(1) *General rule.* There shall be levied, collected, and paid, for each taxable year, on the adjusted excess profits net income, as defined in subsection (b), of every corporation (except a corporation exempt under section 727) the tax shown in the following table:

If the adjusted excess profits net income is:	*The tax shall be:*
Not over $20,000	35% of the adjusted excess profits net income.
Over $20,000, but not over $50,000	$7,000, plus 40% of excess over $20,000.
Over $50,000, but not over $100,000	$19,000, plus 45% of excess over $50,000.
Over $100,000, but not over $250,000	$41,500, plus 50% of excess over $100,000.
Over $250,000, but not over $500,000	$116,500, plus 55% of excess over $250,000.
Over $500,000	$254,000, plus 60% of excess over $500,000.

(D) By inserting immediately after the existing table the following additional table:

Table II—Taxable years beginning after December 31, 1940

Adjusted excess profits net income	Percent	Total excess profits tax
$0 to $20,000	35	$7,000
$20,000 to $50,000	40	19,000
$50,000 to $100,000	45	41,500
$100,000 to $250,000	50	116,500
$250,000 to $500,000	55	254,000
$500,000 up	60	

(E) By striking from the first example "1940", "$254,000", "204,000", "50 per cent", "50,000", and "254,000", wherever they appear, and inserting in lieu thereof "1941", "$314,000", "254,000", "60 percent", "60,000", and "314,000", respectively.

(F) By changing the first paragraph following the first example to read as follows:

Adjustments are required in the above tables in the case of corporations which have been through certain tax-free exchanges or liquidations (after December 31, 1939) described in sections 750 and 752 and which, as a consequence, have a highest bracket amount of less than $500,000. For definition and computation of highest bracket amount, see sections 750 (e) and 752. Such adjustments are accomplished by applying to the applicable table the ratio of the corporation's highest bracket amount, adjusted as provided in section 752, to what its highest bracket amount would have been if the adjustments required by section 752 had not been made, that is, $500,000. Thus, if the highest bracket amount of a corporation as computed under section 752 is only $300,000, the dollar amounts in Table I or Table II applicable to such corporation will be only $\frac{300,000}{500,000}$, or 60 percent, of the amounts therein set forth. The left-hand column (headed "Adjusted Excess Profits Net Income") of Table I or Table II applicable to such corporation would therefore read $0 to $12,000, $12,000 to $30,000, $30,000 to $60,000, $60,000, to $150,000, $150,000 to $300,000, and $300,000 up. The right-hand column (headed "Total Excess Profits Tax") in Table I would read $3,000, 8,400, 18,900, 54,900, and 122,400; and such column in Table II would read $4,200, 11,400, 24,900, 69,900, and 152,400. The middle, or percentage, column in each table would remain unchanged.

(G) By striking "The table" from the first sentence of the second paragraph following the first example and inserting in lieu thereof "Table I or Table II," and by striking "in the table" from the second and third sentences of such paragraph and inserting in each case in lieu thereof "in the applicable table."

(H) By striking from the third paragraph following the first example "1940," "$272,400," "$122,400," "50 per cent," "150,000," and "272,400," and inserting in lieu thereof "1941," "$332,400," "$152,400," "60 percent," "180,000," and "332,400," respectively.

(I) By striking from the first sentence of the fourth paragraph following the first example "of the excess profits tax table" and inserting in lieu thereof "of the applicable table."

(J) By striking "$50,000" and "80,000" from the second column of the table in the last example and inserting in lieu thereof "$50,000 [1]" and "80,000 [1]", respectively, and by inserting immediately after such table the following:

PAR. 3. There is inserted immediately preceding § 30.711 (a)–1 the following:

(c) *Computation of excess-profits net income.*—

(1) *Taxable years beginning after December 31, 1940.*—

(A) Section 711 (a) (1) (A) (relating to adjustment for income taxes in computing excess-profits net income under income credit) is amended to read as follows:

(A) *Income taxes.* In computing such normal-tax net income the deduction for the tax imposed by this subchapter shall not be allowed;

(B) Section 711 (a) (2) (C) (relating to adjustment for income taxes in computing excess-profits net income under invested capital credit) is amended to read as follows:

(C) *Income taxes.* In computing such normal-tax net income the deduction for the tax imposed by this subchapter shall not be allowed:

* * * * *

(d) *Computation of charitable, etc., deductions.*—

(1) Section 711 (a) (1) of the Internal Revenue code is amended by inserting at the end thereof the following new subparagraph:

(G) *Computation of charitable, etc., deductions.*—In determining any deduction the amount of which is limited to a percentage of the taxpayer's net income (or net income from the property), such net income (or net income from the property) shall be computed without regard to the deduction on account of the tax imposed by this subchapter.

(2) Section 711 (a) (2) of the Internal Revenue Code is amended by adding at the end thereof the following new subparagraph:

(I) *Computation of charitable, etc., deductions.*—In determining any deduction the amount of which is limited to a percentage of the taxpayer's net income (or net income from the property), such net income (or net income from the property) shall be computed without regard to the deduction on account of the tax imposed by this subchapter.

SEC. 205. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1941, Title II.)

The amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1940.

PAR. 4. § 30.711 (a)–2 is amended as follows:

(A) By changing the second paragraph to read as follows:

For taxable years beginning before January 1, 1941, section 711 (a) (1) (A) prior to its amendment by section 202 (c) (1) (A) of the Revenue Act of 1941 provides that the deduction of taxes is to be increased in an amount equal to the tax for the taxable year under Chapter 1 (not including the tax imposed under section 102). The amount of such adjustment is the amount of such tax after the allowance of the credit for foreign taxes as provided by sections 31 and 131. For taxable years beginning after December 31, 1940, no adjustment is to be made on account of the tax under Chapter 1. Furthermore, although the excess profits tax is allowed as a deduction in computing normal-tax net income for the purposes of Chapter 1, such deduction is not allowed under section 711 (a) (1) (A) as amended by section 202 (c) (1) (A) of the Revenue Act of 1941 in computing excess profits net income.

(B) By striking "1940" from the portion of the example preceding the numbered subdivisions and inserting in lieu thereof "1941".

(C) By inserting immediately after the word "corporation" in subdivision (1) of the example the following: ", computed without regard to the deduction on account of the excess profits tax,".

(D) By striking out subdivision (2) of the example and by changing the numbers of the next five subdivisions from "(3)", "(4)", "(5)", "(6)", and "(7)" to "(2)", "(3)", "(4)", "(5)", and "(6)", respectively.

(E) By striking from subdivision (3) (as renumbered by this paragraph) of the example "1930", "1949", "1940", and "1939", wherever they appear, and inserting in lieu thereof "1931", "1950", "1941", and "1940", respectively.

(F) By striking from subdivision (5) (as renumbered by this paragraph) of the example "1940" and inserting in lieu thereof "1941."

(G) By changing the first paragraph after the last numbered subdivision of the example to read as follows:

If the income credit is used, the excess profits net income of the corporation for the calendar year 1941 is $314,600, computed as follows:

Normal-tax net income (computed without deduction of the excess profits tax)		$400,000
Plus:		
Long-term capital losses	$75,000	
50 percent of interest on indebtedness included in borrowed capital	24,000

		160,400
Excess profits net income		314,600

PAR. 5. Section 30.711 (a)–3, as amended by Treasury Decision 5045, is further amended as follows:

The amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1940.

PAR. 7. Section 30.711 (b)-1, as amended by Treasury Decision 5045, is further amended by changing the first paragraph after the first example to read as follows:

In computing the income tax for which an adjustment is required to be made by section 711 (b) (1) (A) for the purpose of computing the excess profits tax for a taxable year beginning prior to January 1, 1941, the normal-tax net income or special-class net income for each base period year shall be that used in the determination of the average base period net income. By reason of the repeal of section 711 (b) (1) (A), no adjustment on account of income tax for any base period year shall be made in computing the excess profits tax for taxable years beginning after December 31, 1940.

Over $5,000,000	$400,000, plus 7% of the excess over $5,000,000.

The amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1940.

PAR. 9. Section 30.714-1, as amended by Treasury Decision 5045, is further amended by changing the second sentence to read as follows:

Regardless of the ratio of earnings to invested capital for previous taxable years, such credit is an amount equal to 8 percent of the corporation's invested capital for the taxable year, except that, if such invested capital for any taxable year beginning after December 31, 1940, exceeds $5,000,000, the credit for such txable year is an amount equal to $400,000 plus 7 percent of the excess over $5,000,000.

PAR. 10. There is inserted immediately preceding § 30.718-1 the following:

SEC. 203. NEW CAPITAL. (Revenue Act of 1941, Title II.)

Section 718 (a) of the Internal Revenue Code is amended by striking out "and" at the end of paragraph (4); by striking out the period at the end of paragraph (5) and inserting in lieu thereof a semicolon and the word "and", and by inserting at the end thereof the following:

(6) *New capital.* An amount equal to 25 per centum of the new capital for such day. The term "new capital" for any day means so much of the amounts of money or property includible for such day under paragraphs (1) and (2) as was previously paid in during a taxable year beginning after December 31, 1940, and so much of the distributions in stock includible for such day under paragraph (3) as was previously made during a taxable year beginning after December 31, 1940, subject to the following limitations:

(A) There shall not be included money or property paid in by a corporation in an exchange to which section 112 (b), (3), (4), or (5), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), or (5) is applicable (or would be applicable except for section 371 (g)), or would have been applicable if the term "control" had been defined in section 112 (h) to mean the ownership of stock possessing more than 50 per centum of the total combined voting power of all classes of stock entitled to vote or more than 50 per centum of the total value of shares of all classes of stock.

(B) There shall not be included money or property paid in to the taxpayer by a transferor corporation if immediately after such transaction the transferor and the taxpayer are members of the same controlled group. As used in this subparagraph and subparagraph (C), a controlled group means one or more chains of corporations connected through stock ownership with a common parent corporation if (i) more than 50 per centum of the total combined voting power of all classes of stock entitled to vote, or more than 50 per centum of the total value of shares of all classes of stock, of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations, and (ii) the common parent corporation owns directly more than 50 per centum of the total combined voting power of all classes of stock entitled to vote, or more than 50 per centum of the total value of shares of all classes of stock, of at least one of the other corporations.

(C) There shall not be included a distribution in stock described in paragraph (3) made to another corporation, if immediately after the distribution the taxpayer and the distributee are members of the same controlled group.

(D) *Increase in inadmissible assets.* The new capital for any day of the taxable year, computed without the application of subparagraph (E), shall be reduced by the excess, if any, of the amount computed under section 720 (b) with respect to inadmissible assets held on such day, over the amount computed under section 720 (b) with respect to inadmissible assets held on the first day of the taxpayer's first taxable year beginning after December 31, 1940. For the purposes of this subparagraph, in determining whether obligations which are described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income are to be treated as admissible or inadmissible assets, such obligations shall be treated in the same manner as they are treated for the taxable year for which tax under this subchapter is being computed.

(E) *Maximum new capital allowable.* The new capital for any day of the taxable year shall not be more than the amount, if any, by which—

(i) The sum of the equity invested capital (computed without regard to this paragraph) and the borrowed capital (as defined in section 719 (a)) of the taxpayer as of such day, reduced by the amount of money or property paid in which is excluded by reason of the limitation of subparagraph (A) or (B) of this paragraph, exceeds

(ii) The sum of such equity invested capital and borrowed capital as of the beginning of the first day of such taxpayer's first taxable year beginning after December 31, 1940, reduced by the amount, if any, by which the accumulated earnings and profits as of such first day of such first taxable year exceed the accumulated earnings and profits (computed without regard to distributions made in taxable years beginning after December 31, 1940) as of the beginning of the first day of the taxable year for which the tax under this subchapter is being computed.

(F) *Reduction on account of distributions out of pre-1941 accumulated earnings and profits.* The new capital for any day of the taxable year, computed without the application of subparagraph (E), shall be reduced by the amount which, after the beginning of the first taxable year which begins after December 31, 1940, has been distributed out of earnings and profits accumulated prior to the beginning of such first taxable year.

PAR. 11. Section 30.718-1 is amended by inserting at the end of the fifth paragraph a new sentence reading as follows:

As to determination of additional amount to be included in daily equity invested capital on account of new capital, see § 30.718-4.

PAR. 12. Section 30.718-2 (a), is amended by striking "§ 30.718-4" from the second sentence and inserting in lieu thereof "§ 30.718-5".

PAR. 13. Section 30.718-3 is amended by inserting at the end thereof the following:

For new capital treatment of distributions in stock, see § 30.718-4.

PAR. 14. There is inserted immediately preceding § 30.718-4 the following:

§ 30.718-4 *Determination of daily equity invested capital; new capital*—(a) *In general.* The equity invested capital for any day of a taxable year beginning after December 31, 1940, as partially determined under section 718 (a) (1) to (5), shall be increased by an amount equal to 25 percent of the new capital, if any, for such day. The term "new capital" for any such day means the aggregate amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital, and the amount of distributions in stock made, during a taxable year beginning after December 31, 1940, and includible for such day under section 718 (a) (1) to (3), subject, however, to the limitations provided in subparagraphs (A) to (F) of section 718 (a) (6).

(b) *Limitations under subparagraph (A) of section 718 (a) (6).* The limitations provided in subparagraph (A) of section 718 (a) (6) exclude from the term "new capital" the amount of any equity invested capital acquired in an exchange occurring during a taxable year beginning after December 31, 1940, to which section 112 (b) (3), (4), or (5), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), or (5), is applicable. However, in determining whether an exchange is within section 112 (b) (3), (4), or (5), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), or (5), the control requirement is considered to mean the ownership of stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote or more than 50 percent of the total value of shares of all classes of stock. These limitations also apply to all exchanges under Supplement R which would be subject to the statutory provisions referred to in the preceding sentence if it were not for section 371 (g). The application of these limitations may be illustrated by the following example:

Example. The A Corporation issues stock during a taxable year beginning after December 31, 1940, to the B Corporation in exchange for the transfer of certain property by the B Corporation. Immediately after the transfer the stock acquired by the B Corporation has a value of $10,000, the total value of all classes of stock of the A Corporation then outstanding amounting to $18,000. The A Corporation obtains no new capital, since the property for which the new stock was issued was obtained in an exchange to which section 112 (b) (5) would be applicable if the term "control" had been defined in section 112 (h) so as to include either the ownership of stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote or more than 50 percent of the total value of all classes of stock outstanding.

(c) *Limitations under subparagraph (B) of section 718 (a) (6).* The limitations provided in subparagraph (B) of section 718 (a) (6) exclude from the term "new capital" any money or property paid in to the taxpayer by a transferor corporation if immediately after such transaction the transferor and the taxpayer are members of the same controlled group as that term is defined in such subparagraph. The application of these limitations may be illustrated by the following example:

Example. The A Corporation owns stock in the B Corporation, and the B Corporation owns stock in the C Corporation. The A Corporation transfers property to the C Corporation in exchange for stock of the C Corporation. Immediately after the transfer the stock owned by the A Corporation in the B Corporation possesses more than 50 percent of the total combined voting power of all classes of stock entitled to vote. Also immediately after such transfer the stock owned by the B Corporation in the C Corporation has a value equal to more than 50 percent of the total value of all classes of stock of the C Corporation. The C Corporation obtains no new capital through the acquisition of the property from A Corporation in exchange for its stock, since immediately after transfer the A Corporation, the transferor, and the C Corporation, the transferee, are members of the same controlled group.

(d) *Limitations under subparagraph (C) of section 718 (a) (6).* The limitations provided in subparagraph (C) of section 718 (a) (6) exclude from the term "new capital" any distribution in stock described in section 718 (a) (3) made by the taxpayer to another corporation if immediately after the distribution the taxpayer and the other corporation are members of the same controlled group as that term is defined in subparagraph (B) of section 718 (a) (6). The application of these limitations may be illustrated by the following example:

Example. The A Corporation makes a distribution in taxable stock dividends to the B and C Corporations during a taxable year beginning after December 31, 1940. Immediately after the distribution the B and C Corporations own stock in the A Corporation which has a voting power of more than 50 percent of the combined voting power of all classes of stock entitled to vote. Also immediately after the transfer the B Corporation owns stock in the C Corporation which has a value of more than 50 percent of the total value of all classes of stock of the C Corporation. The taxable stock dividend distributed by the A Corporation does not constitute new capital to the A Corporation.

(e) *Limitations under subparagraph (D) of section 718 (a) (6).* The limitations provided in subparagraph (D) of section 718 (a) (6) require that the amount of new capital for any day of the taxable year, computed without the application of section 718 (a) (6) (E), shall be reduced by the excess of the amount of inadmissible assets held on the beginning of that day over the amount of such assets held on the beginning of the first day of the taxpayer's first taxable year beginning after December 31, 1940. The application of these limitations may be illustrated by the following example:

Example. The X Corporation makes its excess profits tax return on the calendar-year basis. On July 1, 1941, cash in the amount of $100,000 is paid in for stock. There are no other changes made in either the amount of equity invested capital or the amount of borrowed capital at any time during the year 1941. The adjusted basis of inadmissible assets as of January 1, 1941, amounts to $5,000. The adjusted basis of such assets as of July 2, 1941, is $15,000. Under subparagraph (D) the new capital of $100,000 is reduced to $90,000 as of July 2, 1941, as shown by the following computation:

Money paid in for stock July 1, 1941	$100,000
Less:	
Excess of inadmissible assets as of July 2, 1941, over such assets as of January 1, 1941 ($15,000 minus $5,000)	10,000
New capital as reduced under subparagraph (D)	90,000

(f) *Limitations under subparagraph (E) of section 718 (a) (6).* The limitations provided in subparagraph (E) of section 718 (a) (6) prevent new capital as of any day from exceeding the amount by which the total equity invested capital and borrowed capital as of such day (computed without including the 25 percent increase and reduced as provided in such subparagraph on account of amounts excluded under subparagraph (A) or (B)) exceeds the sum of the equity invested capital and borrowed capital as of the first day of the taxpayer's first taxable year beginning after December 31, 1940 (reduced as provided in such subparagraph on account of reduction in accumulated earnings and profits other than as the result of distributions). The application of these limitations may be illustrated by the following example:

Example. The Y Corporation makes its return on the calendar-year basis. Its equity invested capital as of January 1, 1941, amounts to $30,000, consisting of money paid in for stock, $20,000, and accumulated earnings and profits, $10,000. Its borrowed capital as of January 1, 1941, consists of bonds outstanding in the amount of $15,000. Accordingly, the total of its equity invested capital and borrowed capital as of January 1, 1941, is $45,000. The corporation has no inadmissible assets at any time during the year 1941. On July 1, 1941, the following events occur:

(1) The corporation distributes taxable stock dividends amounting to $5,000 out of earnings and profits accumulated prior to January 1, 1941;

(2) Money amounting to $15,000 is paid in as a contribution to capital;

(3) Property with an unadjusted basis of $20,000 for determining loss is acquired for stock in an exchange to which section 112 (b) (4) is applicable; and

(4) Bonds in the amount of $10,000 are retired.

Only $5,000 of the $40,000 of new capital (tentative) arising out of the transactions which took place on July 1, 1941, constitutes new capital as of July 2, 1941, computed as follows:

(1) Sum of equity invested capital and borrowed capital as of July 2, 1941 (computed without regard to 25 percent increase in new capital)	$70,000
(2) Property paid in for stock excluded under subparagraph (A)	20,000
(3) Item (1) minus item (2)	50,000

(4) Sum of equity invested capital and borrowed capital as of January 1, 1941	45,000
(5) New capital as of July 2, 1941 (item (3) minus item (4))	5,000

If the accumulated earnings and profits of the Y Corporation are reduced to zero as of January 1, 1942, because of the stock dividend distribution of $5,000 made on July 1, 1941, and an operating loss of $5,000 during the taxable year 1941, the new capital includible in equity invested capital as of January 1, 1942, would remain at $5,000 under the application of subparagraph (E), as shown by the following computation:

(1) Sum of equity invested capital and borrowed capital as of January 1, 1942 (computed without regard to 25 percent increase in new capital)	$65,000
(2) Property paid in for stock excluded under subparagraph (A)	20,000
(3) Item (1) minus item (2)	45,000
(4) Sum of equity invested capital and borrowed capital as of January 1, 1941	45,000
(5) Excess of accumulated earnings and profits as of January 1, 1941, over earnings and profits, computed without regard to distributions, as of January 1, 1942 ($10,000 minus $5,000)	5,000
(6) Item (4) reduced by item (5)	40,000
(7) New capital as of January 1, 1942 (item (3) minus item (6))	5,000 [1]

[1] The application of subparagraph (F) is not shown in the above computation since it does not change the result.

(g) *Limitations under subparagraph (F) of section 718 (a) (6).* The limitations provided in subparagraph (F) of section 718 (a) (6) require that new capital for any day of the taxable year (computed without the application of subparagraph (E)), shall be reduced by distributions made after the beginning of the first taxable year which begins after December 31, 1940, out of earnings and profits accumulated prior to the beginning of such first taxable year. The application of these limitations may be illustrated by the following examples:

Example (1). The Z Corporation makes its return on the calendar-year basis. Its total equity invested capital and borrowed capital as of January 1, 1941, is $100,000, including $10,000 of accumulated earnings and profits. The only capital acquired during the year amounts to $10,000, resulting from the distribution of a taxable stock dividend on July 1, 1941. The corporation has no earnings and profits for 1941. The capital resulting from the stock dividend is excluded from new capital by subparagraph (F) (as well as by subparagraph (E)), for it is reduced by the amount distributed out of earnings and profits accumulated prior to January 1, 1941.

Example (2). Assume that the facts with respect to the Z Corporation are the same as in example (1), except that the Z Corporation has an operating loss of $10,000 for the year 1941. Although under subparagraph (E), because of the adjustment relative to a reduction in accumulated earnings and profits not resulting from distributions, there would be new capital as of January 1, 1942, in the amount of $10,000, the application of subparagraph (F) prevents the stock dividend distributed on July 1, 1941, from being new capital, inasmuch as the capital from the stock dividend ($10,000) must be reduced by the amount of the distribution out of earnings and profits accumulated prior to January 1, 1941 ($10,000).

Example (3). Assume that the facts with respect to the Z Corporation are the same as in example (1), except that there are no earnings and profits in 1941 and no operating loss for such year and that its earnings and profits for 1942 are $10,000. Although, because of the 1942 earnings and profits, there would be new capital under subparagraph (E) in the amount of $10,000 as of January 1, 1943, subparagraph (F) prevents the stock dividend distributed on July 1, 1941, from being new capital, inasmuch as the capital resulting from such stock dividend ($10,000) is reduced by the amount of the distribution ($10,000) made out of earnings and profits accumulated prior to January 1, 1941.

(B) By striking from the second paragraph "(without diminution by any distributions or the excess profits tax for the taxable year)" and inserting in lieu thereof "(without diminution by any distributions, the excess profits tax for the taxable year, or, in the case of taxable years beginning after December 31, 1940, the income tax for the taxable year)".

PAR. 17. Section 30.718–5 is renumbered § 30.718–6.

Although in the case of taxable years beginning after December 31, 1940, the excess profits tax is allowed as a deduction in computing normal-tax net income for the purpose of Chapter 1, the normal-tax net income is required to be computed without regard to such deduction for the purposes of the above described 6 percent limitations.

Section 731 of the Internal Revenue Code (exempting from excess-profits tax income derived from mining certain metals) shall not apply with respect to any taxable year beginning after December 31, 1940.

PAR. 21. Section 30.731–1 (a) is amended by striking out the first sentence and inserting in lieu thereof the following:

Section 731 is applicable only to taxable years beginning before January 1, 1941, and provides that, if a domestic corporation is engaged in mining tungsten, quicksilver, manganese, platinum, antimony, chromite, or tin (hereinafter referred to as strategic metals), within the United States, the portion of its adjusted excess profits net income attributable to such mining is exempt from the excess profits tax.

(This Treasury Decision is issued under authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C., Sup. V, 62), as made applicable by section 729 of the Internal Revenue Code, added by the Second Revenue Act of 1940 (Public, No. 801, 76th Congress, third session), and sections 201 to 205 of the Revenue Act of 1941 (Public Law 250, 77th Congress).)

If that office is satisfied beyond a doubt that the alien is subject to deportation and that his case falls within the provisions of paragraph (a) (1), he may issue a warrant directing the deportation of the alien upon the charges which have been established by the record. In such a case a complete copy of the record and of the order of deportation shall be forwarded to the Central Office within 48 hours after the issuance of the warrant of deportation. If the officer in charge is not satisfied beyond a doubt that the alien is subject to deportation and that his case falls within the provisions of paragraph (a) (1), he shall forward the record to the Central Office for decision, with his reasons for so doing. Deportation of an alien ordered deported by an officer in charge of a district will be effected in the same manner as though deportation had been directed by the Central Office. Any alien who has been ordered deported by an officer in charge of a district may within 10 days after such order, if deportation has not been sooner effected, file an exception to the order of deportation giving his reasons in support thereof, and may request that his case be referred to the Central Office for final decision. CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1334—SUGAR

AMENDMENT TO PRICE SCHEDULE NO. 15—RAW CANE SUGARS

Section 1334.9 [1] is hereby amended to read as follows:

§ 1334.9 *Appendix A, maximum prices for raw cane sugars.* (a) Maximum price raw cane sugars of 96 degrees polarization, New York City duty paid basis cost and freight, 3.50¢ per pound.

(b) Differentials for deliveries from off-shore producing areas to ports other than New York City: For deliveries at any port other than New York City, there shall be added to or subtracted from (whichever is required to compensate freight differences), the New York City price, adjusted for the various degrees of polarizations as below set forth, the difference, if any, between the cost of freight from the port of shipment to New York City and the cost of freight from the port of shipment to the port of arrival, except that for deliveries of raw cane sugars made pursuant to an annual or other similar long term purchase contract to which customarily no freight differential has applied, there may be added to or subtracted from the New York City price, in lieu of the above differential, an amount agreed upon between the parties in such contract, provided such contract shall first be approved by the Office of Price Administration.

(c) Differentials for deliveries of continental United States raw cane sugars: The maximum prices for such sugars are established at the raw sugar mill and shall be calculated by obtaining the maximum price duty paid cost and freight basis, payable for Cuban sugars of like test at the nearest customs port of entry in the area in which the raw sugar mill is located, and deducting from such maximum price the published freight rate from such raw sugar mill to the refinery nearest freightwise to such raw sugar mill. This maximum price is F. O. B. the raw sugar mill. The maximum price delivered to the refinery shall be this maximum F. O. B. mill price plus actual transportation cost from said raw sugar mill to the refinery processing such sugar.

(d) Adjustment for polarization: The maximum prices specified herein shall be adjusted by making allowances per pound for each degree of polarization above or below 96 degrees (fractions of a degree in proportion) in accordance with the method customarily used prior to August 14, 1941. It is not required that such method be used. However, the maximum prices for the various tests shall not exceed the prices obtained by applying such method for sugars of like test. (Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483)

This amendment shall become effective October 24, 1941.

[Docket No. A-619]

PETITION OF ANCHOR COAL COMPANY AND TRUAX-TRAER COAL COMPANY, PRODUCERS IN DISTRICT 8, REQUESTING DEDUCTIONS IN PRICES FOR THEIR DOROTHY COALS IN SIZE GROUP 7 FOR USE BY CALUMET & HECLA CONSOLIDATED COPPER COMPANY IN MARKET AREA 99

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER AND DENYING RELIEF

This proceeding was instituted upon an original petition filed, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, with the Bituminous Coal Division by Anchor Coal Company and Truax-Traer Coal Company, code member producers in District 8, seeking a reduction of 10 cents, from $2.05 to $1.95, in the minimum f. o. b. mine price for 5" x 2" egg (Size Group 7) coals, produced at the Anchor No. 1 and No. 3 mines (Mine Index No. 19) of the Anchor Coal Company and at the Acme, Raccoon, Rose, United, and Marsh Fork Mines (Mine Index Nos. 1, 386, 416, 468, and 318) of the Truax-Traer Coal Company, when for lake shipment to the plant of the Calumet & Hecla Consolidated Copper Company (the "Copper Company") on Lake Superior (Market Area 99), for industrial use. The petition requested, in the alternative, that each of said petitioners be permitted to supply to said consumer, at a price 10 cents per ton below the presently effective minimum price, such portion of the Copper Company's annual requirements as each of the petitioners has heretofore supplied to it, to wit, Anchor Coal Company approximately 10 per cent of such requirements and Truax-Traer Coal Company approximately 23 per cent of such requirements.

Petitions of intervention were filed by District Board 6 and by Boone County Coal Corporation, Amherst Coal Company, Logan County Coal Corporation, Lorado Coal Mining Company, Red Jacket Coal Corporation, Eastern Coal Corporation, and Majestic Collieries Company, code member producers in District 8. The interveners requested certain relief contingent upon relief being granted to the original petitioners. In addition thereto, the Red Jacket Coal Corporation, Eastern Coal Corporation, and Majestic Collieries Company, without regard to relief granted to the original petitioners, requested that, on the Copper Company order, they be permitted to rescreen 2" lump coals into 5" x 2" egg and 5" lump to be loaded in separate railroad cars at the minimum f. o. b. mine price applicable to 2" lump coal. The Red Jacket Coal Corporation requested further affirmative relief, in any event, reducing the minimum f. o. b. mine price from $2.00 to $1.95 for Size Groups 4 and 6 coals produced at its Mitchell Branch and Junior Mines, (Mine Index Nos. 335 and 267) when for shipment to the Copper Company plant. The Consumers' Counsel Division filed an answer to the original petition.

A hearing in this matter was held before Edward J. Hayes, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard.

On September 9, 1941, the Examiner submitted Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter, recommending that the prayer for relief contained in the several petitions filed herein be denied.

An opportunity was afforded to all parties to file exceptions thereto and supporting briefs. The original petitioners and Red Jacket Coal Corporation, intervener, filed exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner. No other exceptions or briefs were filed.

The exceptions filed by the original petitioners relate generally to the quality and market history of the coals involved. An exception is taken to the Proposed Finding that Chilton coals are inferior to Dorothy coals at the Copper Company plant. The petitioners rely strongly upon the direct testimony of the witness Wheelwright, an employee of and inspector for the Copper Company. This witness frankly stated that his interest in the proceeding was to broaden the source of supply of suitable coals at the *lowest possible price.* The witness did not state unequivocally that the coals had the same value. On direct examination he testified that they had "just about" the same value. This lack of positiveness permeates his entire testimony. On cross-examination this witness testified that these coals were not of uniform quality and that, at times, Dorothy coals were superior. He testified positively that Dorothy 2" lump coal was superior to Chilton 2" lump coal, and could not be purchased at the same price.

Furthermore, the evidence indicates, as found by the Examiner, that the Copper Company had drawn its requirements from the Chilton coals from 1923 to 1934, when it began purchasing Dorothy coals from the original petitioners. Their tonnage supplied to the Copper Company has increased until in 1940 it amounted to approximately 33 per cent of the Copper Company's total requirements. The Copper Company's purchases are made from distributors, and it requires that approximately one-third of its coals must be Dorothy coals. The fact that the Copper Company requires such a fixed percentage of its coals to be Dorothy coals stamps the Dorothy coals, in the estimation of the purchaser, as more desirable than Chilton. Furthermore, the Copper Company accepts Dorothy coals without rescreening, whereas the Chilton coals must be rescreened and double picked in order to reduce their ash, increase their B. t. u. content, and enhance their value so as to bring them within the limit of the Copper Company's standards of acceptability. The petitioners' exceptions are not supported by the evidence.

The petitioners except to the Examiner's Proposed Findings as to market history. An examination of the Examiner's Report indicates that he has given due consideration to the entire history of the Copper Company's purchases. The Copper Company makes comparatively large annual purchases (approximately 200,000 tons) for movement by lake. The contracts are placed with two distributors having large-scale facilities. A uniform price is fixed. There is no provision that any part of the requirements

be purchased from the original petitioners or any of the interveners. Any Dorothy coal or any Chilton coal which is suitable and meets with the approval of the Copper Company's inspector is a potential source of supply at the price fixed. In that situation the matter becomes one for the decision of the producer whether it desires to sell at the price fixed and, if so, the only question is one of salesmanship in inducing the distributor to allocate tonnage to the given producer. The original petitioners having entered a market by offering their superior coals at a price paid for Chilton coals does not establish such a competitive opportunity as the Act was designed to preserve. The exception is not well taken.

Exception is taken to the Proposed Conclusions of Law that relief should be denied and that such denial is necessary in order to effectuate the purposes of the Act. Those conclusions are based upon the entire record. I have examined the record, together with the Examiner's Report and the exceptions thereto, and upon the basis thereof find that the Proposed Conclusions of Law of the Examiner are fully supported by the evidence and that the exception is without merit.

Red Jacket Coal Corporation, intervener, filed exceptions to the Examiner's failure to find that it should be permitted to rescreen the Size Group 4 (2" lump) coals produced at its Mitchell Branch, Junior, and No. 32 Mines, into 5" x 2" egg and 5" block, and load the resultants in separate railway cars at the effective minimum price for 2" lump coal for shipment to the Copper Company.

The intervener advances no reason, not fully considered in the Examiner's Report, why this relief should be granted. The evidence has been duly considered and no reason appears to justify a change in the conclusions reached by the Examiner.

On the basis of the foregoing and for the reasons stated, I conclude that the evidence supports the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner; that the exceptions are not well taken; and that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be and they hereby are approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the prayers for relief contained in the several petitions filed herein be and they hereby are denied.

Dated: October 22, 1941.

CHAPTER VIII—SUGAR DIVISION OF THE AGRICULTURAL ADJUSTMENT ADMINISTRATION

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE PRICES FOR THE 1941 CROP OF LOUISIANA SUGARCANE FOR SUGAR

Whereas section 301 (d) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

That the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugar beets or sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

Whereas the Secretary of Agriculture held public hearings in Louisiana for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable prices for the 1941 crop of Louisiana sugarcane for sugar:

Now, therefore, I, Paul H. Appleby, Under Secretary of Agriculture, after investigation and consideration of the evidence obtained at the aforesaid hearings and all other information before me, do hereby make the following determination:

[1] 6 F.R. 5409.

§ 802.22g *Fair and reasonable prices for the 1941 crop of Louisiana sugarcane for sugar.* (a) Fair and reasonable prices for the 1941 crop of Louisiana sugarcane shall be (when the price of 96° raw sugar, duty-paid basis, is 3.50 cents per pound) not less than $1.00 per ton of standard sugarcane for each 1 cent of the average price per pound of raw sugar determined in accordance with whichever of the following options is agreed upon: (1) the average of the weekly quotations of 96° raw sugar, duty-paid basis, on the Louisiana Sugar and Rice Exchange and the Cane Products Trade Association Exchange for the week in which such sugarcane is delivered; or (2) the simple average of the weekly quotations of 96° raw sugar, duty-paid basis on the Louisiana Sugar and Rice Exchange and the Cane Products Trade Association Exchange for the weeks from Friday, October 17, 1941 (or the Friday within the first marketing week of actual trading) to April 2, 1942, except that, if such quotations do not give full effect to orders or regulations of the Federal Government pertaining to the establishment of a price for 96° raw sugar, duty-paid basis, at New Orleans, Louisiana, the Chief of the Sugar Division may substitute such prices as will give effect to any such Federal orders or regulations; *Provided, however,* (1) That on each ton of sugarcane there shall be paid a molasses bonus, such bonus to be computed by taking ½ of the excess, if any, of the average price per gallon of blackstrap molasses, as quoted by the agencies set out in (2) above for the period there specified, over 8 cents, and multiplying the product by 6½ (a figure representing the state average recoveries of blackstrap molasses for the three year period, 1938–1940), except that in computing such bonus any processor who, prior to October 4, 1941, had sold in excess of one-half of the blackstrap molasses of the 1941 crop at an established price, may, after announcement to growers served by him of the price terms of such sale, substitute for the season average price the price actually realized by him, any quantity unsold as of April 2 to be valued at the season average price;

(ii) That for each decline of ¼ cent in the price of 1 pound of 96° raw sugar, duty-paid basis, below 3.50 cents per pound, the price of standard sugarcane shall be reduced by not more than 3 per centum, with intervening prices in proportion, unless the price of sugar falls below 2.75 cents per pound, in which case no further reduction shall be made;

(iii) That for an advance of ¼ cent in the price of 1 pound of 96° raw sugar, duty-paid basis, above 3.50 cents per pound, the price of standard sugarcane shall be increased by not less than 3 per centum, with intervening prices in proportion, unless the price of raw sugar exceeds 3.75 cents per pound, in which case settlement shall be made on the basis of $1.03 for each 1 cent of the price;

(iv) That the premiums paid for sugarcane of the 1941 crop containing more sucrose in the normal juice than that defined as standard sugarcane shall be not less than those paid during the 1940 crop year;

(v) That the discounts applicable to sugarcane of the 1941 crop containing less sucrose in the normal juice than that defined as standard sugarcane shall be not greater than those applied in connection with the 1940 crop; and

(vi) That deductions based upon decreased boiling house efficiency may be made for frozen sugarcane accepted by the processor (it being understood that cane shall not be considered as frozen even after being subjected to freezing temperature unless and until there is evidence of damage having taken place because of the freeze) at a rate not in excess of 3.775 per centum of the payment, computed without regard to the molasses bonus, for each 0.25 cc. of acidity above 2.25 cc. but not in excess of 4.50 cc. (analyzed in accordance with the established methods of the area, with intervening fractions computed to the nearest multiple of 0.05 cc.).

(b) For purposes of this section:

(1) Standard sugarcane shall be sugarcane containing no more sucrose in the normal juice than was defined as standard sugarcane by the processor in his sugarcane purchase contract, or contracts, verbal or written, used in the year 1940.

(2) Costs, such as hoisting and weighing of sugarcane, shall be absorbed by the processor, except in those instances in which the processor operated in 1936 and did not bear such costs in that year; but nothing in this sub-paragraph shall be construed as prohibiting negotiations with respect to the level of such costs, subject, upon appeal, to review by the Secretary of Agriculture or his authorized agent, in the event of changes alleged to be unfair to either the producer or the processor.

(3) Where the only available practicable means of transportation are rail facilities and the distance to the nearest factory is in excess of 50 miles, the cost of transportation may, by mutual consent of the interested parties, and subject, upon appeal, to review by the Secretary of Agriculture or his authorized agent, be shared by the processor and the producer.

(4) The processor shall not, through any subterfuge or device whatsoever, reduce the returns from the 1941 crop of Louisiana sugarcane to the producer below those determined above. (Sec. 301, 50 Stat. 909; 7 U.S.C., 1131)

Done at Washington, D. C., this 24th day of October, 1941. Witness my hand and the seal of the Department of Agriculture.

CHAPTER IX—SURPLUS MARKETING ADMINISTRATION

[O-1-6]

PART 901—WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON, WITH REGARD TO THE SALABLE PERCENTAGE AND SURPLUS PERCENTAGE FOR THE 1941–42 CROP YEAR

The Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") acting pursuant to the provisions of Public Act No. 10, 73d Congress (May 12, 1933), as amended, executed a marketing agreement and issued an order on October 11, 1935, effective on and after October 15, 1935, regulating the handling of walnuts grown in California, Oregon, and Washington. The aforesaid marketing agreement regulating the handling of walnuts grown in California, Oregon, and Washington has been amended and certain agreements amending said marketing agreement, as amended, have been executed by the Secretary; and the aforesaid order regulating the handling of walnuts grown in California, Oregon, and Washington has been amended, and the Secretary has issued certain amendments to the aforesaid order, as amended.

The Secretary, acting pursuant to the request of the Control Board established pursuant to the provisions of the aforesaid marketing agreement, as amended, and order, as amended, conducted a public hearing in San Francisco, California, on September 12, 1941, pursuant to notice duly given to all interested parties, on certain proposed amendments to the aforesaid marketing agreement, as amended, and order, as amended, at which hearing all interested persons in attendance were afforded due opportunity to be heard concerning the proposed amendments to the marketing agreement, as amended, and order, as amended.

§ 901.1 *Findings.*

* * * * *

It is hereby found upon the basis of the evidence introduced at the said hearing in San Francisco, California, on September 12, 1941, and the record thereof:

(e) that the supply of merchantable walnuts available during the crop year 1941–42 for handling in interstate or foreign commerce, or so as directly to burden, obstruct, or affect interstate or foreign commerce in such commodity, will exceed the consumptive demand for such walnuts during such period;

(f) that the salable percentage for the crop year September 1, 1941, to August 31, 1942, should be sixty-five (65) percent, and the surplus percentage, for said crop year, should be thirty-five (35) percent;

(g) that the fixing of such percentages and the methods provided in the order, as amended, and as hereby further amended, for the disposition of such surplus will tend to effectuate the declared policy of Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"); and

(h) that the aforesaid order, as heretofore and hereby amended, will tend to effectuate the declared policy of the act with respect to walnuts grown in California, Oregon, and Washington.

The foregoing findings are supplementary and in addition to (1) the findings that were made in connection with the issuance of the aforesaid order on October 11, 1935, effective on and after October 15, 1935, and (2) the findings made in connection with the issuance of the previously issued amendment to said order and the findings made in connection with the issuance of each of the previously issued amendments to said order, as amended, and all of said previous findings, made in connection with the issuance of said original order, the amendment thereto, and each of the amendments to said order, as amended, are hereby ratified and affirmed except insofar as such previous findings may be in conflict with the findings herein set forth.

It is further found (§ 901.1 continued):

(i) that the amendment to the marketing agreement, as amended, regulating the handling of walnuts grown in California, Oregon, and Washington, executed by the Secretary on October 23, 1941, and upon which a hearing was held in San Francisco, California, on September 12, 1941, was executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the commodity covered by this order) who handled not less than fifty (50) percent of the volume of said commodity, covered by this order, produced within the States of California, Oregon, and Washington;

(j) that the aforesaid agreement executed by the Secretary on October 23, 1941, amending the aforesaid marketing agreement, as amended, has been executed by more than three packers, signatory to said marketing agreement, who, during the preceding crop year, handled not less than sixty-seven (67) percent of the merchantable walnuts packed during such crop year;

(k) that the issuance of this order, amending the aforesaid order, as amended, is favored and approved by producers of walnuts who, during the 1940–41 crop year (which is hereby determined to be a representative period), produced for market, within the production area specified in said order, as amended, at least two-thirds (⅔) of the volume of such commodity produced for market within such area; and

(l) that the order, as heretofore and as hereby amended, regulates the handling of such walnuts in the same manner as the marketing agreement, as amended, does, and is made applicable only to persons in the respective classes of industrial and commercial activities specified in the aforesaid marketing agreement, as amended. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246, 52 Stat. 215, 53 Stat. 782; 7 U.S.C. and Sup., 601 et seq.)

It is hereby ordered, Pursuant to the provisions of the aforesaid act, that said order, as amended, regulating the handling of walnuts grown in California, Oregon, and Washington, is further amended in the respects stated hereinafter, and it is further ordered that the handling of walnuts grown in California, Oregon, and Washington, in interstate or foreign commerce, or so as directly to burden, obstruct, or affect interstate or foreign commerce in such walnuts, from and after the effective date specified hereinafter, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, as hereby further amended in the following respects:

1. By deleting the period at the end of the first sentence in section 2, Article III (§ 901.4 (b)) of the aforesaid order, as amended, and inserting, in lieu thereof, a semicolon and the following:

§ 901.4 *Control of distribution.*

* * * * *

(b) * * * and the salable percentage for the crop year September 1, 1941, to August 31, 1942, shall be sixty-five (65) percent.

2. By deleting the period at the end of the next to the last sentence in section 2, article III (§ 901.4 (b)) of the aforesaid order, as amended, and inserting, in lieu thereof, a semicolon and the following:

(b) * * * and thirty-five (35) percent, being the difference between the salable percentage for the crop year ending August 31, 1942, and one hundred (100) percent, shall be the "surplus percentage" for said crop year.

3. By deleting all of the provisions contained in "Exhibit A" of the aforesaid marketing agreement, as amended, and inserting, in lieu thereof, the following as "Exhibit A" to said marketing agreement, as amended:

PART 904—MILK IN GREATER BOSTON, MASSACHUSETTS, MARKETING AREA

AMENDMENT NO. 1 TO THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE GREATER BOSTON, MASSACHUSETTS, MARKETING AREA[1]

Claude R. Wickard, Secretary of Agriculture of the United States of America, issued, effective August 1, 1941, Order No. 4, as amended,[2] regulating the han-

dling of milk in the Greater Boston, Massachusetts, marketing area.

Claude R. Wickard, Secretary of Agriculture of the United States of America, tentatively approved, on July 10, 1941, the marketing agreement, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area.

There being reason to believe that the issuance of an amendment to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of the act, notice was given of a hearing which was held in St. Johnsbury, Vermont, on August 26, 1941, and at Boston, Massachusetts, on August 27, 1941, at which times and places all interested parties were afforded an opportunity to be heard upon certain proposals to amend the tentatively approved marketing agreement, as amended, and the order, as amended.

§ 904.0 *Findings.*

* * * * *

It is found upon the evidence introduced at the last above-mentioned public hearing, such findings being in addition to the findings made upon the evidence introduced at the hearings on the order and the various amendments thereto, and being in addition to the other findings made prior to or at the time of the original issuance of the order or the various amendments thereto (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

(a) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of said act, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(b) That the order regulates the handling of milk in the same manner as a marketing agreement upon which a hearing has been held; and

(c) That the issuance of this amendment No. 1 to the order, as amended, and all of its terms and conditions, tends to effectuate the declared policy of the act.

It is hereby ordered that the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, shall be, and it is hereby amended as follows:

1. In § 904.3 (b) (2) delete in the second and third lines the words "not less than one-half of 1 percent butterfat and not more than 16 percent," and substitute therefor the following: "one-half of 1 percent or more, but less than 16 percent of butterfat."

2. Delete § 904.4 (a) (1) and (2) and substitute therefor the following:

§ 904.4 *Minimum prices*—(a) *Class I prices to producers.*

	Dollars per cwt.
Under 40	3.63
40 or over	3.86

(2) For milk delivered from producers' farms to such handler's plant located more than 40 miles from the State House in Boston, the price per hundredweight during each delivery period shall be the price effective pursuant to subparagraph (1) of this paragraph, less an amount per hundredweight equal to the sum of 13 cents and the lowest rail tariff (considering 85 pounds to one 40-quart can), for the transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff, M2, including revisions or supplements thereof, for the distance from the railroad shipping point for such handler's plant to such handler's railroad delivery point in the marketing area, or, if the handler has no plant in the marketing area, for the distance to Boston.

3. In § 904.4 (c) (1) delete the words "$3.50 for the periods prior to April 1, 1942, and thereafter $3.13" and substitute therefor the following: "the highest Class I price in effect pursuant to subparagraph (1) of paragraph (a) of this section plus 12 cents."

4. In § 904.7 (b) delete subparagraph (5), renumber subparagraphs 6, 7, 8, and 9, as 5, 6, 7, and 8, and amend the new subparagraph (6) (present 7) to read:

(6) Subtract not less than 5½ cents nor more than 6½ cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 904.8 (b) (3) and 904.9 (b).

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1316—COTTON TEXTILES

PRICE SCHEDULE NO. 35—CARDED GREY AND COLORED-YARN COTTON GOODS

Correction

Section 1316.61, *Appendix A, maximum prices for cotton goods*, appearing in the issue for Tuesday, October 21, 1941 (F.R. Doc. 41-7895, filed October 20, 1941, at 10:58 a. m.), is corrected as follows:

Insert a superior figure "2" (²) after "Drills:" in the column headed "Type and class of cloth" of Table III, *Sheeting yarn group*, appearing on page 5338, so that footnote 2 which appears immediately beneath the table is thereby made applicable.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 38—GLYCERINE

A sharp increase in the demand for glycerine has occurred in recent months as a result of the national defense program. Glycerine is an extremely important chemical, essential not only in the production of high explosives used by the armed forces but also in the manufacture of a great number of important civilian products. Upon the price of glycerine depends the price of many other necessary chemicals. The tank-car price of crude glycerine (80% glycerol), the basic grade among those affected by this Schedule, has risen from 7½¢ per pound at the beginning of this year to 18¢ per pound during the fourth quarter. The price of refined glycerine (95% glycerol) has increased in recent months from approximately 13¢ per pound to 21½¢ per pound and is threatening to rise even higher. The Office of Price Administration has consulted with representatives of the industry and has determined that there are no justifiable reasons for prices of crude glycerine and refined glycerine in excess of 11½¢ per pound and 18¢ per pound, respectively, in tank-car quantities. Further increases in price would therefore be inflationary.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.401 *Maximum prices for glycerine.* On and after November 10, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer glycerine in containers of 500 pounds or more, and no person shall buy, offer to buy or accept delivery of glycerine in containers of 500 pounds or more, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.410.*

*§§ 1335.401 to 1335.410, inclusive, issued under the authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.402 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.403 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of glycerine, alone or in conjunction with any other material or by way of any commission, service, transportation or other charge or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by alteration of formula or grades of glycerine, or otherwise.*

§ 1335.404 *Records and reports.* (a) Every person making purchases or sales of glycerine in containers of 500 pounds or more after November 10, 1941, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the specifications and quantity, including the size of the containers of the glycerine purchased or sold.

(b) On or before December 10, 1941, and on or before the 10th day of every April, August and December thereafter, every producer of glycerine, whether of crude or refined or both, shall submit to the Office of Price Administration a report on Form 138:1 in the detail required by the Form showing the total inventory of glycerine held upon the first day of each such month, and such other information as the Form requires. Persons affected by this Schedule shall submit such other reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.405 *Affirmations of compliance.* On or before December 10, 1941, and on or before the 10th day of each month thereafter, every person, who during the preceding calendar month has sold glycerine in containers of 500 pounds or more, whether for immediate or future delivery, shall submit to the Office of Price Administration an affirmation of compliance on Form 138:2, containing a sworn statement that during such month all such sales were made at prices in compliance with this Schedule or with any exception therefrom or modification thereof. Copies of Form 138:2 can be procured from the Office of Price Administration, or, provided that no change is made in the style and content of the Form and that it is reproduced on 8 x 10½ paper, they may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1335.406 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of glycerine, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.407 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section shall be considered by the Office of Price Administration unless the person making such application shall have complied with this Schedule to the satisfaction of that Office.*

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Glycerine" means crude and refined glycerine.*

IN THE MATTER OF THE APPLICATION OF NASHVILLE COAL COMPANY, INC., FOR PERMISSION TO RECEIVE DISTRIBUTORS' DISCOUNTS ON COAL PURCHASED AND RESOLD BY IT TO OLD HICKORY COAL AND ICE COMPANY AND JACKSON ICE AND COAL COMPANY

ORDER GRANTING PETITION FOR LEAVE TO AMEND APPLICATION

The Nashville Coal Company, Inc., having filed an original application in the above-entitled matter, and the said applicant thereafter having filed on October 4, 1941, a petition for leave to amend said original application so as to include the following prayers:

1. That the Division determine that the Old Hickory Coal & Ice Company and the Jackson Ice & Coal Company do not own or financially or otherwise control petitioner.

2. That the Division determine that the ownership or control by mutual stockholders of the three corporations above mentioned is bona fide, is not established primarily or otherwise to secure indirect price reductions, and is not within the prohibition of paragraphs 11 and 12 of section 4, Part II (i) of the Act.

3. That on transactions made prior and subsequent to the requested determinations set forth in 1 and 2 above, the petitioner be permitted to accept and retain distributor's discounts on coal purchased and resold by it to the Old Hickory Coal & Ice Company and the Jackson Ice & Coal Company.

4. That on transactions made prior and subsequent to the requested determinations set forth in 1 and 2 above, the petitioner be permitted to secure commissions on coals sold by them as sales agents for code member producers to Old Hickory Coal & Ice Company and Jackson Ice & Coal Company.

5. For such further and alternative relief as to the Director may appear just and equitable.

Said petition for leave to amend does not appear to affect the allegations of fact as made in the original application, but merely broadens the prayer thereof, and should be granted.

Accordingly, it is so ordered.

IN THE MATTER OF CONSOLIDATED COAL AND STOKER COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 1804, DEFENDANT

ORDER MAKING REINSTATEMENT OF REGISTRATION RETROACTIVE

Consolidated Coal and Stoker Company having filed with the Division on September 29, 1941, a motion and affidavit of Rees Bungay, dated September 26, 1941, requesting that an Order of the Director in the above-entitled matter, reinstating the registration of said company as a distributor, dated and effective as of September 5, 1941, be made retroactive to take effect as of August 16, 1941; and

It appearing in said affidavit that extenuating circumstances prevented the filing of the affidavit of said company as required by the Order of the Acting Director, dated July 11, 1941, suspending its registration as a distributor, and § 304.15 of the Rules and Regulations for the Registration of Distributors.

Now, therefore, it is ordered, That the reinstatement of the registration of Consolidated Coal and Stoker Company as a distributor be and hereby is made retroactive, to take effect as of August 16, 1941.

[Docket No. A-677]

PETITION OF DISTRICT BOARD NO. 15 FOR REVISION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR CERTAIN COALS OF THE MINES OF CODE MEMBERS IN PRODUCTION GROUP NO. 4 IN DISTRICT NO. 15 FOR ALL SHIPMENTS EXCEPT TRUCK TO MARKET AREA NO. 78

MEMORANDUM OPINION AND ORDER OF THE DIRECTOR CONCERNING PETITION FOR RECONSIDERATION

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division by District Board 15, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requested that the Schedule of Effective Minimum Prices for District No. 15 for All Shipments Except Truck be revised and amended by increasing the price of coals in the Domestic, Commercial and Industrial Coal Schedule in Size Groups 1, 2, 3, and 4, 8 cents per ton and in Size Group 9, 13 cents per ton and shipment into Market Area 78. (St. Joseph, Missouri)

A notice of appearance was filed by Consumers' Counsel.

Pursuant to an Order of the Director, a hearing in this matter was held before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Original petitioner and the Consumers' Counsel appeared. At the conclusion of the hearing, all parties waived the preparation and filing of a report by the Examiner, and the record was thereupon submitted to the Director who issued his Findings of Fact, Conclusions of Law and Opinion in this matter on August 19, 1941. It is of decision granting the requested relief that Consumers' Counsel asks reconsideration.

On February 13, 1941, The Atchison, Topeka and Santa Fe Railroad Company, serving all but two mines in Production Group 4 of District 15 published, for shipment to St. Joseph, Missouri, (Market Area 78), a new tariff rate reducing the rate then in effect 8 cents a ton in Size Groups 1, 2, 3, 4, and 9. As a result of this reduction, a substantial number of mines in Production Group 4 obtained an 8 cent price advantage on shipments into St. Joseph, Missouri, in these sizes. To offset this advantage, District Board 15 sought a corresponding increase in the minimum prices established for the mines in Production Group 4 shipping these sizes into this market area. For Size Group 9 coals produced in this production group, the District Board sought a 13 cent price increase.

In a brief contending that the relief requested should be denied, the Consumer's Counsel argued that the granting of the relief would deprive the consumers in St. Joseph, Missouri, of the benefits which have accrued to them as a result of the above-mentioned freight rate reduction. However, the testimony showed that it was unlikely that retailer would pass on so small a savings to the consumer.

The Director found that the coordinated delivered relationship between the base group coals and the coals from other production groups in District 15 had been altered by the 8 cent reduction in Size Groups 1, 2, 3, 4, and 9 in the Atchison, Topeka and Santa Fe Railroad tariff, and that the requested relief would preserve to all code members within District 15, including those in Production Group 4, their fair competitive opportunities and relationship in Market Area 78, which existed therein prior to the date of the effective Atchison, Topeka and Santa Fe Railroad tariff revision.[1] Accordingly, an Order was issued on August 19, 1941, granting relief.

On September 18, 1941, Bituminous Coal Consumers' Counsel filed a Petition for Reconsideration requesting modification of the Order of the Director dated August 19, 1941. In its petition, Bituminous Coal Consumers' Counsel contends that the effect of the Director's decision is to nullify any downward change in the transportation charge affecting bituminous coal by a corresponding increase of the minimum f. o. b. mine price. This, it is claimed, has the effect of offsetting valid reductions ordered by the Interstate Commerce Commission. The Consumers' Counsel also contends that the conclusion that any such small reduction of 8 cents would be absorbed by retailers is unwarranted since the interest of the consumer frequently coincides with the interest of the retailer.

The Director has reconsidered the matter, but can find no justification for modification of his Order of August 19. The freight increase involved here was a voluntary change by the Atchison, Topeka and Santa Fe to which no objection was offered and hence involved no "determination" by the Interstate Commerce Commission based upon a "factual record," as is charged by the Consumers' Counsel. There being no finding by that Commission as to the validity of such rate change, the contention of the Consumers' Counsel Division that this Division has upset the valid rate reductions ordered by the Interstate Commerce Commission is unsupportable.

Moreover, Consumers' Counsel has seemingly failed to comprehend the effect of the particular freight charge in question. Under the mandate of Congress requiring the Division to consider transportation charges in coordinating the minimum prices set up pursuant to section 4 II (a) of the Act, any important revision in transportation charges which affects coordination raises the question whether an appropriate revision of the effective minimum prices must be made.[2]

In this particular case the rate change operated to disrupt intra-district coordination. This disruption had to be corrected because the resulting competitive advantage was to a group of mines which has in the past shipped only a relatively small percentage of the total tonnage into Market Area 78 by District 15 producers. The record shows that of a total of 101,120 tons of coal, in the sizes involved, shipped to Market Area 78 by District 15 producers in 1937, mines in Production Group 4 shipped only 19,568 tons. Moreover, Production Group 4 shipments were confined to only one size whereas mines

[1] The Director found that the 5 cents additional increase in the effective minimum price for Size Group 9 coals should also be granted to correct an error in definition. Size Group 9 coals are lump coals and not mine run as defined in the District 15 Price Schedule.

[2] Section 4 II (b) of the Act.

in Production Groups 1, 2, and 3 shipped all sizes. Although the Act does not seek to "freeze" market conditions, the requirement that "existing fair competitive opportunities" be preserved does necessitate a readjustment of the intra-district coordination so as to allow all production groups to continue their movement of coal on a fair competitive basis.

Consumers' Counsel has not shown that the consumer will necessarily be injured by the increase in the effective minimum prices. In accordance with the provisions of the Act, the Division in its regulation of the minimum price level, always pays due regard to the interests of the consuming public. Here, however, there is no evidence that the raise in minimum prices will be of consequence to the consuming public since the price to the consumer will doubtless not be affected. The testimony shows instead that the retail dealers do not as a rule reduce prices of coal by so small an amount as 8 cents. Since the coordination of minimum prices can be restored without any appreciable effect on the consuming public, the Director concludes that the petition herein of the Consumers' Counsel does not show necessity for revision of the Order of August 19, 1941.

Now, therefore, it is ordered, That the petition of the Bituminous Coal Consumers' Counsel Division seeking a modification of the Director's Order of August 19, 1941, granting relief in this matter be and it hereby is denied.

DETERMINATION PURSUANT TO SECTION 608c (7) AND (17), TITLE 7, U.S.C., WITH RESPECT TO THE ISSUANCE OF AMENDMENT NO. 1 TO ORDER NO. 4, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE GREATER BOSTON, MASSACHUSETTS, MARKETING AREA

Claude R. Wickard, Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act. No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, issued, effective August 1, 1941, Order No. 4, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area.

Paul H. Appleby, Acting Secretary of Agriculture, tentatively approved on July 10, 1941, a marketing agreement, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area.

There being reason to believe that the execution of amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area would tend to effectuate the declared policy of said act, notice was given, on August 20, 1941, of a public hearing which was held in St. Johnsbury, Vermont, on August 26, 1941, and in Boston, Massachusetts, on August 27, 1941, on certain proposals to amend such marketing agreement, as amended, and such order, as amended, and at such times and places all interested parties were afforded an opportunity to be heard on the proposals to amend such marketing agreement, as amended, and such order, as amended.

After such hearing and after the tentative approval on September 27, 1941, of amendments to the marketing agreement, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, handlers of more than fifty (50) percent of the volume of milk covered by this order, as amended, which is marketed within the Greater Boston, Massachusetts, marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk.

It is hereby determined, pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, that:

1. The refusal or failure of said handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

2. The issuance of Amendment No. 1 to Order No. 4, as amended, is the only practical means pursuant to such policy of advancing the interests of the producers of milk which is produced for sale in the Greater Boston, Massachusetts, marketing area; and

3. The issuance of Amendment No. 1 to Order No. 4, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary and who, during the month of May 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area.

Done at Washington, D. C., this 22nd day of October 1941. Witness my hand and the seal of the Department of Agriculture.

Acting Secretary of Agriculture.

(1) The principal amount lent to the obligor (excluding any interest or finance charges, and the cost of any insurance) shall not exceed the maximum credit value of the listed article specified in the Supplement (§ 222.11); and, in determining such maximum credit value, the Registrant may accept in good faith a written statement signed by the obligor setting forth the *bona fide* cash purchase price of the article and of any accessories and of any services, except insurance, rendered in connection with the acquisition thereof, which statement so accepted shall, for purposes of this part, be deemed to be correct; and

(2) The maturity shall not exceed that specified for the listed article in the Supplement (§ 222.11), and such maximum maturity shall be calculated from the date of purchase of such listed article or from the date of such extension of instalment loan credit, whichever is earlier.

(b) *Miscellaneous loans of $1,500 or less.* If the extension of instalment loan credit is not subject to paragraph (a) but is in a principal amount of $1,500 or less, the maximum maturity shall not exceed that specified in the Supplement (§ 222.11) for extensions of instalment loan credit subject to this paragraph.

(c) *General requirements.* Whether subject to paragraphs (a) or (b), the extension of instalment loan credit shall comply with the following additional requirements:

(1) The extension of instalment loan credit shall be evidenced by a written instrument or record, and there shall be incorporated therein or attached thereto a written statement, of which a copy shall be given to the obligor as promptly as circumstances will permit, and which shall set forth the terms of payment and, if the loan is subject to paragraph (a), the *bona fide* cash purchase price used for determining the maximum credit value of the listed article involved;

(2) Except as permitted by paragraph (c) (3), the total of the principal and any interest or finance charges shall be payable in instalments which shall be substantially equal in amount or be so arranged that no instalment is substantially greater in amount than any preceding instalment; and

(3) Instalments shall be payable at approximately equal intervals not exceeding one month, except that, when appropriate in order to facilitate repayment in accordance with the seasonal nature of the obligor's main source of income or to encourage off-seasonal purchases of seasonal goods, the payment schedule may reduce or omit payments over any period or periods totaling not more than 4 months during the life of such extension of credit if the schedule increases the scheduled payments in such manner as to meet the other requirements of this section.

(d) *Statement of the borrower.* On and after January 1, 1942, no Registrant shall make any extension of instalment loan credit (except under the provisions of § 222.8 (a)) unless, at or before the execution of the loan contract, he shall have obtained and accepted in good faith a signed Statement of the Borrower as to the purposes of the loan in form prescribed by the Board. No obligor shall willfully make any material misstatement or omission in such Statement. The Registrant, acting in good faith, may rely upon the facts set out by the obligor in such Statement and, when the Registrant is so acting, such facts shall be deemed to be correct for the purposes of the Registrant. Until January 1, 1942 (after which date a Statement of the Borrower must be obtained) the Registrant, in ascertaining the purposes of the loan or the maximum credit value of any listed article, may, in good faith, accept and rely upon a written statement in any form signed by the obligor and such statement shall, for the purposes of this part, be deemed to be correct. In case the Registrant accepts in good faith a written statement signed by the obligor that any listed article which secures an extension of instalment loan credit has not been purchased within 45 days prior to such extension of credit, such statement shall, for the purposes of this part, be deemed to be correct.

(e) *Credit subject to paragraph (a) only in part.* In case an extension of instalment loan credit consists only in part of an extension of credit subject to paragraph (a), the amount and terms of such extension of credit shall be such as would result if the credit were divided and each part treated in good faith as if it stood alone.

A loan or part thereof which is secured by a listed article only because of an "overlap agreement", "spreader clause", or other form of general over-all lien or only because the Registrant is prevented by a State law or regulation from having in effect more than one contract of loan from the same borrower at the same time, but which otherwise would not be subject to paragraph (a), shall not be deemed to be so secured within the meaning of such section.

(f) *Loans to make down payments prohibited.* An extension of instalment loan credit does not comply with the requirements of this part if the Registrant making such extension knows or has reason to know that any part of the proceeds thereof is to be used to make a down payment on the purchase price of any listed article: *Provided*, That, if the Registrant accepts in good faith a written statement signed by the obligor that no part of the proceeds is to be so used, such statement shall, for the purposes of this part, be deemed to be correct.

4. Section 222.6 (a) is changed to read as follows:

§ 222.6 *Certain exceptions.* • • • (a) Any extension of credit which is secured by a *bona fide* first lien on improved real estate duly recorded or which is for the purpose of financing or refinancing the construction or purchase of an entire residential building or other entire structure.

• • • • • •

5. A new paragraph reading as follows is added at the end of § 222.6:

(l) Any extension of instalment loan credit which is made to a person whose income is derived principally from the operation of a business enterprise of which such person is the owner or proprietor, provided the extension of credit is for the purpose of financing such business enterprise and is not for the purpose of purchasing any listed article or secured by any listed article purchased within 45 days before the extension of credit.

6. Sections 222.8 (a), (b), (c) and (d) (the effective date of which has been postponed from November 1, 1941, to December 1, 1941) are changed to read as follows:

§ 222.8 *Renewals, revisions, and additions*—(a) *Renewals or revisions.* If any obligation or claim evidencing any extension of instalment sale credit or instalment loan credit is renewed or revised by a Registrant, the extension of instalment credit does not comply with the requirements of this part if such renewal or revision has the effect of changing the terms of repayment to terms which this part would not have permitted in the first instance for such credit; *Provided*, That nothing in this part shall be construed to prevent any Registrant from making any renewal or revision, or taking any action that it shall deem necessary in good faith, (1) with respect to any obligation of any member of the armed forces of the United States incurred prior to his induction into such service, or (2) for the Registrant's own protection in connection with any obligation which is in default and is the subject of *bona fide* collection effort by the Registrant.

(b) *Additions to outstanding credit held by registrant.* An extension of instalment sale credit or instalment loan credit does not comply with the requirements of this part if it is consolidated with any obligation or obligations held by the Registrant evidencing any prior extension or extensions of instalment credit to the same obligor, unless the additional extension of credit complies with the maximum credit value limitations applicable thereto (if any) and, in addition, the consolidated obligation complies with one of the following options:

Option (1). The terms of the consolidated obligation shall be such as would have been necessary to meet the requirements of this part if the two obligations had not been consolidated; or

Option (2). The consolidated obligation shall provide for a rate of payment, throughout its term, which is (i) at least as large per month as the rate of payment or payments on the outstanding obligation or obligations being consolidated would have been for the month commencing on the date of consolidation, and (ii) is larger to whatever extent may be necessary in order to repay the consolidated obligation within 15 months.

(c) *Credit to retire obligations held elsewhere.* Any extension of instalment loan credit, the proceeds of which a Registrant knows or has reason to know will be used in whole or in part to retire any extension of instalment credit not held by such Registrant, shall be subject to the provisions of this part to the same extent as if the obligation being retired were held by the Registrant.

(d) *Statement of necessity to prevent undue hardship.* Notwithstanding the provisions of paragraphs (a), (b) and (c), if a Registrant accepts in good faith a statement of necessity as provided in the following paragraph, the renewed, revised or consolidated obligation may provide for a schedule of repayment as though it were a new extension of instalment loan credit subject to paragraph (b), even though such action results in the reduction of the rate of repayment thereon.

The requirements of a statement of necessity will be complied with only if the Registrant accepts in good faith a written statement in form and content prescribed by the Board and signed by the obligor that the contemplated renewal, revision or other action is necessary in order to avoid undue hardship upon the obligor or his dependents resulting from contingencies that were unforeseen by him at the time of obtaining the original extension of instalment credit or which were beyond his control, which statement also sets forth briefly the principal facts and circumstances with respect to such contingencies and specifically states that the renewal, revision, or other action is not pursuant to a preconceived plan or an intention to evade or circumvent the requirements of this part. Until the Board has prescribed the form and content of the statement of necessity the Registrant may in good faith accept a written statement in any form, provided such statement otherwise conforms to the requirements of this section.

• • • • • •

7. Old § 222.9 (f), which is superseded by language in the amended § 222.5 (e), is stricken out and a new § 222.9 (f), which reads as follows, has been substituted:

§ 222.9 *Miscellaneous Provisions.*

• • • • • •

(f) *"Farmer plans".* When appropriate for the purpose of facilitating repayment in accordance with the seasonal nature of the obligor's main source of income, an extension of instalment credit which is made to a person who is engaged in agriculture and derives income principally therefrom may be payable in any amounts and at any intervals, notwithstanding §§ 222.4 (c), 222.4 (d) and 222.5 (c): *Provided*, That (1) the extension of credit complies with the applicable provisions concerning the amount and maximum maturity of the credit and (2) at least one-half of the credit is to be repaid within the first half of the applicable maximum maturity.

8. Section 222.10 is changed to read as follows:

§ 222.10 *Effective date of this part.* This part shall become effective September 1, 1941, except that § 222.8 (a), (b), (c) and (d) and the amendments made by Amendment No. 2 shall not become effective until December 1, 1941.

9. In § 222.11 (d), the figure "$1,000" is changed to "$1,500".

(The foregoing amendments are issued under the authority contained in sec. 5 (b), 40 Stat. 415, as amended by sec. 5, 40 Stat. 966, sec. 2, 48 Stat. 1, sec. 1, 54 Stat. 179; 12 U.S.C. 95 (a) and Sup., and Executive Order No. 8843,[1] dated August 9, 1941.)

TITLE 20—EMPLOYEES' BENEFITS

CHAPTER III—SOCIAL SECURITY BOARD

[Regulations No. 3, Further Amended]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE[1]

DEFINITION OF "LIVING WITH" HUSBAND

In order to conform Regulations No. 3[2] of the Social Security Board (Part 403, Title 20, Code of Federal Regulations, 1940 Sup.) to the applicable provisions of the Social Security Act, as amended, this regulation, effective January 1, 1940, is issued to amend § 403.834 (c) of such regulations.

Effective January 1, 1940, § 403.834 (c) of Regulations No. 3[2] is amended as follows:

§ 403.834 *Definition of "living with."*

* * * * *

(c) If the husband had, at such time, been ordered by any court to contribute to his wife's support.

This condition is met if the husband is legally obligated to contribute to the support of his wife at such time by virtue of any order, judgment, or decree of a court of competent jurisdiction, regardless of whether he actually made any such contribution. In determining the existence of such a legal obligation, any such order, judgment, or decree shall be considered as in full force and effect unless it has expired or has been vacated.

Example 1. H abandoned his wife W and never thereafter contributed to her support. W secured a valid court decree for separate maintenance which directed that H pay $5 a week to the support of W. H left the jurisdiction of the court and never complied with the terms of the decree. He filed application for primary insurance benefits at the age of 65 while living in another State. W thereupon filed application for wife's insurance benefits.

W was "living with" H at the time of filing application since H was legally obligated to contribute to the support of W at such time, by virtue of a decree of a court of competent jurisdiction.

Example 2. After H abandoned his wife W, W secured a valid court decree requiring H to pay $5 a week to the support of W. Later, because of H's illness the order was suspended. H died while this suspension was in effect. W filed a claim for widow's insurance benefits.

W was "living with" H at the time of his death since H was legally obligated to contribute to the support of W at such time, by virtue of a decree of a court of competent jurisdiction. Although the decree was suspended at the time of H's death, it had not expired nor had it been vacated. (Sec. 205 (a), 53 Stat. 1368, sec. 1102, 49 Stat. 647; 42 U.S.C., 405 (a), 1302; interprets sec. 209 (n), 53 Stat. 1378, 42 U.S.C., Sup., 409 (n))

In pursuance of sections 205 (a) and 1102 of the Social Security Act, as amended, the foregoing regulation this day adopted by the Board is hereby prescribed this September 30, 1941.

321.4 Inventory.
321.5 Return.
321.6 Records.
321.7 Penalties and interest.

§ 321.0 *Scope of regulations.* The regulations in this part deal with the floor stocks taxes imposed by sections 3400 (b) and 3409 (b) of the Internal Revenue Code, as added by sections 535 (c) and 547 of the Revenue Act of 1941 (Public Law 250—77th Congress), approved September 20, 1941. Section 3400 (b) imposes taxes with respect to tires and inner tubes, and 3409 (b) with respect to matches.*

*§§ 321.0 to 321.8, inclusive, issued under the authority contained in secs. 3448, 3791, I.R.C., 53 Stat. 419, 467; 26 U.S.C., Sup., 3448, 3791.

SEC. 535. TIRES AND TUBES. (Revenue Act of 1941.)

(a) *Rate on tires.* Section 3400 (1) of the Internal Revenue Code is amended by striking out "2¼ cents" and inserting in lieu thereof "5 cents".

(b) *Rate on tubes.* Section 3400 (2) of the Internal Revenue Code is amended by striking out "4 cents" and inserting in lieu thereof "9 cents".

(c) *Floor stocks tax on tires and inner tubes.* Section 3400 of the Internal Revenue Code is amended by inserting "(a) *Tax.*—" before the beginning thereof and by inserting at the end thereof the following:

(b) *Floor stocks tax.* Upon tires and inner tubes subject to tax under subsection (a) of the type used on vehicles subject to tax under section 3403 (a) or (b) which on October 1, 1941, are held for sale by any person there shall be levied, assessed, collected, and paid a floor stocks tax at the rate of 2½ cents per pound in the case of tires and 4½ cents per pound in the case of inner tubes. The tax shall apply to tires and inner tubes held for sale on, or in connection with, or held for use in the manufacture or production of, articles the sale of which will be subject to tax under section 3403 (a) or (b). The tax shall not apply to tires and inner tubes held for sale by the manufacturer, producer, or importer thereof, and to tires and inner tubes the sale of which will be subject under the provisions of sections 3444 (a) (2) and 3445 to the manufacturers' tax on tires and inner tubes.

SEC. 547. MATCHES. (Revenue Act of 1941.) Section 3409 of the Internal Revenue Code is amended to read as follows:

SEC. 3409. TAX ON MATCHES.

(a) *Manufacturers' tax.* There shall be imposed upon matches sold by the manufacturer, producer, or importer, a tax of 2 cents per 1,000 matches, except that in the case of fancy wooden matches and wooden matches having a stained, dyed, or colored stick or stem, packed in boxes or in bulk, the tax shall be 5½ cents per 1,000 matches.

(b) *Floor stocks tax.* On matches subject to tax under subsection (a) which, on October 1, 1941, are held and intended for sale, or for disposition in connection with the sale of other articles, there shall be levied, assessed, collected, and paid a floor stocks tax at the rate of 2 cents per thousand matches. The tax shall not apply to matches in retail stocks held at the place where intended to be sold or disposed of. The tax shall not apply to matches held for sale by the manufacturer, producer, or importer thereof, nor to fancy wooden matches or wooden matches having a stained, dyed, or colored stick or stem.

SEC. 3449. APPLICABILITY OF ADMINISTRATIVE PROVISIONS. (Internal Revenue Code.)

All provisions of law (including penalties) applicable in respect of the taxes imposed by section 2700 shall, in so far as applicable and not inconsistent with this chapter, be applicable in respect of the taxes imposed by this chapter.

§ 321.1 *Scope of tax*—(a) *General.* Floor stocks taxes are imposed on tires, inner tubes and matches (with the exceptions set forth in the regulations in this part) held for sale or specified disposition at the first moment of October 1, 1941, by any person other than the manufacturer, producer, or importer of the articles. The floor stocks taxes are on the holding for sale, etc., and not on the sale of the articles.

Tires, inner tubes and matches are regarded as held by the owner thereof at the first moment of October 1, 1941, although at that time the articles are in transit to the owner, or in a warehouse, storeroom, or distributing depot. Where title does not pass to the consignee until delivery, articles in transit at the first moment of October 1, 1941, are regarded as held by the consignor at that time.

(b) *Tires and inner tubes.* (1) The floor stocks taxes apply to:

(i) Tires and inner tubes of the type used on automobiles, trucks, busses, highway tractors, trailers, semi-trailers and motorcycles, held for sale at the first moment of October 1, 1941, by wholesalers, jobbers, distributors, and retailers, or any person other than the manufacturer, producer, or importer, of such tires and inner tubes;

(ii) Tires and inner tubes which at the first moment of October 1, 1941, are mounted on, or held for sale on or in connection with, automobiles, trucks, busses, highway tractors, trailers, semi-trailers and motorcycles held by the manufacturers, producers, or importers, of such vehicles and the sale of which will be taxable;

(iii) Tires and inner tubes which at the first moment of October 1, 1941, are held by manufacturers of automobiles, trucks, busses, highway tractors, trailers, semi-trailers and motorcycles for use in the manufacture of such vehicles.

(2) The floor stocks taxes do not apply to tires and inner tubes held for sale by the manufacturer, producer, or importer thereof. The floor stocks taxes likewise are not applicable to tires and inner tubes actually mounted on automobiles, trucks, etc., which are held for sale by persons who are not the manufacturers of such vehicles.

(3) The term "tires" includes rubber casings, rubber hoops, and rubber strips or bands, of all kinds, designed and shaped or built to form the tread of or to fit a wheel of a vehicle capable of use as a means of transporting a person or burden. The term includes also tires of either the pneumatic or solid type.

(4) The term "inner tubes" includes tubes or air containers of all types made wholly or in part of rubber and designed and manufactured for use in pneumatic tires.

(c) *Matches.* (1) The floor stocks tax applies to matches which at the first moment of October 1, 1941, are held and intended for sale, or for disposition in connection with the sale of other articles, by wholesalers, jobbers, distributors and retailers. In respect of matches held by retailers the floor stocks tax is applicable only to matches held in a warehouse or place other than the separate retail establishment where matches are sold or disposed of to consumers. The phrase "for disposition in connection with the sale of another article" includes matches held for delivery to a customer purchasing another article. For example, matches used as advertising material by manufacturers of various other articles and delivered to purchasers in connection with the sale of such other articles, are subject to the floor stocks tax.

(2) The floor stocks tax does not apply to matches held on October 1, 1941, in separate retail establishments or departments where such matches are to be sold or disposed of exclusively at retail directly to consumers. The floor stocks tax likewise does not apply to matches held for sale on October 1, 1941, by the manufacturer, producer, or importer thereof, or to fancy wooden matches, or wooden matches having a stained, dyed, or colored stick or stem.

(3) The term "fancy wooden matches" means matches having a wooden stem, and which in addition to serving the purpose of the ordinary match, are colored or decorated or manufactured in such a manner as to be more ornamental or attractive than the ordinary match.*

§ 321.2 *Rates of tax.* The rates of the floor stocks taxes are:

Tires—2½ cents per pound on the total weight (exclusive of metal rims or rim bases).

Inner tubes—4½ cents per pound on the total weight.

Matches—2 cents per thousand matches.*

§ 321.3 *Payment of tax.* Every person liable to floor stocks tax on tires, inner tubes, or matches is required to make return and pay such tax on or before November 30, 1941. Tax shall be paid at the time of filing return.*

§ 321.4 *Inventory.* Every person liable to pay floor stocks tax on tires, inner tubes, or matches, shall promptly make an itemized inventory of such articles subject to the floor stocks tax held at the first moment of October 1, 1941. Tires and inner tubes shall be segregated and inventoried separately according to trade name, size and weight. Matches shall be inventoried as to number.

Persons holding tires, inner tubes, or matches at more than one location shall prepare a separate inventory *in duplicate* for each such location. One copy of the separate inventory shall be retained at such location and one copy shall be forwarded to and kept at the taxpayer's principal place of business. Each inventory shall show the name of the taxpayer, the location of the particular premises for which the inventory is made and the name and address of the principal office from which the floor stocks return will be filed.

Separate inventories forwarded to the taxpayer's principal place of business shall be consolidated into a single inventory for the purpose of computing the tax and making return.

*Inventories should NOT be filed with the return but must be retained by the taxpayer at his principal place of business.**

§ 321.5 *Return.* Form 887, Revised 1941, is prescribed as the form on which persons liable to floor stocks tax on tires, inner tubes, or matches, shall make return and pay tax. The return shall be prepared and filed in duplicate on or before November 30, 1941, with the collector of the district in which is located the taxpayer's principal place of business.

The collector will retain the copy of the return for the files of his office and forward the original return to the Commissioner.*

§ 321.6 *Records.* Records showing payment of floor stocks tax on tires, inner tubes, or matches, together with the consolidated and separate inventories and other relevant papers and material must be kept by the taxpayer for a period of four years from the date the tax is due.*

§ 321.7 *Penalties and interest.* In the case of failure to pay the tax due on or before November 30, 1941, there shall be added as part of the tax, interest at the rate of 6 percent per annum for the period beginning December 1, 1941, to the date of payment of the tax. Where an assessment of the floor stocks tax is certified by the Commissioner to the collector of the district and payment of such tax is not made within ten days after issuance by the collector of the first notice and demand on Form 17 for payment, there will accrue under section 3655 of the Internal Revenue Code a 5 percent penalty and interest at the rate of 6 percent per annum from the date of issuance of the first notice and demand on Form 17 until date of payment of the tax.

The penalty under section 3612 (d) (1) of the Internal Revenue Code for delinquency in filing the return is 5 percent of the amount of the tax if the failure is not for more than thirty days, with an additional 5 percent for each additional thirty days or fraction thereof during which failure continues, but not to exceed 25 percent in the aggregate. The penalty does not apply where the return is later filed and failure to file the return within the prescribed time is shown to the satisfaction of the Commissioner to be due to reasonable cause and not to willful neglect.

In case a false or fraudulent return is willfully made the penalty under section 3612 (d) (2) of the Internal Revenue Code is 50 percent of the total tax due.

Under section 3612 (e) of the Internal Revenue Code the penalty added to any tax shall be collected at the same time and in the same manner and as a part of the tax unless the tax has been paid before discovery of the neglect, falsity, or fraud, in which case the amount so added shall be collected in the same manner as the tax.

Other penalties are also imposed by the Internal Revenue Code for willful failure to pay tax, keep records, file returns, or supply information for purposes of tax computation, and for filing false or fraudulent returns.*

§ 321.8 *Refunds.* A claim for refund may be filed by any person who has overpaid a floor stocks tax on tires, inner tubes, or matches. The claim must be made under oath on Form 843 and filed with the collector of internal revenue to whom the tax was paid. The claim must contain the information required by the form and be supported by a statement of the facts and evidence upon which the claim is based.*

Acting Commissioner of Internal Revenue.

[Docket No. 1763–FD]

IN THE MATTER OF LITTLE JOHN COAL COMPANY, A CORPORATION, CODE MEMBER, DEFENDANT

ORDER TERMINATING CODE MEMBERSHIP, PROVIDING FOR PAYMENT OF TAX FOR REINSTATEMENT, AND DIRECTING DEFENDANT TO CEASE AND DESIST FROM FURTHER VIOLATIONS

A complaint, dated July 3, 1941, in the above-entitled matter, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on July 7, 1941, by the Bituminous Coal Producers Board for District No. 10, complainant, with the Bituminous Coal Division (the "Division"), alleging that the defendant willfully violated the provisions of the Bituminous Coal Code (the "Code"), the effective minimum prices, and the Marketing Rules and Regulations, and the complaint having been duly served upon the defendant on July 31, 1941; and

The defendant, by stipulation dated October 13, 1941, the original of which is on file with the Division, having admitted the truth of the allegations of the complaint in respect to part of the coal therein described and having consented to the making and entry of this Order; and

An Order of the Director having been entered herein on October 25, 1941 granting the application of the Complainant dated October 14, 1941 for leave to withdraw the charges in the complaint contained in paragraph 2 thereof; and

The defendant having agreed that it will pay to the United States Government the amount of the tax hereinafter referred to, namely two thousand three hundred four dollars and fifty-four cents ($2,304.54), the amount required to be paid by sections 5 (b) and (c) of the Act, as a condition to reinstatement of its membership in the Code, and having agreed to cease and desist from making further sales of Size Group 15 coals until such time as said coals are priced by the Director, and that thereafter it will sell such coals at or above the prices so established plus the actual cost of transportation from the Little John Mine to the Wataga Dock as shown by the applicable freight rate tariff published by The Galesburg & Great Eastern Railroad Company plus the estimated actual cost of handling such coal at the Wataga Dock, and having further agreed to the issuance by the Director of a cease and desist order prohibiting the defendant

from making sales at the Wataga Dock of coals produced at the Little John Mine at prices less than the effective minimum f. o. b. mine price established therefor plus the applicable freight rate tariff of 50 cents per ton published by The Galesburg & Great Eastern Railroad Company for transportation from the Little John Mine to the Wataga Dock and plus the estimated actual costs of handling such coal at the Wataga Dock, which the defendant represents at the present time are 15.94 cents per net ton;

Now, therefore, Pursuant to the authority vested in the Director by section 4 II (j) of the Act authorizing him to adjust complaints of violations and compose the differences of the parties thereto and upon said stipulation on file with the Division:

It is hereby found as follows:

(a) Defendant at the times hereinafter mentioned was and now is a corporation duly organized and existing under and by virtue of the laws of the State of Indiana with its principal office located at 1016 Merchants Bank Building, Indianapolis, Indiana, engaged, under the powers granted to it by its corporate charter, in the business of producing and selling bituminous coal;

(b) on June 17, 1937, defendant filed with the National Bituminous Coal Commission (the "Commission") its acceptance, dated June 14, 1937, of the Code; said acceptance was approved by the Commission on June 17, 1937, to take effect as of the date of the promulgation of the Code, June 21, 1937, and defendant has been, since the last mentioned date, and is now, a code member in District No. 10, operating its Little John Mine, Mine Index No. 84, in said district;

(c) defendant owns and operates a truck tipple or truck loading dock at Wataga, Illinois (the Wataga Dock), at the Binford Siding of The Galesburg and Great Eastern Railroad Company; all of the coal handled and sold at the Wataga Dock is produced by the defendant at said Little John Mine and is transported from said mine to the Wataga Dock over the tracks of The Galesburg and Great Eastern Railroad Company, which is an Illinois corporation, all of the stock of which is owned by the Little John Coal Company;

It is hereby further found, That the defendant willfully violated the provisions of the Act, the Code and the effective minimum prices established thereunder, as alleged in the complaint, by selling to various purchasers f. o. b. the Wataga Dock, coal produced at its Little John Mine without adding to the effective minimum f. o. b. mine prices therefor not less than the estimated actual cost of transportation, handling and other incidental charges arrived at in good faith in a reasonable manner, at prices as follows:

Sizes of coal	Dates of sale	Number of tons sold	Effective minimum f. o. b. mine prices	Sales prices f. o. b. the Wataga dock	Aggregate effective minimum f. o. b. mine prices

		3,274.00	.....	.....	5,909.09

It is hereby further found, That said transactions of the defendant resulted in the violation of the provisions of the Act, the Code and the effective minimum prices established thereunder as follows:

(1) Said sales constituted violations of sections 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code.

(2) The failure to add to the effective minimum f. o. b. mine prices the estimated actual cost of transportation from said Little John Mine to said dock plus the estimated actual cost of handling said coal at the Wataga Dock constituted violations of Price Instruction No. 9, as set forth in Supplement No. 1 to Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck.

It is hereby further found, That the amount of tax imposed by sections 5 (b) and (c) of the Act upon the above tonnage and required to be paid by the defendant as a condition to reinstatement of its membership in the Code is two thousand three hundred four dollars and fifty-four cents ($2,304.54), which amount is 39 per cent of the aggregate of the effective minimum prices therefor of five thousand nine hundred nine dollars and nine cents ($5,909.09).

It is hereby further found, That subsequent to September 30, 1940 the defendant sold to various purchasers at the Wataga Dock substantial tonnages of coal of Size Group 15 for which no effective minimum prices had been established by the Director.

Now, therefore, Based upon the above findings and said admissions and agreements of the defendant and the defendant's consent appended hereto to the making and entry of this order:

It is ordered, That the membership of the above-named defendant in the Code be and the same is hereby cancelled and revoked.

It is further ordered, That said cancellation and revocation of the code membership of the defendant shall become effective ten (10) days after service of this order upon the defendant.

It is further ordered, That in the event of the defendant's failure to pay the amount of tax required to be paid by the defendant as a condition to its reinstatement to membership in the Code, within ten (10) days after service of this order on the defendant, the Director may in his discretion vacate, revoke, cancel, or annul this order and thereupon take such further steps or action in this proceeding as the Director may deem fit, and jurisdiction of this proceeding is hereby reserved for such purpose.

It is further ordered, That the defendant, its officers, representatives, agents, servants, employees and attorneys, and all persons acting or claiming to act in its behalf or interest, cease and desist and they hereby are permanently enjoined and restrained from violating the provisions of the Code, the Act, the Marketing Rules and Regulations, and the effective minimum prices, and that the provisions hereof shall continue in full force and effect in respect to the defendant, its officers, representatives, agents, servants, employees, and attorneys, and all persons acting or claiming to act in its behalf upon any restoration of the defendant's Code membership, pursuant to section 5 (c) of the Act.

It is further ordered, That the Director, in his discretion, may apply to the Circuit Court of Appeals of the United States within any Circuit where the defendant resides and carries on business for the enforcement hereof.

Dated: October 25, 1941.

(iii) Sudan, millet, or annual ryegrass, for pasture.

(iv) Seeded cover crops of which a good stand and good growth is left on the land, and green manure crops qualifying for credit under practice (24).

(v) Summer fallow protected by methods recommended by the State committee and approved by the Agricultural Adjustment Administration.

(vi) Fallow rice land, or rice land on which noxious plants are controlled by mowing.

(vii) Forest trees planted on cropland since 1935.

(viii) Austrian winter peas, crimson clover, or vetch, grown for seed.

(ix) Land qualifying under practice (57), provided the land is adequately protected from erosion.

(x) Idle cropland on which approved terraces are constructed during the 1942 crop year.

(xi) Sweet sorghums, oats, rye, Sudan, or millet, cut green for hay, provided a strip one rod wide is left standing between each five-rod strip harvested (applicable only in arid and semi-arid areas recommended by the State committee and approved by the Agricultural Adjustment Administration).

Provided, however, That on farms of less than 20 acres of cropland this requirement may be met in whole or in part by growing winter cover crops or green manure crops regardless of any other use of the same land during the 1942 crop year: *Provided further*, That, in areas recommended by the State committee and approved by the Agricultural Adjustment Administration, on any farm this requirement may be met in whole or in part by growing green manure or cover crops regardless of any other use of the same land during the 1942 crop year, except that on any such farm the percentage of the cropland on the farm required to be devoted to such uses shall be 30 percent and the deduction from the net payment in connection with special crop allotments shall be 3⅓ percent of the maximum amount computed in connection with such allotments for each 1 percent of the cropland by which the required percentage is not reached.

(2) *Minimum acreage of erosion-resisting crops.* The net payment for any farm in connection with special crop allotments shall be subject to a deduction of 4 percent of the maximum amount computed in connection with such allotments for each 1 percent of the cropland on the farm by which the acreage of erosion-resisting crops and land uses on the farm is less than 25 percent of the cropland on the farm. Erosion-resisting crops and land uses for any county shall be determined by the State committee, with the approval of the Agricultural Adjustment Administration, and may include only cropland which is devoted in the program year to one or more of the following crops or uses:

Biennial or perennial legumes.
Perennial grasses.
Lespedeza.
Crotalaria.
Ryegrass.
Green manure crops.
Fall-seeded small grains (other than wheat) not harvested for grain.
Velvet beans.
Forest trees.
Protected summer fallow.
Sweet sorghums or millet for pasture.
Peanuts hogged off.
Cowpeas.

Thick-seeded Sudan grass.
Natal grass.
Winter legumes.
Soybeans.
Sweet clover.
Fallow rice land, or rice land on which noxious plants are controlled by mowing.
Land on which approved terraces are constructed during the 1942 program year and no intertilled row crops other than those listed in this subparagraph (2) are grown.

Land devoted to one or more of the above crops or land uses shall qualify toward meeting this requirement regardless of any other use of such land except when interplanted with row crops.

(3) *Farm conservation plan.* In counties, groups of counties, or States, upon recommendation of the State Committee and the approval of the Agricultural Adjustment Administration, the net payment that would otherwise be made with respect to special crop allotments for any farm in the county, group of counties, or State, as the case may be, shall be reduced by 1 percent for each 2 percent by which the producers on the farm fail to carry out during the 1942 program year that part approved for that year of a farm conservation plan approved for the farm as one which, over a period of years as recommended by the State committee and approved by the Agricultural Adjustment Administration, will conserve the soil and increase its productivity. Such a plan shall provide for the carrying out on the various parts of the farm of the soil-building practices needed for the proper balance between the various kinds of crops grown, for the elimination of erosion hazards, for the restoration of the necessary humus to the soil, and other good land uses. The amount of the deductions made under this provision, as estimated by the Agricultural Adjustment Administration, shall be available in the State or county where deducted for administrative expenses.

(4) *Minimum soil-building performance.* The payment made with respect to special crop allotments shall not exceed a percentage of the net payment earned with respect to such allotments equal to the percentage of that part of the soil-building allowance computed under § 701.302 (d) (1)–(3), which is earned for the farm, except that such limitation will not be applicable if (i) the amount of the soil-building payment earned equals or exceeds the maximum payment computed in connection with special crop allotments, or (ii) the farm is retired from agricultural production during the 1942 program year. In determining performance under this subparagraph, in areas designated by the Agricultural Adjustment Administration as areas where the allowance on noncrop open pasture is the major portion of the soil-building allowance on a substantial number of farms, the allowance on noncrop open pasture shall not be included.

* * * * *

11. Section 701.301 (k) and (l) are redesignated § 701.301 (j) and (k), respectively.

12. Section 701.302 (d) is hereby amended by changing the first proviso clause to read as follows:

§ 701.302 *Soil-building goals, payments and practices.*

* * * * *

(d) *Soil-building allowance.* * * * *Provided*, That for any farm with respect to which the sum of the maximum payments computed under § 701.301 and subparagraphs (1) to (4), inclusive, of this paragraph is less than $20.00, the amount determined under this paragraph shall be increased by the amount of such difference. * * *

13. Section 701.302 (d) (1) and the parenthetical sentence of § 701.302 (d) (2) are hereby deleted, and § 701.302 (d) (2), (3), (4), and (5) are redesignated § 701.302 (d) (1), (2), (3), and (4), respectively.

14. Section 701.302 (e) is amended to read as follows:

(e) *Deduction for failure to maintain practices under previous programs.* Where the county committee, in accordance with instructions of the State committee, determines that (1) any terrace constructed, water development established, forest trees planted, or pasture established under any previous agricultural conservation program are not maintained in accordance with good farming practices, (2) any seeding of perennial legumes or grasses is destroyed after producers in the county have been generally informed that the destruction of such legumes or grasses is contrary to good farming practice, or (3) the effectiveness of any soil-building practice carried out under any previous program is destroyed during the 1942 program year contrary to good farming practice, there shall be deducted an amount equal to the payment that would be made under the 1942 program for a similar amount of such practice from the net payment due the person on the same or any other farm in the county who was responsible for the failure to maintain such practices. In the event the amount of such deduction exceeds the amount of payment for the producer subject to deduction, the amount of such difference shall be paid by the producer to the Secretary.

* * * * *

15. Section 701.302 (f), second and last paragraphs of Practice (1) are amended to read as follows:

(f) *Soil-building practises.*

* * * * *

In an area designated by the Agricultural Adjustment Administration as an area in which the average cost at the local distribution points of 48 pounds of available P_2O_5, 500 pounds of basic slag or rock or colloidal phosphate, or 50 pounds of available K_2O is:

* * * * *

One bag of not less than 100 pounds of triple superphosphate furnished by the Agricultural Adjustment Administration will be considered the equivalent of 48 pounds of available P_2O_5. * * *

16. Section 701.302 (f), Practice (6) is amended to read as follows:

(6) Seeding alfalfa, lespedeza sericea, wheatgrasses, or perennial brome grasses: $1.50 per acre.

17. Section 701.302 (f), Practice (7), is amended to read as follows:

(7) Seeding permanent grasses, or permanent pasture mixtures containing a full seeding of legumes or grasses, or both, other than timothy and redtop (applicable only to varieties and areas designated by the Agricultural Adjustment Administration with respect to which the cost of establishing improved pastures is exceptionally high and their increase is important). Any of the grasses, but not alfalfa and lespedeza sericea, listed in Practice (6) will be applicable; $3.50 per acre.

18. Section 701.302 (f), the last paragraph of Practice (14) is amended to read as follows:

Rate of payment will be that part of the soil-building allowance which is computed under paragraph (d) (2) of this section: *Provided*, That (i) if grazing is deferred on less than 25 percent of the range land or pasture land, the payment shall be a proportionate percent for each 1 percent of the range land or pasture land included in such practice; and (ii) payment shall not exceed the value of practices carried out which are designated by the county committee in accordance with instructions issued with the approval of the Agricultural Adjustment Administration and for which payment otherwise will not be made, except that, in areas designated by the Agricultural Adjustment Administration as areas where only limited supplemental practices are required or are otherwise provided for, payment shall not exceed 50 percent (or if grazing is deferred on less than 25 percent of the range land or pasture land, 2 percent for each 1 percent of the range land or pasture land included in such practice) of the allowance computed under paragraph (d) (2) of this section, by more than the value of such practices carried out.

19. Section 701.302 (f), the last sentence of the first paragraph and the last sentence of the third paragraph, Practice (15), are amended to read as follows:

The rate of payment will be all of the soil-building allowance which is computed under paragraph (d) (2) of this section.

* * * * *

If, however, the county committee determines that 5 percent or more of the total acreage of grazing land has been injured by overgrazing in 1942, payment shall be reduced by 5 percent of the payment otherwise earned under this practice for each 1 percent of the total grazing area which is overgrazed in 1942.

20. Section 701.302 (f), Practice (18) is amended to read as follows:

(18) Construction of reservoirs and dams, including enlargement of inadequate earthen structures and diversion to off-channel sites—15 cents per cubic yard of material moved not in excess of 2,000 cubic yards for each development, and 10 cents per cubic yard of material moved in excess of 2,000 cubic yards, in making the fill or excavation, or $6.00 per cubic yard of concrete or rubble masonry. Prior approval must be obtained from the county committee if constructed for the purpose of developing water for range livestock in connection with this practice on range land.

21. Sec. 701.302 (f), Practice (37) is amended to read as follows:

(37) Stripcropping, including protection of summer fallow by means of strip fall-a-wing. No credit will be given for this practice for any acreage qualifying under practice (38), (39), or (42).

(i) Contour stripcropping in areas where contour stripcropping is not normally practiced—$1 per acre.

(ii) Stripcropping not on the contour—70 cents per acre.

22. Section 701.302 (f), Practice (38) is amended to read as follows:

(38) Protecting summer-fallowed acreage from wind and water erosion by contour listing, pit cultivation, contour cultivation with a shovel type implement, cultivation with a rod weeder, or incorporating stubble and straw into the surface soil. No credit will be given for this practice for any acreage qualifying under practice (37). No credit will be given for this practice when carried out on light sandy soils or on soils in any area where destruction of the vegetative cover results in the land becoming subject to serious wind erosion—70 cents per acre.

23. Section 701.302 (f), Practice (39) is amended to read as follows:

(39) Contour farming intertilled crops in areas where such crops are not normally farmed on the contour. No credit will be given for this practice for any acreage qualifying under Practice (37)—20 cents per acre.

24. Section 701.302 (f), Practice (41) is amended to read as follows:

(41) Pit cultivation, pits to be at least four inches in depth below surface of soil and constructed so that surfaces of pits cover at least 25 percent of the ground surface, or, in areas designated by the Agricultural Adjustment Administration as areas in which pit cultivation is not applicable, incorporation of stubble and straw into the surface soil in the fall as a protection against fall and winter erosion (no credit will be given for this practice when carried out on protected summer-fallowed acreage or as a part of a seeding operation)—15 cents per acre.

25. Section 701.302 (f), Practice (42) is amended to read as follows:

(42) Contour seeding of small grain crops, sorghums, millets, soybeans, or peas, when drilled in areas where such crops are not ordinarily seeded on the contour. No credit will be given for this practice for any acreage qualifying under Practice (37)—15 cents per acre.

26. Section 701.302 (f), Practice (54) is amended by changing the rate of payment from $1.60 per acre to $1.00 per acre.

27. Section 701.302 (f), Practice (62) is amended to read as follows:

(62) Performance of such supplemental conservation practices not normally carried out on the farm as are recommended by the State committee and approved by the Agricultural Adjustment Administration on any farm where 50 percent or more of the sum of the cropland and commercial orchard land as determined at the beginning of the program year is devoted to perennial grasses or perennial legumes or on any farm in arid or semi-arid areas designated by the Agricultural Adjustment Administration as areas in which it is unusually difficult to obtain a good stand of perennial grasses or legumes—One-half of the soil-building allowance. On any farm where the maximum payment that may be earned does not exceed $20.00, excluding any allowance for planting forest trees, any part of the soil-building allowance may be earned under this practice.

28. Section 701.302 (f) is amended by adding the following new Practice (63):

(63) Performance of such supplemental conservation practices not normally carried out on the farm as are recommended by the State committee and approved by the Agricultural Adjustment Administration. This practice shall be applicable only in areas recommended by the State committee and approved by the Agricultural Adjustment Administration. The amount of payment for carrying out this practice in any area shall not exceed the amount by which the Agricultural Adjustment Administration determines that the payments for carrying out other practices in the area are reduced by reducing the rates of credit for such other practices below those which would otherwise be applicable for such practices in the area.

29. Section 701.303 (a), (1) and (2) are amended to read as follows:

§ 701.303. *Division of payments and deductions*—(a) *Payments and deductions in connection with crop acreage allotments and restoration land.* (1) The net payment or net deduction computed for any farm with respect to any special crops shall be divided among the landlords, tenants, and sharecroppers in the same proportion (as indicated by their acreage shares expressed in terms of either acreages or percentages) that such persons are determined by the county committee to be entitled, as of the time of harvest, to share in the proceeds (other than a fixed commodity payment) of such crop(s) grown on the farm in 1942. Such determination shall be made at the time the county committee approves the application for payment: *Provided*, That if any such crop is not grown on the farm in 1942, or the acreage of such crop is substantially reduced by flood, hail, drought, insects, or plant-bed disease, the net payment or net deduction computed for such crop shall be divided among the landlords, tenants, and sharecroppers in the proportion that the county committee determines such persons would have been entitled to share in the proceeds of such crop if the entire acreage in the acreage allotment for such crop had been planted and harvested in 1942. *Provided further*, That if for any reason the total acreage of cotton on a farm in 1942 is less than 80 percent of the cotton allotment for the farm and the acreage of cotton planted or which would have been planted thereon by any producer in 1942 is a substantially smaller proportionate share of the acreage planted to cotton thereon than such producer normally plants thereon and all the persons who are or would have been entitled to receive a share of the proceeds of the cotton agree, as shown by their signatures on the application for payment or a separate statement, the net payment computed for cotton for the farm shall be divided among the landlords, tenants, and sharecroppers in the proportion that the county committee determines that such persons would have been entitled to share in the proceeds of the cotton crop if the entire acreage in the cotton allotment had been planted and harvested in 1942, but in no event shall the acreage share so determined for any person be less than such person's acreage share of the acreage planted to cotton on the farm in 1942: *And provided further*, That, in cases where two or more separately-owned tracts of land comprise a farm in any area designated by the Agricultural Adjustment Administration as an area in which a substantial proportion of the farms comprise two or more separately-owned tracts of land, and all persons who are entitled to receive a share of the proceeds of any such crop agree (or all landlords who are entitled to receive a share of the proceeds of any such crop agree, if in any area the payment to be divided pursuant to this proviso is limited by the Agricultural Adjustment Administration to that payment accruing to landlords on the farm), as shown by their signatures on the application for payment or a separate statement, the share of each such person in the net payment or net deduction computed with respect to such crop on such farm shall be that share which fairly reflects the contribution of each such person to performance with respect to such crop and also results substantially in a division of such payment or deduction among landlords, tenants, and share-

croppers as classes as each such class shares in the crop, or proceeds thereof, with respect to which the payment or deduction is being made.

(2) The deductions with respect to (i) failure to meet the minimum conserving acreage requirement, (ii) insufficient acreage of erosion-resisting crops, (iii) failure to carry out a farm conservation plan, and (iv) insufficient soil-building performance shall be regarded as pro-rata deductions with respect to the net payment computed in connection with crop acreage allotments.

* * * * *

30. Section 701.305, second paragraph is amended to read as follows:

§ 701.305. *Payments limited to $10,000.* * * *

All or any part of any payment which has been or otherwise would be made to any person under the 1942 program may be withheld or required to be returned if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, which was designed to evade, or would have the effect of evading, the provisions of this section.

31. Section 701.309 (a) (1), the wording appearing, following the words *Amount to be withheld or refunded:* in connection with Practice (v) is amended to read as follows:

The amount of the net deduction computed for such business enterprise.

32. Section 701.309 (a) (1), the wording apearing under *Practice* in connection with practices (xii) and (xiii), is amended to read as follows:

(xii) A person misuses or participates in the misuse of a marketing card with respect to any commodity for which marketing quotas are in effect or fails to file or knowingly falsifies any report required by or under the regulations pertaining to marketing quotas for the 1941–42 or 1942–43 marketing year and such misuse or failure to file or falsification of such report results in any erroneous or incomplete record pertaining to any farm in connection with marketing quotas.

(xiii) A person whose maximum payment computed without regard to the $10,000 limitation is in excess of $10,000 adopts practices which result in a substantial difference between the maximum payment so computed and the payment after applying all applicable deductions except the $10,000 limitation and the deduction for administrative expenses.

* * * * *

33. Section 701.314 (a) is amended to read as follows:

§ 701.314 *Authority, availability of funds, and applicability—*

(a) *Authority.* This program is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act (49 Stat. 1148, 16 U.S.C. 590g to 590q), as amended, and is contingent upon legislative authority to the Secretary to exercise after December 31, 1941, the powers now conferred on him by section 8 of the Act. In connection with the effectuation of the purposes of section 7 (a) of said Act for 1942 the payments provided for herein will be made for participation in the 1942 program.

[Cotton 1942–43]

PART 722—COTTON

PROCLAMATION OF COTTON MARKETING QUOTAS, 1942–43 MARKETING YEAR

Whereas the Agricultural Adjustment Act of 1938, as amended, provides:

SEC. 342. Not later than November 15 of each year the Secretary [of Agriculture] shall find and proclaim (a) the total supply, the normal supply, and the carry-over of cotton as of August 1 of such year, (b) the probable domestic consumption of American cotton during the marketing year commencing August 1 of such year, (c) the probable exports of American cotton during such marketing year, and (d) the estimated carry-over of cotton as of the next succeeding August 1. * * *

SEC. 345. Whenever the Secretary determines that the total supply of cotton for any marketing year exceeds by more than 7 per centum the normal supply thereof for such marketing year, the Secretary shall proclaim such fact not later than November 15 of such marketing year * * *, and marketing quotas shall be in effect during the next succeeding marketing year with respect to the marketing of cotton. Cotton produced in the calendar year in which such marketing year begins shall be subject to the quotas in effect for such marketing year notwithstanding that it may be marketed prior to August 1.

SEC. 343. (a) Not later than November 15 of each year the Secretary shall find and proclaim the amount of the national allotment of cotton for the succeeding calendar year in terms of standard bales of five hundred pounds gross weight. The national allotment shall be the number of bales of cotton adequate, together with the estimated carry-over as of August 1 of such succeeding calendar year, to make available a supply of cotton, for the marketing year beginning on such August 1, equal to the normal supply. * * *

(b) * * *. The national allotment for any year (after 1939) shall be not less than ten million bales.

(c) Notwithstanding the foregoing provisions of this section, the national allotment for any year shall be increased by a number of bales equal to the production of the acres allotted under section 344 (e) for such year.

SEC. 344. (a) The national allotment for cotton for each year (excluding that portion of the national allotment provided for in section 343 (c)) shall be apportioned by the Secretary among the several States on the basis of the average, for the five years preceding the year in which the national allotment is determined, of the normal production of cotton in each State. The normal production of a State for a year shall be (1) the quantity produced therein plus (2) the normal yield of the acres diverted in each county in the State under the previous agricultural adjustment or conservation programs. The normal yield of the acres diverted in any county in any year shall be the average yield per acre of the planted acres in such county in such year times the number of acres diverted in such county in such year.

(b) The Secretary shall ascertain, on the basis of the average yield per acre in each State, a number of acres in such State which will produce a number of bales equal to the allotment made to the State under subsection (a). Such number of acres plus the number of acres allotted to the State pursuant to subsection (e) (2) is referred to as the "State acreage allotment". The average yield per acre for any State shall be determined on the basis of the average of the normal production for the State for the years used in computing the allotment to the State, and the average, for the same period, of the acres planted and the acres diverted in the State.

(c) (1) The State acreage allotment (less the amount required for apportionment under paragraph (2)) shall be apportioned annually by the Secretary to the counties in the State. The apportionment to the counties shall be made on the basis of the acreage planted to cotton during the five calendar years immediately preceding the calendar year in which the State allotment is apportioned (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such five-year period.

(2) Not more than 2 per centum of the State acreage allotment shall be apportioned to farms in such State which were not used for cotton production during any of the three calendar years immediately preceding the year for which the allotment is made, on the basis of land, labor, and equipment available for the production of cotton; crop rotation practices; and the soil and other physical facilities affecting the production of cotton.

* * * * *

(e) (1) For 1938, 1939, and any subsequent year, the Secretary shall allot to the several counties, to which an apportionment is made under subsection (c), a number of acres required to provide a total acreage for allotment under this section to such counties of not less than 60 per centum of the sum of (1) the acreage planted to cotton in such counties in 1937, plus (2) the acreage therein diverted from cotton production in 1937 under the agricultural adjustment and conservation program. The acreage so diverted shall be estimated in case data are not available at the time of making such allotment.

(2) The Secretary shall allot to each State to which an allotment is made under subsection (b), and in which at least three thousand five hundred bales were produced in any of the five years immediately preceding the year for which the allotment is made, a number of acres sufficient to provide a total State acreage allotment for such State of not less than five thousand acres.

Whereas said Act contains, in section 301 (b), the following definitions of terms pertinent herein:

"Carry-over" of cotton for any marketing year shall be the quantity of cotton on hand either within or without the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current.

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

* * * * *

Cotton, August 1–July 31 * * *.

"Normal supply" in the case of * * * cotton * * * shall be a normal year's domestic consumption and exports of the commodity, plus * * * 40 per centum in

the case of cotton * * * of a normal year's domestic consumption and exports, as an allowance for a normal carry-over.

"Normal year's domestic consumption", in the case of cotton * * *, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

"Normal year's exports" in the case of * * * cotton * * * shall be the yearly average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years * * * immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

"Total supply" of * * * cotton * * * for any marketing year shall be the carry-over of the commodity for such marketing year plus the estimated production of the commodity in the United States during the calendar year in which such marketing year begins.

Whereas said Act provides, in section 301 (c), that:

The latest available statistics of the Federal Government shall be used by the Secretary [of Agriculture] in making the determinations required to be made by the Secretary under this Act.

And whereas said Act provides, in section 350, that the provisions of Part IV (Marketing Quotas—Cotton) of subtitle B of Title III thereof

* * * shall not apply to cotton the staple of which is 1⅛ inches or more in length * * *

§ 722.401 *Findings and determinations.* Now, therefore, be it known that I, Grover B. Hill, Acting Secretary of Agriculture of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in me by the Act of Congress known as the Agricultural Adjustment Act of 1938, as amended, upon the basis of the latest available statistics of the Federal Government, do hereby find, determine, and proclaim under sections 342, 343, and 345 of said Act (52 Stat. 56, 58, 203; 53 Stat. 1125; 7 U.S.C., Sup., 1342, 1343, 1345);

(a) That the "total supply" of American cotton as of August 1, 1941, was 23,800,000 running bales;

(b) That the "normal supply" of American cotton as of August 1, 1941, was 18,200,000 running bales;

(c) That the "carry-over" of American cotton as of August 1, 1941, was 12,800,000 running bales;

(d) That the "probable domestic consumption of American cotton" during the marketing year commencing August 1, 1941, is 10,500,000 running bales;

(e) That the "probable exports of American cotton" during the marketing year beginning August 1, 1941, is 1,250,000 running bales;

(f) That the estimated "carry-over" of American cotton as of August 1, 1942, is 11,600,000 running bales;

(g) That the "total supply" of American cotton for the marketing year beginning August 1, 1941, exceeds by more than 7 per centum the "normal supply" of cotton for such marketing year; and

(h) That the national allotment of cotton for the calendar year beginning on January 1, 1942, shall be 10,000,000 standard bales of five hundred pounds gross weight, increased by that number of standard bales of five hundred pounds gross weight equal to the production in the calendar year 1942 of that number of acres required to be allotted for 1942 under the terms of section 344 (e) of said Act.

CHAPTER IX—SURPLUS MARKETING ADMINISTRATION

[O-34-1]

PART 934—MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

AMENDMENT NO. 1 TO THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

Claude R. Wickard, Secretary of Agriculture of the United States of America, issued, effective August 1, 1941, Order No. 34,[2] as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area.

Claude R. Wickard, Secretary of Agriculture of the United States of America, tentatively approved on July 14, 1941, the marketing agreement, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area.

There being reason to believe that the issuance of an amendment to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of the act, notice was given of a hearing which was held at Lawrence, Massachusetts, on August 28, 1941, at which time and place all interested par-

ties were afforded an opportunity to be heard upon certain proposals to amend the tentatively approved marketing agreement, as amended, and the order, as amended.

§ 934.0 *Findings.*

* * * * *

It is found upon the evidence introduced at the last above-mentioned public hearing, such findings being in addition to the findings made upon the evidence introduced at the hearing on the order and the various amendments thereto, and being in addition to the other findings made prior to or at the time of the original issuance of the order or the various amendments thereto (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

(f) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of said act, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(g) That the order regulates the handling of milk in the same maner as a marketing agreement upon which a hearing has been held; and

(h) That the issuance of this amendment No. 1 to the order, as amended, and all of its terms and conditions, tends to effectuate the declared policy of the act. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U.S.C. and Sup., 601 et seq.)

It is hereby ordered that the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area, shall be, and it is hereby amended as follows:

1. In § 934.3 (b) (2) delete the words "not less than one-half of 1 percent butterfat and not more than 16 percent" and substitute therefor the following: "One-half of 1 percent or more, but less than 16 percent of butterfat."

2. Delete § 934.4 (b) (1) and (2) and substitute therefor the following:

TITLE 10—ARMY: WAR DEPARTMENT

CHAPTER V—MILITARY RESERVATIONS AND NATIONAL CEMETERIES

PART 53—NATIONAL CEMETERIES[1]

§ 53.1 *Authority for establishment.* National cemeteries are established under orders of the Secretary of War when empowered by act of Congress. (R.S. 4870; 24 U.S.C. 271) [Par. 1, AR 30-1840, Oct. 6, 1941]

§ 53.2 *Control and supervision.* The direct control and supervision of national cemeteries are exercised by the commander of the corps area in which they are located, except those cemeteries which are specifically exempted. General supervision over all national cemeteries is a function of The Quartermaster General. (R.S. 161; 5 U.S.C. 22) [Par. 3, AR 30-1840, Oct. 6, 1941]

§ 53.3 *Records, custody.* The Quartermaster General is charged with the preservation of all records of national cemeteries. Historical records will be prepared and maintained for all national cemeteries, utilizing the same Quartermaster Corps forms as for historical records of posts and stations. (R.S. 161; 5 U.S.C. 22) [Par. 5, AR 30-1840, Oct. 6, 1941]

§ 53.4 *Burials in national cemeteries*—(a) *Eligibility.* Under the provisions of R.S. 4878, as amended by act April 15, 1920 (41 Stat. 552; 24 U.S.C. 281) and act June 13, 1935 (49 Stat. 339; 24 U.S.C. 281), the following persons are entitled to burial in a national cemetery:

(1) Those who served in the Federal forces of the United States either during peace or war and whose last discharge therefrom was honorable, including service in the—

(i) Army.
(ii) Navy.
(iii) Marine Corps.
(iv) Coast Guard.
(v) Coast and Geodetic Survey, who were transferred to and served with the Army or Navy by authority of the President.
(vi) Public Health Service, who were detailed for duty with and served with the Army or Navy by authority of the President.
(vii) Trainees under the act approved September 16, 1940.

(2) Any citizen of the United States who served in the army or navy of any government at war with Germany or Austria during the World War and who died while in such service or after honorable discharge therefrom, and who was a citizen of the United States at the time of such service.

(3) Persons dying in the District of Columbia or in the immediate vicinity thereof who served in the Confederate armies during the Civil War may be buried in the Confederate Section of Arlington National Cemetery as provided in paragraph (b) of this section.

(4) Any member of the Cabinet of the President of the United States at any time during the period between April 6, 1917, and November 11, 1918.

(b) *Evidence of right.* For those who were not in the service of the United States at the time of death, it is a prerequisite that they shall have been honorably discharged from the service. In all cases the last service of a decedent must have been honorable. The production of the honorable discharge covering the last service of a decedent will be sufficient authority for the superintendent of a national cemetery to permit interment. In cases where the honorable discharge cannot be produced or where there is a reasonable doubt as to eligibility for interment in a national cemetery, the superintendent will telegraph The Quartermaster General for verification of service and authorization for interment, furnishing all the information it is possible to obtain concerning the service of the decedent including the full name, organization, serial number, if any, and dates of service. In the case of citizens of the United States who served in the army or navy of any government at war with Germany or Austria, the superintendent will request evidence of citizenship at time of service, correct name of decedent, grade, and military organization in the army in which he served and will communicate with The Quartermaster General by telegraph for the necessary permit for burial. Pension certificates will not be accepted as authority upon which to authorize interment.

In the case of Confederate veterans, the certificate of Camp No. 171, United Confederate Veterans of the District of Columbia, that such persons are entitled to burial in Arlington National Cemetery, is required.

In the case of members of the President's Cabinet as indicated in paragraph (a) of this section, authority for interment will be requested of The Quartermaster General.

(c) *Interment of members of families.* (1) The wives of both officers and enlisted men may be buried with their husbands in a national cemetery. In the case of an officer, two grave sites are assigned, one for the officer and the other for his wife. In those cemeteries having officers' sections in which lots are laid out, a lot containing two grave sites is assigned. In the other cemeteries when either the officer or his wife is buried, the adjoining grave site will be reserved for the one surviving. The wife of an officer may be interred prior to the death and burial of her husband. In those cemeteries where lots are assigned to officers, the burial of minor children and unmarried adult daughters (this includes daughters who have never married, widows, and divorcees) is permitted, provided there is room in the officer's lot, under the following conditions:

(i) That the fact of the interment shall be entered on the records of the cemetery, but the name shall not appear on any monument on the lot.

(ii) That the grave shall be marked, if so desired, at private expense, only with a footstone sunk flush with the ground, not exceeding 10 to 20 inches at the top, with a suitable identifying inscription and dates of birth and death.

(iii) That the written concurrence in the above conditions by the legal next of kin be forwarded to The Quartermaster General.

(2) The wives of enlisted men may be buried in the same grave with their husbands in a national cemetery but only after the death and interment therein of the veterans concerned, except where the enlisted man is 70 years of age or over, in which case interment of his wife prior to his death is authorized, provided he gives assurance that he will eventually be buried in the same grave.

(3) No lots or grave sites will be assigned in advance of their actual requirement for burial purposes. (R.S. 4878; 41 Stat. 552; 49 Stat. 339; 24 U.S.C. 281) [Par. 8, AR 30-1840, Oct. 6, 1941]

[Docket No. A-206]

PART 342—MINIMUM PRICE SCHEDULE, DISTRICT NO. 22

FINDINGS OF FACT, CONCLUSIONS OF LAW AND MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NUMBER 22 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES NOT HERETOFORE CLASSIFIED AND PRICED

This is a proceeding instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, upon the petition of District Board 22, filed with the Bituminous Coal Division, proposing and seeking the establishment of a separate size group in its Schedule of Effective Minimum Prices to be known as Size Group 2A for its ½" lump coals; and the establishment of a classification of "B", with a corresponding price of $3.25 per ton f. o. b. the mine, for coal of producers in Subdistrict 4 in this Size Group 2A for shipment by truck to all market areas; a classification of "B" with a corresponding price of $2.75 per ton f. o. b. the mine on Size Group 7 (2" x 1¼") coals; and a classification of "B", with a corresponding price of $.75 per ton f. o. b. the mine on Size Group 12 (½" x 0) coals. Coals in the foregoing size groups have not been heretofore classified or priced.

By Order, dated December 13, 1940, 5 F.R. 5155, the Director granted temporary relief establishing temporary price classifications and minimum prices for coals involved in this matter, in general conformance with petitioner's proposals. Pursuant to this Order also, and after due notice to all interested persons, a hearing was held in this matter on January 28, 1941, before Thurlow G. Lewis, a duly designated Examiner of the Division in the Federal Building, Salt Lake City, Utah. At the hearing all interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise to be heard.

Appearances were entered in behalf of the petitioner and the Consumers' Counsel Division. No opposition to the matters involved in this proceeding was noted in this record.

On January 28, 1941, the petitioner filed with the Division a waiver of the preparation and filing of a report by the Examiner, and this matter was thereupon submitted to the undersigned.

To support its requests for relief herein, the petitioner adduced the testimony of D. F. Buckingham, Secretary of District Board No. 22. He testified that on October 3, 1940, a group of code members from Subdistrict 4 consulted with the members of District Board No. 22 and requested a separate price in the Schedule of Effective Minimum Prices for District 22 for an additional size group classification for ½" lump coal. The code members represented to the District Board that there was a need for this size of coal for use by commercial and industrial buildings in the City of Lewistown, Montana. Moreover, it was represented that there was a market for ½" slack coal resultants from the screening of the ½" lump.[1]

At the conference the code members also represented that there was a need in Subdistrict 4 for the establishment of a minimum price for the standard nut size of 2" x 1¼" and the ½" x 0 slack coals.

At the conclusion of the conference it was agreed that prices of $3.25 for ½" lump coal, $2.75 for 2" x 1¼" nut size coal, and $.75 for ½" slack were proper. Notices of the agreed minimum prices for these size groups were sent to all code members affected, but no protests were made thereto.

Evidence was adduced that all code members affected herein are located in the Lewistown field in Subdistrict 4, south and east of the City of Lewistown, generally ten or twelve miles distant therefrom, and produce the same quality of coals. They are small truck operators having an aggregate total tonnage in 1939 of approximately 6,000 tons. Four producers in Subdistrict 4 are located in the Winifred and Suffolk areas thirty-five or forty miles to the north of the City of Lewistown, which produce coal in a different vein and of an inferior quality to that produced in the Lewistown field and are therefore not competitive with the Lewistown coal. In the opinion of the witness, these code members in Winifred and Suffolk fields have no need of the additional sizes and prices shown in the Board's petition since they do not produce such sizes.

Upon the basis of the uncontroverted evidence, I find that the price classifications and minimum prices sought by the petitioner herein and temporarily established by my Order of December 13, 1940, are reasonable and necessary, and should be made permanent.

For the foregoing reasons, and based upon the above findings of fact, I conclude that the price classifications and minimum prices established in my Order dated December 13, 1940, comply with all the requirements of the Bituminous Coal Act of 1937 and with the standards of section 4 II (a) and (b) thereof; their establishment as the effective minimum prices for the coals in order to effectuate the purposes of the said section 4 II (a) and (b) is necessary.

Now, therefore, it is ordered, That § 342.2 (*Size group table*) and § 342.21 (*General prices*) in the Schedule of Effective Minimum Prices for District 22 For All Shipments be and they hereby are amended as follows: Commencing forthwith the coals produced in Subdistrict 4 referred to in Supplements R and T hereto attached and made a part hereof shall be subject to the provisions and minimum prices provided therein.

Dated: October 7, 1941.

PART 992—LAUNDRY EQUIPMENT

Limitation Order L-6 to Restrict the Production of Domestic Laundry Equipment

Whereas, the demands of national defense have created a shortage of iron and steel used in the manufacture of domestic laundry equipment; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and essential civilian requirements; and the present supply of these materials will be insufficient for defense and essential civilian requirements unless the manufacture of domestic laundry equipment is curtailed and the use of critical materials for such manufacture thereby reduced;

Now, therefore, it is hereby ordered, That:

§ 992.1 *General limitation order L-6—*(a) *Definitions.* For the purposes of this order:

(1) "Domestic Laundry Equipment" means washing machines and ironing machines for home use.

(2) "Factory sales" means sales of Domestic Laundry Equipment from factory or branches to distributors, dealers or consumers.

(3) "Class 'A' manufacturers" means those manufacturers of domestic laundry equipment the monthly average of whose Factory Sales of units of Domestic Laundry Equipment for the twelve months ending June 30, 1941, including both domestic sales and exports, was 12,000 such units or more.

(4) "Class 'B' manufacturers" means those manufacturers of domestic laundry equipment the monthly average of whose Factory Sales of units of Domestic Laundry Equipment for the twelve months ending June 30, 1941, including both domestic sales and exports, was greater than 5,000 such units but less than 12,000 such units.

(5) "Class 'C' manufacturers" means those manufacturers of Domestic Laundry Equipment the monthly average of whose Factory Sales of units of Domestic Laundry Equipment for the twelve months ending June 30, 1941, including both domestic sales and exports, was greater than 1,200 such units but less than 5,000 such units.

(6) "Class 'D' manufacturers" means those manufacturers of Domestic Laundry Equipment the monthly average of whose Factory Sales of units of Domestic Laundry Equipment for the twelve months ending June 30, 1941, including both domestic sales and exports, was 1,200 such units or less.

(b) *General restriction.* (1) During the five months period from August 1 to December 31, 1941, inclusive,

(i) No Class "A" manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(*a*) 50,400 units of such equipment, or

(*b*) Five times 80% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(ii) No Class "B" manufacturer shall produce more domestic laundry equipment than the greater of the following two limits;

(*a*) 22,000 units of such equipment, or

(*b*) Five times 84% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(iii) No Class "C" manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(*a*) 6,000 units of such equipment, or

(*b*) Five times 88% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(iv) No Class "D" manufacturer shall produce more domestic laundry equipment than five times 100% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(c) *Avoidance of excessive inventories.* Manufacturers of domestic laundry equipment shall not accumulate inventories of raw materials, semi-processed materials, finished parts, or assembled laundry equipment in quantities in excess of practicable minimum working inventories.

(d) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Office of Production Management.

(f) *Reports.* Each Manufacturer to whom this order applies shall file with the Electrical Appliances and Consumers' Durable Goods Branch of the Division of Civilian Supply of the Office of Production Management such reports and questionnaires at said Office shall from time to time specify. Such reports, when forms are made available by the Office of Production Management, shall be filed on the fifteenth day of each month, and shall cover the month of September, 1941, and all succeeding months.

(g) *Provision for companies under common ownership.* For the purposes of this order, a manufacturer's classification into Class "A", "B", "C" or "D" shall depend upon the monthly average of Factory Sales by that manufacturer, including in the total of such sales all Factory Sales made by subsidiaries, affiliates, or by other companies or enterprises under comon ownership or control.

(h) *Violations or false statements.* Any person who violates this order, or who wilfully falsifies any records which he is required to keep by the terms of this order, or by the Director of Priorities, or otherwise wilfully furnishes false information to the Director of Priorities or to the Office of Production Management may be deprived of priorities assistance or may be prohibited by the Director of Priorities from obtaining any further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(i) *Effective date.* This order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Priorities subject to such amendments or supplements thereto as may be issued from time to time by the Director of Priorities. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; O.P.M. PART 993—DOMESTIC ICE REFRIGERATORS

Limitation Order L–7 To Restrict the Production of Domestic Ice Refrigerators

Whereas the demands of national defense have created a shortage of iron and steel used in the manufacture of domestic ice refrigerators; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and essential civilian requirements; and the present supply of these materials will be insufficient for defense and essential civilian requirements unless the manufacture of domestic ice refrigerators is curtailed and the use of critical materials for such manufacture thereby reduced;

Now, therefore, it is hereby ordered, That:

§ 993.1 *General limitation order, L–7*—(a) *Definitions.* For the purposes of this Order:

(1) "Domestic Ice Refrigerators" means non-mechanical ice chests and ice boxes for home use;

(2) "Steel Used" means the aggregate weight of steel contained in the finished products manufactured;

(b) *General restriction.* (1) During the four months period from September 1 to December 31, 1941, inclusive, no manufacturer of domestic ice refrigerators shall use more than four times 65% of the monthly average of steel used by him during the twelve months ending June 30, 1941.

(2) The restriction provided for by the preceding paragraph shall apply to use of steel from the manufacturer's own inventories of raw and semi-processed metal, as well as to use of steel from all other sources.

(c) *Avoidance of excessive inventories.* Manufacturers of domestic ice refrigerators shall not accumulate inventories of raw materials, semi-processed materials, finished parts, or assembled refrigerators in quantities in excess of practicable minimum working inventories.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Office of Production Management.

(f) *Reports.* Each manufacturer to whom this order applies shall file with the Electrical Appliances and Consumers' Durable Goods Branch of the Division of Civilian Supply of the Office of Production Management, such reports and questionnaires as said Office shall from time to time specify. Such reports, when forms are made available by the Office of Production Management, shall be filed on the 15th day of each month, and shall cover the month of September and all succeeding months.

(g) *Violations or false statements.* Any person who violates this order, or who wilfully falsifies any records which he is required to keep by the terms of this order, or by the Director of Priorities, or otherwise wilfully furnishes false information to the Director of Priorities or to the Office of Production Management may be deprived of priorities assistance or may be prohibited by the Director of Priorities from obtaining any further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(h) *Effective date.* This order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Priorities subject to such amendments or supplements thereto as may be issued from time to time by the Director of Priorities. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; O.P.M. Reg. 3, March 8, 1941, 6 F.R. 1596, as amended Sept. 12, 1941, 6 F.R. 4865; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875, Aug. 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session; sec. 9, Public No. 783, 76th Congress, Third Session.)

Issued this 28th day of October 1941.

PART 1013—CHLORINATED RUBBER

General Preference Order No. M–46 To Conserve the Supply and Direct the Distribution of Chlorinated Rubber

Whereas the national defense requirements have created a shortage of Chlorinated Rubber for defense, for private account and for export, and it is necessary, in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

(c) *Restrictions on deliveries.* No Producer shall, on or after the effective date of this Order, make deliveries of any Chlorinated Rubber except as specifically directed by the Director of Priorities. At the beginning of each calendar month the Director of Priorities will issue to all Producers specific directions covering deliveries of Chlorinated Rubber which may be made by such Producers during such month.

(d) *Records and reports.* In addition to the records and reports required by Priorities Division Regulation No. 1, hereinabove referred to, any person who receives or orders Chlorinated Rubber from a Producer at any time after the effective date of this Order shall furnish to the Priorities Division, Office of Production Management, attention Chemicals Section, Washington, D. C., information with respect to his requirements and use of such material at such times and on such forms as the Chemicals Section of the Office of Production Management shall prescribe, together with any other information which said Chemicals Section may deem necessary for the orderly and effective operation of this Order.

[Recommendation No. 13]

PART 1503—PRODUCTION

DEVELOPMENT AND OPERATION OF CONDENSATE POOLS

To all State and Federal regulatory bodies or agencies having jurisdiction with respect to the exploration, development, production, conservation, transportation, distribution, purchase, sale, or use of petroleum or petroleum products; and to all owners, operators, or others having any interest, direct or indirect, in any underground pool of oil or gas (or any of the products of such pool) which, in whole or in part, is susceptible of classification as a condensate pool.

It is essential both for national defense and for the continued supply of essential civilian requirements that there be recovered the maximum economic quantity of petroleum and associated hydrocarbons from the oil and gas pools of the United States.

There are being developed in the United States an increasing number of so-called condensate, distillate, naptha, or retrograde pools, herein referred to as "condensate" pools, where the liquid and gaseous hydrocarbons recovered at the surface occur in a single phase under original reservoir conditions.

There are also being developed many so-called gas-cap pools wherein commercial oil occurs in the liquid phase, but in which there also occur gas caps of considerable size having the essential characteristics of condensate pools, (herein included in the term "condensate" pools).

Carefully controlled development and operation of condensate pools are particularly essential to prevent the irreparable loss of a large proportion of the hydrocarbon content of such pools through the condensation in the underground reservoir of those hydrocarbons existing in the gaseous phase when the natural pressure in the reservoir is lowered below the dew point of the hydrocarbon mixture in such pool.

The liquid hydrocarbons recovered from such pools possess qualities especially desirable for the production of aviation gasoline and other products now demanded in ever increasing quantities for the defense of the United States.

The national defense policy for the petroleum industry, as defined by the President of the United States in his letter of May 28 establishing the Office of Petroleum Coordinator for National Defense, requires, "the proper development, production, and utilization of those reserves of crude oils and natural gas that are of strategic importance both in quality and location * * * and * * * the most economical use of raw materials, and efficiency of production and distribution; and the elimination of the drilling of unnecessary wells in proven fields and of other unnecessary activities and equipment."

Therefore, pursuant to the President's letter of May 28 establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that:

§ 1503.1 *Economic operation and development of condensate pools.* All State and Federal regulatory bodies or agencies having jurisdiction over and all owners, operators, or others having any interest direct or indirect, in any condensate pool or the products thereof, shall:

(a) Direct all operations including but not limited to cycling and pressure maintenance toward obtaining the maximum economic recovery and utilization of the liquid and gaseous hydrocarbons ultimately producible from such pools.

(b) Refrain from removing "lean gas" from such pools for sale as "dry gas" or for processing into distillate and "tail gas" where such removal might have a tendency to reduce the ultimate quantity of liquid hydrocarbons recoverable from such pools.

(c) Conduct all further drilling and development of such pools in such manner as to use minimum quantities of steel and other materials necessary to obtain maximum economic recovery.

(d) Conduct all further production operations in such manner as to utilize most efficiently the limited quantities of materials and equipment that are now available and to utilize most efficiently the natural energy of the reservoir whether it be in the form of compressed natural gas or in the form of a natural water drive.

(e) Submit to the Office of Petroleum Coordinator for National Defense, for its guidance in making recommendations with respect to priorities and the allocation of materials to be supplied both for drilling, construction, producing, and transportation operations in such pools, and for handling the products to be delivered from such pools, detailed plans for the orderly development and operation of each such pool in the interest of national defense to the end that:

(1) Development shall be conducted on the widest practical uniform spacing pattern and the unitization of individual properties shall be effected to whatever extent may be necessary to render such patterns equitable; and

(2) Rates of production and production practices shall be such as to provide for the most efficient and economical use of all materials, supplies, and equipment employed in development and operation; and

(3) The disposal of the liquid and gaseous hydrocarbons produced from such pools shall be such as to provide for their most effective use as essential materials needed for national defense and essential civilian requirements.*

*§§ 1503.1 and 1503.2 issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1503.2 *Definitions.* For the purpose of § 1503.1, the term "pool" means any underground accumulation of oil, gas, or associated hydrocarbon substances constituting a single and separate reservoir, or source of supply within a field, area, or horizon, whether or not presently discovered and developed, and the terms "lean gas," "dry gas," and "tail gas" are used in the same sense as those terms are generally understood in the petroleum industry.*

R. K. DAVIES,
Acting Petroleum Coordinator for National Defense.

[Recommendation No. 11]

PART 1505—TRANSPORTATION

UTILIZATION AND OPERATION OF TANKERS IN DISTRICT 5, PACIFIC COAST

To the Transportation Committee for District No. 5 and to the General Petroleum Corp. of Calif., Richfield Oil Corporation, Standard Oil Company of California, The Texas Company, Tide Water Associated Oil Co., Union Oil Company of California, Hillcone Steamship Company, and any and all others owning, operating, chartering tankers or otherwise utilizing tanker space, barges, pipe lines, or other transport facilities on the Pacific Coast, and the various subsidiary companies of any and all of the aforesaid companies:

The diversion of a part of the American tanker fleet for national defense purposes has resulted in a shortage of petroleum tanker tonnage available for the transportation of petroleum and petroleum products on the Pacific Coast.

Such shortage will, unless abated, result in a scarcity of petroleum and petroleum products in areas of the Pacific Coast States dependent upon tanker transportation for petroleum.

All steps should be taken which will cause the most efficient utilization and operation of available tanker tonnage in order to render such a scarcity less acute and to provide equitable access to markets and supplies as between the larger companies and existing smaller nonintegrated producers, refiners, and marketers of petroleum and petroleum products.

Therefore, pursuant to the President's letter of May 28 establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that:

§ 1505.15 *Designation of tanker subcommittee.* A Tanker Subcommittee shall be designated by the Transportation Committee for District No. 5, the membership of which shall be subject to the approval of the Petroleum Coordinator for National Defense, to plan and, after approval of such plan by the Chief Counsel of the Office of Petroleum Coordinator for National Defense, and pursuant to the direction of the Petroleum Coordinator for National Defense, to carry into effect schedules and cargo loading and dispatching arrangements for the most efficient utilization and operation of tankers available for Pacific Coast runs and at the same time provide for equitable access to markets and supplies as between all existing producers, refiners, and marketers of petroleum and petroleum products in District No. 5.*

*§§ 1505.15 to 1505.18 inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1505.16 *Utilization of tankers and other facilities.* All companies owning, operating, chartering tankers or utilizing tanker space, barges, pipe lines, or other transport facilities in District No. 5 and the various subsidiary companies of any and all of such companies, in so far as practicable, shall so utilize available tankers to haul petroleum and petroleum products from the points of supply nearest the markets to be served and in such a manner as to avoid cross-hauling and multiple port loading and discharging, and for these purposes, shall arrange for, and after approval by the Chief Counsel of the Office of Petroleum Coordinator for National Defense, and pursuant to the direction of the Petroleum Coordinator for National Defense, carry into effect:

(a) The sale, exchange, or loan of petroleum and petroleum products among themselves whenever and to whatever extent may be necessary to facilitate the reduction of the tanker tonnage required to transport the necessary petroleum and petroleum products to the various Pacific Coast points: *Provided, however,* That the rate to be charged for the use of tankers shall not exceed the maximum time charter rates prescribed by the

United States Maritime Commission for charters in which the Commission's concurrence is indicated.

(b) The use of the tanker, pipe line, transport, barge, terminal and storage facilities of all of the aforesaid companies shall be utilized in such a way and without regard to individual ownership thereof as to reduce to an absolute minimum idle time in port and the splitting of cargoes between two or more ports of discharge.*

§ 1505.17 *Meetings.* Meetings of the aforesaid Tanker Subcommittee and of representatives of the aforesaid companies shall be held from time to time for the sole purpose of working out the physical and contractual details and arrangements necessary to carry into effect the foregoing recommendations.*

[Recommendation No. 12]

PART 1505—TRANSPORTATION

EQUITABLE DISTRIBUTION OF EXCESS TRANSPORTATION COSTS IN DISTRICT 1, ATLANTIC COAST

To the Transportation Committee of District No. 1 and to all suppliers of petroleum or petroleum products in said District:

In order to alleviate the shortage of tanker capacity for the transportation of petroleum and petroleum products from Gulf Coast ports to the Atlantic Coast area it is necessary that other and more costly additional means of transportation be employed.

Certain companies supplying petroleum or petroleum products in said area have heretofore on September 4 entered into a commitment with the Office of the Petroleum Coordinator for National Defense to press into service all available railroad tank cars as rapidly as they can be supplied to said companies and moved by the railroads, within the physical limitations as to trackage, storage, and unloading and other facilities.

Under said commitment said companies have agreed to share equitably the increased costs of transportation of petroleum or petroleum products by railroad tank car over transportation by tanker under the Maritime Commission charter rate ceilings, pursuant to a plan to be developed by the Transportation Committee of District No. 1.

It is essential to the fullest and most efficient immediate use of railroad tank car transportation that such a plan be promulgated.

Therefore pursuant to the President's letter of May 28 establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that:

§ 1505.19 *Plan for distribution of excess costs.* The Transportation Committee for District No. 1 shall obtain and analyze all pertinent and available facts, figures, and other data, and shall prepare therefrom a plan for submission to the Chief Counsel of the Office of the Petroleum Coordinator for National Defense, for the equitable distribution, among all suppliers of petroleum or petroleum products in said District, of the excess cost of transportation of petroleum and petroleum products to the said Atlantic Coast area by railroad tank car over transportation by tanker under the Maritime Commission charter rate ceilings.*

*§§ 1505.19 to 1505.21, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1505.20 *Approval and execution of plan.* Upon the approval by the Chief Counsel of the Office of the Petroleum Coordinator for National Defense of a plan prepared pursuant to the preceding section, and pursuant to the direction of the Petroleum Coordinator for National Defense, the Transportation Committee for District No. 1 and all suppliers of petroleum or petroleum products in said District shall carry into effect said plan according to its terms, conditions, and intent.*

§ 1505.21 *Meetings.* Meetings of the Transportation Committee for District No. 1 and of representatives of the aforesaid suppliers shall be held from time to time for the sole purpose of preparing the aforesaid plan and, after its approval by the Chief Counsel of the Office of the Petroleum Coordinator for National Defense, of carrying into effect such plan in accordance with the foregoing provisions of this recommendation.*

HAROLD L. ICKES,
Petroleum Coordinator for National Defense.

Pursuant to the President's letter of May 28 establishing the Office of Petroleum Coordinator for National Defense, § 1505.19 (Recommendation No. 12, dated September 30, 1941) is hereby amended to read as follows:

§ 1505.19 *Plan for distribution of excess costs.* The Transportation Committee for District No. 1 shall obtain and analyze all pertinent and available facts, figures, and other data, and shall prepare therefrom a plan for submission to the Chief Counsel of the Office of Petroleum Coordinator for National Defense, for the equitable distribution, among all suppliers of petroleum or petroleum products in said District, of the excess cost of transportation of petroleum and petroleum products to the said Atlantic Coast area by railroad tank car or other alternative means of transportation, or any combinations thereof, over transportation by tanker under the Maritime Commission charter rate ceilings. PETITION OF DISTRICT BOARD NO. 14 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 14

[Docket No. A–1043 Part II]

PETITION OF DISTRICT BOARD NO. 14 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE BLUE RIDGE COAL CO. MINE (MINE INDEX NO. 517) FOR ALL SHIPMENTS EXCEPT TRUCK, AND FOR TRUCK SHIPMENTS, TO ALL MARKET AREAS

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A–1043 PART II FROM DOCKET NO. A–1043, GRANTING TEMPORARY RELIEF IN DOCKET NO. A–1043 PART II AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A–1043, PART II

The original petition in the above-entitled matter filed with this Division pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 14.

As indicated in a separate order issued in Docket No. A–1043, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except with respect to the establishment of permanent price classifications and minimum prices for the coals of the Blue Ridge Co. Mine (Mine Index No. 517).

A petition of intervention was filed in this matter on October 1, 1941, by the Blue Ridge Coal Company, operator of the Blue Ridge Coal Co. Mine, wherein intervener alleged that the minimum prices proposed by District Board 14 will not afford fair and equal competitive marketing opportunities for the coals of the Blue Ridge Mine and requested that upon a hearing in this matter, the price classifications and minimum prices proposed by intervener be made applicable to such coals.

The Director is of the opinion that temporary relief for the coals of the Blue Ridge Coal Co. Mine should be granted, as prayed for by petitioner, but that permanent price classifications and minimum prices should not be established for such coals without a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A–1043 relating to the Blue Ridge Coal Co. Mine (Mine Index No. 517, be and the same hereby is severed from the remainder of Docket No. A–1043 and designated as Docket No. A–1043 Part II.

It is further ordered, That a hearing in Docket No. A–1043 Part II under the applicable provisions of said Act and the rules of the Division be held on November 14, 1941, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street, N. W., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before November 8, 1941.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of the original petition.

The matter concerned herewith is in regard to the petition of District Board No. 14 for the establishment of price classifications and minimum prices for the coals of the Blue Ridge Coal Co. Mine (Mine Index No. 517) for all shipments except truck and for truck shipments to all market areas.

It is further ordered, That temporary relief, pending final disposition of Docket No. A–1043 Part II, is hereby granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 14, For All Shipments Except Truck, and For Truck Shipments, are amended to include the following price classifications and minimum prices for the coals of the Blue Ridge Coal Co. DETERMINATION PURSUANT TO SECTION 608c (9) AND (17), TITLE 7, U.S.C., WITH RESPECT TO THE ISSUANCE OF AMENDMENT NO. 1 TO ORDER NO. 34, AS AMENDED,[1] REGULATING THE HANDLING OF MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA [2]

Claude R. Wickard, Secretary of Agriculture of the United States of America,

[1] 6 F.R. 3768.
[2] See also Title 7, Chapter IX, *supra.*

pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, issued, effective August 1, 1941, Order No. 34, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area.

Paul H. Appleby, Acting Secretary of Agriculture, tentatively approved, on July 14, 1941, a marketing agreement, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area.

There being reason to believe that the execution of amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area would tend to effectuate the declared policy of said act, notice was given, on August 20, 1941, of a public hearing which was held in Lawrence, Massachusetts, beginning on August 28, 1941, on certain proposals to amend such marketing agreement, as amended, and such order, as amended, and at such time and place all interested parties were afforded an opportunity to be heard on the proposals to amend such marketing agreement, as amended, and such order, as amended.

After such hearing and after the tentative approval on September 27, 1941, of amendments to the marketing agreement, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area, handlers of more than fifty (50) percent of the volume of milk covered by this order, as amended, which is marketed within the Lowell-Lawrence, Massachusetts, marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk.

It is hereby determined, pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, that:

1. The refusal or failure of said handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

2. The issuance of Amendment No. 1 to Order No. 34, as amended, is the only practical means pursuant to such policy of advancing the interests of the producers of milk which is produced for sale in the Lowell-Lawrence, Massachusetts, marketing area; and

3. The issuance of Amendment No. 1 to Order No. 34, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary and who, during the month of May 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area.

Done at Washington, D. C., this 23d day of October 1941. Witness my hand and the seal of the Department of Agriculture.

[SEAL] PAUL H. APPLEBY,
Acting Secretary of Agriculture.

Approved:
FRANKLIN D ROOSEVELT,
The President of the United States.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 29th day of October, A. D. 1941.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named parties; and

Notice is further given that any interested party may, not later than November 14, 1941 at 4:45 P. M., E. S. T., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as amended, may become effective as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application which is on file in the office of said Commission for a statement of the transactions therein proposed which are summarized below:

The Commission entered an order on December 11, 1940 in the matter of *The Commonwealth & Southern Corporation and its Subsidiary Companies* (File No. 59-8), directing Tennessee Utilities Corporation, a wholly-owned subsidiary of The Commonwealth & Southern Corporation, to dispose of all its assets on or before July 1, 1942 or in the alternative directing The Commonwealth & Southern Corporation to dispose of its interest in the capital stock of Tennessee Utilities Corporation by that date. In compliance with this order, Tennessee Utilities Corporation proposes (1) to sell to Equitable Securities Corporation and Paul M. Davis of Nashville, Tennessee (represented in the filing not to be affiliates), certain of its assets, namely, the capital stock of the Nashville Coach Company and of the Lookout Incline Railway Company, and the transportation properties in and around Chattanooga, Tennessee for a gross consideration (subject to adjustments) of $2,100,000 and (2) thereafter to declare a liquidating dividend in cash of approximately $3,150,000. Tennessee Utilities Corporation will retain pending final liquidation cash not in excess of $60,000 and miscellaneous assets valued approximately at $48,000. The Commonwealth & Southern Corporation proposes to apply the proceeds of the above liquidating dividend to retire an equal amount of its notes payable to banks, aggregating $16,150,000 as of September 30, 1941.

The declaration or application recites that the company considers Section 12 (c) of said Act and Rule U-46 as being applicable to such transactions.

By the Commission.

The President

EXECUTIVE ORDER

WHEREAS on the 27th day of May, 1941,[1] a Presidential proclamation was issued, declaring an unlimited national emergency and calling upon all loyal citizens in production for defense to give precedence to the needs of the Nation to the end that a system of government which makes private enterprise possible may survive; and calling upon our loyal workmen and employers to merge their lesser differences in the larger effort to insure the survival of the only kind of government which recognizes the rights of labor or of capital, and calling upon all loyal citizens to place the Nation's needs first in mind and in action to the end that we may mobilize and have ready for instant defensive use, all of the physical powers, all of the moral strength and all of the material resources of the Nation; and

WHEREAS, Air Associates, Incorporated, has contracted to furnish the United States and its contractors with parts and equipment necessary for the production of military aircraft vital to the defense of the United States and such parts and equipment have been in the course of manufacture at the Bendix, New Jersey, plants of said company, and the United States owns facilities there situated; and

WHEREAS, a controversy arose concerning the terms and conditions of employment between said company and its workers which they have been unable to adjust by collective bargaining and the controversy was duly certified to the National Defense Mediation Board established by Executive Order of March 19, 1941;[2] and whereas production was interrupted at said plants during the course of mediation before said Board by a strike and the Board, pending further mediation, recommended that the workers call off the strike and the company return all strikers upon application to their former jobs without discrimination, and whereas the workers affected, through their representatives, have accepted but the company has failed to carry out the Board's recommendation; and

WHEREAS, due to such failure on the part of the Company, production has now been impaired and complete cessation of production is now imminent at said plants and the objectives of said proclamation of May 27, 1941, are thereby jeopardized and it is essential to the defense of the United States that normal production be assured and cessation averted; and

WHEREAS, for the time being and under the circumstances set forth, it is essential in order that full production at said plants be assured, that the plants be operated by or for the United States in such manner as may be expedient:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, pursuant to the powers vested in me by the Constitution and laws of the United States, as President of the United States and Commander-in-Chief of the Army and Navy of the United States, hereby authorize and direct the Secretary of War immediately, in so far as may be necessary or desirable, to take possession of and operate the Bendix, New Jersey, plants of Air Associates, Incorporated, through and with the aid of such person or persons or instrumentality as he may designate, and to produce the military airplane parts and equipment called for by the company's contracts or as may be otherwise required for the national defense, and do all things necessary or incidental to that end. The Secretary of War shall employ or authorize the employment of such employees, including a competent civilian advisor on industrial relations, as are necessary to carry out the provisions of this order, and, in furtherance of the purposes of this order, the Secretary of War may exercise any existing contractual or other rights of said company, or take such other steps as may be necessary or desirable including the use of troops.

Possession and operation hereunder shall be terminated by the President as soon as he determines that such possession and operation are no longer necessary to the defense of the United States.

0.5 gallon of "Agdite" or a compound similar thereto or 1 gallon of "Hydronol" or a compound similar thereto.

Formula No. 14

To every 100 gallons of ethyl alcohol of not less than 160° proof add:

5 gallons of "FD–13" or a product similar thereto.

1.75 gallons of methyl isobutyl ketone, or 2.5 gallons of methyl propyl ketone or 1 gallon of acetaldol (hydroxy-butyraldehyde).

Specifications for Acetaldol

Acetaldol: 90% to 100%.

Specific Gravity: 1.098 to 1.105 at 20° C.

Purity: It shall titrate not less than 90% or more than 110% by the following method:

Dissolve 15 grams of the Acetaldol in distilled water and dilute to one liter in a volumetric flask. Transfer 5 ml. of this solution to a 250 ml. glass stoppered flask containing 25 ml. distilled water. Add 25 ml. of a freshly prepared 1 per cent sodium bisulphite solution. Prepare a blank omitting the acetaldol solution. Place flasks in a dark place away from excessive heat or cold and allow to stand six hours. Remove and titrate free bisulphite with tenth-normal Iodine solution using starch indicator.

$$\frac{(\text{ml. Blank} - \text{ml. test}) \times 0.44}{\text{weight of sample}} = \% \text{ Acetaldol}$$

On account of the presence of acetaldehyde, titrations in excess of 100% will sometimes be obtained.

Acting Commissioner of Internal Revenue.

Approved: October 30, 1941.

JOHN L. SULLIVAN,
Acting Secretary of the Treasury.

PART 1008—ELECTRIC POWER

Limitation Order L–16 to Curtail the Consumption of Electric Power in the Southeastern Area

Whereas shortages of electric power for defense, essential civilian and other uses in the southeastern area of the United States have been created by an abnormally dry season and by increased power requirements for defense industries; and

Whereas further shortages of electric power for defense, essential civilian and other uses in the southeastern area of the United States are threatened unless immediate steps are taken to curtail consumption of electric power, and to make available to the southeastern area, to the full limit of electrical facilities, the maximum amount of power from interconnected electric systems; and

Whereas the limitations upon use and consumption of electric power and the integration of power systems hereinafter ordered are necessary in order to conserve power and maintain defense and essential civilian services;

[1] 6 F.R. 3179, 5290.

Now, therefore, it is ordered, That:

§ 1008.1 *General limitation order L–16*—(a) *Definitions.* For the purposes of this Order:

(1) "Person" means any individual, partnership, corporation, association, government agency or subdivision, or other form of enterprise.

(2) "Utility" means any person who generates, transmits or distributes electric power directly or indirectly for general use by the public. The term includes any membership corporation or cooperative supplying such services to its members or stockholders.

(3) (i) "Consumer" means any person who is an ultimate user of electric power purchased or otherwise acquired from any of the following Utilities: Alabama Power Company, Georgia Power Company, Gulf Power Company, Mississippi Power Company, South Carolina Power Company, Tennessee Valley Authority, Alabama Water Service Company, Birmingham Electric Company, Aluminum Company of America (Tennessee system), Carolina Aluminum Company (Western Division), Crisp County Power Commission, Riviera Utilities, Carolina Aluminum Company (Eastern Division), Carolina Power and Light Company, Duke Power Company, Lexington Water Power Company, Lockhart Power Company, J. B. McCrary Company, Nantahala Power and Light Company, South Carolina Electric and Gas Company, Tide Water Power Company, and any other Utility which currently receives net power deliveries from any of the foregoing specified Utilities, including all those set forth in Exhibit A, annexed hereto.

(4) "Base Billing Month" for any Consumer means the period of consumption of electric power by such Consumer for which the terminal monthly reading date fell on any day during the period September 15, 1941, to October 14, 1941, inclusive.

(5) "Weekly quota" for any Consumer means whichever is the greater of the following amounts of electric power consumed by such Consumer at any single location:

(i) 2,500 kilowatt-hours, or

(ii) Seven times the average daily consumption of electric power by such Consumer during the Base Billing Month multiplied by the applicable percentage specified in Exhibit D, annexed hereto, as the same may be amended or modified from time to time by supplemental order or direction of the Director of Priorities.

(b) *Limitations on consumption and deliveries of electric power.* (1) Except as provided in paragraph (a) hereof, no Consumer shall purchase or otherwise acquire from any Utility referred to in paragraph (a) (3) (i) during the week commencing November 10, 1941 (unless a later date is fixed by the Director of Priorities), or in any succeeding week, electric power in excess of such Consumer's Weekly Quota; and no such Utility shall deliver to any such Consumer during any such week electric power in an amount which such Utility knows or has reason to believe exceeds such Consumer's Weekly Quota.

(2) The Director of Priorities may designate the time or times within any week when any Consumer shall put into effect the curtailment provided for in paragraph (b) (1), if in order to effectuate the purposes of this Order it shall become necessary to do so.

(3) No Consumer shall be relieved of the requirements of § 944.2 or any other section of Priorities Regulation No. 1 (August 27, 1941, 6 F.R. 4489), by reason of the provisions of this paragraph.

(c) *Exemptions.* The limitations set forth in paragraph (b) hereof shall not apply to any Consumer whose uncurtailed operation is found by the Director of Priorities to be necessary to national defense or to essential civilian services. Such Consumers are specified by classes in Exhibit C, annexed hereto, as the same may be amended or modified from time to time by the Director of Priorities. The Director of Priorities shall determine which individual Consumers are included in the classes specified in said Exhibit C and no Consumer is entitled to the exemption provided for herein until he shall have received notice of such determination. Any other Consumer who considers that his uncurtailed operations are necessary to national defense or to essential civilian services may apply for such exemption to the Director of Priorities.

(d) *Prohibition of designated nonessential uses of electric power.* No Consumer shall use electric power during such hours of the day or week as may be specified from time to time by the Director of Priorities, or for any purpose or use specified in Exhibit D, annexed hereto, as the same may be amended or modified from time to time by the Director of Priorities; and no Utility referred to in paragraph (a) (3) (i) shall deliver electric power to any Consumer if such Utility knows or has reason to believe that such power or any part thereof will be used by such Consumer for any such prohibited purpose or at any such prohibited time.

Said Utilities shall make such pooling arrangements as may be necessary to effectuate such purposes. Where necessary for such purposes, the Director of Priorities will issue specific orders and directions as to the operation of reservoirs, generating plants, substations, transmission lines or other facilities and as to deliveries of power.

(f) *Notice to consumers.* Each Utility shall promptly notify its Consumers in the manner prescribed by the Director of Priorities of the restrictions of this Order applicable to such Consumers.

(g) *Appeal.* Any person affected by this Order who considers that compliance therewith will work or has worked an exceptional or unreasonable hardship may appeal for relief to the Director of Priorities who may grant such specific exemptions or take such other action as he shall deem appropriate for and consistent with the purposes of this Order.

(h) *Reports and information.* (1) Each Utility affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning deliveries of electric power to Consumers. Such records shall be subject to inspection by duly authorized representatives of the Office of Production Management.

(3) At the end of the week commencing November 10, 1941 (or the first week during which the provisions of paragraph (b) are in effect, if the effective date thereof is later than November 10, 1941), and at the end of each succeeding week, each Utility affected by the provisions of paragraph (b) hereof shall report to the Power Branch, Office of Production Management, Federal Reserve Bank Building, Atlanta, Georgia, the name and address of any Consumer who, as such Utility knows or has reason to believe, has consumed during such week more electric power than his Weekly Quota, together with the Weekly Quota of such Consumer and the amount of such excess.

(i) *Regional office.* Any applications, appeals, reports (except as provided in paragraph (h) (2)), or other communications filed pursuant to this Order shall be addressed to the Power Branch, Office of Production Management, Federal Reserve Bank Building, Atlanta, Georgia.

(j) *Violations.* Any person affected by this Order who falsifies records or reports which he is required by this Order to keep or file or who violates any other provision of this Order or any other Order, regulation, or direction issued by the Director of Priorities, may be prohibited from delivering or receiving electric power or any other material subject to allocation by the Director of Priorities, and shall be subject to any other prohibitions or penalties under existing laws.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1302—ALUMINUM

PRICE SCHEDULE NO. 2—ALUMINUM SCRAP AND SECONDARY ALUMINUM INGOT [1]

As Amended, Effective November 1, 1941

The Office of Price Administration, being charged with the maintenance of price stability and the prevention of undue price rises and price dislocations, has determined, after full investigation and after consultation with representatives of the trade and with the Office of Production Management, (a) that the total supply of primary and secondary aluminum is grossly inadequate to satisfy combined defense and civilian demands, (b) that almost the entire supply of primary aluminum and an increasing proportion of the supply of secondary aluminum is being required for defense purposes, (c) that resulting competition for secondary aluminum has exerted highly inflationary pressure upon prices of aluminum scrap and secondary aluminum ingot and has driven such prices to unreasonable levels wholly disproportionate to the price at which primary aluminum has been voluntarily stabilized, (d) that such uncontrolled price increases have led to hoarding, speculation, profiteering and price instability injurious to national defense and have necessitated establishment of maximum prices for aluminum scrap and secondary aluminum ingot, (e) that, in order to bring such maximum prices into proper relationship to the recently reduced price of primary aluminum and into proper relationship to each other, it is essential that the maximum prices heretofore established be revised, and (f) that such maximum prices as so revised and set forth herein constitute fair and reasonable limitations on prices of aluminum scrap and secondary aluminum ingot and that their establishment is in the interest of national defense and welfare.

Accordingly, under the authority vested in me by Executive Order 8734, it is hereby directed that:

Sections 1302.1 to 1302.15, inclusive, are hereby renumbered and amended to read as follows:

§ 1302.1 *Maximum prices of aluminum scrap and secondary aluminum ingot.* On and after November 1, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer aluminum scrap or secondary aluminum ingot, and no person shall buy, offer to buy, or accept delivery of aluminum scrap or secondary aluminum ingot, at prices higher than the maximum prices set forth in Appendices A and B hereof.*

*§§ 1302.1 to 1302.11, inclusive, issued under the authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

[1] 6 F.R. 1593, 2682, 4076.

§ 1302.2 *Less than maximum prices.* Lower prices than those set forth in Appendices A and B hereof may be charged, demanded, paid or offered.*

4. Respondent solicited on the basis of a guaranteed analysis and obtained two contracts with the War Department of the United States Government, on or about March 6, 1941, and June 16, 1941, respectively (Government's invitations for bids numbered 503-41-266 and 503-41-320 respectively) for coal to be supplied at Fort Sill, Oklahoma, although the Respondent failed to file with the Field Office for District No. 15, the analyses used by it in the above transactions, thereby violating Rules 1 and 5 of section VIII of the Marketing Rules and Regulations and paragraph (e) of the Agreement.

5. Respondent failed to file with the Field Office for District No. 15, copies of the contracts referred to in Paragraph 4 hereof, as required by Rule 7 of section VI of the Marketing Rules and Regulations, thereby violating said Rule 7 of section VI of the Marketing Rules and Regulations and paragraph (e) of the Distributors Agreement.

6. Respondent during the period October 10, 1940, to May 31, 1941, both dates inclusive, sold and shipped by rail large quantities of coal to approximately 325 purchasers and extended by agreement, express or implied, with said purchasers the dates of payment for such coal beyond the twentieth (20th) day of the month following the month in which said shipments were made, without charging and collecting from said purchasers interest at the rate of not less than 5 percent per annum thereby violating the price and fair trade practice provisions of the Act, particularly section 4 II (h) and paragraph 7 of section 4 II (i) of the Act; Rules 1 (J) and 1 (I) of section VII and Rule 7 of section XIII of the Marketing Rules and Regulations; and paragraphs (c) and (e) of the Agreement.

Respondent acting as sales agent for Baskin & Stubblefield, code member, operating the Baskin & Stubblefield Mine, Mine Index No. 425, located in Pittsburg County, Oklahoma, in District No. 15, accepted and retained commissions of one dollar per net ton on approximately six (6) cars of coal of various sizes, produced at the aforesaid mine and sold by Respondent on behalf of said code member and delivered during the period from January 7, 1941, to July 14, 1941, both dates inclusive. Said commissions were and are in excess of the maximum discounts allowable to a registered distributor on such transactions as established by Order of Director, dated June 19, 1940, in General Docket No. 12, and were paid by said code member pursuant to a sales agency agreement between Respondent and said code member, dated July 27, 1940. Said Sales Agency Agreement in fact was entered into subsequent to August 8, 1940, to wit, during the month of October 1940, and said commissions were paid although at the time of said transactions, said code member had not filed an application for permission to pay commissions in excess of the maximum discounts allowable to a registered distributor, as required by Rule 13 of section II of the Marketing Rules and Regulations. Respondent accordingly participated in transactions in violation of said Rule 13 of section II of the Marketing Rules and Regulations and thereby violated paragraph (e) of the Agreement.

8. Respondent sold and shipped by rail the coal referred to in paragraph 7 hereof, when at the time of said transactions, said code member had no classifications or prices for shipment by rail of the coal so sold and had not filed a petition pursuant to section 4 II (d) of the Act for the establishment of such prices. Respondent thereby violated Order of the Director, dated October 9, 1940 in General Docket No. 19, and paragraph (e) of the Agreement.

9. Respondent acting as sales agent for O. D. Troughber, code member, operating the Troughber No. 2 Mine, Mine Index No. 153, located in Pittsburg

County, Oklahoma in District No. 15, accepted and retained commissions ranging from 47 cents to $1.25 per net ton, on approximately thirty two (32) cars of coal of various sizes, produced at the aforesaid mine, and sold by Respondent on behalf of said code member, and delivered during the period from January 10, 1941, to July 7, 1941, both dates inclusive. Said commissions were and are in excess of the maximum discounts allowable to a registered distributor on said transactions, as established by Order of the Director, dated June 19, 1940, in General Docket No. 12, and were paid by said code member pursuant to a sales agency agreement between Respondent and said code member, dated March 8, 1940. Said Sales Agency Agreement was entered into subsequent to August 8, 1940, to wit, during the month of October 1940, and said commissions were paid although at the time of said transactions, said code member had not filed an application for permission to pay commissions in excess of the maximum discounts allowable to a registered distributor, as required by Rule 13 of section II of the Marketing Rules and Regulations. Respondent accordingly participated in transactions in violation of Rule 13 of section II of the Marketing Rules and Regulations and thereby violated paragraph (e) of the Agreement.

Respondent acting as sales agent for Gore & Hoover Coal Company, code member, operating the Gore & Hoover Mine, Mine Index No. 151, located in Lattiner County, Oklahoma, in District No. 15 accepted and retained commissions ranging from $.95 per net ton to $2.25 per net ton, on approximately fourteen (14) cars of coal of various sizes, produced at the aforesaid mine, sold by Respondent on behalf of said code member, and delivered during the period from January 2, 1941, to April 10, 1941, both dates inclusive. Said commissions were and are in excess of the maximum discounts allowable to a registered distributor on such transactions, as established by Order of the Director, dated June 19, 1940, in General Docket No. 12, and were paid by said code member pursuant to a sales agency agreement between Respondent and said code member, dated April 6, 1940. Said Sales Agency Agreement in fact was entered into subsequent to August 8, 1940, to wit, during the month of October 1940, and said commissions were paid although at the time of said transactions, said code member had not filed an application for permission to pay commissions in excess of the maximum discounts allowable to a registered distributor as required by Rule 13 of section II of the Marketing Rules and Regulations. Respondent accordingly participated in transactions in violation of rule 13 of section II of the Marketing Rules and Regulations, and thereby violated paragraph (e) of the Agreement.

11. Respondent acting as sales agent for McNabb Coal Company, code member, operating the McNab Mine, Mine Index No. 823, located in Rogers County, Oklahoma, in District No. 15 accepted and retained commissions ranging from $.49 per net ton to $2.70 per net ton, on approximately forty four (44) cars of coal of various sizes produced at the aforesaid mine, sold by Respondent on behalf of said code member, and delivered during the period from April 15, 1941, to June 18, 1941, both dates inclusive. Said commissions were and are in excess of the maximum discounts allowable to a registered distributor on such transactions, as established by Order of the Director, dated June 19, 1940, in General Docket No. 12, and were paid by said code member pursuant to a sales agency agreement entered into between Respondent and said code member subsequent to August 8, 1940, to wit, April 8, 1941, although said code member had not filed an application pursuant to Rule 13 of section II of the Marketing Rules and Regulations, for permission to pay commissions in excess of the discounts allowable to a registered distributor until May 19, 1941, and although said coal was sold and delivered prior to the date when thirty (30) days had elapsed from the date of the filing of said application, without action being taken thereon by the Division. Respondent accordingly participated in the above transactions which constituted violations of Rule 13 of section II of the Marketing Rules and Regulations and thereby violated paragraph (e) of the Agreement.

It is, therefore, ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on November 18, 1941, at 10 a. m. in a hearing room of the Bituminous Coal Division, U. S. Court Room, Federal Building, McAlester, Oklahoma.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Bituminous Coal Division designated by the Director thereof for that purpose shall preside at the hearing in such matter. The officer so designated to preside at the hearing is hereby authorized to conduct said hearing, administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Respondent and to all other parties herein and to all persons and entities having an interest in such proceeding.

[Docket No. A-1015, Part II]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF HUBER STREET COAL COMPANY, MINE INDEX NO. 1540, LEROY HUBLER (ALDER RUN MINING CO.), MINE INDEX NO. 878, AND F. J. TROUTMAN, MINE INDEX NO. 848 IN DISTRICT NO. 1

MEMORANDUM OPINION AND ORDER MODIFYING ORDER OF OCTOBER 7, 1941 AND GRANTING IN PART TEMPORARY RELIEF

The original petition in the above-entitled matter filed with this Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 1.

As indicated in the Order of October 7, 1941, in the above-entitled matter, the Director was of the opinion that the original petitioner had not set forth sufficient facts to warrant the establishment of permanent price classifications and minimum prices for the mixing of the coals of the producers named in that Order including, among others, Hastings Fuel Company, for all shipments except truck, without a hearing. The said Order provided for the holding of a hearing on November 10, 1941 in the above-entitled matter.

Subsequently a motion was filed by petitioner setting forth additional facts as to the mixing of the coals of Mine Index Nos. 207 and 877 of Hastings Fuel Company, a code member in District No. 1, and requesting that the Director grant temporary relief, pending a hearing, as to the mixing of the coals of the said mine.

From the said motion it appears that the coals of the said mines are similarly classified for all shipments except truck, and that the granting of permission to mix the said coals is essential, owing to operating conditions, to maintain the production of this producer, and that the petitioner has made a reasonable showing of the necessity for the granting of temporary relief and the establishment of temporary price classifications and minimum prices for the mixing of the coals of Hastings Nos. 1 and 2 Mines, Mine Index Nos. 202 and 877, for all shipments except truck, pending final disposition of the above-entitled matter.

Now, therefore, it is ordered, That pending further order of the Director in the above-entitled matter; temporary relief be, and it hereby is, granted as follows: Commencing forthwith the Schedule of Effective Minimum Prices for District No. 1, For All Shipments Except Truck, is supplemented to include the establishment of Price Classifications "C" for the mixing of the coals of Hastings No. 1 Mine, Mine Index No. 202, and Hastings No. 2 Mine, Mine Index No. 877, in Size Groups 1 to 5, inclusive.

Notice is hereby given that applications to stay, terminate or modify the temporary relief herein granted may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: October 28, 1941.

[P. & S. Docket No. 1437]

IN RE: THE BADGER LIVESTOCK SALES, INC., BOOTH BROTHERS, INC., JOHN P. BRUEMMER & SONS, INC., CLOUGH, COOK & COMPANY, A CORPORATION, HOLMES & ROBINSON, INC., G. B. VAN NORMAN COMPANY, A CORPORATION, AND THE EQUITY COOPERATIVE LIVESTOCK SALES ASSOCIATION, INC., RESPONDENTS

ORDER OF INQUIRY, ORDER OF SUSPENSION AND NOTICE OF HEARING

This proceeding is instituted pursuant to the provisions of Title III of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. and Sup. V, §§ 181-231), and the following allegations are made:

1. The respondents, Badger Livestock Sales, Inc., Booth Brothers, Inc., John P. Bruemmer & Sons, Inc., Clough, Cook & Company, a corporation, Holmes & Robinson, Inc., G. B. Van Norman Company, a corporation, and the Equity Cooperative Livestock Sales Association, Inc., are registered as market agencies under the act and are engaged in the business of buying and/or selling livestock in commerce on a commission basis at the Milwaukee Stock Yards, Milwaukee, Wisconsin, a stockyard posted under the act.

2. Pursuant to the provisions of the act, the respondents have heretofore filed and put into effect schedules of rates and charges for services rendered by them as market agencies.

3. On or about October 23, 1941, the respondents made, filed, and published, effective November 3, 1941, a new schedule of rates and charges for their services which are materially greater than those contained in their present tariffs now on file.

4. Upon examination of the records and other information in possession of the Department of Agriculture, there is reason to believe that the increases in the rates and charges proposed by such new schedules are not justified and that such increases are, in fact, unreasonable and unlawful.

It is concluded that a proceeding under Title III of the act should be held for the purpose of determining the reasonableness and the lawfulness of the rates and charges of the respondents and of any rule, regulation, or practice affecting such rates and charges, and whether any stockyard service is rendered by the respondents without making a lawful charge therefor, and that, pending a hearing and decision on such proceeding, the operation of the respondents' tariffs filed on or about October 23, 1941, should be suspended and their use deferred.

It is therefore ordered, That the operation and use of the tariffs filed by the respondents on or about October 23, 1941, shall be and are hereby suspended and deferred until the expiration of thirty days from and after the time such schedules would otherwise go into effect.

It is further ordered, That notice to the respondents shall be and is hereby given that a hearing covering the allegations made herein will be held before an examiner, at a time and place of which the respondents will have at least ten days notice. At such hearing, the respondents, and all other interested persons, will have a right to appear and present such evidence with respect to the matters and things alleged as may be relevant and material.

It is further ordered, That any and all interested persons who may wish to appear and present evidence relative to the issues in this proceeding shall give notice thereof by filing a statement to that effect with the Hearing Clerk, Office of the Solicitor, Department of Agriculture, Washington, D. C., on or before the 18th day of November 1941.

It is further ordered, That a copy hereof shall be served upon the respondents by registered mail.

It is further ordered, That this order shall be published in the FEDERAL REGISTER.

Done at Washington, D. C., this 30th day of October 1941. Witness my hand and the seal of the Department of Agriculture.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC-34]

IN THE MATTER OF A DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: ICE CREAM; FROZEN CUSTARD; SHERBET; WATER ICES; AND RELATED FOODS

NOTICE OF HEARING

Notice is hereby given that the Administrator of the Federal Security Agency, upon his own initiative and in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act, secs. 401 and 701, 21 U.S.C. secs. 341 and 371 (Sup. V, 1939), will hold a public hearing commencing at 10 o'clock in the morning of December 1, 1941, in Room 1039, South Building, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which regulations may be promulgated fixing and establishing a definition and standard of identity for each of the foods named in the caption hereof. Proposals, which are for the purpose of giving notice of the subject matter to be considered and giving direction to the hearing, are set forth below. Interested persons are notified that the hearing is a fact-finding proceeding, after which it will be determined in accordance with the Act whether definitions and standards of identity should be established for the foods referred to herein and what the provisions of any such definitions and standards should be. It is not to be inferred from the fact that proposals are made that they represent the views of the Federal Security Agency or that the evidence to be adduced by the Agency will support each such proposal.

Such proposals are that there be established definitions and standards of identity for the following foods: ice cream; frozen custard; sherbet; water ices; and all other foods, such as ice milk, composed of the same ingredients, or of substitutes for, or supplements to, such ingredients in whole or in part, and prepared in the same general manner as any one of such named foods, including preparation by alteration of the relative proportions of such ingredients, substitutes, or supplements. Further proposals are that definitions and standards of identity be established for other foods of the same class as the foregoing foods, to which have been added in the process of preparation, in such significant amounts as to characterize such other foods, such ingredients as vitamins and minerals, coffee, mint flavoring and acids. There are set forth below definitions and standards of identity for the foods ice cream, frozen custard, sherbet, and water ices, which are suggestive of the type of definitions and standards of identity which may be adopted upon the basis of the evidence received at the hearing. It is suggested that such definitions and standards of identity as may be established for other foods to which this notice relates name such foods (for example, mint ice, coffee ice) and conform as nearly as may be to the form of the definitions and standards of identity hereinafter proposed.

The suggested definitions and standards of identity are subject to adoption, rejection, amendment, or modification, in whole or in part, as the evidence of record at the hearing may require.

§ 19.000 *Ice Cream; Identity: Label statement of optional ingredients.* (a) Ice cream is the food prepared with one of the optional dairy ingredients specified in paragraph (b), sweetened with one or more of the optional saccharine ingredients specified in paragraph (c). The quantity of the optional dairy ingredient used, and its content of milk fat, are such that the weight of milk fat is not less than 12 percent of the weight of the finished ice cream; except that when one or more of the optional ingredients (other than malted milk) indicated in subparagraphs (3) to (9), inclusive, is used, the weight of milk fat is not less than 12 percent of the remainder obtained by subtracting the weight of such optional ingredients from the weight of the finished ice cream, but in no case is the weight of milk fat less than 10 percent of the weight of the finished ice cream. [File No. 54-25]

THE UNITED LIGHT AND POWER COMPANY, APPLICANT

NOTICE OF FILING OF RESPONDENTS' APPLICATION NO. 4

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 31st day of October, A. D. 1941.

The Commission having previously, by order entered in these proceedings on March 20, 1941, ordered among other things the liquidation and dissolution of The United Light and Power Company and United American Company, and said order having provided that the respondents should make application to the Commission for the entry of such further orders as were necessary or appropriate for that purpose, and the Commission having reserved jurisdiction to enter such further orders as might be necessary or appropriate with respect to other matters in this proceeding;

Notice is hereby given that The United Light and Power Company, The United Light and Railways Company, United American Company and United Power Manufacturing Company have filed on October 30, 1941, an application designated as "Application No. 4" with respect to various proposed transactions hereinafter described:

1. United American Company proposes to transfer all of its assets which consist chiefly of 558,864 shares of common stock, par value $25.00 per share, of American Light & Traction Company and $1,552,000 principal amount of 6% debentures of United Power Manufacturing Company, to The United Light and Railways Company. The assets above described are carried on the books of United American Company at $30,122,970.

2. The United Light and Railways Company proposes to surrender to United American Company for cancellation all of its outstanding stock consisting of 100 shares; and all of the indebtedness of the United American Company to The United Light and Railways Company which is in the form of an open account for cash advanced in the amount of $26,872,970 plus accrued interest at September 30, 1941, in the amount of $557,165.46.

3. Thereafter United American Company will be dissolved in accordance with the laws of the State of Delaware.

4. United Power Manufacturing Company proposes to transfer to The United Light and Railways Company 77,596 shares of $6 preferred stock of American Light & Traction Company in exchange for the surrender by The United Light and Railways Company to United Power Manufacturing Company for cancellation of $1,552,000, principal amount of 6% 20-year debentures, of United Power Manufacturing Company which debentures will be acquired by The United Light and Railways Company upon the liquidation of United American Company, as above described.

Respondents and applicants represent that the purpose of the foregoing transactions, enumerated in paragraphs numbered 1 to 3 above, inclusive, is in furtherance of the Commission's order entered March 20, 1941, requiring that United American Company shall be liquidated and dissolved; and the purpose of transactions described in the paragraph numbered 4 above is to accomplish a preliminary step prior to the liquidation of United Power Manufacturing Company and to eliminate the complexity resulting from the present divided ownership of the preferred and common stock of American Light & Traction Company, now owned within the holding company system. After the transactions proposed above have been consummated, The United Light and Railways Company will own directly all of such preferred and common stock of American Light & Traction Company.

Notice is further given that United Power Manufacturing Company, a subsidiary of The United Light and Railways Company, has requested that it be made a party to this proceeding to the extent necessary to entitle it to join in this application and to secure authority of the Commission in this proceeding to consummate the aforedescribed transactions in which it has an interest.

Notice is further given that any interested person may, not later than November 15, 1941 at 1:00 P. M., E. S. T., request the Commission in writing that the hearing herein be reconvened for the purpose of taking testimony or hearing the parties with respect to said "Application No. 4." Such request shall state the reasons therefor and the nature of the interest of the person making such request. Any person may request that he be notified if the Commission should order said hearing reconvened as aforesaid. At any time thereafter said "Application No. 4," as filed or as amended, may be granted. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said Application, which is on file in the office of said Commission for a statement of the transactions therein proposed, which are summarized above.

The applicants have requested that an order be entered granting said Application within 15 days after the filing date, or by November 15, 1941.

By the Commission.

Secretary.

[Docket No. A–761]

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

FINDINGS OF FACT, CONCLUSIONS OF LAW AND MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD 11 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE 7TH VEIN COALS TO BE PRODUCED BY H. A. SIEPMAN COAL COMPANY, A CODE MEMBER PRODUCER IN DISTRICT 11, AT ITS EBONY MINE, MINE INDEX NO. 1279, WHICH COALS HAVE NOT HERETOFORE BEEN CLASSIFIED AND PRICED

This is a proceeding instituted upon an original petition filed with the Bituminous Coal Division on March 22, 1941, by District Board No. 11, pursuant to the provisions of section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the establishment of temporary and permanent price classifications and minimum prices for the coals produced at the Ebony Mine of the H. A. Siepman Coal Company, a code member in District No. 11.

Pending final disposition of the petition in the above-entitled matter, temporary relief was granted by an Order of the Director dated March 28, 1941, 6 F.R. 1724.

Pursuant to an Order of the Director dated August 16, 1941, and after due notice to all interested parties, a hearing in this matter was held before Charles O. Fowler, a duly designated Examiner of the Bituminous Coal Division, at a hearing room of the Division in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Only original petitioner appeared. At the conclusion of the hearing, the preparation and filing of a report by the Examiner was waived and the record thereupon was submitted to the undersigned, who has considered the record in this matter.

The petition of District Board 11 herein requests the establishment of price classifications and minimum prices for 7th Vein coals produced at the Ebony Mine (Mine Index No. 1279) of H. A. Siepman Coal Company, a code member producer in District No. 11.

It appears from the uncontroverted testimony given by Jonas Waffle, Chairman of the District Board for District No. 11, that minimum prices pursuant to the Order of the Director dated March 28, 1941, are proper, and conform with the effective minimum prices for analogous and comparable coals in District No. 11.

The record discloses that a duly authorized committee, acting for the District Board for District No. 11, had considered all pertinent data with respect to the kinds, qualities, and sizes of 7th Vien coal to be produced at the above-mentioned mine, and based upon its consideration of such data, recommended the minimum prices here proposed.[1] It further appears that the requested minimum prices conform with those established for similar 7th Vein coals in the immediate locality.[2]

The evidence shows that the minimum prices requested will reflect the true values of the coals to which they apply and will preserve fair competitive opportunities for the producer thereof as well as other producers competing with them.

Upon the basis of the evidence, I find and conclude: (1) That the prices shown in the schedules hereto attached for the coals specified therein are proper and should be established; that said minimum prices are in proper relation to those established for analogous and comparable coals in District 11; (2) that such amendment of the price schedule for District 11 will effectuate the purposes of section 4 II (a) and section 4 II (b) of the Act and to comply with the standards thereof.

Now, therefore, it is ordered, That commencing forthwith, § 331.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, and § 331.10 (*Special prices: Railroad locomotive fuel*) is amended by adding thereto Supplement R–II, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: October 16, 1941.

Director.

The price classifications, for shipments to all market areas, of the coals of the Richards Mine (Mine Index No. 1097) of the Plainview Coal Company (James Van Meter) in Production Group 8 of District 15, in Size Groups 1 to 4 and 6, are hereby reduced from A to C and the corresponding minimum prices are assigned thereto.

2. The price classifications, for shipments to all market areas, of the coals of the T. B. M. Mine (Mine Index No. 100) of the T. B. M. 1. The minimum prices for the coals of the Richards Mine (Mine Index No. 1097) of the Plainview Coal Company (James Van Meter), in Production Group 8 of District 15, are hereby reduced from $4.35 to $4.25 in Size Groups 1 to 3, inclusive; from $3.85 to $3.75 in Size Group 4; and from $3.35 to $3.25 in Size Group 6.

[Docket Nos. A–924, Part II, and A–982, Part II]

PART 342—MINIMUM PRICE SCHEDULE, DISTRICT NO. 22

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 22 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS, FOR TRUCK SHIPMENT, PRODUCED AT MINE INDEX NO. 299 AND FOR REVISION OF THE EFFECTIVE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS, FOR ALL SHIPMENTS, PRODUCED AT CERTAIN OTHER MINES IN DISTRICT NO. 22; IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 22 FOR REVISION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS, FOR TRUCK SHIPMENT, PRODUCED AT CERTAIN MINES IN DISTRICT NO. 22

This proceeding was instituted upon original petitions, pursuant to the Bituminous Coal Act of 1937, filed with the Bituminous Coal Division by District Board No. 22. The subject matter of those original petitions relates both to the establishment and to the revisions of the price classifications and minimum prices for the coals of certain mines in District No. 22.

By Order of the Acting Director dated July 21, 1941, 6 F.R. 3657, there were segregated from the remainder of the subject matter of the original petition in Docket No. A-924 and designated as Docket No. A-924 Part II the matters relating to (1) the establishment of price classifications and minimum prices for the coals, for truck shipment, produced at the Grove Creek No. 2 Mine (Mine Index No. 299) of Sam Di Pasquale, a code member in Subdistrict 2 of District No. 22 and to (2) the revision of certain effective minimum prices, for truck shipment as follows:

(a) From $2.50 to $2.25 per net ton for the coals in Size Groups Nos. 1, 2, and 5 of Mine Index No. 132 operated by Burl F. Conner and Helmer Hovik, Mine Index No. 139 operated by R. H. Draper and Mine Index No. 183 operated by Ambrose W. Kubica, all those mines being in Subdistrict 3 in District No. 22; and

(b) From $6.00 to $5.00 per net ton for the coals in Size Group No. 2 of Mine Index No. 134 operated by Mark Culleton, Mine Index No. 178 operated by Kingston Bros., Mine Index No. 205 operated by Fred K. Johnson, Mine Index No. 246 operated by Daniel Siezak and Mine Index No. 282 operated by David A. Stokes, all those mines being located in Subdistrict 12 of District No. 22.

By that order of July 21, 1941, there were established, pending final disposition of the matter, temporarily effective minimum prices for the coals, for shipment by truck, produced at Mine Index No. 299. Those prices are the same, in the respective size groups, as the theretofore established prices for the coals, for truck shipment, produced at all other mines in Subdistrict No. 2 of District No. 22. However, for the Size Group 2 coals of Mine Index No. 299 the minimum price of $3.75 per net ton established temporarily by that Order is 25 cents in excess of the price requested in the original petition. Thereafter, on August 27, 1941, and subsequent to a formal hearing on the subject matter, District Board No. 22 filed, in Docket No. A–924 Part II, an amended petition wherein it requests that the price classifications and minimum prices established temporarily by the Order of July 21, 1941, for the coals of Mine Index No. 299, be made permanent.

By Order of the Director dated August 6, 1941, 6 F.R. 3971, there were segregated from the remainder of the subject matter of the original petition in Docket No. A–982 and designated as Docket No. A–982 Part II, the matters relating to the revision of certain effective minimum prices, for truck shipment, as follows:

(1) From $2.50 per net ton to $2.25 per net ton for the coals in Size Groups Nos. 1, 2, and 5 of the Pavek No. 1 Mine (Mine Index No. 219) of Edward W. Pavek in Subdistrict 3 in District No. 22;

(2) From $3.25 to $2.75 per net ton in Size Group No. 2 and from $3.00 to $2.75 per net ton in Size Group No. 5 for the coals of the Black Diamond Mine (Mine Index No. 248) of Miller Thatcher in Subdistrict 9 in District No. 22; and

(3) From $3.75 to $3.50 per net ton for the coals in Size Groups Nos. 2 and 5 of the Silver Tip Mine (Mine Index No. 106) of W. C. Anderson and of the Painted Robe Mine (Mine Index No. 203) of Frank Mizuta, both mines being in Subdistrict 1 of District No. 22.

Pursuant to the Orders of July 21 and August 6, 1941, the subject matters of Dockets Nos. A–924 Part II and A–982 Part II were consolidated and, after due notice given to all interested persons, a hearing was held in the consolidated matter on August 18, 19, and 20, 1941, before D. C. McCurtain, a duly designated examiner of the Division at a hearing room of the Bituminous Coal Division at the Billings Commercial Club in Billings, Montana. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise to participate in the hearing. Only the original petitioner appeared and offered evidence. At the conclusion of the hearing, the preparation and filing of a report by the Examiner were waived and the matter was submitted thereupon to the Director, who has considered the record of the proceeding.

From the uncontroverted testimony of D. F. Buckingham, a representative of the petitioner, introduced in support of the relief requested in the petition and from the entire record of the proceeding, I find the following facts:

(1) As to the establishment of price classifications and minimum prices for the coals of Mine Index No. 299 in Subdistrict 2 of District No. 22—that the marketing factors and the value of those coals are similar to those of the coals produced at all other mines in that subdistrict;

(2) As to the requested reductions in the effective minimum prices for the coals produced at Mine Index Nos. 132, 139, 183, and 219 in Subdistrict 3 of District No. 22—that those mines are located in close proximity to certain other mines in Custer County, Montana, in the same subdistrict; that the mines for which relief is requested and the Custer County mines compete extensively in serving the fuel requirements of ranchers in the same vicinity and of the inhabitants of Forsyth, Montana; that the Custer County mines have claimed exemption pursuant to the Act, on the basis that their output is lignite rather than bituminous coal and are selling that output at prices which enable its delivery and sale in those markets at prices as low as $1.00 per ton below the prices at which delivery of the coals for which relief is requested can be made under their presently effective minimum prices; and that the requested 25¢ per net ton minimum price reduction would permit a delivered price differential between the subject coals and the alleged lignite which would more nearly reflect their relative market values;

(3) As to the requested reductions in the effective minimum prices for the Size Group No. 2 coals produced at Mine Index Nos. 134, 178, 205, 246, and 282 commonly known as the Valier Group, in Subdistrict 12 of District No. 22—that those coals and the coals in that size group produced by the mines commonly known as the Pendroy Group, some 15 miles to the south, meet in competition among the ranchers in the same vicinity and in Valier, Montana; that the latter coals have an effective minimum price of $6.00 per net ton; that those coals of the Valier Group were, prior to October 1, 1940, the date on which minimum prices became effective under the Act, sold f. o. b. the mines at $5.00 per net ton with a differential of $1.00 per net ton below the prices for the coals of the Pendroy Group; and that a reduction to $5.00 per net ton in the minimum price for the coals of the Valier Group of mines is essential in order to preserve for those mines their fair competitive opportunities with the natural gas and oil producers of the Cut Bank, Montana district, located some 30 miles to the south of them;

(4) As to the requested reductions in the effective minimum prices for the coals produced at Mine Index No. 248 in Subdistrict 9 of District 22—that all of the coals produced in that subdistrict are, in the respective size groups, subject to the same minimum prices; that Mine Index No. 248, although located in Subdistrict 9, is approximately 100 miles distant from the Bull Mountain Group of mines in that subdistrict; that its coals are of a quality inferior to the Bull Mountain coals and do not meet them in competition; that it is in close proximity to, and competes principally in the markets served by the mines in Subdistrict 3; and that the minimum prices for the coals, in the respective size groups, produced in Subdistrict 3 are substantially lower than are such prices for the Subdistrict 9 coals; and

(5) As to the requested reductions in the effective minimum prices for the coals produced at Mine Index Nos. 106 and 203 in Subdistrict 1 of District No. 22—that although located in Subdistrict 1 Roundup, the coals of those mines are produced from the Painted Robe rather than the Roundup seam and are inferior, both in appearance and fuel value, to the coals produced from the latter seam; and that all of those coals meet in rigorous competition in the same markets.

I further find that the requested price classifications and minimum prices conform in all respects to those heretofore established for comparable coals in District No. 22; that they will reflect the relative market values of the subject coals; and that their establishment is necessary to preserve the fair competitive opportunities of the producers of those coals; I conclude, therefore, that the establishment and the revision of the price classifications and minimum prices as requested in the original petitions, as amended, are required in order to effectuate the purposes of the Act and will comply with all the standards of Sections 4 II (a) and (b) thereof.

Now, therefore, it is ordered, That the relief temporarily granted in the Order of July 21, 1941, in Docket No. A–924 Part II as to the coals produced at Mine Index No. 299 be, and it hereby is, made permanent.

It is further ordered, That § 342.21 (*General prices*) in the Schedule of Effective Minimum Prices for District No. 22 for all shipments is revised as follows: (1) to include the following minimum prices in cents per net ton f. o. b. the mine for the coals, for shipment by truck produced at the Grove Creek No. 2 Mine (Mine Index No. 299) of Sam Di Pasquale, a code member in Subdistrict 2 of that district:

Size groups	1	2	3	5	7
Price	400	375	400	350	250
Size groups	8	9	10	11	12
Price	225	150	110	95	75

(2) by changing from 250 to 225 the effective minimum price in cents per net ton for the coals in Size Groups Nos. 1, 2, and 5 for truck shipment, produced at Mine Index Nos. 132, 139, 183, and 219 in Subdistrict 3 of District No. 22; (3) by changing from 600 to 500 the effective minimum price in cents per net ton for the coals in Size Group No. 2, for truck shipment, produced at Mine Index Nos. 134, 178, 205, 246, and 282 in Subdistrict 12 of District No. 22; (4) by changing from 325 and 300, respectively, to 275 the effective minimum prices in cents per net ton for the coals in Size Groups Nos. 2 and 5, for truck shipment, produced at Mine Index No. 248 in Subdistrict 9 of District No. 22; and (5) by changing from 375 to 350 the effective minimum price in cents per net ton for the coals in Size Groups Nos. 2 and 5, for truck shipment, produced at Mine Index Nos. 106 and 203 in Subdistrict 1 of District No. 22.

CHAPTER IX—OFFICE OF PRODUCTION MANAGEMENT

SUBCHAPTER B—PRIORITIES DIVISION

PART 933—COPPER

Conservation Order No. M–9–c as Amended November 1, 1941 Curtailing the Use of Copper in Certain Items

(a) Section 933.4 (Conservation Order No. M–9–c) [3] is hereby amended so as to read as follows:

Whereas national defense requirements have created a shortage of Copper for the combined needs of defense, private account, and export; action has already been taken to increase and conserve the supply and to direct the distribution of Copper to insure deliveries for defense and essential civilian requirements; and the supply of Copper now is and will be insufficient for defense and essential civilian requirements un-

less the use of Copper in the manufacture of many products where such use is not absolutely necessary for the defense or essential civilian requirements is curtailed or prohibited;

Now, therefore, it is hereby ordered, That:

§ 933.4 *Conservation order No. M–9–c as amended November 1, 1941*—(a) *Restrictions on use of copper in articles appearing on List "A"*—(1) *Curtailment to January 1, 1942.* Except as provided in paragraph (b) hereof, during the period between October 15 and December 31, 1941, no Manufacturer may use in the aggregate in the manufacture of any Item on List "A" attached, more Copper or Copper Base Alloy than the greater of the following two limits:

(i) One-half of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such Item during the last three months of 1940, or

(ii) One-eighth of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such Item during the year 1940.

If any Manufacturer is manufacturing any such Item which he did not manufacture in 1940, then during the period between October 15 and December 31, 1941, he may use in the manufacture of such Item Copper or Copper Base Alloy to a total amount not exceeding 50% of the total amount used by him in the manufacture of such Item during the period between August 1 and September 30, 1941.

(2) *Prohibitions after January 1, 1942.* Except as provided in paragraph (a) (3) and in paragraph (b) hereof, after January 1, 1942, no Manufacturer of any Item on List "A" attached, may use in the manufacture of any such Item any Copper or Copper Base Alloy.

(3) *Substitution of plating in limited cases.* Nothing contained in this paragraph (a), however, shall prevent the use of Copper or Copper Base Alloy for plating any Item included on List "A", provided:

(i) That such plating is not primarily for decorative purposes, and

(ii) That the use of or the normal wear on such Item would make impractical any other form of coating, and

(iii) That such Item was formerly plated with Copper or Copper Base Alloy, or if such Item was not formerly so plated, then provided that the total amount of Copper or Copper Base Alloy to be used in the plating of each such Item is less than 5% of the amount that was used in the manufacture of each such Item immediately preceding the effective date of this Order.

(b) *General exception.* The prohibitions and restrictions contained in paragraphs (a) and (c) shall not apply to the use of Copper or Copper Base Alloy in articles which are being produced:

(1) Under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of Copper or Copper Base Alloy to the extent employed is required by the specifications of the prime contract, or

(2) For use to comply with Underwriters Regulations, or Safety Regulations issued under Governmental authority, provided the pertinent provisions of such Regulations were, in either case, in effect both on October 1, 1941, and on the date of such use, and specifically and exclusively require the use of Copper or Copper Base Alloy to the extent employed, or

(3) Primarily as conductors of electricity, but this exception shall be applicable only to the extent necessary to permit the conducting of the electricity required, or

(4) For use in chemical plants to the extent that corrosive action makes the use of any other material impractical, or

(5) For use in research laboratories and hospitals where and to the extent that the physical and chemical properties make the use of any other material impractical, or

(6) For use as condenser tubes, heat exchanger tubes (other than radiators which are used to control air temperature) and tube sheets in oil refining plants, in plants generating steam for public or industrial use and in plants generating electric power for public or industrial use, where and to the extent that corrosive action makes the use of any other material impractical, or

(7) For use as part of the motive power or mechanical and electrical equipment of vessels other than pleasure craft where corrosive action makes the use of any other material impractical, or

(8) For use for repair or replacement purposes in plants employing chemical processes and in plants processing food where the existing installation is Copper or Copper Base Alloy and where and to the extent that chemical action makes the use of any other material impractical, or

(9) For insecticides and fungicides such as Copper sulphates, Copper oxides and basic Copper compounds.

(c) *Restrictions on use of copper in all other articles.* During the period between October 15 and December 31, 1941, and during each three months' period thereafter, until further action by the Director of Priorities, no Manufacturer may use in the aggregate in the manufacture of any article not on List "A" attached, more Copper and Copper Base Alloy than the greater of the following three limits:

(1) 70% of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such article during the last three months of 1940, or

(2) 17½% of the total amount of Copper or Copper Base Alloy respectively, used by him in the manufacture of such article during the year 1940, or

(3) 50% of the total amount of Copper or Copper Base Alloy, respectively, used by him in the manufacture of such article during the period between July 1 and September 30, 1941;

plus in each such case, the amount of Copper or Copper Base Alloy necessary to manufacture articles which are being produced pursuant to the exceptions of paragraph (b) hereof.

The provisions of this paragraph shall not limit the amount of Copper or Copper Base Alloy which a Manufacturer may use in the manufacture of any article which is being produced by him with the assistance of a preference Rating Order (not including a Preference Rating Certificate) issued directly to and in the name of such Manufacturer which assigns a rating of A–2 or higher to deliveries to him of materials used in the production of such article provided that such limitations may be exceeded only to the extent that the use of any other material is impractical in the manufacture of such article.

(d) *Prohibitions against sales or deliveries of copper or copper base alloy.* No person shall hereafter sell or deliver Copper or Copper Base Alloy, to any person if he knows, or has reason to believe such material is to be used in violation of the terms of this Order.

(e) *Limitation of inventories.* No Manufacturer shall accumulate an Inventory of Copper, or Copper Base Alloy (including scrap) or products thereof, in the form of raw materials, semi-processed materials, finished parts or subassemblies in quantities in excess of a minimum practicable working Inventory, taking into consideration the limitations placed upon the production of Copper products by this Order. A minimum practicable working Inventory shall in no event exceed that amount of material necessary to maintain operations for sixty days. Any Manufacturer who has an Inventory in excess of a minimum practicable working Inventory is prohibited from receiving additional Copper or Copper Base Alloy (including scrap) or products thereof, beyond the extent necessary to maintain such minimum practicable working Inventory.

(f) *Miscellaneous provisions*—(1) *Priorities Regulation No. 1.* All of the provisions and definitions of Priorities Regulation No. 1 issued by the Director of Priorities on August 27, 1941 (Part 944), as amended from time to time, are hereby included as a part of this Order with the same effect as if specifically set forth herein, except as otherwise specifically provided herein.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Copper conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Priorities by addressing a letter to the Director of Priorities, Ref.: M–9–c, Office of Production Management, Social Security Building, Washington, D. C., setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Priorities may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and restrictions contained in this Order shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other Order of the Director of Priorities may have the effect of limiting or curtailing to a greater extent than herein provided, the use of Copper or Copper Base Alloy in the production of any article, the limitation of such other Order shall be observed.

(4) *Violations or false statements.* Any person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Priorities, or who otherwise wilfully furnishes false information to the Director of Priorities or to the Office of Production Management may be deprived of priorities assistance or may be prohibited by the Director of Priorities from obtaining any further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this Order:

(i) "Copper" means Copper metal which has been refined by any process of electrolysis, or fire refining to a grade and in a form (cathodes, wire bars, ingot bars, ingots, cakes, billets, wedge bars, or other refined shapes) suitable for fabrication, or in any stage of fabrication. It shall include Copper metal produced from scrap.

(ii) "Copper base alloy" means any alloy in the composition of which the percentage of Copper metal by weight equals or exceeds the percentage of all other metals.

(iii) "Inventory" of a Person includes the Inventory of affiliates and subsidiaries of such Person, and the Inventory of others where such Inventory is under the control of or under common control with or available for the use of such Person.

(iv) "Manufacturer" means one who manufactures, fabricates, assembles, melts, casts, extrudes, rolls, turns, spins or processes in any other way.

(v) "Item" means any article or any component part thereof.

(6) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Priorities. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; O.P.M. Reg. 3 amended Sept. 2, 1941, 6 F.R. 4865; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875, Aug. 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session; sec. 9, Public No. 783, 76th Congress, Third Session)

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1312—LUMBER AND LUMBER PRODUCTS

AMENDMENT TO PRICE SCHEDULE NO. 26,[1] DOUGLAS FIR LUMBER

Sections 1312.51, 1312.53, 1312.56, 1312.57, 1312.58, and 1312.59 are hereby amended so that Price Schedule No. 26 shall read as follows:

Douglas Fir lumber, a Pacific Coast product is often employed co-extensively and to some extent interchangeably with Southern pine lumber. It is widely used in the construction industry for exterior and interior finish, framing, millwork, sheathings, floorings, and subfloorings, and in the manufacture of crates, utility furniture, and household and farm appliances. In the defense program it has been extensively employed in the construction of cantonments, defense housing projects, and factories, and in the production of ships and airplanes. The increased need for Douglas fir lumber has prompted government efforts to secure expanded production, but the supply has failed to keep pace with the augmented demand stemming from the defense program and the accompanying economic expansion. As a consequence, inflationary pressure has caused prices to rise greatly in excess of previously existing industry levels. Such price increases have markedly outstripped cost advances. Issuance of a Price Schedule is therefore necessary to protect consumers and those members of the industry who are attempting to keep prices down.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1312.51 *Maximum prices for Douglas fir lumber.* On and after November 10, 1941, regardless of the terms of any contract of sale or purchase, or other commitment except as provided in § 1312.58 hereof, no person shall sell, offer to sell, deliver, or transfer, for domestic or export use, any Douglas fir lumber, where the shipment originates at the mill rather than at a distribution yard, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1312.59: *Provided,* That such maximum prices shall not apply where actual delivery has been made by the mill to a purchaser, or to a carrier for delivery to a purchaser, prior to November 10, 1941; and: *Provided,* That in the case of retail sales as defined in § 1312.57 (f), where the shipment originates at a mill rather than at a distribution yard, a mark-up of not more than $3.50 per 1,000 ft. board measure may be added to the maximum prices set forth herein.*

*Sections 1312.51 to 1312.59, inclusive, issued pursuant to authority contained in Executive Orders Nos. 8734, 8875; 6 F.R. 1917, 4483.

§ 1312.52 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1312.53 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by unusual charges for extending credit or for early delivery, by charges for delivery which exceed the actual cost of such delivery, except as otherwise provided in § 1312.59 (d), by unnecessarily routing lumber through a distribution yard, by unreasonable refusal to ship except in mixed cars or in specified lengths, or under other circumstances entitling the seller to a premium, or by other direct or indirect methods. The seller shall in all cases give the purchaser the option of making his own transportation arrangements.*

§ 1312.54 *Records and reports.* Every person who, during any calendar month, shall sell 34,000 pounds or more of Douglas fir lumber for shipment originating at the mill shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of every sale of such lumber made during such month, showing the date thereof, the name of the buyer, the prices, and grades sold. Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1312.55 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement services of the Government are requested to refrain from purchasing Douglas fir lumber from those persons who fail to comply with this Schedule. Persons who have evidence of any offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade provisions hereof, or of speculation, or of manipulation of prices of Douglas fir lumber, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.56 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no application under this section will be considered unless the person making such application shall have, to the satisfaction of the Office of Price Administration, complied with this Schedule.*

§ 1312.57 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, association, partnership, corporation, or other business entity. The term includes, without restricting the generality of the foregoing, any mill operator, manufacturer, commission salesman, manufacturer's representative, concentration yard operator, wholesaler, wholesale distributor, wholesaler's agent, or retailer.

(b) "Douglas fir" means the botanical species of Pseudotsuga taxifolia produced in those parts of Oregon and Washington lying west of the crest of the Cascade Mountains.

(c) "Mill" means a manufacturing plant, concentration yard, or other establishment which processes, by sawing, or by planing or other comparable method, at least 25 per cent of the volume of Douglas fir logs or lumber purchased or received by it.

(d) "Distribution yard" means a wholesale or retail lumber yard which purchases or receives Douglas fir logs or lumber from a producer, a mill, or another distribution yard for purposes of unloading, sorting, and resale or redistribution, which regularly maintains a stock of lumber, and which processes, by sawing, or by planing or other comparable method, less than 25 per cent of the volume of such logs or lumber so purchased or received by it.

(e) "Volume" means the board foot volume of lumber processed from logs, processed from other lumber, or sold, as the case may be, within six months immediately prior to the transaction subject to this Schedule.

(f) "Retail sale" means a sale which satisfies all of the following tests:

(1) It must be a sale of lumber to a consumer or contractor for use in building, construction, remodeling, repair, or maintenance, and not for resale in substantially the same form.

(2) It includes only sales in less than carload quantities. Where shipment is by water or by truck the maximum retail sale quantity shall be 20,000 ft. board measure. For the purpose of this paragraph the size of the sale is determined by the size of the order.

(3) The sale must be accompanied by the following services: delivery to the job site or other point specified by the purchaser and at such times and in such quantities as the purchaser specifies; tallying and checking; the privilege of exchanging goods and returning unused material; and and the readiness and ability of the seller to replace deficiencies and adjust complaints from stocks kept on hand for such purposes.*

§ 1312.58 *Effective date of amendments.* These Amendments (§§ 1312.51, 1312.53, 1312.56, 1312.57, 1312.58 and 1312.59) shall become effective November 10, 1941: *Provided,* That firm commitments entered into prior to November 10, 1941, for the sale of Douglas fir lumber at prices not exceeding the maximum prices established by Price Schedule No. 26 before this amendment, may be completed at contract prices: *Provided,* That all deliveries pursuant to such firm commitments are completed on or before February 1, 1942.*

§ 1312.59 *Appendix A.* (a) Maximum f. o. b. mill prices per 1,000 feet board measure:

Such certificates are to be issued to the Commissioner of Internal Revenue by the Secretary of War or the Secretary of the Navy.

In all cases, a "Necessity Certificate" is required certifying that the facility is necessary in the interest of National Defense during the emergency period.

A taxpayer who has been or will be reimbursed by the United States for all or a part of the cost of any emergency facility pursuant to any contract (in excess of $15,000 in amount) with the United States, made on its behalf after December 31, 1939 by the War Department, the Navy Department, the United States Maritime Commission, or such other department or agency as the President may designate, is not allowed such amortization deduction with respect to such facility unless either the Secretary of War or the Secretary of the Navy issues a "Certificate of Government Protection" to the effect that the interest of the United States is adequately protected with reference to the future use and disposition of such emergency facility.

A "Certificate of Non-Reimbursement" to the effect that under the contract certified reimbursement for all or a part of the cost of any emergency facility is not provided for, shall conclusively establish that fact for the purpose of the law.

In the event that a taxpayer has no contract with the United States it is not considered necessary for the taxpayer, in addition to a "Necessity Certificate", to obtain a "Certificate of Government Protection" or a "Certificate of Non-Reimbursement", unless the taxpayer is the real party in interest under a contract with the United States, as, for example, a case in which some other person is acting in a contract as agent for the taxpayer to obtain payment of the cost of the emergency facilities by the United States.

The Secretary of the Treasury, the Secretary of War, and the Secretary of the Navy, hereby give notice (superseding the Notice of Procedure dated November 1, 1940) that the following will be the procedure for applying for certification.

I

Applications. Applications for certificates shall be respectively entitled "Application for a Necessity Certificate", "Application for a Certificate of Non-Reimbursement", "Application for a Certificate of Government Protection". Instructions as to the information to be given in such applications may be obtained from the Office of the Under Secretary of War, Tax Amortization Section, Washington, D. C., or from the Office of the Under Secretary of the Navy, Washington, D. C.

II

Place of filing applications and copies required. The signed and verified original of each application, together with two extra copies which need not be signed, addressed to either the Secretary of War or the Secretary of the Navy, as the case may be, shall be duly prepared in accordance with the applicable instructions, and filed as follows:

Applications addressed to the Secretary of War, shall be filed with the Office of the Under Secretary of War, Tax Amortization Section, Washington, D. C.

Applications addressed to the Secretary of the Navy, shall be filed with the Office of the Under Secretary of the Navy, Washington, D. C.

III

Time of filing applications. Section 124 of the Internal Revenue Code provides that a "Necessity Certificate" shall have no effect unless application therefor is filed before the expiration of six months after the beginning of the construction, reconstruction, erection, installation or the date of acquisition of the emergency facility, or before December 1, 1941, whichever is later, and that a "Certificate of Government Protection" and a "Certificate of Non-Reimbursement" shall have no effect unless application therefor is filed before December 1, 1941; or either before the expiration of six months after the making of the contract or before the expiration of sixty-days after the making of a Necessity Certificate, whichever is latest.

IV

Notification. The Office of the Under Secretary of War, Tax Amortization Section, or the Office of the Under Secretary of the Navy, as the case may be, will notify the applicant of the action upon its application by the Secretary of War or the Secretary of the Navy.

V

Definition of terms. (1) The term "Necessity Certificate", as used herein, means a certification, issued pursuant to section 124 (f) of the Internal Revenue Code, as amended, that the construction or acquisition of the facilities, referred to in the certificate, is necessary in the interest of National Defense during the emergency period.

(5) The term "emergency facility" as used herein, means any facility, land, building, machinery, or equipment, or part thereof, the construction, reconstruction, erection or installation of which was completed after June 10, 1940, or which was acquired after such date, and with respect to which a Necessity Certificate has been made.

[Docket No. B-75]

IN THE MATTER OF THE EAGLE BOAT STORE COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 2601, RESPONDENT

NOTICE OF AND ORDER FOR HEARING

(1) The Bituminous Coal Division finds it necessary, in the proper administration of the Bituminous Coal Act of 1937 (the "Act"), to determine:

(a) Whether or not the Eagle Boat Store Company, a corporation, Registered Distributor, Registration No. 2601, the respondent in the above-entitled matter, whose address is 805 North Levee, St. Louis, Missouri, has violated any provisions of the Act, the Code, the Marketing Rules and Regulations, Rules and Regulations for Registration of Distributors, and the Distributor's Agreement (the "Agreement"), dated January 7, 1941, executed by the respondent pursuant to Order of the Bituminous Coal Division dated June 19, 1940 in General Docket No. 12; and

(b) Whether or not the registration of said distributor should be revoked or suspended or other appropriate penalties should be imposed;

and for said purposes gives notice that it has information to the effect that:

(2) The respondent, during the period February 1 to May 30, 1941, both dates inclusive, purchased approximately 1,887.3 tons of various sizes of coal from code members and secured, accepted and retained distributor's discounts from the effective minimum prices of said coal. This coal was resold by the respondent to the Eagle Packet Company of St. Louis, Missouri, a corporation, a retailer, located at the same address as the respondent.

(3) The respondent, during the period referred to in paragraph (2) hereof, had interlocking offices with said retailer and its officers, its shareholders were shareholders of said retailer and respondent was under the control, financially or otherwise, of said retailer in violation of § 304.19 (c) of the Rules and Regulations for the Registration of Distributors, and (h) of the Agreement.

(4) The respondent in its application for registration with the Bituminous Coal Division as a distributor of coal referred to in paragraph (1) hereof failed to state, as required on pages 5 and 6 of said application and § 304.11 (c) (6) of the Distributors' Rules, that it was affiliated with said retailer. The failure to state this affiliation constituted a violation of paragraph (f) of the Agreement.

(5) In securing, accepting and retaining the distributor's discounts referred to in paragraph (2) hereof, the respondent was in violation of Paragraph (d) of the Agreement, since such transactions were not purchases of coal for bona fide resale and further was in violation of § 304.19 (a) of the Rules and Regulations for the Registration of Distributors.

(6) In securing, accepting and retaining the distributor's discounts referred to in paragraph (2) hereof, the respondent was in violation of paragraph (g) of the Agreement, since said transactions were entered into between the distributor and its vendee primarily for the purpose of unjustly enriching the respondent, no service of value was rendered by the respondent to the code member vendors, and, except for the incidence of II (h) of the Act, the consumer would have purchased directly from a code member.

(7) The coal referred to in paragraph (2) hereof was physically handled by the respondent, and resold by the respondent in less than carload lots. In accepting and retaining distributor's discounts on such coal, the respondent was in violation of paragraph (d) of the Agreement.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on December 5, 1941, at a hearing room of the Bituminous Coal Division at Room 516, New Federal Building, St. Louis, Missouri.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Bituminous Coal Division designated by the Director thereof for that purpose shall preside at the hearing in such matter. Notice of such hearing is hereby given to said respondent and to all other parties herein and to all persons and entities having an interest in such proceeding.

IN THE MATTER OF RYAN & BENSON FUEL CORPORATION, REGISTERED DISTRIBUTOR, REGISTRATION NO. 7951, RESPONDENT

ORDER AMENDING AND SUPPLEMENTING NOTICE OF AND ORDER FOR HEARING AND POSTPONING HEARING

The Bituminous Coal Division (the "Division") having issued a Notice of and Order for Hearing dated September 12, 1941, in the above-entitled matter to determine whether or not Ryan & Benson Fuel Corporation, registered distributor, has violated certain provisions of the Bituminous Coal Act (the "Act"), the Marketing Rules and Regulations, the Rules and Regulations for Registration of Distributors, and the Distributor's Agreement executed April 14, 1939, or any orders or regulations of the Division, and whether or not the registration of said distributor should be revoked or suspended or other appropriate penalty imposed; and

An Amended Notice of and Order for Hearing having been entered on September 30, 1941, postponing the hearing to October 15, 1941, and the hearing having been postponed to November 3, 1941, at a hearing room of the Division at Washington, D. C.

It is ordered, That the hearing herein be further postponed to November 17, 1941, at 10 o'clock a. m., at a hearing room of the Division at Washington, D. C.

It is further ordered, That the Notice of and Order for Hearing, dated September 12, 1941, as amended, in the above-entitled matter, beginning with paragraph numbered "2" thereof, be and it hereby is amended and supplemented to read as follows:

2. During the period from October 1, 1940 to September 26, 1941, both dates inclusive, the respondent purchased various sizes of coal in substantial quantities, and secured and accepted distributor's discounts thereon from code member producers, which coal it resold to the Ryan & Benson Coal Corporation, a retailer of Baltimore, Maryland, under whose control, financially or otherwise, said respondent was, in violation of § 304.19 (c) of the Rules and Regulations for Registration of Distributors.

3. In the transactions referred to in paragraph 2 hereof the respondent did not purchase such coal for bona fide resale and the acceptance or retention of a distributor's discount under such circumstances was in violation of paragraph (d) of the Distributor's Agreement.

4. The transactions referred to in paragraph 2 hereof were entered into between the respondent and the Ryan & Benson Coal Corporation primarily for the purpose of unjustly enriching the respondent and when except for the incidence of section 4 II (h) of the Act the consumer would have purchased directly from a Code member, and were, therefore, in violation of paragraph (g) of the Distributor's Agreement.

5. The payment of a distributor's discount on the transactions referred to in paragraph 2 hereof created unfair competition and was, therefore, in violation of paragraph (g) of the Distributor's Agreement.

6. The respondent, in his application for registration with the Bituminous Coal Division as a distributor of bituminous coal, dated April 14, 1939, as described in paragraph 1 hereof, failed to state as required on pages 5 and 6 thereof, the financial relations with the Ryan & Benson Coal Corporation, and the failure to state that material fact was in violation of paragraph (f) of the Distributor's Agreement and contrary to § 304.11 (c) (6) of the Rules and Regulations for Registration of Distributors.

7. The acceptance of a distributor's discount by the respondent on coal purchased by it under circumstances whereby this coal was retailed by the respondent was in violation of § 304.19 (a) of the Rules and Regulations for Registration of Distributors.

8. The transactions referred to in paragraph 2 hereof concern sales to, or through a broker, jobber, commission account, or sales agency, which is in fact or in effect an agency or an instrumentality of a retailer, whereby they or any of them secure either directly or indirectly a discount, dividend, allowance or rebates, or a price other than that determined in the manner prescribed by this Act, and were, therefore, in violation of section 4 II (i) 12 of the Act, and Rule 12 of section XIII of the Marketing Rules and Regulations.

9. In the transactions referred to in paragraph 2 hereof, the due date of the account between the respondent and the Ryan & Benson Coal Corporation was extended by agreement of the parties and the respondent failed to charge and the Ryan & Benson Coal Corporation failed to pay interest from and after the due date of the account at the rate of not less than five (5) per centum per annum, which transactions were in violation of paragraph (I) of section VII of the Marketing Rules and Regulations.

10. In the transactions referred to in paragraphs 2 and 8 hereof, the respondent extended to the Ryan & Benson Coal Corporation services and privileges not extended to all purchasers under like terms and conditions, or under similar circumstances, in violation of section 4 II (i) 6 of the Act, and Rule 6 of section XIII of the Marketing Rules and Regulations, and paragraph (c) of the Distributor's Agreement.

It is further ordered, That the time of respondent to file its answer herein is hereby extended to November 10, 1941;

It is further ordered, That the Notice of and Order for Hearing dated September 12, 1941, as amended, be renewed in all other respects.

Dated: October 30, 1941.

ORDER SUSPENDING REGISTRATION OF DISTRIBUTOR

This proceeding having been instituted by the Bituminous Coal Division pursuant to section 4 II (h) of the Bituminous Coal Act of 1937 and § 304.14 of the Rules and Regulations for the Registration of Distributors, by a Notice of and Order for Hearing dated July 25, 1941, to determine whether Sterling Coal & Supply Company, a registered distributor (Registration No. 8712), 1116 City National Bank Building, Omaha, Nebraska, has violated the Act, the Rules and Regulations for the Registration of Distributors, the Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal, and the Agreement by Registered Distributor, by accepting and retaining discounts in excess of the maximum of 12 cents per net ton allowable.

The respondent having filed an answer admitting the acceptance and retention of an excessive discount, but averring its good faith and that restitution had been made; a hearing having been held before a duly designated Examiner of the Division at a hearing room thereof in Omaha, Nebraska, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a report by the Examiner having been waived and the record in the proceeding having thereupon been submitted to undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That the registration of the respondent, Sterling Coal & Supply Company, as a registered distributor, Registration No. 8712, be and it hereby is suspended for a period of thirty (30) days from the date of this Order.

It is further ordered, That the respondent shall not evade the effect of such suspension directly or indirectly by the use of any device such as a sales agency agreement or any other device and that such suspension shall not excuse the respondent from all duties and functions imposed upon it by the Act or the rules or regulations thereunder.

It is further ordered, That as a condition to reinstatement of such registration, in accordance with § 304.15 of the Distributors' Rules, the respondent shall submit, at least five days prior to the expiration of the suspension period, to the Director of the Division an affidavit verifying that during the period of its suspension said respondent has neither directly nor indirectly transacted business as a registered distributor, nor received nor been promised any discount which distributors are entitled to receive by virtue of registration.

[Docket No. A-1082]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

[Docket No. A-1082, Part II]

PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF AN ADDITIONAL LOADING POINT FOR THE COALS OF HERCULES MINE, MINE INDEX NO. 644

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1082-PART II FROM DOCKET NO. A-1082 AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO A-1082-PART II

A petition, pursuant to the Bituminous Coal Act of 1937, was duly filed with this Division in Docket No. A-1082, requesting the establishment of price classifications and minimum prices for the coals of certain mines in District No. 1. As the Director found in an Order issued in Docket No. A-1082, a reasonable showing of necessity has been made for the granting of the relief prayed for by the petitioner, except as to the establishment of an additional loading point for the coals of the Hercules Mine, Mine Index No. 644, of A. D. Grasso, a code member in District No. 1.

Strattonville, Pennsylvania, on Lake Erie, Franklin & Clarion Railroad, is already established as the loading point for the coals of the said mine for all shipments except truck. The petitioner proposes that Corsica, Pennsylvania, on the said railroad, be established as an additional loading point for the coals of the said mine for all shipments except truck. The petition does not allege any facts in support of this proposal. The Director is of the opinion that Corsica, Pennsylvania, on the said railroad should not be established as an additional loading point for the coals of the said mine until the necessity therefor has been clearly shown at a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A-1082 relating to the establishment of an additional loading point at Corsica, Pennsylvania, on Lake Erie, Franklin & Clarion Railroad for the coals of Hercules Mine, Mine Index No. 644, of A. D. Grasso, a code member in District No. 1, be, and it hereby is, severed from the remainder of Docket No. A-1082 and designated as Docket No. A-1082-Part II.

It is further ordered, That a hearing in Docket No. A-1082-Part II under the applicable provisions of said Act and the rules of the Division be held on December 4, 1941, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth

Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before November 29, 1941.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 1 for the establishment of Corsica, Pennsylvania, on Lake Erie, Franklin & Clarion Railroad, as an additional rail loading point for the coals of Hercules Mine, Mine Index No. 644, of A. D. Grasso, a code member in District No. 1, for all shipments except truck, and for the application thereto of all adjustments required or permitted mines in Freight Origin Group No. 31.

Dated: October 31, 1941.

[Docket No. A-983]

IN THE MATTER OF THE PETITION OF THE BITUMINOUS COAL CONSUMERS' COUNSEL FOR THE ESTABLISHMENT OF MAXIMUM PRICES FOR ALL COALS

MEMORANDUM OPINION AND ORDER CONCERNING MOTION OF DISTRICT BOARD 8 FOR CONTINUANCE

Bituminous Coal Producers Board for District No. 8, an intervener herein, on October 30, 1941, filed its motion requesting a further continuance of the hearing in this matter from November 4, 1941, to November 12, 1941, or, in the alternative, a recess of the hearing for a period of seven consecutive days at any time following the reconvening of the hearing on November 4, 1941, but prior to the time when District Board 8 shall be required or called upon to proceed with presentation of evidence in support of its petition of intervention.

Bituminous Coal Consumers' Counsel has expressed objection to any postponement.

The issues in this proceeding are both novel and complex, and their proper determination is of great importance to producers and consuming public alike. The district boards are in a position to render considerable aid toward such a proper determination. District Board 8, which represents the largest producing district in the nation, from the point of view of tonnage, states in support of its motion that it is seriously engaged in a comprehensive effort to prepare and present evidence on the issues involved. It alleges that a staff of engineers which it has retained is now conducting an investigation and study of the value of mine properties in District 8 with a view toward testifying as experts thereupon in this proceeding; that such investigations and studies cannot be completed prior to November 12; and that counsel for the Board require an additional week's time for consultations with the engineers in order properly to prepare for orderly presentation of their findings as evidence in this proceeding. A week's postponement would therefore seem conducive toward a more comprehensive and expeditious determination of the issues in this matter.

District Board 8 has suggested that if the hearing is not now continued it be recessed for a period of seven consecutive days at some future date prior to the time when that board is called on to present its evidence. It would seem, however, that postponement now would permit a more orderly presentation of the evidence and would serve to protect the interests of all parties.

In light of these considerations, the Director is of the opinion that a week's postponement of the hearing in this matter at this time is warranted. In view of the fact that November 11, 1941, is a legal holiday, the hearing should resume on November 12.

Accordingly, it is ordered, That the hearing in this proceeding be, and the same hereby is, postponed until November 12, 1941, at 10 o'clock in the morning at a hearing room to be designated on that day by the Chief of the Records Section, Room 502, 734 15th Street NW., Washington, D. C.

Dated: October 31, 1941.

§ 224.2 *Catalog.* A catalog, showing by lots and by warehouse locations the grade and the staple length of the cotton available for purchase under the program, has been prepared by the Commodity Credit Corporation. This catalog is available upon request to the Corporation, New Orleans, Louisiana, at a price of $10 each. Each catalog will be accompanied by a list showing the sales price for 15/16 inch middling cotton at each warehouse location. § 224.3 *Price.* The sales price of any particular lot of cotton listed in the catalog shall be determined by applying the appropriate premium or discount, as shown on the appropriate basis sheet prepared by Commodity Credit Corporation, to the price listed for 15/16 inch middling cotton at the location where the cotton is stored. No purchase order shall be regarded as accepted until the purchaser receives by wire a notification of such acceptance.*

§ 224.8 *Acceptability of purchase orders.* No purchase order shall be accepted unless the purchaser has previously registered sales for exportation to an approved country of an equivalent quantity of cotton and has submitted to the Corporation either satisfactory evidence of the completion of such sales or a bond meeting the requirements of § 224.12 hereof.*

Any person desiring the approval of a particular country should notify Commodity Credit Corporation, New Orleans, Louisiana. Such person shall be promptly notified as to whether his request can be granted. Only sales for the exportation of cotton to a country from which approval is being withdrawn which are registered prior to the effective date of such withdrawal shall be considered as sales for the exportation of cotton to an approved country. No possession of the United States, other than the Philippine Islands, shall be eligible for approval.*

§ 224.10 *Registration of sales.* Sales of raw cotton for exportation shall be regarded as registered under this program when, and only in the event that, the following requirements have been met:

(f) Such contract must show the sales price, the date of sale, the quantity (number of pounds, gross weight) of cotton sold, the delivery or sailing dates thereon, destination of shipment, the name and address of the parties to the contract, and must call for the exportation of the cotton prior to July 31, 1942.

§ 224.11 *Satisfactory evidence of exportation.* Satisfactory evidence of having exported cotton to Canada and Mexico shall be an authenticated landing certificate issued by officials of the Government of the country to which the cotton was exported, showing the place, date, gross weight of the cotton and the name and address of both the person who exported the cotton from the United States and the person to whom it is shipped. Satisfactory evidence of having exported cotton to other countries shall be either (a) an on-board-ship bill of lading, or (b) a shipmaster's receipt, showing the quantity (actual gross weight) of the cotton loaded aboard ship, the date and place of loading, name of vessel, destination of cotton loaded, and name and address of both the person exporting the cotton and the person to whom it is shipped. Satisfactory evidence of the gross weight of the cotton exported shall be a certified weight sheet of the warehouse from which the cotton is shipped for export. Evidence of the exportation of cotton to approved countries, to qualify as satisfactory evidence of exportation hereunder, must be filed with the Corporation at New Orleans, Louisiana, not later than fifteen (15) days after the date of such exportation; and in those cases in which cotton was sold by the Corporation in reliance upon registered sales for future delivery, not later than thirty (30) days after the delivery or sailing date shown on the certified copy of the sales contract filed with the Corporation.*

§ 224.12 *Bond.* The bond required by the Corporation in lieu of satisfactory evidence of exportation shall conform to the specimen form of bond attached hereto and shall be in an amount at least equivalent to 12½ cents per pound for each pound of cotton sold to the purchaser for which satisfactory evidence of

the exportation of an equivalent quantity of cotton to the approved country has not been submitted. The surety on such bond must be a corporate surety approved by Commodity Credit Corporation.*

§ 224.13 *Liquidated damages.* In all cases in which (a) cotton is sold by the Corporation in reliance upon registered sales for future delivery and satisfactory evidence of the exportation of an equivalent quantity of cotton in fulfillment of such sales is not filed within the prescribed time with the Corporation or (b) cotton as to which satisfactory evidence of exportation has been submitted re-enters the United States or its possessions (other than the Philippine Islands) in raw cotton form, the purchaser shall pay to the Corporation, as liquidated damages, the sum of 12½ cents per pound for each pound of such cotton.*

§ 224.14 *Delivery of cotton.* The Corporation, within ten (10) days from the acceptance of any purchase order, will make delivery of the cotton called for by such order by tendering the warehouse receipts representing such cotton attached to a sight draft drawn on the purchaser for the purchase price of such cotton. Such draft must be paid by the purchaser upon presentation.*

§ 224.15 *Class.* All sales will be based solely upon the class shown in the catalog, with no right of arbitration by the purchaser. The class shown in the catalog was determined under the supervision of the Agricultural Marketing Service, United States Department of Agriculture, and conforms to the United States Cotton Standards.*

§ 224.16 *Weight.* The gross weights shown in the warehouse receipts will be used in determining the purchase price and such gross weights shall be conclusive as between the Corporation and the purchaser.*

§ 224.17 *Damaged cotton.* The warehouse receipts contain the obligation of the warehouseman to deliver the bales of cotton represented thereby in good condition. The Corporation will not recognize any liability to the purchaser for loss due to damage.*

§ 224.18 *Amendments and termination.* The terms and conditions of the program in this part may be amended by Commodity Credit Corporation at any time. The effective date of any amendment will be stated therein, and such amendment shall be applicable to purchase orders thereafter received. A copy of every amendment will be mailed promptly to each purchaser of a catalog. Commodity Credit Corporation may terminate this program by making public announcement thereof twenty-four (24) hours prior to the effective date of such termination. In addition to the public announcement of termination, Commodity Credit Corporation will wire a copy of such announcement to each purchaser of a catalog. Such termination shall not be effective with respect to purchase orders submitted prior to the effective date of such termination if such purchase orders are otherwise acceptable.*

The vice chairman shall act as the chairman in the event of the absence or incapacity of the chairman and the alternate shall serve on the committee in the place of any regular member who cannot serve. The community referendum committee shall be responsible for the proper holding of the referendum in its community or neighborhood by secret ballot in a fair, unbiased, and impartial manner in accordance with the regulations in this part. In counties with less than 100 farms on which there are producers who are eligible to vote in the referendum, the county shall be considered as one community for the purpose of the referendum and the county committee shall perform, in addition to its other duties, the duties of the community referendum committee unless, for any such county, the county committee and the State committee determine that one or more community referendum committees are necessary in the county for the proper holding of the referendum.*

§ 717.3 *Voting eligibility—(a) Qualifications of voters.* The qualifications of persons eligible to vote in the referendum for each commodity shall be determined in accordance with the provisions of law applicable thereto prior to the date of holding the referendum and qualifications shall be set forth in the notice of the referendum on the form prescribed by the Secretary of Agriculture. No person shall be entitled to more than one vote, regardless of the number of farms in which he is interested as a producer or the number of the communities, counties, or States in which he is so interested.

(b) *Register of eligible voters.* The county committee shall cause to be prepared on form MQ–651 a register of eligible voters for each community or neighborhood in the county. The register shall contain, insofar as can be ascertained prior to the holding of the referendum, the names and addresses of all persons shown on the records of the county committee or known to it as persons eligible to vote in the referendum in the community or neighborhood. Each register of eligible voters shall be furnished by the county committee to the chairman (or, in his absence, the vice chairman) of the appropriate community referendum committee prior to the time the polls in the county are opened for the acceptance of ballots.*

§ 717.4 *Place for balloting.* The county committee shall designate at least one place for balloting in each community or neighborhood for which a community referendum committee is designated. The polling place shall be one well known to and readily accessible to the persons in the community or neighborhood and shall be equipped and arranged so that each voter can mark and cast his ballot in secret and without coercion, duress, or interference of any sort whatever.*

§ 717.5 *Time of voting.* There shall be no voting except on the day fixed for the holding of the referendum (except as provided herein in the case of voting by mail) and the day fixed for the holding of the referendum shall be the same in all neighborhoods, communities, counties, and States. The date for holding the referendum shall be that determined by the Secretary of Agriculture in accordance with the provisions of law applicable thereto and stated in the notice of the referendum prescribed by him. The county committee shall designate the hour at which the polls in the county shall be opened, which shall be not earlier than 7 o'clock or later than 9 o'clock a. m., local standard time, on the date fixed for holding the referendum. The polls shall be closed at 5 o'clock p. m., local standard time, or such later hour as is fixed by the State committee in order to afford a full and fair opportunity to producers to vote, on the date for holding the referendum.*

§ 717.6 *Notice of referendum—(a) Posting a notice.* The county committee shall give public notice in each community or neighborhood of the time and place for balloting in the referendum by posting a notice, on the form prescribed by the Secretary of Agriculture for use in the referendum,[1] at one or more places open to the public within each community or neighborhood at least 5 days in advance of the date of the referendum. The notice shall contain information concerning the commodity and marketing year or years or crops for which the referendum is to be held, the rules governing eligibility to vote, the location of the polling place in the community or neighborhood, the date of the referendum, and the hours when the polls will be opened and closed.

(b) *Use of agencies of public information.* The county committee and community referendum committees shall make use (without advertising expense) of all available agencies of public information, including newspapers, radio, and other means, to give persons in the county full and accurate public notice of the day and hours of voting, the location of polling places, and the rules governing eligibility to vote. Such notice should be given as soon as practicable after the arrangements for holding the referendum in the county have been made, but not later than 5 days in advance of the date of the referendum.*

§ 717.7 *Manner of voting—(a) Secret ballot.* The voting in the referendum shall be by secret ballot. Each voter shall, at the time he is handed the form on which to cast his ballot, be instructed to mark his ballot form so as to indicate clearly how he votes and in such manner that no one else shall see how he votes and then to fold his ballot and place it in the ballot box without allowing anyone else to see how he voted. A suitable place where each voter may mark and cast his ballot in secret and without coercion, duress, or interference of any

[1] Cotton 601 filed as part of the original document.

sort whatever shall be provided in each polling place. Every unchallenged ballot shall be placed in the ballot box by the person who voted it. The fact that a voter fails to fold a ballot placed in the ballot box shall not invalidate it. It shall be the duty of each community referendum committee to see that no device of any sort whatever is used whereby any voter's ballot may be identified (except as provided in these regulations in the case of a challenged ballot or a ballot cast by mail).

(b) *Voting by proxy prohibited.* There shall be no voting by proxy, or agent, or in any manner except by the eligible voter personally depositing in the ballot box his ballot as marked by him (except as provided herein in the case of a ballot cast by mail), but a duly authorized member of a partnership, or a duly authorized officer of a corporation, firm, association, or other legal entity, may cast its vote.

(c) *Voting by mail.* Any person who will not be present on the day of the referendum in the county in which he is eligible to vote may obtain one ballot form, prior to or on the day of the referendum, from the office of a county committee conveniently situated for him and cast his ballot by mail. The office of the county committee so issuing the ballot form shall endorse on the reverse side thereof a statement in substantially the following form identifying the county in which it was issued and the county to which it will be mailed, initialed and dated by the person issuing such form: "Issued in _____ County, _____ State for use in _____ County, _____ State." The office of each county committee shall keep a register in duplicate showing for each ballot form so issued by it to be voted by mail the name and address of the person to whom issued, the date of issuance, and the names of the county and State to which the ballot is to be mailed, and the name and title of the person who issued such form. The person to whom the ballot is issued shall mark the ballot so as to indicate clearly how he votes, sign his name and enter his address thereon, and mail it in a sealed envelope, postage paid, marked "Absentee Ballot," to the county committee for the county in which he is eligible to vote. All ballots voted by mail must, in order to be accepted, reach the county committee for the county in which the voter is eligible to vote by not later than the hour for closing the polls in the county for the day of the referendum.

(d) *Challenged ballots.* The community referendum committee shall challenge the eligibility of any person to vote in the referendum where (1) the name of the person does not appear on the register of eligible voters and the community referendum committee is unable to satisfy itself that the person is eligible to vote in the referendum in its community or neighborhood, (2) the community referendum committee is unable to satisfy itself that he has not previously voted in the referendum in another community or neighborhood in the same or another county, by person or by mail, or (3) the community referendum committee is not certain that the person is eligible to vote. In every case where the eligibility of the voter is challenged, his ballot form, after being marked by the challenged person so as to show how he votes but in such a manner that no one else sees how he votes, shall be folded and placed by him (or by the committee if he refuses) in an envelope, which shall then be sealed and identified with his name and address, the word "Challenged", and a statement of the reason for the challenge, and shall then be placed in the ballot box. The county committee shall make an investigation in each case of controversy or dispute regarding the eligibility of a voter to vote in the referendum. In each case of a challenged ballot the eligibility of the person to vote in the referendum shall be determined by the county committee as soon as may be possible after the polls are closed and before the time for forwarding to the State committee the county summary of ballots on form MQ–653. If it is determined that the person whose vote was challenged is eligible to vote, the sealed envelope containing the ballot shall be placed with the challenged ballot of every other person found to be eligible to vote until all challenged ballots have been passed upon by the county committee. If it is not determined that the person whose vote was challenged is eligible, the sealed envelope shall be marked "Not eligible" and signed by a member of the county committee and shall not be opened. When all of the challenged ballots have been passed upon by the county committee, the challenged ballots which were cast by eligible voters shall be opened and tabulated in the county summary of ballots, but no disclosure shall be made as to how any particular person voted.

(e) *Ballot box.* Each polling place shall be furnished with a suitable ballot box. Any container of sufficient size so arranged that no ballot can be seen or removed without breaking seals on the container will be suitable. When strip adhesive paper or corresponding seals are used on the ballot box, such seals shall be signed or initialed by the chairman or a member of the community referendum committee so that breaking or replacing the seal will so destroy or affect the identifying marks as to show that the seal has been tampered with.*

§ 717.8 *Local arrangements for holding the referendum.* The county committee shall see to it that all arrangements for the proper holding of the referendum in accordance with the regulations in this part have been completed prior to the date of the referendum and that full and adequate notice of the time and places for balloting has been given in each community and neighborhood in the county. The county committee shall instruct each community referendum committee concerning its duties and see to it that each member of the committee understands his duties and the duties of the committee in all respects, with particular emphasis as to (a) issuing ballot forms, (b) challenged ballots, (c) recording votes, (d) tabulating ballots, and (e) certifying results of the referendum in the community or neighborhood. The county committee shall allot to each community referendum committee an adequate supply of ballot forms and, prior to the time the polls in the county are opened for the acceptance of ballots, deliver the ballot forms and forms MQ–652, the community summary of ballots, to the chairmen of the several community referendum committees.*

§ 717.9 *Issuing ballots to voters.* The community referendum committee shall open the polls for the issuance of ballot forms and the casting of ballots at the time designated by the county committee and shall thereafter, until the time when the polls are required to be closed and the casting of ballots discontinued, issue a ballot to each person who is eligible to vote and applies for a ballot and to each person who claims to be eligible to vote and insists upon voting even though his eligibility to vote is challenged by the committee. The name and address of each person to whom a ballot form is issued shall, if he is not already listed on the register of eligible voters, be recorded on such register prior to the time the ballot form is issued to him. The community referendum committeeman who issues the ballot form shall at the same time enter in the column headed "Ballot Cast" of the register of eligible voters opposite the name and address of the voter a record of the issuance of the ballot. When the eligibility of the voter is not challenged, the record shall be made by entering in the column headed "Ballot Cast" the letter "X" and the initials of the community referendum committeeman. When the eligibility of the voter is challenged, the record shall be made by entering in the column headed "Ballot Cast" the letter "C" and the initials of the community referendum committeeman. Ballot forms shall be issued and ballots placed in the ballot box only while at least two members serving on the community referendum committee are physically present in the polling place and in position to see each ballot form as it is issued and each ballot as it is placed in the ballot box.*

§ 717.10 *Community referendum committee's canvass of ballots and records of results of the referendum*—(a) *Canvass of ballots.* Immediately after the polls are closed, the community referendum committee shall open the ballot box and canvass the ballots cast. The canvass of the ballots shall be kept open to the public. A ballot shall be considered as a spoiled ballot if it is mutilated or marked in such a way that it is not possible to determine with certainty the particular question for which the ballot was intended to be counted. The envelopes containing the challenged ballots shall not be opened. The total number of ballots issued as shown on the register of eligible voters shall be determined and the total number of ballots cast, including the spoiled and challenged ballots, shall be determined. The number of ballots cast in favor of and the number of ballots cast in opposition to the marketing quotas for which the referendum was held shall be determined. The spoiled ballots and challenged ballots shall not be considered in favor of or against the marketing quotas. If any member of the community referendum committee should happen to see or learn how any person besides himself voted, whether or not the ballot was challenged, spoiled, or otherwise, he shall not disclose such knowledge to a fellow committeeman or any other person except in an investigation conducted under the regulations in this part.

(b) *Record of results of the referendum.* The community referendum committee shall notify the county committee by telephone, telegraph, messenger, or in person of the preliminary count of the votes on each question and of the number of spoiled and challenged ballots, as soon as may be possible. All the spoiled ballots shall be placed in an envelope and sealed and marked with the initials of the chairman (or vice chairman) of the community referendum committee and the designation "Spoiled Ballots" followed by the number of spoiled ballots and the names of the community or neighborhood, the county, and the State. The community referendum committee shall execute the certification as to the accuracy of the register of ballots cast on form MQ–651. The community referendum committee shall then prepare and execute the community summary of ballots on form MQ–652 and post one copy thereof, as soon as it is executed, at a conspicuous place at the polling place, so that it will remain posted and accessible to the public for at least three calendar days after the holding of the referendum. The community referendum committee shall seal the voted ballots, including those challenged and spoiled, the register of eligible voters and ballots cast, and the community summary of ballots, in one or more envelopes appropriately identified by the names of the community or neighborhood, the county, and the State, and the nature of the referendum and the date on which it was held, and deliver them to the county committee not later than 9 o'clock a. m., local standard time, on the second calendar day next succeeding the date of the referendum, together with the unused ballot forms and other forms. The chairman (or vice chairman) of the community referendum committee shall be responsible for the safe delivery of such reports, ballots, and forms to the county committee.*

§ 717.11 *County committee's canvass of ballots and record of results of the referendum*—(a) *Receiving and tabulating the results of the referendum.* The county committee shall open and canvass the ballots received by mail after the closing of the polls and determine the eligibility of each voter. If any person voting by mail is found to be ineligible to vote or the ballot is so mutilated or marked that it is not possible to determine with certainty how the person intended to vote, such ballot shall not be counted as for or against any particular question in the referendum and shall be tabulated on the county summary of ballots as a spoiled ballot. The county committee shall meet and pass upon the challenged ballots as soon as may be reasonably possible after the challenged ballots are received from the community referendum committees but not later than four days after the day of the referendum. The results of the referendum in each community and neighborhood shall be reviewed and summarized as soon as may be reasonably possible after the records, ballots, and forms are received from the several community referendum committees. Every meeting of the county committee for the purpose of canvassing the ballots cast and reviewing and tabulating the results of the referendum shall be open to the public. No member of the county committee who learns how any person besides himself voted, whether the ballott was received by mail, challenged, spoiled, or otherwise, shall disclose such knowledge to any fellow committeeman or other person except in an investigation conducted under the regulations in this part.

(b) *Record of the results of the referendum.* The county committee shall notify the State committee by telephone, telegraph, or messenger (who may be a member of the county committee) as to the preliminary count of the votes on each question and of the number of challenged ballots reported by the several community referendum committees as soon as possible. The county committee shall, as soon as may be reasonably possible, but in no event later than four calendar days after the date of the referendum, prepare and execute the county summary of ballots on form MQ–653. Form MQ–653 shall be prepared and certified in quadruplicate, two copies of which shall be sent forthwith to the State committee, one copy posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee, and one copy permanently filed in the office of the county committee and kept available for public inspection. One copy of each community summary on form MQ–652 shall likewise be posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee.

(c) *Disposition of ballots and records.* The county committee shall seal the voted ballots, challenged ballots found to be ineligible, register sheets, and community summaries for the county in one or more envelopes or packages, plainly marked with the identification of the referendum, the date, and the names of the county and State, and place them under lock and key in a safe place under the custody of the secretary of the county committee for a period of 60 calendar days after the date of the referendum. If no notice to the contrary is received by the end of such time, and after the ballots and other records have been examined by a representative of the State committee, the voted ballots and challenged ballots shall be destroyed but the registers and community and county summary sheets on forms MQ–651, 652, and 653 shall be permanently filed in the office of the county committee.

(d) *Investigations as to the correctness of the summary of the referendum.* The county committee shall make an investigation in each case of a dispute or challenge regarding the correctness of the summary of the referendum in a community or neighborhood. No dispute or challenge shall be investigated by the county committee unless it is brought to its attention within three calendar days after the date on which the referendum was held. The county committee shall promptly decide the dispute or the challenge and report its findings to the State committee within five calendar days after the holding of the referendum and send by registered mail or deliver in person to the office of the State committee all voted ballots, register forms, and community summary sheets involved in the dispute or challenge.*

§ 717.12 *State committee's record of the result of the referendum.* The State committee for each State shall notify the appropriate Regional Director by telegraph or telephone as to the preliminary count of the votes in the State as soon as the preliminary results of the referendum are made known to the State committee. The county summaries of ballots on forms MQ–653 shall be summarized on the State tabulation of ballots on form MQ–654 as soon as possible but in no event later than seven calendar days next succeeding the date of the referendum, unless there is a dispute or challenge regarding the correctness of the summary for any county, in which case the State committee shall complete its investigation thereof and prepare the State tabulation accordingly within fourteen calendar days next succeeding the date of the referendum. The State summary shall be prepared in triplicate and certified to by at least three members of the State committee. The original and one copy of the State summary shall be forwarded via airmail special delivery to the appropriate Regional Director. One copy of the State summary shall be permanently filed in the office of the State committee available for public inspection.*

§ 717.13 *Results of referendum*—(a) *Proclamation of results.* The final and official tabulation of the votes cast in the referendum will be made by the

Agricultural Adjustment Administration and reported to the Secretary of Agriculture and the result of the referendum will be publicly proclaimed by him. The State summaries on forms MQ–654 and related papers shall be permanently filed with such tabulation and shall remain available for public inspection in the Department of Agriculture.

(b) *Unofficial announcements of results.* Each county committee is authorized to give out unofficial reports of the total "Yes" and "No" votes in its county to the public press and other inquirers. Each State committee is authorized to release to the press and other inquirers the unofficial results of the referendum in its State by counties as rapidly as the votes in the various counties are reported to it.

(c) *Investigations.* If the Administrator or the Secretary of Agriculture deems it necessary, the report of any community referendum committee, county committee, or State committee shall be re-examined and checked by such persons or agencies as may be designated.*

Done at Washington, D. C., this 31st day of October 1941. Witness my hand and the seal of the Department of Agriculture.

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket Nos. A–1018 and A–1018 Part II]

PART 332—MINIMUM PRICE SCHEDULE, DISTRICT NO. 12

MEMORANDUM OPINION AND ORDER REVISING TEMPORARY RELIEF, CANCELLING HEARING AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTERS OF THE PETITIONS OF DISTRICT BOARD NO. 12 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 12, AND FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 742, 764, 753, 754, AND 755 IN DISTRICT NO. 12 FOR TRUCK SHIPMENTS

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party requesting the establishment, both temporary and permanent, of price classifications and minimum prices for certain coals produced in District No. 12.

The Director found in his Order dated September 11, 1941, 6 F.R. 5177, issued in Docket No. A–1018, that a reasonable showing of necessity had been made for the granting of temporary relief for the coals of certain of the mines included in the original petition in the above-entitled matter and said Order granted temporary relief and conditionally provided for final relief for these coals. As indicated in a separate Order dated September 11, 1941, issued in Docket No. A–1018 Part II, the Director found that the original petition did not set forth facts to warrant the establishment of the price classifications and minimum prices sought therein for the coals of Mine Index Nos. 742, 764, 753, 754, and 755 without a hearing. On September 20, 1941, an amendment to the original petition was filed setting forth sufficient facts to warrant the granting of temporary relief for these coals in the manner hereinafter set forth, except for the coals of Mine Index No. 742. The amended petition stated that this mine was not operating, that it had not filed a proper acceptance of the Code and requested that all reference to this mine be stricken from the original petition.

No petitions of intervention having been filed with this Division in the above-entitled matter; and

The Director deeming his action necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That the temporary prices established in the Director's Order dated September 11, 1941, 6 F.R. 4717, in Docket No. A–1018 Part II, for the coals of Mine Index No. 742 of the Delpierre and Davis Coal Company are deleted and that all reference to Mine Index No. 742 be, and the same hereby is, stricken from the afore-mentioned Order.

It is further ordered, That the temporary relief granted by the Director's Order dated September 11, 1941, in Docket No. A–1018 Part II be, and the same hereby is, revised as follows: Commencing forthwith, the prices established in said Order for Mine Index Nos. 764, 753, 754, and 755 shall be deleted and in lieu thereof, pending final disposition of the original petition, as amended, in the above-entitled matter, the coals of the aforesaid Mine Index Numbers temporarily shall be subject to prices as provided in Supplement T, § 332.24 (*General prices in cents per net ton for shipment into all market areas*), which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That the hearing in Docket No. A–1018 Part II, heretofore scheduled for 10 o'clock in the forenoon of October 21, 1941, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C., be, and the same hereby is, cancelled.

It is further ordered, That pleadings in opposition to the original petition, as amended, in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless the Director shall otherwise order.

Dated: October 17, 1941.

[SEAL] H. A. GRAY,
Director.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—OFFICE OF PRODUCTION MANAGEMENT

SUBCHAPTER B—PRIORITIES DIVISION

PART 987—COBALT

General Preference Order M–39 to Conserve the Supply and Direct the Distribution of Cobalt

Whereas the uncertainty of shipments of Cobalt from abroad, and the national defense requirements for Cobalt have created a shortage thereof, for defense, for private account, and for export and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, That:

§ 987.1 *General preference order M–39*—(a) *Definitions.* For the purposes of this order:

(1) "Cobalt" means and includes:

(i) Ores, concentrates and residues, including beneficiated or treated forms containing Cobalt (commercially recognized).

(ii) The element Cobalt in any form, and combinations with other elements in which Cobalt is an essential constituent.

(iii) All chemical compounds in which Cobalt is an essential and recognizable component.

(iv) All scrap or secondary material containing commercially recoverable Cobalt as defined in (i), (ii), and (iii) above.

(2) "Producer" means any person who mines or otherwise produces natural materials containing recoverable quantities of Cobalt.

(3) "Processor" means any person who uses Cobalt in any form for the manufacture of or conversion into Cobalt chemical compounds or metallurgical forms of Cobalt.

(4) "Dealer" means any person who procures Cobalt either by importing or from domestic sources for resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(b) *Regulations incorporated.* Except as modified by the terms of this order and as otherwise specifically provided herein, all of the provisions and definitions of Priorities Regulation No. 1, issued by the Director of Priorities on August 27, 1941 (Part 944), as amended from time to time, are hereby included as a part of this order with the same effect as if specifically set forth herein.

(d) *Forms to be filed before receiving delivery.* Hereafter any person seeking delivery of Cobalt shall file with the Division of Priorities, not later than the 20th day of the month next preceding the month in which delivery is specified, Forms PD–152 and PD–153 or such other form or forms as the Division of Priorities may from time to time prescribe. The Director of Priorities may in his discretion from time to time issue specific directions exempting particular customers or classes of customers from the provisions of this paragraph (d) on the basis of the limited character of their requirements for Cobalt.

(e) *Allocation of deliveries of certain forms of cobalt.* In addition to all other limitations and restrictions contained in this order, beginning November 1, 1941, no person shall make or accept delivery of Cobalt in any of the forms specified in paragraphs (a) (1) (i) and (a) (1) (ii) above, or of Cobalt chemical compounds to be processed into Cobalt metal, except as specifically authorized by the Director of Priorities. During each calendar month, the Director of Priorities will at such time or times as he may determine allocate the supply of Cobalt in the forms specified in paragraphs (a) (1) (i) and (a) (1) (ii) above, and of Cobalt chemical compounds to be processed into Cobalt metal, among persons seeking deliveries thereof, and specifically direct the manner and quantities in which deliveries may be made and accepted. In making any such allocations and directions, the Director of Priorities may take into consideration any person's stocks on hand and supply otherwise available to him, of Cobalt in the forms

mentioned, and of scrap or secondary material containing commercially recoverable Cobalt. Such allocations and directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made, in the discretion of the Director of Priorities without regard to any preference ratings assigned to particular contracts or purchase orders.

(f) *Limitations on deliveries and manufacture of certain cobalt chemical compounds.* Unless otherwise ordered by the Director of Priorities:

(i) Beginning October 1, 1941, the aggregate weight of Cobalt chemical compounds delivered by any processor or dealer during any calendar month which will be used for purposes other than manufacturing Cobalt metal shall not exceed 90% of the average monthly aggregate weight of such compounds delivered by such processor or dealer for such purposes during the first six months of 1941;

(ii) During the period from October 1, 1941, to March 31, 1942, inclusive, the aggregate weight of Cobalt chemical compounds not commercially convertible into Cobalt metal, which may be processed or manufactured by any processor, shall be limited to 90% of the aggregate weight of such compounds processed or manufactured by him during the first six months of 1941.

(g) *Violations.* Any person affected by this order who violates any of its provisions or a provision of any other order issued by the Director of Priorities, may be prohibited by the Director from making or receiving deliveries of Cobalt, or he may be subjected to such other or further action as the Director may deem appropriate.

(h) *Effective date.* This order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Priorities, shall expire on the 31st day of March 1942. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; OPM Reg. 3, as amended Sept. 2, 1941; E.O. 8629, Jan. 7, 1941, 6 F.R. 191, E.O. 8875, Aug. 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session; sec. 9, Public No. 783, 76th Congress, Third Session)
